Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JUNE 11, 1861.

HABEAS CORPUS.

The recent decision of Judge Taney, in the Merriman *habeas corpus* case, as every body knows, was in favor of the traitor, and against the government,—as might naturally be expected from him;—yet his opinion or plea in the case, though very plausible, is in *direct opposition* to the decision made by Hon. Caleb Cushing, in 1857, when he was Attorney General of the United States. As stated in his opinion the principles are as follows:—

1. That the suspension of the writ of habeas corpus is merely an *incident*, not the most *important* incident either, of martial law.

2. That the Chief Justice has no claim to judge whether the emergency requiring and justifying the proclamation of martial law, exists; that being a question without the range [of judicial inquiry, solely for the Executive.

3. That martial law virtually and actually was proclaimed by the President in April, so far as it was necessary to quell the rebellion; and with it the needful *incidents* of martial law.

4. More especially does that *subordination* of the *civil* to the military rule exist in Baltimore and other beleaguered cities, called martial law;—exists by the very *condition of things;* without new and special proclamations.

How intimate the relation may be between the proclamation of martial law and the suspension of the Habeas Corpus act, is developed by the Attorney General, who says "the only object for which martial law was proclaimed," in the case under his examination, "was to *prevent* the use of the writ in behalf of certain persons held in confinement by the military authority, on the ground of treasonable intercourse with hostile Indians."

As to Chief Justice Taney's law, this one thing seems pretty plain, to wit: when there is an insurrection, and troops are ordered out by the President and they take prisoners, they might do one of three things, (1) let them go; (2) kill them; or (3) keep them. The first course would not be very wise. The second might be considered cruel, although it is the way they are said to deal with prisoners in the new settlements out West, *because they have no jails;* and the third course is the one adopted by the Government. On the whole, the people, with rare exceptions, are not disposed to murmur.

There was a difference of opinion on the subject when Gen. Jackson defended New Orleans; but the old General did not suffer very much in reputation from not being chary in his patriotic efforts, and Congress many years after repaid to him the fine of one thousand dollars, in which he had been mulcted by the Judge. The New Orleans Judge decided like Judge Taney; but Congress and the people reversed the decision.

☞ The Woman's Central Association of Relief for the army have published a report of the registration committee on the selection and preparation of nurses for the army. The report says:—

When the conditions under which army nursing by women is alone possible and proper are fully understood, much of the noble enthusiasm of women, will be directed into other channels.

The first fact to be understood is that women have not hitherto been in our military hospitals as nurses. The nursing is done by soldiers drafted out of the ranks for that purpose, and there is no provision whatever for boarding, paying, or in any way recognizing women in the capacity of nurses to sick soldiers: yet the services of bands of nurses will be gratefully accepted whenever such service can be consistently called into requisition.

The second fact to be widely known is that nursing in military hospitals is a very different thing from nursing in civil hospitals, and still more from private nursing. Women in middle life, intelligent, trustworthy and zealous in their works, are the suitable individuals from whom these bands should be formed.

☞ There is a probability that the decision of the Naval Board, relative to the conversion of line-of-battle ships into steamers, will be carried out immediately. Among the vessels which passed inspection, was the Alabama, 84, at this naval station.

WASHINGTON, June 8.—The Rhode Island regiment will break camp at midnight, and leave per rail in the direction of Harper's Ferry early in the morning. Their marine battery was brought into the city and taken to the Railroad station unlimbered, and put on the train at 6 o'clock this evening.

BALTIMORE, June 9.—The bridges at Point of Rocks and Berlin were both destroyed by the rebel troops by fire between 1 and 4 o'clock this morning. The former is 12 and the latter 6 miles east of Harper's Ferry.

DINNER OF THE GOVERNOR'S HORSE GUARDS.—At the close of the ceremonies of Inauguration, at Concord, the Annual Dinner of the Governor's Horse Guards occurred in Phenix Hall. When the corps, with their invited guests, were seated, the large hall was filled with men in martial panoply. Among the guests of the Guards were the Amoskeag Veterans, of Manchester; His Excellency Gov. Berry; Ex-Govs. Goodwin and Haile; Gen. James Wilson, of California, former commander of the famous Keene Light Infantry; Maj. Seth Eastman, U. S. A.; representatives of the press, and others. Col. Stark presided, of course.

The Divine blessing was invoked by Rev. M. W. Willis, of Nashua, Chaplain of the Horse Guards.

The regular order of the day was then the consideration of an elegantly printed bill of fare, the items of which we append:

BILL OF FARE.

FISH—Boiled Salmon, with Green Peas.
ROAST—Chickens, Pig, Lamb, Veal, Beef.
ENTREES—Potted Pigeons—hot; Lobster Salad.
VEGETABLES—Potatoes, Tomatoes, Green Peas.
PASTRY—Rhubarb Custard, Apple, and Washington Pies.
DESSERT—Strawberries and Cream, Ice Cream, Oranges, Pine Apples, Raisins, Nuts.
Tea and Coffee.

The dinner, which was furnished by the proprietors of the Phenix Hotel, was one of the most elegant and satisfactory we ever sat down to on any such occasion. Every thing was of the best quality, and superabundant in quantity. The tables were liberally decorated with beautiful bouquets; and the hall illuminated by the presence of the more beautiful ladies who provided the flowers, in the galleries. As we were obliged to leave to take the train home, we have depended upon the Stateman's full report.

The hunger kindled by the duties of the soldier having been more than appeased, the audience seemed instinctively to turn toward Governor Berry. At the call of the commander of the Horse Guards, the Chief Magistrate of the State spoke nearly as follows:—

Mr. Commander, Officers and Soldiers: The hour reminds me that I should not make a long speech. So far as the weather is concerned, our acquaintance has commenced in quite an unfortunate way. We have endured a most generous rain—a *rain* we can better bear than the reign of Jefferson Davis. [Immense applause.] While I surveyed the cortege of the early part of the day, and marked the martial cadence of the step of the battalion of Veterans, and the noble mien of the Guards, I could but say the rod of the usurper will never rule these men, nurtured among the rock-ribbed hills of New Hampshire; and looking beyond our own State and people, and measuring the volumes of patriotism of other communities, I could not doubt the ultimate triumph of the right when we attain the end of the present unhappy strife in our nation. These cheerful hopes were suggested by your annual parade. But at my right sits Gen. James Wilson, a good and loyal son of the old Granite State, now a resident of the State whose golden sands are laved by the waters of the Pacific. In closing, I bring this gentleman to your notice.

Gen. Wilson (who was received with great applause,) said:

Gentlemen:—Political parties no longer divide us. In view of existing troubles, we have put only our duty before us, and that duty is to defend the Constitution, to preserve the Union of these States, and preserve the ever glorious Stars and Stripes. I do not intend to say a word that shall ruffle unpleasantly the sensibilities of any gentleman here present. I have thrown far away my party preferences. My chief desire is that we may always have a free government; one in which the power shall rest with the people, and not in the hands of kings or emperors; and now, (turning to Governor Berry), I am glad to know that New Hampshire is true to the Union—the same in heart she was in years ago, when such men as Stark, Sullivan, Cilley and Dearborn marched with her gallant sons to the field of battle. With especial reference to our present national troubles, I say I do not like Southern institutions. God knows I do not.

Perhaps at times I may have spoken in stifling derogation of my southern brethren, but I did it not in malice. Now they are in rebellion, for what I know not; and but for the timely uprising of northern men I know not but Toombs' threat that he would yet call the roll of his slaves on Bunker Hill might have been executed. Now when that insult is likely to be perpetrated, may I be present; New Hampshire men would be there in very respectable numbers, and I guess they would go armed.

And now let us all stand by the dear old flag. Do this in view of revolutionary memories, and for the sake of your children; and now, (turning to Gov. Berry,) God bless you, Sir, and my good old native State of New Hampshire.

Ex-Governor Goodwin being called for, remarked:

My duties for the past few weeks have been so much those of action and so seldom those of talking that I am at a loss for words. But a little time ago the Secretary of War called upon us to furnish a regiment of soldiers for the protection of Washington. In view of our existing military system, I hardly knew what course of action to pursue, but proceeded to the enlistment of volunteers, and in 22 days from the date of the call the regiment was ready to march wherever orders might direct. It has now departed, and is encamped on Southern soil,—yes, on the "sacred soil of Virginia."

On their march they were received with much enthusiasm, and it is, I think, generally conceded that the First New Hampshire Regiment is not surpassed in its *material* and equipment by any which has gone to the war. Another regiment is ready, and yet others can be furnished if needed.

I beg here to thank the members of the Horse Guards for the uniform and general attention extended to me since the organization of the corps. So long as strength shall remain in my limbs and blood pulsate within my veins, I shall remember with the kindest thoughts the soldiers of the Governor's Horse Guards.

Appropriate addresses were made by Ex-Gov. Haile, Col. John H. George, Col. B. P. Cilley, and Commander Rundlett of the Veterans.

As the hour for adjournment drew near, cheers were given with a hearty good will for the cities of Concord and Manchester, the Committee of Arrangement, and the ladies of the city who had decorated the tables with flowers.

For the Chronicle.

THE AMERICAN FLAG.

All hail to the Star Spangled Banner,
The flag of the brave and the true,
It floats proudly o'er freemen united,—
The glorious,—the red, white and blue.

When proud George sent his troops to sub-
It was raised by a patriot band, [due us,
Who gave their life-blood to defend it,—
And freedom secured to our land.

Then down with the traitor, polluted,
Who dares raise his hand to assail
This emblem of freedom so glorious,
Before which the tyrant turned pale.

Down, down with the hordes of secession,—
Who this glorious flag would despoil;
And abolish the rule of oppression,
And slavery root from our soil.

Then the Goddess of Liberty smiling,
Will crown it with glory anew;
And millions in slavery pining,
Shall hurrah for the red, white and blue.

Portsmouth, June 7. C. D. O.

HAGARSTOWN, MD., June 9.—The confederate pickets were seen with a glass from Williamsport heights to-day. The number in the neighborhood is probably 200. The largest body is encamped at Falling Waters, five miles below. Every ford is strictly guarded.

They have seized and broken up every skiff on the river they could get. As soon as the river *falls* there will be fifty fords easy of access to infantry and cavalry. The passage of the Potomac cannot be prevented.

Reliable intelligence from Harper's Ferry on Thursday represents that there has been no change of position latterly. The number of troops is put down from half a dozen reliable sources at 12,000. It is believed here that they number about 9000.

News received here to-day, confirms the statement that the bridges at Harper's Ferry and Shepardstown have been mined.—Trains of gunpowder are laid from the middle piers in waterproof cases, with long fuses attached.

Eleven deserters from Harper's Ferry, Shepardstown, and Martinsburg, arrived to day. They escaped over the Potomac last night. There were 50 Virginians at Williamsport awaiting the advance of the Federal troops to enable them to return home.

The rebels destroyed dam No. 5 on the Potomac, eight miles above Williamsport today to prevent the construction of boat bridges for the passage of Federal troops. It is expected they will destroy dam No. 4, nine miles below Williamsport to-night. The Chesapeake and Ohio Canal men are very indignant, and a large number of them will join the Federal forces.

A FAIR QUESTION TO THE PEOPLE OF PORTSMOUTH. — Among the many improvements which are being made in your city for the special accommodation of your citizens, would it not be liberal, and a little approaching the principle of justice, to make some provision for the accommodation of the farmers, upon whom your people are to a great extent dependant for a large portion of the necessaries and comforts of life? Allusion is had particularly to the privilege of watering animals. Oxen and horses are obliged to *stay* in your city sometimes nearly all day, while their loads are being disposed of. These, in many cases, have been driven far, and are very thirsty, while not a drop of water can be found for their relief, with, I believe, only one exception.

There is, in that remote portion of the city called Christian Shore, one pump standing in the street. This state of things appears to us country folks, almost a little wanton, from the fact that several pumps have been taken out of wells, and the wells either filled or covered up.

This state of things has a little the appearance of an unnecessary impoliteness to those friendly farmers who supply liberally your market.

Will not your city authorities give this complaint a charitable and friendly consideration? A.

Greenland, June 1, 1861.

FORT KEARNEY, June 8.—The Pony Express, with San Francisco dates to May 26, has arrived.

There is a strong speculative feeling throughout the markets, and a very active business, with many large transactions.—Butter 30 a 37 1-2c. Lard 17 a 18c.—Candles 23 a 25 cents. Crushed sugar 13 a 13 1-4c. Raw sugar also advanced.

The largest fire for several years occurred in San Francisco on the night of the 27th. It destroyed the rows of cheap John stores on both sides of Commercial street between Sansome and the Battery. Loss variously stated from $60,000 to $100,000.

☞ An intoxicated Irish woman named Dougherty, was struck by a railroad train in Lynn, at 12 1-2 o'clock on Saturday, and badly, if not fatally, injured.

STATE ITEMS.

The Laconia Democrat says that Stephen Sweetser of Lake Village, was arrested on Monday last, on suspicion of having killed his wife by poison. She died four weeks ago last Saturday, and as her death was quite sudden it was proposed to have a post mortem examination. Before it could be had, Sweetser caused her to be buried, on Sunday, the day following her decease. The body has been exhumed and the stomach and some other parts taken out, sealed up and sent to Dr. Hayes of Boston for chemical examination.

Mr. Joshua Piper, of Albany, caught a two-year old bear last week, in that town.

Samuel S. Worcester, Esq., who has been elected to fill the place of the Hon. John Sherman of Ohio, is from New Hampshire, was born in Hollis, and is brother of the Hon. J. N. Worcester and G. T. Worcester of Hollis, and of Joseph E. Worcester of Cambridge, of dictionary fame. He graduated at Cambridge, read law with B. M. Farley, Esq., of Hollis, is celebrated for being a grand scholar, a sound lawyer, and if not so able a debater as Mr. Sherman, he will make his mark in Congress.—It will please his old companions in Hollis to know of his election.

Hon. Frederick Smyth of Manchester, having returned from the seat of war, addressed the boys at the Reform School, upon the relative positions of the two armies—giving them an account of what he saw and heard.

NEW YORK, June 8.—A Washington dispatch to the Post, says: There is great activity in the War Department in reference to Harper's Ferry, Manassas Junction and Norfolk.

Governor Letcher has ordered the entire force of the Virginia militia to the vicinity of Manassas Junction.

Steamer Mount Vernon, from Fortress Monroe, reports the entire town of Evansport, eleven miles this side of Aquia Creek, in flames. The property of the town is principally owned by Union men.

Volunteers for the War

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired to keep your feet from blistering. Cures Cuts, Bruises and Lameness The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic,* diseases of the *Throat, Chest* and *Lungs,* as well as that most dreaded of all diseases, *Consumption,* which high medical authority has pronounced to be a *curable disease.* Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy.*

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry,* and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites all the painful diseases attendant upon a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb28 daw3m

FORT CONSTITUTION.—Many of the volunteers at the Fort received their pay and were discharged on Monday; about one hundred of the Volunteers stationed there are to be discharged, as the force is inconveniently large. Fifty men are to be sent down from Camp Constitution,—being the surplus of the Second Regiment—and it is designed to form the force at the Fort into two companies, of eighty men each.

Dr. Oliver, of this city, has been appointed Surgeon of the post. There are a few cases of sickness,—measles, sore throat, &c., but all of a mild type. The Hospital is to be organized within a day or two, most of the sick at present being quartered at private houses on the Island.

☞ The duty devolving upon Major Eastman, U. S. A., of mustering the 2d Regiment N. H. V., into the service of the United States for the term of three years, was on Monday brought to a close by the administration of the oath of allegiance to the field and staff officers. The only new appointment we have to notice, is that of Rev. Henry E. Parker, of the South Congregational Church in Concord, as Chaplain.

☞ The steamer State of Maine arrived at our Navy Yard Saturday afternoon, bringing the crew of 402 men, ordinary seamen and landsmen, who were taken from the receiving ship North Carolina, at New York. They will constitute a ship's company for the Santee. Mr. Brady, the master of the Brooklyn Yard, brought the men here. Most of the marines were drawn from headquarters at Washington.

THEATRE.—The beautiful "star sisters" appear this evening in the famous play of the "Three Fast Men." In this piece, Miss Helen appears in her fourteen Protean changes; and in the scene with the Female Minstrels executes her celebrated excelsior jig of three hundred different steps.

☞ The steamer Illinois left this Naval Station on Saturday, but after proceeding a short distance, some portion of her machinery was broken, and she returned to our lower harbor to repair the injury.—She will probably start anew to-day.

☞ The town of Stratham has voted to raise a sum of money, not to exceed $500, for the benefit of the Volunteers from that town. It was left to the decision of the Selectmen in what manner the money should be distributed.

DEATHS IN PORTSMOUTH.—The bill of mortality for May was ten deaths, of the following ages:—

Males four—aged 3 1-2 years, 29, 53, 93.
Females six—aged 30 years, 33, 58, 70, 70, 84.

WASHINGTON, June 10.—Stirring times are at hand. There will be an advance of the grand column on Harper's Ferry this week, certainly.

Gen. Banks assumed command at Baltimore to-day.

The Second Michigan Regiment was fired into while coming through Baltimore last night. The fire was returned, and it is believed that several were wounded.

Troops will be sent to Frederick, Md., to protect the Union men. It is intimated that there is a plot on foot to depose Gov. Hicks by the secessionists.

A letter from Manassas Junction to the Richmond Whig says that the labors in fortifying the place by men unacquainted with labor, has quadrupled the sick list.

Beauregard is said to have stated that he intended concentrating 60,000 to 70,000 men at Manassas Gap, and make their position impregnable.

A gentleman from Beaufort, N. C., says that men and arms are plenty there, but no cash.

Harper's Ferry is to be attacked, probably sooner than otherwise, because of incipient rebellion in Baltimore.

Gov. Hicks has warned the government of the danger threatening the capital from his State, and requests that a force be sent to Frederick and the regiments in Baltimore reinforced.

Complaints have daily been made of Cadwallader's course at Baltimore, and leading secessionists are said to have dined with him. Hence Gen. Banks' appointment.

An officer from Fort Pickens says that when he left an attack was expected from the rebels.

The rebel troops who were driven away from Phillippa, Va., say that they were attacked by 10,000 abolitionists, and cut their way through them! killing 1000! while they lost 30.

FORTRESS MONROE, June 8.—Great activity prevailed at News Point last night, on account of rumors of armed rebels in the vicinity. An order was sent to fell the trees near the batteries.

The steamer Quaker City, while on a reconnoissance on Friday, near Cape Henry, threw shells into an old frame building, when 30 armed men ran out of it, and mounting their horses, which were concealed in the thicket, scampered off.

Gen. Butler has issued stringent orders to prevent depredations on private property, and those who have suffered in this way at Hampton have had the amounts refunded.

☞ The New Hampshire regiment, with several others, was to leave Washington for Virginia, on Sunday night or Monday.

RYE, June 5, 1861.

Messrs. Editors:—The address to the Convention, last evening, was delivered by Rev. Wm. Miller, of Portsmouth, R. I., upon "Sabbath Schools and Sabbath School Instruction." The opening remarks were devoted to a history of the Sabbath School movement, which first commenced about 1668, in England, and was carried forward with varying success until 1688; when they became tolerably well established—and exerted a powerful influence. The speaker traced, in a manner indicating much historical research, the subsequent progress of the Sabbath School in its earlier stages, and after commenting somewhat sharply on its modern "sectarianism," proceeded to throw out many valuable hints concerning the management of schools and the duties of pastor, superintendent, teachers and scholars. The address was listened to with attention.

This forenoon was occupied by the business connected with the Sabbath School Association.

The afternoon was devoted to the interests of the Educational Association. Many short and interesting speeches were made.

There were between forty and fifty clergymen present to-day.

The evening exercises commenced at 7 1-2 o'clock by prayer and singing, followed by a sermon by Rev. A. G. Milton, upon "The duties of the minister to the people, and of the people to the minister." Unless we were to present a report fuller than present circumstances would justify, we could not give a better idea of the address than is found in the simple heading. It gives its own exposition in language brief and simple.

JUNE 6.

The Convention to-day transacted the business connected with the Christian Home and Foreign Mission Society. The afternoon was devoted to reports, speeches and devotional exercises.

The evening address was delivered by Rev. Daniel P. Pike, of Newburyport, upon the "Rise, progress and mission of the Christian denomination." Commencing with a detailed historical account of the denomination, the speaker passed from point to point—reviewing the past, describing the present, and predicting the future. He explained many of the fundamental principles embodied in the Christian belief, animadverted somewhat severely upon the management of some of the church affairs; and thought the editorials in the Herald of Gospel Liberty (to which Mr. Pike is an able and frequent contributor) lacked what he termed "denominational snap." He would have the work thoroughly systematized—have a recognized head, (not, however, a dictator,) who should receive a weekly report from every church, stating its condition, necessities, &c.,—thus enabling him to *tone* his articles so as to meet the wants of the whole. The denomination needed more able, self-sacrificing young men—who were willing to go out into the highways and byways, and labor for the good of the cause. He closed with an appeal to the young men to "buckle on the whole armor," and go forth and battle for the welfare of the church.

The address was a very able and eloquent production, and received the undivided attention of the audience. There is not often much "sleeping in meeting" where D. P. Pike preaches. He is a "wide-awake" speaker in more senses than one.

At the close of the exercises, a collection was taken up for the Home and Foreign Mission cause.

JUNE 7.

To-day, according to the published programme, was to be devoted to Scriptural discussion, points of doctrine, &c.; but after an hour's debate, the Convention refused to adopt what was officially announced by its accredited organ, and what had been repeatedly proclaimed both in public and private. The discussion was indefinitely postponed, and the morning was devoted to devotional exercises. A sermon was preached in the afternoon. However interesting such exercises may be, it is to be regretted that so many should be disappointed by a change in the programme after it had been officially announced.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.
PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.
The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.
The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.
No reflecting man can sit at his fireside with his young family about him, and be at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

STEAMER CLIPPER.
This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.
Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.
There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.
The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.
Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS

ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. It is chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act as perfect accordance with the laws of nature*, that it will suit the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. *It is composed entirely of vegetables*, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, DIZZINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Disease of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but it prevents all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—which will save the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the matter is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubts.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement.

PROF. WOOD'S RESTORATIVE CORDIAL.—It is preceded in the classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed, out flew all the life that had fled to it. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, its influence upon man can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with Dyspepsia, Dropsy, Consumption, Fainting, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express.*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend its use. Its pleasant taste, its invigorating strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of disease. It cheers the most weakest stomach, while those in good health will at once feel its exhilarating power. We are confident that after using a bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove beneficial to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the best article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

BININGER'S

GENUINE

Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Medicinal use and invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighths and Quarter Casks.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the Purity of our Goods, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever—Persons who require pure *Liquors and Wines*, in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for **Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.**

They are used and recommended by the leading Physicians of the country, and all who try them, pronounce them invaluable.

DR. J AMES L. LEPPERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, bowels prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine in the world. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

BININGER'S
OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for use with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit* and *strengthen*; while age having considerably its genial character, combined with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleasing palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time; and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from suffering of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 90 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., procured me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles P. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1859.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

WEDNESDAY, JUNE 12, 1861.

MR. DOUGLAS ON THE WAR.—The democratic convention of legislators at Concord,—in their published resolutions, regret Mr. Douglas' death,—"especially at this crisis, when his patriotic spirit was ready to make any sacrifice, consistent with honor and the constitution, for a peaceful settlement of our national difficulties."

Mr. Douglas himself advocated *unanimous and stupendous preparations for war*, and of course so much war as may be needful,—as the *shortest way to peace.*

He said in his speech to his own democratic friends in the Illinois Legislature, April 25:—

When our government is assailed—when hostile armies are marching under new and odious banners against the government of our country, the shortest way to peace is the most stupendous and unanimous preparation for war. The greater the unanimity, the *less blood* will be shed. The more prompt and energetic the movement and the more imposing in numbers, the shorter will be the struggle.

THE LAWS OF MOSES, IN CONNECTICUT.—Almost every reader of the newspaper must have seen the well worn statement, that the early legislators of that State passed a vote establishing the laws of Moses there, until they should have time to make better.

It is not probable that half the readers, however, have ever seen any correction of this error, or know what was the exact truth in regard to the matter.

In the New Haven Colony, it was ordered, wisely and wholesomely as we think, that,

"The judicial laws of God, as they were delivered by Moses, and as they are a fence to the moral law, being neither typical nor ceremonial, nor having any reference to Canaan, shall be accounted of moral equity, and shall generally bind all offenders, and be a rule to all the court in this jurisdiction in their proceedings against offenders, till they shall be branched out into particulars hereafter."

This, it is believed, was the nearest approach ever made in New England to the re-enactment of the Levitical code, and is the sole foundation of the myth, according to which the founders of New Haven are said to have ordained that the laws of Moses should be in force till they could make better.

☞ The Statesman learns the Second Regiment will be well provided with all that is necessary for the comfort and efficiency of the soldier. The contract for the supply of twenty heavy wagons, with four horses to each, and one hospital wagon, or ambulance, with two horses attached, has been given to parties in Concord, wagons and horses to be ready early next week.—The horses for this great array of wagons are to be purchased by Messrs. Peter Dudley and Charles H. Norton, of Concord, and Wm F. Estes, Esq., of Dover. The harnesses will be made at the extensive establishment of James R. Hill; also the haversacks and other leather appointments of the soldiers. There are to be purchased for the Regiment 164 tents of the old army pattern; 100 camp stoves, 128 camp kettles, 345 mess pans, knives, &c.; 138 picks, 138 axes, 138 hatchets, 138 shovels and spades, 10 drums and fifes, and blanks, stationery, camp chests, &c. The intention is that the outfit of the Regiment shall be as full and as perfect as the schedule of the regular army; and that if the New Hampshire troops were not in the field so early as some others, there shall be nothing wanted when they present themselves before the General-in-Chief of the U.S. army.

STAMPEDE OF SLAVES.—A Harrisburg (Pa.) letter states that over one hundred fugitives from labor, from the vicinity of Winchester, Va., arrived there on Wednesday and Thursday nights. They say that no attempt is made to arrest fugitive slaves—and the mountains of Virginia are full. The last arrival were in a wretched plight, having been on the road ten days.—They were supplied with provisions, and sent on their way rejoicing toward the promised land—Canada.

☞ The Richmond Examiner makes an interesting revelation of the manner in which traitors in the pay of the Government at Washington, last winter, supplied the rebels with important information.—The principal agent was a young Virginian, named Wm. Calwell, who received and sent the traitorous dispatches, and carefully *burnt* the copy.

☞ Grass and grain in this region never looked better on the 10th of June.

ELECTION SERMON.—We give below the Statesman's abstract of the Sermon delivered by Rev. *H. W. Parker*, before the members of the *N. H.* Legislature.

The text was taken from Jeremiah 18; 7, 8. The speaker commenced by saying that the most important fact which strikes the reader of history is the vitality of nations. He then referred to Egypt, Phœnicia, Greece and Rome, as instances of this. All the nations of Europe have experienced terrible convulsions, and yet now bid fair to endure for centuries. It has ever been the feeling of the people of these States, that we were destined to a long and prosperous national life. We have believed that nothing could occur by which the permanence of our institutions could be disturbed. We have advanced in national life with a rapidity which has been the wonder and admiration of European nations. We now behold, with feelings of the deepest sadness, the States arrayed in open hostility. Fraternal blood has been shed. The hearts of many are filled with consternation, and doubts are expressed of the permanency of republican institutions. The speaker thought there was no cause of despair.

1. The vitality of nations is in the hands of God. 2. This vitality is not dependent on any particular form of government; but the form most promotive of vitality is our own, for it is the people's own work. It is a government whose great principle is respect for man as an individual. 3. God has some special work for every nation; and when we see what elements of greatness and prosperity we possess, who can despair of our national life? 4. The source and circumstance of a people's origin have much to do as regards national vitality. The speaker here reverted to other circumstances, and to the character of the people of which this nation is constituted. 5. When any nation is in its decline, the premonitions of decay are always unmistakable. Our people have never until now met with a check, or retrograded a step in national progress.

The speaker then referred to the condition of affairs at the close of 1860, just before the outbreak of this Rebellion. Every department of social, commercial, and political life was in a flourishing state, and people would not know there was a government, except from a general feeling of security that everywhere prevailed. It was such a government that rebellion sought to break down! Suddenly the storm burst, and destruction for a time seemed imminent. This crime may fitly be termed the Crime of the Ages (applause) as it includes every other.

The speaker then proceeded to express his confidence in the vitality of this government, and thought grounds for hope were far greater than those for despair. In conclusion, he urged hearty co-operation with all efforts to put down treason.

The discourse was an able, appropriate and timely production. At its close the Hymn—"My country, 'tis of thee"—was sung.

☞ The Statesman publishes a letter from Rev. S. G. Abbott, Chaplain of the 1st N. H. Regiment, dated June 4. The Regiment was at Camp Mansfield, Washington. The Chaplain says, "our camp ground is a perfect Paradise compared with our dusty quarters at Camp Union. We are encamped on a swell of land containing about 10 acres of green sward, and completely surrounded by forest trees, in which the grand old oak prevails. Along the South West of the grounds runs Rock Creek, furnishing all necessary facilities for bathing. Within the limits of the Camp is an unfailing spring of excellent water.—Our tents are ample in number and quality to protect us from the storm. We are all abundantly supplied with palatable and wholesome food. The health of the Regiment is almost uninterrupted, except by the measles, which have, I believe, taken a very favorable turn in every case.

We are in daily receipt of various delicacies of the season from the citizens, which are a great comfort to us; more for the friendship they indicate than the intrinsic value of the gifts. The blue flannel blouses received and distributed are a great comfort. I wish here to say that all the articles of clothing presented to the troops by friends, were well made and substantial, and I wish the same could be said of those which were bought by the State and paid for from its treasury.

Mr. Abbott had been duly installed Postmaster of the Regiment; all the outgoing letters are franked by Colonel Tappan, and it is no mean compliment to the intelligence and domestic attachments of the men that they average about 200 per day."

☞ There are rumors of renewed activity among the Maryland secessionists, who are said to be plotting the removal of Gov. Hicks from office. In consequence of these reports, Federal troops have been ordered to Frederick, to look after the secessionists in the Legislature, while Gen. Banks takes command at Baltimore, where the disaffected have become more bold under the too mild government of Gen. Cadwallader.

NEW YORK, June 10.—The Commercial's Washington dispatch says:—Ex-Gov. Wise intends to go to Western Virginia to aid the first rebels.

The Post's dispatch says:—Col. Smith, with a battalion of the 13th, captured 1000 stand of arms, 6 field pieces and 1 sloop, from the rebels at Easton, Md. One of Col. Smith's men was accidentally shot.

☞ Gen. Gideon J. Pillow, who commands the "secesh" of Tennessee, has issued general orders forbidding the transportation of cotton northward out of the State by railroad, or by the Mississippi, Tennessee or Cumberland river.

☞ In the British House of Commons, on the 30th, Lord John Russell remarked upon the impressment of Englishmen in the seceded States of America, that they were "unauthorized," and "assurance had been received from the Montgomery government that they would not sanction such acts."—Sir John Ramsden having exulted over the "bursting of the bubble democracy in America,"—Lord John Russell replied that, in common with the great bulk of his countrymen he was pained at the "civil war which had arisen from the accursed poison of slavery left there by England, and which had clung around them like a poisoned garment from the first hour of independence." The Times advises the coming together of the European powers, in order that there shall be a settled and general understanding on the subject of the blockade.

THE SECESSION CONSPIRACY.—Edward Everett, in a private letter recently published, declares his knowledge of the fact that for thirty years leading politicians at the South had been resolved to break up the Union, and the slavery question was but a pretext for keeping up agitation and holding the South together. The New York World is informed, from a trustworthy source, that one of the latest occupations of the now deceased Senator Douglas, was the partial preparation of a pamphlet, exposing, from a personal knowledge similar to that from which Mr. Everett speaks, the secret machinations and public plans of this great Southern conspiracy.

HAGARSTOWN, June 10.—The attempt to destroy Dam No. 5 was renewed by the rebels this morning. They were resisted by the Home Guard of Clear Point and Williamsport. The engagement is now going on, but the particulars are not known. The Dam is some 15 miles from here.

Every man in Virginia, between 16 and 60 is required to enter the rebel service on or before Thursday.

The rebels crossed at Mercerville on Saturday and attempted to seize the canal boat with 800 barrels of flour, but failed in consequence of the Sharpsburg Home Guard being stationed there, who drove them back to Mercerville.

☞ The Belfast Age says that Mr. John Page, of Stockton, aged 67 years, travelled—("Down East," the word *travelled*, colloquially, is equivalent to *walked*,")—the distance of six miles, carrying a bag containing two bushels of meal upon his shoulders, not halting to rest during the whole time. He did it on a wager with one of the Stockton traders, the conditions being that he should have the meal if he accomplished the distance. A present of a barrel of flour and four bushels of meal was afterwards made by the bystanders.

KNICKERBOCKER.—The appearance of the June number of this favorite magazine will surprise its host of friends, the usual tea-colored cover being changed for one less "subdued." And, perhaps, they will be no less surprised, and pleased withal, when they find that the patriotic spirit of the staid old Knickerbocker is not subdued, but is to give good encouragement to the braves who keep step to the music of the Union. Subscribe for it!

FROM OREGON—GEN. LANE.—Dates from Portland, Oregon, were received by overland mail to the 21st of May. Gen. Lane was at Roseberge and could not be moved. He was not out of danger, but his friends were hopeful. He was shot in the right breast, the ball coming out through the right shoulder. A rumor reached Portland on the 21st that he had really died, but the Advertiser was disposed to discredit it.

☞ The City Council of St. Joseph, Missouri, has passed an ordinance making the act of displaying the United States flag a misdemeanor, and any person so offending "shall, upon conviction thereof, forfeit and pay the sum of not less than fifty nor more than one hundred dollars."

ELBRIDGE READ, a Cigar pedlar, and rabid secessionist, made his appearance in Exeter on Saturday afternoon last. He commenced by calling the Union men of the North, all the hard names he could think of; finally he was advised to leave town, which he refused. After receiving 8 or 10 blows he finally concluded to leave Exeter. The American Flag was then placed on his cart, and he left heading towards Lowell, where it is said he belonged.—*News Letter.*

FORT MCHENRY, June 10.—Gen. Banks arrived at Fort McHenry this afternoon, and made it his headquarters. Gen. Cadwallader leaves for important duties southward. Columbiads and 42-pounders have been brought to bear upon the city from the fort. The populace are irritated by the presence of Northern troops, but the conciliatory programme announced by Gen. Banks removes all apprehensions.

NEW YORK, June 10.—Special dispatches from Washington say that 10,000 Federal troops will be in Baltimore in less than thirty six hours, on account of information that the traitors in that city are preparing to rise. They hold nightly drills and have arms stored in private houses. At the first symptoms of rising the city will be bombarded by Fort McHenry.

WASHINGTON, June 10—The non-payment of the troops arises only from the absence of the pay-rolls. There is no lack of money or disposition on the part of the Government to pay them as soon as the requisite forms can be completed.

A PIRATE'S ACCOUNT OF HIS PERFORMANCES.—A rebel privateersman writes to the New Orleans Delta the following account of the cruise of the piratical steamer Ivy. The letter is dated "Off Pass l'Outre, mouth of the Mississippi, May 21":—

"Last Friday I left New Orleans for this place and boat for a little privateering—to assist in annoying the enemy's commerce; but the enemy's commerce has ceased almost to spread its wings in this latitude.—On board the Ivy are guns and men enough to accomplish great destruction, were we called on to open with our cannon. Our human fighting material is constituted of good bone, sinew and pluck, and some of the crew have entered the privateer service with only one intent—*commendable revenge on the North.*

"To-day we succeeded in sighting a vessel of the largest dimensions and full rigged, which proved to be the Sarah Pettigrew, but, to our sorrow, was without a cargo, there being in her hold only two or three thousand sacks of salt from Liverpool. We soon had a prize crew on her decks, greatly to the mudilled surprise of her officers and crew.

"After the formality of taking possession, your correspondent being among the boarders—we do not pay weekly—I overhauled the flag-bag, and soon had bunting in plenty for a pretty Southern Confederacy flag, which was immediately sent aloft to flutter defiance to all who don't like us. The Ivy's capacity enables her to do her own towing, and after she cruised around in the Gulf for two or three hours to overhaul other sails, she returned to us, and we turned our prows towards Pass l'Outre near where the Pettigrew now lies, waiting to be towed to your city. The privateer Calhoun gave chase to the same vessel, but the Ivy was too fast for her. We lie in or near the river every night, *but start out after midnight*, and keep a sharp lookout for any speck on the horizon, and when the cry of 'Sail-ho!' is heard, the Ivy's tendrils' *don, revolvers, swords, knives and rifles, with great excitement and good nature.* We have exceeding good times and 'duff,' but I fear all will be closed with the appearance of the blockading force."

The Sarah E. Pettigrew, which is probably the vessel referred to above, was built in this city in 1857, and hails from New Orleans. She is of 1193 tons register; is owned by Messrs. Daniel Marcy, Wm. Pettigrew, A. R. Hatch, Peter Jenness, estate of W. Williams, and T. M. Ball, of this city; S. Thwing, of Boston; Peter Marcy, and D. D. Nickerson, of New Orleans.

FORGERY.—William Lomax, a young man of very good address, was arraigned before the Newburyport Police Court on Saturday, on a charge of forging checks on the banks of that city. He had some four or five checks and offered them at about fifty per cent. discount, but was unable to pass them. He pleaded guilty of the charge, and was comitted to jail for want of bail in $1000 for his appearance before the Superior Court.

Volunteers for the War

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired to keep your feet from blistering. Cures Cuts, Bruises and Lameness. The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease.* Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy.*

Further Testimony.

ANDOVER, N. H., Oct. 15, 1860.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr. Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many potent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Throat and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick and Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. fe28 dawSm

HOW LOST—HOW RESTORED.

Just published, on the NATURE, TREATMENT, and RADICAL CURE of SPERMATORRHŒA, or Seminal Weakness, Sexual Debility, Nervousness, Involuntary Emissions and Impotency, resulting from Self-abuse, &c. Local.

☞ Gen. Stark assigned the command of the Second Regiment to the field officers on Tuesday. Instead of "Camp Constitution," it will hereafter be known as "Headquarters of the Second Regiment N. H. V."

The officers, at present, are:—Col. Gilman Marston, of Exeter; Lieut. Col. Frank S. Fiske, of Keene; Major Josiah Stevens, Jr., of Concord; Adjutant Samuel C. Langley, of Manchester; Surgeon George H. Hubbard, of Manchester; Quartermaster John S. Godfrey, of Hampton Falls.

FATAL RUMOR.—The rumor that Capt. Leach, of the steamboat W. H. Webb of New Orleans, had altered the name of his boat to Calhoun and had taken out a privateer's license, is worked upon his mother at Chelsea, as to cause temporary derangement, which resulted in suicide. The son in New Orleans has written a feeling and manly letter, in which he vindicates himself from the charge, denying his participation in privateering, and expressing the utmost sorrow at the melancholy event, and indignation at being misrepresented.—His steamboat has not been altered, but lies at the levee—as we are informed by one who saw her there some ten days ago—the privateer Calhoun being quite another affair.—*Atlas.*

☞ It is reported that the Second Regiment will proceed to the seat of war, by the way of Concord, Nashua and Worcester. As the wagons, horses, &c, are to be transported from Concord, it is deemed desirable that the Regiment should start from that city. It will also afford the members of the Legislature, now assembled, an opportunity to witness their departure.

☞ The well-known and eccentric "Joe Davis," of Lowell, Mass., formerly of this city, will deliver an address on "The War," this (Wednesday) evening, at the Pearl st. Church. Soldiers are especially invited.—He has many warm personal friends in this city, who will doubtless be happy to greet him.

☞ Among the appropriations for Naval Service, for the year ending June 30, 1862, is one of $20,000 for repairs of all kinds at the Portsmouth Navy Yard.

N. H. LEGISLATURE.—But little business was transacted by the Legislature on Friday and Monday. The Standing Committees were announced on Monday. On Saturday the thanks of the Legislature were tendered to Rev. H. E. Parker, for his impressive, eloquent and patriotic discourse delivered on Thursday, and a copy was requested for publication. Mr. Kenrick of Franklin, on Monday, gave notice of a bill authorizing cities and towns to aid the families of volunteers, &c.

The use of the Representatives' Hall was granted to the New Hampshire Historical Society on Wednesday evening, for the delivery of the annual address before the Society, by Rev. Wm. Savage of Franklin; and on Thursday, between 2 and 3 o'clock in the afternoon, to Mr. Turner, of the American Asylum for the Deaf and Dumb, to explain the advantages of their mode of education, and to show the proficiency of some of the beneficiaries of the State.

FORTRESS MONROE, June 10, via BALTIMORE, June 11.—This has been an exciting and sorrowful day at Old Point Comfort. Gen. Butler having learned that the rebels were forming an entrenched camp with strong batteries at Great Bethel, nine miles from Hampton, deemed it necessary to dislodge them.

Accordingly, simultaneous movements were made last night from Fortress Monroe and Newport News, with the intention of uniting the forces at Little Bethel. Unfortunately when they met, a signal in the darkness of the morning was not understood, and the troops fired upon each other—killing one man, and fatally wounding two others. From accoutrements left upon the field, the Albany regiment discovered that the supposed enemy was a friend.

Subsequently, the buildings were burned, and a Major and two prominent secessionists made prisoners. The troops then advanced upon Great Bethel. At that point our regiments formed successively, and endeavored to take a large masked rebel battery. The effort was futile, our three small pieces of artillery not being able to cope with the heavy rifle cannon of the enemy, being, according to some accounts, thirty in number.

The rebel battery was completely masked, so that no men could be seen, only flashes of the guns. There were probably less than 1000 men behind the batteries of the rebels. A well-concerted movement might have secured the position, but Brigadier General Peirce, who commanded the expedition, appears to have lost his presence of mind, and the Troy regiment stood an hour exposed to the galling fire. The order to retreat was at last given.

Gen. Butler estimates his loss at 30 killed and 150 wounded.

NEW YORK, June 11.—The Government is informed that Gen. McClellan is moving rapidly over the Alleghany Mountains with an immense force toward Harper's Ferry.

The Herald correspondent has reason to believe that Gen. Scott leaves for Frederick, to command the federal forces in person.

☞ John L. Hayes of N. H. has been appointed Chief Clerk of the Patent Office, at a salary of $2000.

NEW HAMPSHIRE ITEMS.

The Warden of the State Prison has presented his Report for the year closing June 1. The number of convicts is larger than ever before, being 119. The improvements have been the erection of a new cabinet shop, cementing the provision cellar, and providing new heating apparatus for warming the hall and dormitories. The financial result of the year is a gain to the credit of the institution of $2,958.75, of which sum $2,192.58 is cash in hand. There is but one other prison in the United States which meets its expenses without legislative appropriation; that of Connecticut which saved last year $422.42.

The one-hundredth anniversary of the settlement of Lebanon will be celebrated in that town on the coming 4th of July. Arrangements are making that the occasion be one worthy of that ancient, wealthy and intelligent place.

A United States flag was raised over Dartmouth College Chapel on Friday the 7th inst.

Dr. Eastman, of Hampstead, delivered the annual address before the N. H. Medical Society, in Concord, on the 4th inst., which is represented to have been able and interesting.

A company, called the Marston Rifle Guards, is in process of formation in Exeter. At the first meeting to consider the question of forming such a company, twenty five men were enrolled who were willing to serve during the war.

☞ The petition of the citizens of Nantucket, in relation to protecting that place against piratical invasion, has met with such consideration at Washington, that two armed schooners are to be stationed in that vicinity.

A preacher named Douglas has made himself so prominent as a secessionist that his passes carry any one into Virginia. He is the only man in that part of Maryland who can pass any one southward. He lives near the Shepardstown bridge in Maryland.

☞ Gen. Jackson in 1814, Gen. Jessup in 1836, and Gen. Taylor in 1838, all used fugitive or other slaves for military purposes; and in all these cases the slaves became free.

Call on your grocer for Herrick Allen's Gold Medal Saleratus. It is the only perfectly healthy Saleratus made. A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,

IS THE DEMAND FOR

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS

The Celebrated New England remedy for

Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them, pronounce them invaluable.

Dr. JAMES L. LEFEBRE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. It was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 23 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The *wise* man maketh provision for those when he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the *wife*, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and, thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to place it within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, LIFELESSNESS, ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement.

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the West to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express.*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is without question the most tonic Cordial in the world. To those who are suffering from general debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of disease. It can be had by the weakest stomach, while those in good health will at once feel its exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully. We feel that it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

BININGER'S

GENUINE

Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *warming stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

SO ETHING MORE VALUABLE
THAN SILVER OR GOLD,
BECAUSE
IT WILL RESTORE THE WEAK,
AND REINSTATE THE BLOOD IN ALL ITS
ORIGINAL PURITY & VIGOR.
It is
PROF. O. J. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, invigorating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skilfully combined as to be the most powerful tonic, and yet so perfectly adapted as to be acceptable to the *weakest stomachs, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, DIZZINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former suffer from false delicacy, often go down to a premature grave rather than let their condition be known: in time, the latter are often so misled by will the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their ruin. To the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly direct you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement.

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine's box. After some delay, the messenger returned, and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately, hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious effects can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young, Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgic affections for years, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try Gardiner's Rheumatic and Neuralgia Compound. I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Sappiton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 3 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic and Neuralgia Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I feel pleasure to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound." After suffering twenty years with Rheumatism, more or less, I met your with a very severe attack. I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 15, 1860.
Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*s, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.
One of the most best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pints as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JUNE 13, 1861.

LEGISLATURE.

Mr. Robinson of Portsmouth presented a petition signed by W. P. Jones and 300 others, for a new aqueduct company in that city.

On motion of Mr. Buffum of Somersworth, it was resolved that all claims connected with the New Hampshire military recruiting service, and the equipment of troops and their supplies, shall pass through the hands of the Auditing committee of the Honorable Council before presentation to the House.

Mr. Kenrick of Franklin, by leave, introduced a bill for the relief of volunteers and their families. It authorizes towns to appropriate not exceeding one dollar a week for the support of such persons as are dependent on soldiers, to be reimbursed by the State, and legalizes previous action by towns and cities; all contracts with volunteers to terminate in 90 days from the date of their enlistment. The bill also authorizes towns and cities to raise and maintain, in certain cases, an armed police to act in any part of their respective counties. The bill was read twice and referred to the Committee on the Judiciary.

The Speaker referred a circular of Simon Cameron, Secretary of War, to the Committee on Military Affairs. The same circular has been sent to the Governors of all the States. It requests that, as soon as the three years' regiments of volunteers have been organized and equipped, those not otherwise ordered be assembled at rendezvous, to become camps of instruction.—It suggests that the camps chosen be on ground with a rolling surface or porous soil, with wood, water, abundant subsistance for men and horses, and railroad or water transportation in near proximity. As some of these regiments may not be called into activity much before frost, they will have ample time to acquire discipline (habits of obedience) and tactical instruction, without which they will be unequal to the campaign for which they are intended.

ACCIDENT IN STANDISH, MAINE.—On Thursday of last week, two Brookfield ladies, with an infant child, in a carriage, were crossing a bridge near Steep Falls, when the horse commenced backing. The carriage struck the railing, which gave way; horse, carriage, and ladies were precipitated into the stream, some twelve feet below. They were rescued from drowning by a man who fortunately saw them go off. No bones appear to be broken, and it is hoped they received no permanent injury. The horse was so much injured that he was killed on the spot.

☞ Slaves are being armed in many of the Louisiana parishes. Some look on this experiment as a dangerous one. The sugar planters, in many instances, are arming their more trusty negroes. There is said to be a very uneasy, restless feeling among the negroes generally, and in many parishes white men patrol at all times of the day and night.

☞ The Memphis Bulletin reports that there was a case of yellow fever at New Orleans on Wednesday of last week. Another report was to the effect that there were three cases of yellow fever in the Charity Hospital, and from the early breaking out of the epidemic it was feared that it would be very violent.

☞ At the U. S. camp in Baltimore, when a soldier gets intoxicated, he is compelled to perform, in addition to regular duties, forty-eight hours' extra labor, and to carry sixty pounds of stones in his knapsack. As the sentence is carried out to the letter, there are but few who desire to break the law.

☞ The Calais packet has sailed for Washington with 4000 bushels of potatoes for the Maine troops. She was chartered by parties in Augusta, who have before sent from that city a similar cargo for the same destination.

☞ At a caucus of the Republican members of the Legislature, held on Tuesday evening, Allen Tenney, Esq., was unanimously nominated as their candidate for Secretary of State. Mr. Tenney has held the office of Deputy Secretary during the past year.

☞ The inhabitants of Weathersfield, Conn., have recently raised enough money by subscription to procure a daily mail. They were satisfied with a tri-weekly till the war broke out, when that was found entirely too slow.

STATE ITEMS.

The military bill has not yet come from the committee appointed by Gov. Goodwin. It is, however, nearly drafted. It contemplates two regiments in each Congressional District, one Major and three Brigadier Generals. The six regiments will number about 4000 troops.

Mayor Bunton of Manchester is calling upon all the schools of the city, and in his rounds visited a school where, among the pupils reciting, was the "little man in miniature," Gen. Nutt, who, being a member of the Amoskeag Veterans as well as His Honor, received the latter with a soldier's salute.

The Mountain House was entirely destroyed by fire on Monday morning, together with most of the furniture. Insurance on buildings $6000; furniture, $2500. This is the fifth hotel that has been burnt in that locality.

The Annual Convention of the Grand Royal Arch Chapter of New Hampshire, occurred at Concord, Monday. The following are the officers elected for the ensuing year:

James Livingston, Claremont, M. Exc. Grand High Priest; Samuel M. Wilcox, Exeter, Exc. Dep. Grand High Priest; E. W. Harrington, Manchester, Exc. Grand King; Thomas Pearsons, Nashua, Exc. Grand Scribe; John Knowlton, Portsmouth, Exc. Grand Treasurer; Horace Chase, Hopkinton, Exc. Grand Secretary; James Adams, Deerfield, Exc. Grand Chaplain; R. N. Ross, Dover, Exc. Grand Capt. of the Host. The other officers are yet to be appointed.

A WRESTLING MATCH.—From the Cincinnati Enquirer we extract the following account of an interesting athletic exhibition that came off near that city one Sunday morning recently, the actors in the performance being a broad-shouldered, stalwart foundryman and a profesional gymnast, of light but wiry frame;

The terms were best three back falls, fair and square, sides not to count, the men to take hold *ad libitum*, but no clinching below the waist. When they had, to use a fancy term, "peeled," the difference in the appearance of the men was striking, and entirely to the advantage of the foundryman, whose broad shoulders and thick, muscular frame appeared to promise an easy victory over his fragile-looking, but yet lithe and active competitor. Their height was about equal, the little one having, perhaps, a trifle the advantage, and when they came together with the armlock, and commenced play, the latter, evidently aware that he would come out second best in a hug, kept upon the defensive. But the foundryman would not be denied, and suddenly shifting the hold of his left to the body, he got to closer quarters. Jemmy tried the lock, but it was no go, and he was thrown, although he managed to go to grass upon his side, so that it counted nothing for his antagonist. We have no space to enter into a lengthy detail of the contest; but the result proved that the battle is not always to the strong, and that skill and science must neutralize sheer strength. Three successive falls did the little one get, when in the fourth round he succeeded, throwing in his favorite crook, and down went the foundryman, his back on the sward and his frontispiece to the heavens. The man of iron appeared, when he came up for the next bout, somewhat disconcerted; but after a few foot feints, in he went, and bending his opponent like a reed, he threw him heavily, but, after some dispute, it was not acknowledged a fair back fall. In the next round, after eluding several significant attempts from his powerful adversary at a close embrace, Jemmy suddenly shifted his hold from the armlock to the body, got in his favorite crook, and down went the stalwart man another fair back burster.—Three more rounds ensued in which science was plainly pitted against strength, the "little un" going to grass at every turn, but always managing to fall right side up. In the last the foundryman slipped, but quick as thought his alert antagonist improved the advantage, planted his favorite crook, and down they both went, the foundryman beneath, making the third fair back fall, the "little un" thus winning the contest, altho' at the start the odds were three to one against him.

FRANCE.—There is no longer any possibility of doubt as to the friendly intentions of the French government toward the United States in the present crisis. Mr. Dayton has been cordially received by Louis Napoleon, and has been favored with a private interview with the Emperor—in which Napoleon spoke in a feeling manner of the troubles in the United States, and not only expressed a desire that there should be no disruption of the Union, but even offered his services in whatever way they might be useful.

☞ The troubles in the United States have produced disastrous results in Cuba.—The price of sugar has fallen, and the price of provisions and the rates of freight enormously increased, so that many of the planters and factors are likely to be ruined. There is a very large number of Chinese coolies in the several depots or barracoons, and importers find it difficult to obtain contractors to take them, even at less than it costs to bring them from Asia.

HEREDITARY MAIL CONTRACTOR.—W. E. Boise has received the contract for carrying the mail from Pittsfield to Williamstown, Mass. He is one of the oldest mail contractors in that region, and his father was in the same business before him. The family have carried the mails from revolution to revolution.

HAGERSTOWN, MD., June 11.—The Government has evidently taken possession of the Franklin country railroad. No troops have reached this point as yet.

The Maryland heights opposite Harper's Ferry have been reinforced, according to report, by 3000 men. It is thought here the reinforcement is not over 1000.

The express from Clear Spring returned to-day. The messenger visited the house in which the Home Guards are located, and found 50 or 70 men, indifferently armed, fighting bravely.

A proclamation was largely circulated, signed by Marshal Lamon, of the District of Columbia, calling upon all loyal citizens to rally and form regiments under the command of Philip Pendleton.

Col. Allen's regiment left Harper's Ferry yesterday in a westward direction, doubtless to oppose the advance of the Indiana regiment from Cumberland.

The guards along the whole line of the Potomac, at the fords and ferries, were trebled by the Virginians to-day.

The Union men seized to-day a steamboat from the locks and brought her to dam No. 5. She is capable of carrying 500 men.

FORT KEARNEY, June 11.—The Pony Express, from San Francisco 1st inst., passed here at 6 o'clock this evening.

Sailed 1st, steamer Orizaba, Panama, carrying 250 passengers and $1,174,000 in specie.

The increased shipment of treasure was owing to returning confidence in the safety of the California steamers as regards privateers.

Exchange on New York ruled at 6 per cent. premium. Most of the parties who had large remittances to make, shipped bullion at their own risk.

The quicksilver mines of New Almada are in full operation, and yield immensely. The workmen had reached the depth of 18 feet, and a stream almost follows the pick. Quicksilver is worth about 45 cents per pound. Six men are daily sluicing out between $800 and $900 worth.

WASHINGTON, June 11.—Beauregard has issued a proclamation from Manassas, extravagantly picturing the horrors experienced by an invasion of the Federal troops.

Assurances have been received that the Belgium government would not recognise the southern confederacy in any form.—Reported importation of arms from thence into the South is greatly exaggerated.

BALTIMORE, June 11.—The fight at Clear Spring, continued all day yesterday between the Home Guard of Clear Spring and Williamsport and the Virginians, who were endeavoring to destroy dam No. 5. No one was hurt on the Maryland side.—Two horses and one man were hurt on the Virginia side. The Virginians have destroyed all the canal boats on the Maryland side, between Williamsport and Harper's Ferry.

FREDERICK, June 11.—The Virginians yesterday destroyed 25 canal boats, near Harper's Ferry, to prevent there being used to transport Federal troops across the Potomac.

The troops recently at Point of Rocks have certainly been withdrawn and are now with the main body at Harper's Ferry.

LOUISVILLE, June 11.—A special dispatch to New Orleans, dated Charleston, 8th, says that Gov. Pickens published a notification against sending funds North, as being in conflict with law.

LOUISVILLE, KY., June 11.—The Surveyor of Customs at Evansville, Indiana, has notified steamboat officers that the transportation of provisions to Smithland and Paducah, Ky., is a violation of the instructions and cannot be allowed.

ITEMS FROM THE POST.—It is estimated that a very large proportion of the babies born in Massachusetts during the last month, have been named in compliment to Gen. Butler. Winfield Scotts and Robert Andersons are also very numerous hereabouts.

If our gallant soldiers are much longer compelled to lie on the damp ground, under leaky tents, the result will be a transformation of Infantry into Hoarse-men.

Foundling hospitals are not found to be profitable enterprises, from the fact that those who patronize them generally fail to redeem their Pledges.

A friend of ours says he flits between Boston and New York by the Fall River line—because that route always secures to him a sound sleep.

Elder Smith—a Mormon Preacher—said in a late discourse at Salt Lake—

"The Republican organs whipped Mr. Buchanan into the Utah war, and they then whipped him until he got out of it the best he could, and then they whipped him awfully for getting out. They meant to keep him there until the work of destruction was done. But thank the Lord the Latter Day Saints yet live and yet have an influence, and they are yet felt."

☞ The statue for the Clay monument to be erected at Lexington, Ky., is now finished, and the inaugural ceremonies will take place on the Fourth of July next. It is twelve feet high, modelled from Joel T. Hart's celebrated statue executed for the ladies of Virginia, and is said to be an excellent likeness of the great orator.

☞ The members of Mess No. 7, "Pavilion de Mayo," Fort Independence, received on Tuesday, a finely printed list of the Mess, wrapped in a beautiful American flag—the gift of Messrs. Allen & Paine, of Boston. A very patriotic note accompanied the gift.

☞ The Washington Republican says thousands of letters daily are put into the Post Office boxes in that city, notwithstanding the notice that they would not be sent after June 1. Women come and beg with tears in their eyes to have their letters forwarded to their friends in the South

NEW YORK, June 11.—There is great excitement over the Bethel fight.

The general opinion among military men is that there was gross mismanagement by the leader of our forces. The rebels are looking up, being emboldened by our repulse. A Baltimorian here says that several secession flags are again flying in Baltimore.

After the unfortunate mistake had been rectified, the forces came upon the advanced guard of the rebels, defeated them and drove them back, taking 30 prisoners, including a Major and Lieutenant. They then advanced on Big Bethel, in York county, where they came upon the enemy, 4000 strong, and drove right into them. They were in a position protected by six heavy batteries, mounting 6 and 12 pounders and heavy rifled cannon.

Lieut. Grebble returned the intensely hot fire of the enemy. Both Duryea's Zouaves and Hawkin's regiments charged up to the batteries, but could not pass the ditch and were compelled to fall back. After two hour's hot contest the ammunition gave out, and the force retired in perfect order.

The Tribune's report says all but one rifled gun of the enemy were silenced, and that when the Zouaves charged, the enemy scattered, but were rallied. Not more than half the force was brought into action at once, and if a concerted movement had been ordered the place would have been carried. Lieutenant Grebble's body was gallantly saved by being brought off the field on his own cannon.

WASHINGTON, June 11.—The President to-day called on Gov. Morton of Indiana for six additional regiments.

The rebels have for two days been moving from Harper's Ferry to Winchester and thence towards Manassas Junction, as fast as wagons could be procured to convey their baggage.

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired to keep your feet from blistering. Cures Cuts, Bruises and Lameness. The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic,* diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease.* Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it *is the remedy.*

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Local.

☞ The Cheshire Light Guard, of Keene attached to the Second Regiment, has received a large share of attention from the people and the press, as a company remarkable for its discipline and soldierly bearing. It is composed of fine-looking, sturdy men, and the average height and weight of its members, probably, are equal to those of any other company. This is by no means a slight compliment, as all are well aware, who have noticed the general aspect of the brave men and true, who compose the Regiments which the loyal North is sending to the seat of war.

But they now, perhaps by accident, claim attention for another circumstance, which has surprised most of those of our citizens who have been informed of the fact. The company is encamped on the hill side near the barracks, and are supplied with eight tents—seven of which were captured from the British in the war of 1812. They now are the property of the town of Keene; and have been well preserved. They all bear the mark "G. R." (Georgius Rex,) and one of them has also upon it the manufacturer's mark :—"Turner's, Bond street, London." In the present attitude of England towards our country, it is almost impossible to suppress a slight chuckle of satisfaction when one looks upon the tents which now protect our soldiers.

THEATRE.—Mr. English's popular troupe play this evening their celebrated piece of the "Colleen Bawn," in which Miss Helen has made so great a sensation in other cities. It is said to be replete with songs and stage effects, and one of the finest stories ever written. The inimitable Hampton appears as Mose in the "Glance at New York." Those who have not seen this company will be gratified with the entertainment offered.

☞ The Officers of the Second Regiment have all joined in a request to the Rev. Henry E. Parker, of Concord, to become their Chaplain, and he is inclined to accept that post of self-denial and danger, but will submit a decision of the subject to the Society of which he is pastor.

☞ Major John G. Reynolds who was stationed at our Navy Yard a few months since, but has recently been in command of the Marine Guard at Charlestown, has received orders from Col. Harris, at Washington, detaching him from Charlestown, and attaching him to the command of the Marine Guard at the Washington Navy Yard. The immediate necessity for his removal results from the great increase in the Marine Corps, and the consequent demand for competent instructors.

BALTIMORE, June 12.—No further military movements have taken place at Old Point Comfort.

On the withdrawal of the federal troops, the rebels, in one instance, inhumanly charged on those bearing off the dead and wounded. The enemy had six guns behind the batteries. There were about 20 killed and wounded. Our loss is said to be 14 killed and 60 wounded.

NEW YORK, June 12.—The propeller Resolute has captured and burned two schooners on the Potomac, which were employed in carrying provisions to the rebels.

Letters from East Tennessee state that if the Unionists there had been armed, they would have taken Jeff. Davis a prisoner when he was passing through to Richmond.

A person in the battle at Great Bethel says the federal cannon were not captured. Gen. Butler was sending reinforcements to Gen. Pierce, and said he would take the place before morning.

Marshal Kane of Baltimore has sworn in 1000 secessionists as extra patrolmen on election day. It is reported that 3500 armed men in Baltimore are ready to rise the moment the federal troops meet with a defeat.

The president of the Norfolk steamers has been taking dispatches to the rebels under a pass from Gen. Butler.

PHILADELPHIA, June 12.—A young man who left New Orleans on Wednesday last says a large flotilla was getting ready to go down with a floating battery to capture the Brooklyn. It is asserted at New Orleans that there are 40,000 rebel troops encamped in the neighborhood of that city.

☞ The Union Defence Committee of New York has been authorized by the War Department to construct new defences for the harbor of New York, the expense to be borne at present by the Committee, and ultimately by the General Government. This enterprise, it is calculated, will give employment to one thousand men.

☞ It is reported that the Cabinet, after a long session on Tuesday, decided to instruct Gen. Butler not to receive any more fugitives into Fort Monroe; but no instructions are given him to send them back, but to let such property alone.

☞ It is estimated that throughout the North, in the foundries now in operation, fifty rifled cannon could be turned out each week, if the emergency required such a manufacture of death-dealing instruments.

☞ To-day (Thursday) is the anniversary of the birth of Gen. Scott. By a curious coincidence, to-day is also that appointed for the "National" Fast in the seceded States.

BOSTON, June 12.

A special dispatch from Washington to the New York Herald, dated this morning at one o'clock, states that a special messenger has arrived from Fortress Monroe bringing intelligence that Gen. Butler proceeded with a large reinforcement to Great Bethel, this, Tuesday, morning.

After a severe fight he captured their batteries, one of seven guns, and the masked battery of fourteen guns. Also took one thousand rebel prisoners.

A special dispatch to the Boston Merchants' Exchange confirms this statement. The Washington dispatches also state that Government wants more troops, and will receive all offering.

GREAT BRITAIN.—Lord John Russell has announced in Parliament that government has determined to prevent privateers and armed vessels bringing prizes into British ports, and said that France intended to abide by its laws, which prohibits privateers to remain over twenty four hours in port, and to dispose of their prizes when there. He also said England and France had sent propositions to Washington based on the declaration of the Paris Congress.

JEFF. DAVIS'S WAR HORSE.—President Davis's war horse passed through this city last night on his way to Richmond, Virginia. Accompanying the animal was the President's saddle, on the bore of which is a compass, *to be used in case the rider should lose his way.—Augusta (Ga.) Constitutionalist, May 30th.*

☞ At an Extraordinary Congregation of the University of Cambridge, Eng., on the 21st, the Honorary Degree of Doctor of Laws was conferred upon John Lothrop Motley and George Grote, the Historians.

The New York Herald occasionally indulges in a good thing; for example—"All the speeches made at the recent sitting of the Massachusetts Peace Society were of such a belligerent tone that it has been suggested that the members *enlist for the war.*"

Call on your grocer for Herrick Allen's Gold Medal Saleratus. It is the only perfectly healthy Saleratus made. After using one half the paper, if you are not satisfied, return the balance, and get the money paid for the whole. It is much better to use with cream tartar than soda. It is peculiarly adapted for dyspeptic persons. For sale by grocers and druggists, and at wholesale by all dealers. Depot 112 Liberty street, New York.

Dr. H. E. Howell, of New York, says that the most effectual remedy to improve the tone and energy of the stomach, is the *Oxygenated Bitters.* For Dyspepsia and Indigestion these Bitters are unparalleled, as numerous cures testify.

A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,

IS THE DEMAND FOR

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS

The celebrated New England remedy for **Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.**

They are used and recommended by the leading Physicians of the country, and all who try them, pronounce them invaluable.

DR. JAMES L. LEPERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

DR. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Bleountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Iss., 6th June, 1859.

J. C. AYER & CO. Gents: I feel bound by duty to acknowledge what your Sarsaparilla has done for me. Having inherited a scrofulous infection, I have suffered from its workings early for years, showing itself in eruptions on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my neck and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was induced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I said to Cassandra and got it, and used it till it cured me. I took it, as a dose, in small doses of a teaspoonful three times a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin, head, ears, and face look by the feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you in the highest estimation of the art, and remain ever gratefully, Yours,

ALFRED R. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous Malignant Erysipelas by large doses of the medicine; says he cures the common Erysipelas by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla an invaluable alterative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The uterine limb was soon cured. Nothing could more my knowledge equals it for these female distempers."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor in one of the females in my family which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physicians thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 12th August, 1860.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Tertiary Mercurial Disease. One of my patients had Syphilitic sores in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in two weeks. Another was troubled with secondary symptoms in his nose, and the alterative had eaten away a considerable part of it, so that I believe the disease would soon reach his brain and destroy life. It yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, but of course without some disfigurement to his face. A young man who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that they ached as much as if the excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, C. T. LARTIGUE, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful disease of Rheumatism for a long time, defying the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in a few days, and restored me to perfect health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. SELLAR.

John T. Gotcher, of St. Louis, writes: "Your pills have afflicted for years with an affection of the liver, which destroyed my health. I tried every thing, and every thing failed to relieve me until I took your pills. I have recommended them to some users from no other cause than disorganization of the liver. My beloved pastor, the Rev. Mr. Hopp, arrived here from Germany, became so sick that he despaired of life, and say they had made one worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel like a new man. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit of them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into healthy action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the medical profession, and we feel confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivaled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living testimony of the triumphs of its victory over the subtile and dangerous disorders of the throat and lungs. All know the dreadful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won for it amongst them the confidence of mankind.

REAL ESTATE IN NEW CASTLE

FOR SALE.

THE TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for occupancy. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic fire and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz: Eighths and Quarter Casks.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for Private Use; and consumers will find it greatly to their advantage to send their orders to us direct; as we employ no travelling or other agents whatever—Persons who require *Pure Liquors and Wines*, in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

SOMETHING MORE VALUABLE
THAN SILVER OR GOLD,
BECAUSE
IT WILL RESTORE THE WEAK,
AND REINSTATE THE BLOOD IN ALL ITS
ORIGINAL PURITY & VIGOR.
It is
PROF. O. J. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement.

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as she took up it the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found at the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young, Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be convinced that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack of Neuralgia, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that class of disease.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

N. H. LEGISLATURE.

WEDNESDAY, June 12.

In the House, Mr. Harvey presented a petition, which was referred to the committee on the Judiciary—of the city of Portsmouth, for an amendment of their charter, and for the passage of a law limiting the liability of towns and cities for defects in highway.

The votes at the March election, on the question of a revision of the Constitution, were reported as follows:—

Whole number of votes cast	20,831
For a convention,	11,078
Against a convention,	9,753
Maj. in favor of convention,	1,325

A bill was introduced, by Mr. Woodman of Dover, to reduce the compensation of County Solicitors. By its provisions, the Counties are to pay them, and not the State. It fixes the salary for Rockingham County at $400. It also provides that fines shall be paid to the Clerk or Sheriff, and not to the Solicitor.

A message was received from the Governor transmitting an amendment to the Constitution of the United States, passed by Congress, and resolutions on National affairs passed by several of the State Legislatures.

A bill was introduced, read twice and referred, authorizing the Concord & Portsmouth Railroad to change its location so as to enter Manchester, and to make a branch from Pembroke to Hooksett; no change to be made in the running of the Road till the new track bed is completed; also authorizing the road to contract for the running of the road.

In Convention, elections were held of Secretary of State, and Warden of the State Prison. They resulted as follows:—Sec.,—Wm. H. H. Mason, of Moultonboro', 114; Allen Tenney, of Lyme, 197. Warden,—John Gregg, of Goffstown, 109; John Foss (present incumbent,) 200.

☞ Most of the N. H. papers have correspondents at Camp Constitution. The Manchester American, apparently, has a correspondent and a special reporter. We have been very much pleased with the contributions of the latter,—especially with one headed Second Regiment, which was published on Monday. As it appeared at the head of the editorial column, we know the editor of the American appreciates that reporter's value.

The Dover Enquirer's correspondent this week writes as follows:

Some of our number are small in size, though not many, but what they lack in size they make up in pluck. Not the least plucky of these is one of our Corporals, Chadwick by name. When placed on guard, he detained a prominent citizen of Portsmouth more than an hour rather than disobey the strictest letter of his trust. One might as well attempt to pass the gates of Heaven as pass one of our boys without giving the countersign.

☞ The Baltimore correspondent of the New York Herald gives a statement of the number and location of the rebel troops in Virginia, which professes to be based upon Gen. Lee's statements to a "council of war" of the rebel Generals. By this it appears that they have 147,000 men in arms in Virginia, and 10,000 more in North Carolina ready to march.

☞ Postmaster General Blair will, it is said, require persons receiving letters from the Confederacy to pay the postage, notwithstanding they bear prepaid stamps, which are regarded as having been stolen by seceding postmasters, and therefore not entitled to credit, no equivalent having been received for them by the U. S. Government.

☞ Mr. John Sullivan, Jr., son of Hon. John Sullivan, and Mr. Joseph E. Janvrin, both of Exeter, and both students of medicine and surgery, have enlisted in the Second New Hampshire Regiment. In addition to doing duty in the ranks they will probably be employed in the hospital department, for which service they will receive extra pay.

☞ On Monday last, Col. Gilman Marston, of the 2d Regiment, was presented by his friends in Exeter and vicinity with a sword and equipments complete, befitting his rank. They consist of a regulation sword, knot, belt, sash, epaulets and spurs, all of the best material and workmanship.

☞ The Ballot states that some wide-awake Boston grocer has got the nice job of furnishing the supplies of stores, &c., for the officers of the U. S. vessels fitting out here,—a trade that until very recently has been given to our local dealers.

STATE ITEMS.

At the term of the Supreme Judicial Court recently held in Dover, Jeremiah Smith, Esq., of Lee, was admitted to the bar as an attorney and counsellor at law.

The silver lead mine at Warren is now being successfully worked. About 20 men are employed, and a large amount of ore has been raised the present spring.

Within six weeks, Mr. John Abbott of Candia has buried his entire family—seven children and one grandchild, all victims of diptheria. The eldest was but 17 years old, and the youngest an infant.

Hon. Edward Everett is expected to deliver the address at the approaching commencement exercises at Dartmouth College, next month, and Rev. John Pierpont the poem.

The author of "Adams' Arithmetic," Mr. Daniel Adams of Keene, although in his 89th year, is about to publish a revised edition.

At North Boscawen, on Monday evening last, Mr. John L. H. Sargent, 19 years of age, was performing various feats with an iron bar, about five feet in length. At last he placed the bar in an upright position, in order to leap over it. Having placed his hands upon the top of the instrument, he gave a spring, but his hand slipped, and he was impaled upon the bar. He fell to the ground, exclaiming, "I am bleeding to death, I shall die!" He was carried into the house, and died in 45 minutes. The fatal instrument entered his body a distance of 18 inches.

NEW YORK, June 12.—The Louisville Courier of the 9th states that information has been received there that the sloop-of-war Brooklyn is hard ashore at a pass of the mouth of the Mississippi.

Schooner King Brothers sailed to-day for Hayti with negro emigrants.

50,000 cartridges were sent to the Relay House to-day. Reports from Kentucky says that the secessionists feel confident of driving that State out of the Union at the proper time.

The Tribune's Washington dispatch says a procession of Union men at Strawberry Plains was fired into last week by a party of armed rebels, passing by in a railway car. The fire was returned by a few Union men, but the effect is not known as the train passed without halting. With great difficulty the Union men, who numbered about 1200, were prevailed upon not to tear up the rails.

A rifled Whitworth cannon, a present from Americans in Europe to our government, arrived in the Fulton yesterday.

☞ Paper pocket handkerchiefs, as in Japan, are next looked for in England.—The journals there report that the following articles, made of paper, are for sale; collars (reversable,) plain or Marsala patterns;—shirt fronts, embroidered or plain; waistcoats, imitation velvet, watered silk, quilted, &c.; scarfs in every pattern and color; bands for clergymen and members of the bar; lace collars, cuffs and stomachers for ladies; lace (Valenciennes or Brussels patterns) for trimmings of dresses, bonnets, &c. bonnets of the latest fashion, trimmed with paper lace and flowers; and hats, turbans, &c., (waterproof) in every shape and color.

☞ A day's later news from Fortress Monroe confirms the first account of our reverse at Great Bethel, and states that our troops were resting after the fatigue of the march and the battle. The report of a subsequent attack and capture of the battery, which prevailed here on Wednesday, is false. The names of the killed and wounded are given by telegraph; there were but 14 of the former and 45 of the latter.

PETERSON'S MAGAZINE.—The July No. of this popular Monthly is already published. In addition to its usual Stories, Poetry, Steel Engravings, Fashion Plates, etc., it contains two splendid colored Patterns, one of which is a "Stars and Stripes" Bed-Quilt. As a new volume begins with July, this is a good opportunity to subscribe. The price of "Peterson" is only two dollars a year.

WASHINGTON, June 12.—Lieut. Butler to-day brought official dispatches of the engagement under Gen. Pierce. They do not vary essentially from the published accounts. They state that the number of federal troops killed was 14, and wounded 45. Eight of the killed were shot by their own friends through mistake.

ANNAPOLIS, MD., June 12.—Major Morgan of the 13th New York Regiment has arrived from Queenstown and Centreville, with 160 men. They had a skirmish and captured from the enemy 500 stand of arms and one prisoner. They were fired into from the bushes. No lives were lost.

☞ Among the passengers in the steamship America, which sailed from Boston on Wednesday for Liverpool, were Messrs. Daniel Marcy and William Pettigrew, of this city.

☞ The Boston Journal states that the July number of the Atlantic Monthly will contain "a biographical record of young Ellsworth, written by one of the President's household."

☞ A Tennessee paper has no doubt that Senator Johnson of that State will take up his residence in the North—probably in Boston.

☞ Rev. Wm. Clark is to preach at Newington, next Sunday.

MR. EVERETT'S LETTER.

Hon. Edward Everett has written a calm, deliberate, conservative and patriotic letter on the war. It closes as follows:—

"You say that the South desire nothing but peace, and ask whether the North will not 'let you alone?' But, my good friend, the South demand a great deal more than 'peace.' She claims the Capital of the country, although she has but a third of its population. She claims the control of the outlet of Chesapeake Bay and its tributaries; the right to command the most direct route to the Atlantic from Ohio, Indiana and Illinois,—States whose population amounts to five and a half millions (the Baltimore and Ohio Railroad); the right to dragoon the State of Maryland and the western part of your own State, with Kentucky, Missouri and Tennessee, into joining the Southern Confederacy; the right to occupy the fortresses which protect the trade of the Gulf of Mexico; the right to shut up the outlet of the Ohio, Mississippi and Missouri;—and finally, she claims the right for any State, that chooses to pass a law to that effect, to break up the Union.—In enforcing these unconstitutional, monstrous and unheard of usurpations, she asks to be 'let alone;' and when the government of the United States in obedience to the solemn oaths of its members, (from which the leaders of the revolt dispense themselves) takes measures to defend itself, the Capital of the Union, the public establishments, and the rights of the whole people against this invasion, long premeditated by ambitious and disappointed politicians, (for Mr. A. H. Stephens truly declares that to be 'the source of a great part of our troubles') she exclaims that the North seeks 'to subjugate the South.'

"If the sacrifice of all I have could have averted the present disastrous struggle, I could have made it willingly, joyfully.—but I pray you believe me that I speak not only my own conviction, but that of the entire North, when I say that we feel that the conflict has been forced upon us, to gratify the aspirations of ambitious men; that it is our duty to ourselves, to our children, and the whole people to sustain the government; and that it is, if possible, more the interest of the South than of the North, that this attempt to break up the Union should fail."

☞ Mr. Amee, the Boston Chief of Police, on Wednesday received the following dispatch from the Supt. of Police of New York:—"Wm. Trappman, a captain of the Confederate Army, will sail in the steamer for Europe on Wednesday. He is a bearer of dispatches from Jefferson Davis, and also of commissions for privateers. These papers ought to be secured."

Mr. Amee endeavored to obtain instructions from Marshal Keyes or Dist. Attorney Dana, but could not find them. Mayor Wightman was also out of town, and Mr. Amee was compelled to act upon his own discretion. He at once proceeded, with several policemen, to the steamer America, which was to sail at about 10 o'clock. He had no description of the man wanted, but ascertained that a Mr. Trappmann had secured a state-room for himself and wife. After a detention of the boat for half an hour, the passenger was found. Mr. Amee told him he wished to see his papers, and must be allowed to search him and his state-room. Whereupon Mr. T. was highly indignant. His state-room was then searched but nothing of an objectionable character found there, and he was allowed to go in the steamer.

Upon his return to his office, Mr. Amee found a dispatch, directing him to "Arrest and hold William Trappman, of Charleston, S. C., for treason. Secure his papers. By order of the Secretary of State."

Had Mr. Amee received this while upon the steamer, he would have detained Mr. Trappmann, but without that he did not feel authorized to do so. The baggage of Mrs. Trappman was not examined, and it is possible that privateering commissions were concealed therein.

NEW YORK, 12.—The Wheeling Western Virginia Convention met yesterday. About 40 counties were represented.

A. J. Boreman, chairman, delivered a patriotic address, denouncing the Richmond Convention secession ordinance, and exhorting the members to be firm and decided through the action.

Resolutions were unanimously adopted, thanking General McClellan for sending troops to Western Virginia, commending the gallantry of the troops at Phillippa, and complimenting the bravery of Col. Kelly.

HOSPITAL CORPS OF 2D REGIMENT.—*Surgeon*—George H. Hubbard, M. D., of Manchester.

Assistant Surgeon—James Merrow, M.D., of Rollinsford.

Steward—Wm. G. Stark of Manchester.

Ward Master—Wm. J. Rahn of Keene.

Nurses—Wm. W. Wilkins, M. D., of Manchester; John Haynes, M. D., of Londonderry; J. W. C. Moore, of Concord; I. T. Hunt of Nashua; John Sullivan, Jr., of Exeter; Jos. E. Janvrin of Exeter.

Cook—James H. Wilkinson of Concord.

☞ Washington, on Thursday, was full of the sensation report that "the rebels are going to make a dash against that city at all events. Gen. Beauregard will make an attack in a few days with his Manassas Army."

HAGERTOWN, MD., 12.—The House of Delegates has instructed the Maryland U. S. Senators to vote for the recognition of the Southern Confederacy.

ROCKINGHAM CONFERENCE.

The Rockingham Conference of Presbyterian and Congregational Churches met with the Second Congregational Church in Exeter, on Tuesday morning.

The opening Sermon was by Rev. J. H. Stearns, of Epping.

The Conference was organized by the choice of Rev. Mr. Page of Atkinson, Moderator,—and Rev. Mr. Fifield of South New Market, Scribe.

The afternoon was spent in listening to the narratives of the state of religion, &c., in the several churches.

The churches were represented by about 25 ministers and 30 delegates, being a very full conference proper; but the audience, at this exercise, and generally through the meetings, was not large.

The narratives showed good attendance at public worship, and in the Sunday School; but no great interest in religion, nor any considerable addition of members, so that by death and removal there has been a slight decline.

The evening was devoted to a conference meeting;—and there was an early prayer meeting on Wednesday morning.—In both these meetings, the condition of the country was largely noticed in the remarks,—and the most earnest sentiments and petitions in favor of the Government of the United States, were expressed, in prayer and otherwise.

On Wednesday forenoon, Rev. Mr. Cummings, by appointment, presented patriotic resolutions.

Horace Webster, Esq., of Portsmouth, moved to strike out the preamble,—and would prefer to strike out the first resolution, as more proper for civilians than for a christian body.

Rev. Mr. Stearns, of the committee reporting the resolutions, replied that they wished to show civilians what we think to be their duty.

Rev. Mr. Hidden made some remarks on slavery as the sin of the age, and the origin of the troubles.

The resolutions were recommitted to the committee, with the addition of Messrs. Hidden and Webster.

The rest of the forenoon was spent in listening to reports and appeals from Committees on the Bible Society, Education, Tracts and Tract Societies, Home Missions, Sabbath Schools, Seamen, Foreign Missions, and Temperance.

At noon, the resolutions in favor of the Union and the government were reported in a new draft, and adopted.

In the afternoon the sermon was by Rev. Mr. Hidden,—and the sacramental supper closed the conference.

WAR ITEMS.—WASHINGTON, June 13. The Federal troops which left Washington on Monday reached Leesburg, Virginia, and Edward's Ferry, safely. They are probably destined to participate in an attack on Harper's Ferry.

There will probably be no movement from Fortress Monroe by Gen. Butler to capture the Great Bethel Battery, until Saturday or Monday.

Gen. Butler is still in command of Manassas Gap, and has stopped all passing to Washington. He has eighteen thousand soldiers under his command.

All the information received *here* indichtes that the rebel force does not exceed 14,000 men, who were hourly expecting an attack from the Government.

Information elsewhere makes *more* men, and plenty of cannon.

The rebels evacuated Fairfax Court House Monday, upon hearing of the advance of the Federal troops. Parties of mounted rebels are continually firing on the pickets between Annapolis and the Junction. Leather and materials for making percussion caps and chemicals for detonating powder, are not to be had South. A shell from a rifle cannon, which stuck in the side of the Freeborn, was not charged, showing a lack of that kind of ammunition.

The steamer Philadelphia sailed to-night with despatches for Gen. Butler and large quantities of shell.

A number of 32 pounders have been mounted on Long Bridge entrenchments.

A prison bird was discovered and arrested this morning while attempting to poison some of the Michiganders with strychnine in water offered them to drink.

The rebels are in great force at Memphis, Tenn., and vicinity.

A St. Louis dispatch given in the Traveller Extra mentions the arrest of several prominent men there, as rebels, among them Col. J. W. Preston, and O. W. Barrett.

The west end of the Osage Bridge of the Pacific Railroad, nine miles this side of Jefferson city, was burned yesterday, and the draw left open.

CHAMBERSBURG, June 13.—Col. Wallace, with a portion of Indiana Zouaves, left Cumberland yesterday for Romney, Va. where he surprised 500 rebel troops, and after a brief conflict routed them, capturing some prisoners, killing two, and taking their camp equipage, provisions, medical stores and arms. One of the Zouaves slightly wounded.

PHILADELPHIA, June 13.—The entire State loan of three millions for the war has been taken at par.

ST. LOUIS, June 12.—About 200 State troops were sent from Jefferson down the Pacific Railroad, last night, and a part of the Gasconade bridge has been burnt by order of the State authorities. The telegraph wires have been cut a short distance from Jefferson, and operators are forbidden to make repairs for the present.

MAJ. WINTHROP.—A New York Times Washington dispatch of the 12th, says he is missing, supposed to be a prisoner; a Fort Monroe dispatch of the same date says he *fell*, mortally wounded, into the arms of a Vermont volunteer; and a special Washington dispatch to the Traveller, of the 13th, says:—

It is stated that Maj. Winthrop, before reported missing, is safe at Newport News.

☞ The annual session of the New Hampshire Convention of Universalists will be held in Manchester, Wednesday and Thursday, June 19th and 20th. The Occasional Sermon by Rev. A. J. Patterson (Rev. T. Barton substitute) will be given on Thursday morning.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr. Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deloging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

A CONTEMPTIBLE HOAX.—On Wednesday noon we received a dispatch announcing a renewed attack, by Gen. Butler, on the rebel batteries at Great Bethel, resulting in their capture and that of one thousand prisoners. Not doubting its truth, we immediately issued an extra containing it. Almost every other daily paper in New England appears to have done the same. But the want of confirmation soon threw distrust over its correctness, and led to a perception of its true character—a miserable, contemptible hoax. These things are certainly getting to be too frequent; but if any one can provide a remedy, we are sure the conductors of the press will be as grateful as any other class. This particular piece of delusion first saw light in the New York Herald, and that paper certainly owes it to the community to explain the circumstance to the fullest extent in its power.

THEATRE.—Mr. W. B. English's new play of the "Patriots of 1861" is announced for this evening. This piece has had a great run in other cities, and will no doubt prove a great card to-night.

MARRIED,

In this city, 12th inst., by Rev. Mr Gage, Capt. JAMES MOORE to Miss ELIZABETH MURRAY, both of this city.

DIED,

At Newport News, Va., on the 7th inst., JOHN MCCARTY, aged 25, formerly of this city.—The circumstances of his death were as follows:—He was a member of Capt. Clark's rifle company, and when the picket guard gave the alarm of an approach of the rebels, all hands flew to their arms, and in the confusion McCarty was accidentally shot.—He was a cabinet maker by trade, and was formerly in the employ of Samuel M. Dockum, of this city.—Boston papers please copy.

Call on your grocer for Herrick Allen's Gold Medal Saleratus. It is the only perfectly healthy Saleratus made. After using one half the paper, if you are not satisfied, return the balance, and get the money paid for the whole. It is much better to use with cream tartar than soda. It is peculiarly adapted for dyspeptic persons. For sale by grocers and druggists, and at wholesale by all dealers. Depot 112 Liberty street, New York.

Dr. H. E. Howell, of New York, says that the most effectual remedy to improve the tone and energy of the stomach, is the *Oxygenated Bitters*. For Dyspepsia and Indigestion these Bitters are unparalleled, as numerous cures testify.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEFEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."
Such News we are receiving Daily.

HUTCHINS' HAIR DYE,
THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.
The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

LIFE INSURANCE.
'IN THE MIDST OF LIFE WE ARE IN DEATH.'
The strong man often falters, and falls in the midst of the hurry and business of life. The *wise* man maketh provision for those whom he loveth, against the liability to accident and death.
THE
MUTUAL LIFE INSURANCE CO
Of New York,
with an accumulated capital of over
SEVEN MILLION DOLLARS,
invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues
POLICIES on lives, payable to the wife, or to the legal representative of the person insured.
POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.
PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.
The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.
The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.
No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

STEAMER CLIPPER.
This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.
Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—*giving* the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.
There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.
The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.
Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

☞ The Maine lumber "drivers," being Union men, have hit upon the novel idea of appearing in red shirts and pants.—Some of them have their pants ornamented with stars and stripes, and wear belts inscribed "Union."

☞ It is proposed by the Bunker Hill Monument Association to display a flag in an upright position, at the top of the monument, for the first time, on the 17th of June. The flag is to be presented by the ladies.

☞ Some of the old jewels, antiques, &c., that were stolen from the Uffizzi gallery in Florence some time since, have been recovered. They were buried, and a hen scratching the ground away led to their detection.

☞ At Holywell, Flintshire, Eng., a woman, 77 years of age, murdered her aged partner because he was troublesome and required her constant attention.

disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, and see how speedily they relieve themselves of the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Partnerding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After one child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach

From Dr. Edward Boyd, Baltimore.

DEAR REV. AYER: I cannot answer you what complaint I have cured with your Pills better than to say I will cure *ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRESLE,
Clerk of Steamer Charlton

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1855.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their action upon the liver makes them an excellent remedy, when given in cathartic doses, against the *bilious dysentery and diarrhea.* Their sugar-coating renders them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in Sickness. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the *humors of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Flatulence, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada

Too much cannot be said of your Pills for the cure of costiveness. Brothers of our fraternity have found them as efficacious as I have, they should make the most of them in the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the prolific parent of other more dangerous diseases. I believe no disease to originate in the liver, but your Pills affect that organ and cure the disease.

From Mr. E. Smart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent purgatives for those who will not or from whom wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hewitt, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 5, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were decisive, and now, by persevering in the use of them, I am now entirely well.

SYDNEY COLLINS, Salem Bridge, La., 5 Mo. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that had troubled me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the fact that everyone who purchases will frequently follow its incautious use. These Pills are mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

REAL ESTATE IN NEW CASTLE
FOR SALE.
The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

BININGER'S
GENUINE
Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy,"

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighths and Quarter Casks.

PURE LIQUORS AND WINES
FOR PRIVATE USE AND MEDICAL PURPOSES.
We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no runners, agents or agents whatever—Persons who require *Pure Liquors and Wines,* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

SOMETHING MORE VALUABLE
THAN SILVER OR GOLD,
BECAUSE
IT WILL RESTORE THE WEAK,
AND REINSTATE THE BLOOD IN ALL ITS
ORIGINAL PURITY & VIGOR.
It is
PROF. O. J. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form of which it can be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known; in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it acts in perfect harmony with the laws of nature, and restores the system to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement.

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Peveloure was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a testimonial to the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the best article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*Let it is the best ye puration of Bitters that has ever been offered to th. public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JUNE 15, 1861.

NEW HAMPSHIRE OF OLD.—The name New Hampshire was given the colony in 1629, in honor of Capt. John Mason, the proprietor of the territory, who was Governor of Portsmouth, in Hampshire, England. By him the first house in Portsmouth was erected, in 1631.

The New Hampshire settlements allied themselves to Massachusetts colony, in 1641, which governed and protected them almost 40 years.

But in 1680, the King of England, Charles II., broke off the connexion with Massachusetts, and made New Hampshire a Royal Province, governed by a President and council appointed by the crown, and a house, or assembly, of representatives chosen by the people.

The first legislative assembly under the royal charter was held in March, 1680.—It consisted of eleven members. A declaration in the code of laws passed by this assembly gave great unbrage to the king, indicating, as he thought, an unwarrantable spirit of independence. "No act, imposition, law, or ordinance," the declaration proceeded to say, "shall be imposed upon the inhabitants of the province, but such as shall be made by the assembly, and approved by the president and council."—This is said to have been twelve years in advance of a similar enactment in Massachusetts. Thus early did a spirit of liberty and independence germinate among the granite hills of New Hampshire, and give promise of fruit which came to full maturity in after years.

This disposition in our ancestors, exhibited 180 years ago, to have all laws and ordinances made by the real representatives of the people,—is, we think not yet extinct among their descendants of the present generation. The people of New Hampshire, now, as then, will stand by the representatives of their own choosing, and the laws of their own making,—not easily seduced or frightened into a submission to any foreign king or usurper.

☞ Gov. Jackson of Missouri is as really a traitor to the United States, as Cobb or Floyd. He has just issued a proclamation, in which he says all he can to promote rebellion and civil war in his own State.

To give force to his proclamation, he calls upon the militia to assemble in arms to resist what he calls the invasion of the State by the federal forces. The Governor (after the rebel fashion) has commenced hostilities by destroying the bridges on the railroad connecting St. Louis with Jefferson City, the capital of the State. Gen. Lyon, who commands the U. S. troops at St. Louis, is taking active measures to counteract the designs of the Governor.

The Boston Courier says of the transaction:

The Governor of Missouri has published a proclamation which sounds very much like a declaration of war against the U. S. government.

The Advertiser says of it:

The telegraph furnishes an inflammatory appeal of Gov. Jackson to the people of Missouri, which stamps him as a traitor and proves him worthy to be treated as such.

☞ Gov. Hicks, who has saved Maryland from herself, and to whom Baltimore owes that she is not now a heap of ashes, has just published an address to the people of Maryland, refuting the charge made by Mayor Brown of Baltimore, to the House of Delegates, that Gov. Hicks had any complicity in the unlawful destruction of the railroad bridges on the night of the 19th of April.

BALTIMORE, June 13.—The election in this city passed off quietly. Winter Davis is defeated, he having received 6287 votes to Henry May 8335. Both claim to be Union. In the Third District, Leary (Union) is believed to be elected.

Frederick county gives a large vote for Thomas.

There was no opposition. Webster (Union) is elected in the Second District. The few returns from the Sixth District are favorable to Calvert (Union.)

☞ Counterfeit Threes, on the Tremont Bank, Boston, are in circulation.—They may easily be detected by the fact that there is no shade of green in the counterfeit, whereas in the true note, the green is prominent on the denomination of the bill, and in a lighter shade on the lower part of the bill.

☞ Major Winthrop was the Aid and acting Secretary of Gen. Butler, and the author of the brilliant Seventh Regiment article in the Atlantic Monthly.

LETTER FROM NEW YORK.

NEW YORK, June 14.

Dear Chronicle:—In the interval of our correspondence, the world has lost one of its greatest statesmen, a State a noble son, our country a zealous patriot, and the Democrats their most prominent leader! Never bowing to party, but displaying such noble qualities, that party bowed to *him*; never deviating from his course, amid the endless fluctuations of political life, but progressing arrow-like toward his mark, which, ambitious as it was, was ever pursued with honesty and uprightness; loved by all, admired by all, regretted by all, Stephen A. Douglas passed from time into eternity, and forever and evermore his soul will mingle with those of our Woodbury, our Webster, our Washington, and a host of others whose

"Bones are dust, their home in Heaven."

While his name and memory will influence us to fulfill his command, addressed to his children, but applicable to us all;—words worthy of immortal blazon: "Tell them to obey the laws, and support the Constitution of the United States!"

The Second Regiment of Fire Zouaves has nearly its complement of men, and will probably leave next week, or as soon thereafter as the necessary army equipments can be obtained. They are, if anything, superior to their compatriots of the enginehouses; for, while the 1st Regiment contained many who enlisted on the momentary impulse which the first war news from the Capital naturally excited, the members of the Second have had sufficient time to form a cool and deliberate decision to serve their country and defend their nation's cause.

They have, too, an additional incentive in the death of the lamented Colonel of their fellow-soldiers. The profanity used in their general conversation is omitted always in mentioning the name "Ellsworth," which inspires them with a feeling of reverence, and regret that his brilliant career was so suddenly terminated. Indeed this feeling seems to be experienced by every one who peruses his last letter, the closing sentence of which,—"Confident that he who noteth even the fall of a sparrow will have some purpose even in the fate of one like me,"—proves him to have been the greatest of all great things, a *good* man, having a complete repose in Him, who "doeth all things well."

The accidental omission of my accustomed signature at the close of my last letter, will perhaps prove favorable to the longer continuance of the moral reputation of this correspondence with a community so keenly discriminating as that in which your paper has justly attained its extended circulation. We still remain, however, euphoniously cognomened NEWINGTON.

WASHINGTON, June 13.—Col. Meigs, today accepted the President's commission as Quartermaster General and entered upon the duties of his office. Major Sibley is assigned to the same department, with brevet of Colonel.

About two dozen Postmasters in the seceded States have returned the balance of stamped envelopes and stamps in sums ranging from 80 cents to 50 dollars.

The Postmaster at Mobile has accounted for $2000 worth. The Postmaster at Memphis, while holding on to such property to the amount of $8000, recently sent for an additional supply of a larger value, but this was refused, his dishonest intention having been detected.

Friends of Mr. Douglas representing various States, held a meeting to-night for the purpose of concerting measures to erect a suitable monument in his honor; to make preparation for the delivery of an eulogy on the deceased, on the evening of the 4th of July.

At the Navy Yard this evening, Commander Dahlgreen practised with a new rifled cannon of six inch bore. The cannon is an invention of Commander Dahlgreen, and is just finished. The experiment was highly satisfactory.

The health of the troops on both sides of the river is excellent, the few sick being so from slight diseases incidental mainly to the heat.

A large number of field pieces have been forwarded to Alexandria for the eptrenchments of the Fire Zouaves.

☞ Godey's Lady's Book for July, has the Fisherman's Family for a frontispiece; the double fashion plate and other illustrations. An amusing chapter of Mr. and Mrs. Rasber; Sunshine and Shade; and My Latin Tutor—are among the contents. This brilliant ladies' Monthly will be furnished for the six months commencing with this number for *One Dollar*.

☞ Instruction in military engineering has been commenced at Yale College, with Prof. Wm. A. Norton, a graduate of West Point, as teacher. It is provided for under the donation of $100,000 by Joseph E. Sheffield of New Haven for special practical instruction.

JEFF. DAVIS has been afflicted with hypertrophy of the heart for several years, and his sudden death at any time would not surprise his family or friends.—*Ex.*

☞ Over Ellsworth's peaceful grave, a plendid American flag now floats; it was purchased by the ladies of Mechanicsville.

BALTIMORE, June 13—Noon.—General Banks formally assumed command to-day. It is reported that Cadwallader goes West.

STATE ITEMS.

The house of Mr. Nathaniel Hull, North Charleston, was struck by lightning on Tuesday evening, about 6 o'clock. The bolt entered the chimney, which it partially destroyed, and passed out by the door, knocking down Mrs. Hull, who chanced to be in its way. Mr. Hull took up his insensible wife, supposing her dead, and put her upon a bed. But she was speedily restored by immersion in a tub of cold water.

Mr. George H. Chandler, of Concord, has been appointed Deputy Secretary of State. He is said to be a young gentleman of excellent business qualifications, and will make a faithful and efficient public officer.

The Statesman gives the following synopsis of the Militia Bill:

The first division "exempts" clergymen, physicians, Members of Congress, mail agents, State officers, members of the Society of Friends, etc.

The State is divided into three military districts, corresponding with the Congressional districts, and the bill provides for the enrolment of every free, able bodied male citizen of this State, of the age of 18 years, and under the age of 45 years, not now exempt from military duty. Five dollars fine is imposed for every attempt to evade this provision. If any selectman or member of a city council neglects or refuses to perform any duty assigned him by this act, he is made liable to a fine of twenty dollars.

Measures are to be taken to raise one or more regiments of volunteer militia in each military district, to serve for five years, consisting of ten companies of infantry, of not less than 48 nor more than 64 members, a captain, first and second lieutenants, four sergeants and four corporals, a drummer and fifer. No volunteer under the age of 21 years is to be accepted as the member of a volunteer company without the written consent of his parent or guardian.

The volunteer militia is to constitute a part of the enrolled militia of the State, and be subject to the laws of the State and of the United States, relating to the enrolled militia.

The Manchester American says a literary gentleman of that city loaned to two bookish friends his favorite horse, to go to Concord. Returning at sundown, the gentlemen remarked that the animal had improved during the day, as it made excellent time on the home stretch. The owner at once discovered that the harness had been exchanged, and when the beast was taken into the stable, it gave unmistakable evidence of having been "swapped off." An hour later the matter was explained by the arrival of a messenger and the true horse from Concord. It is proper to say that the gentlemen are very consistent Sons of Temperance.

N. H. LEGISLATURE.

THURSDAY, June 13.

In the House, Mr. Hobbs, of the Committee on the Judiciary, reported that it is inexpedient to legislate on the subject of the liability of towns and cities for defects in highways.

Mr. Kenrick, of the same Committee, reported that it is inexpedient to legislate on the subject of procuring a statue of Washington to be placed in the State House.

Mr. Emery stated that the expenses thus far of the First Regiment, which had been sent to Washington, and of the Second Regiment at Portsmouth, had been met by money borrowed by the late Governor and Council. That money had been expended, and the Governor and Council had no money at their disposal. There were now expenses which must be immediately met, that the Second Regiment may go forward. He wished the Committee on Finance, therefore, to take the matter in hand, and report to morrow, if possible.

Mr. Hughes of Nashua wanted the committee to lay before the House a detailed statement of all expenditures. He would not make an amendment, but hoped the committee would do this.

Mr. Emery said that this would embarrass and delay the committee; he would pledge himself that the Legislature should have a full and accurate statement before the close of the session. The resolution then passed.

NEW YORK, June 13.—A dispatch to the Post states that no attempt will be made on Manassas until Harper's Ferry is taken.

Two hundred Irish families in Alexandria are starving, the men having been induced by Extra Billy Smith to enlist in the rebel army.

It is known that several individuals have gone to Europe to fit out privateers. Many of them are from the northern States.

The government is on their track.

DOVER, DEL., June 13.—The largest meeting ever known here was held to-day. Resolutions were unanimously adopted, requesting Senator Bayard to resign, and calling on the Governor to assemble the Legislature.

ALEXANDRIA, June 13.—Mr. Browne just returned from the vicinity of Romney, reports that after the rebels had retreated some distance, they were reinforced and marched to Romney. The small federal force remaining there retired, leaving a number of stacks of arms behind.

HAGERSTOWN, June 13.—It is said by persons who escaped from Virginia yesterday, that the Confederates shot a Union man named Will, on Tuesday, because he would not enlist. His death roused a wonderful feeling in Berkley county.

PHILADELPHIA, June 13.—Ex-Minister Dallas made a most earnest Union speech to-day at the reception to his friends.

LOUISVILLE, June 13.—Leonard Struiff, a prominent German, advises his countrymen to beware of the disunionists as traitors and advises them to stand by the Union.

The Macon Telegraph says that a company of volunteers from Portsmouth, Va., are sound for the Union.

The Louisville Journal of this morning, accuses the secessionists of taking the oath of allegiance so as to obtain arms, at the same time claiming that the oath is not binding.

Dr. Urban attempted to raise a secession flag over his dwelling to day, but Major Dulph notified him that he would not answer for the lives of his family or safety of his property, and he desisted. A large body of men had assembled, many of whom were armed.

HAGERSTOWN, June 13.—Information was received this evening by express, that the Virginians are engaged every night with dark lanterns drilling holes in the solid rock on which dam No. 4 rests on the Virginian side, to blow up the same. Should they make successive heavy blasts the dam must give away.

Heavy firing is going on at Dam No. 4, and a company of forty-five sharp shooters has gone from Boonsboro' to assist the Sharpsburg Company.

It is reported that four Virginians were badly wounded while boring at the rock.

MARRIED,

In Dover, June 8, by Rev. D. P. Leavitt, Mr. JACKSON SHAW, of Freedom, to Miss HANNAH S. FOSS, of Rochester.

DIED,

In this city, June 14th, Mrs. MARTHA CHASE, aged 85 years and 10 months.

☞ Funeral on Sunday at half-past 12, from the house of Capt. C. H. Chase, No. 96 Water st. Relatives and friends are respectfully invited to attend.

At Newcastle, Friday, June 14, Mrs. RACHEL BOARDMAN, aged 58 years, 2 months and 5 days, widow of Mr. Wm. Boardman, of Newburyport. She was a woman of high intellectual and moral attainments and christian character, retaining her faculties to a great age, and till a recent period. She was the oldest person in the town or the immediate vicinity.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Local.

☞ The contemplated excursion of the members of the Legislature to this city, has been nipped in the bud. On Thursday, a resolution was introduced by Mr. Frye of Francestown, that a committee of three be appointed, with such as the Senate may join, to take into consideration an excursion to Portsmouth, and to confer with the managers of the Concord & Portsmouth Railroad in relation to the same.

Mr. Goodall, of Portsmouth, stated that, as he understood the idea of those who offered the resolution, it was to go some day when the House was not in session, and not at the expense of the State, but to make arrangements to have those who desired to go, conveyed as cheaply as possible.

Mr. Woodman, of Dover, said he hoped the object of the excursion would be stated.

Mr. Coffin, of Concord, thought they might be better employed than by making arrangements for an excursion to Portsmouth, or anywhere else. They had better attend to the business of the session;—and, if there was nothing to do, they might as well go home.—The question was then put and the resolution was voted down—88 to 95.

☞ A few days ago, a new Flag was raised at Fort Constitution. The old Flag, which has long fluttered in the breeze, it is said was first raised by Major Anderson, when he was stationed at the Fort. But time has injured it, and, after a salute, it was lowered for the last time. The new one, which takes its place, was elevated amid the cheers of the volunteers and the booming of cannon. The Maine Company, at Fort McClary, being attracted by the unusual noise, appeared on the parapet and also gave three cheers.

RETIREMENT OF MR. TULLOCK.—The retirement of Mr. Thomas L. Tullock from the office of Secretary of State, affords an opportunity to remark that a more faithful and efficient incumbent never held office in New Hampshire. His labor will now be bestowed upon another department of the public service—the Navy Agency at Portsmouth. The public papers and volumes at the State House are in excellent condition, and the judicious and diligent hand of Mr. Tullock is perceptible in other portions of the State House than the room in which the public archives are kept.—*Statesman.*

All true, every bit of it—and it is also no less true, that our citizens gladly and cordially welcome Mr. Tullock back to a residence among us.

☞ A commission from the Governor of New Hampshire, consisting of Major Waitt, of Claremont, and Dr. Straw, of Henniker, were in Boston Thursday, to make arrangements for the transportation of the Second New Hampshire Regiment to Washington. It was finally decided to have them go by steamer from Portsmouth direct to Washington—and Capt. R. B. Forbes will probably take the contract. They hope to get away by Tuesday of next week.

☞ Several of the companies of the 2d Regiment were supplied on Friday with new blouses—of dark blue flannel. The appearance of the troops, it must be admitted, is materially improved by the change, and doubtless it will also be conducive to their comfort. They were also supplied with new canteens, made of tin covered with cloth.

THEATRICAL.—The celebrated play of Rosina Meadows, which has not been performed in Portsmouth for several years, is announced, with Miss Helen as the heroine, a part in which she excels beyond all others. The piece is finely cast. Two other plays are to be performed, rendering the bill of fare very attractive.

☞ In consequence of the illness of Capt. Gilpatrick, of the steamer "Clipper," she will not be here on the 15th, but will be delayed a few days.

☞ A boat containing four gentlemen, named Sidney A. Willard, James E. Greenleaf, Dr. James C. Clark and Mr. Thompson, was capsized in Boston harbor, and the gentlemen narrowly escaped drowning, on Wednesday afternoon.

☞ John B. Murray, banker, 39 Nassau street, New York, is authorized by the War Department, with the sanction of the Postmaster General, to forward free letters and packages for the army at Washington, Alexandria and all the advanced posts of the army.

PHILADELPHIA, June 14.—Baggs & Rowland's wagon factory was burned last night. They were engaged on a contract for army wagons. It is supposed it was fired by an emissary of the enemy. The building was fired in three places.

☞ Advices from East Tennessee state that the Union men there are fully determined to resist the rebels, and will not hesitate to defend the government.

☞ Prince Alfred arrived in Quebec on Wednesday evening, and was received by the civil and military authorities.

☞ The National Intelligencer estimates the Union vote at the recent election in Kentucky, at 80,000.

☞ Prince Gortschacoff, Governor of Poland, died at Warsaw on the 30th.

NEW YORK, June 14.—The barque Gen. Green, of Charleston, from Sagua for Baltimore, was seized as a prize by the gunboat Quaker City, and arrived this morning in charge of a prize crew.

The President of the Chesapeake and Ohio Canal, had an interview with Gen. Johnston relative to the destruction of dams, boats, &c., but the latter said his orders were to destroy everything which might be serviceable to the federal government, whether belonging to Maryland or any other State!

The rebels still hold a battery at Great Bethel.

Maj. Winthrop was shot by a Louisiana fireman while heading a charge. He was buried by the rebels, who greatly praised his heroism.

The rebels report one killed and five wounded, and express a wish that Gen. Pierce may be retained in command.

A Washington clergyman, who was permitted to walk to Washington from Manassas Junction, says he conversed with Beauregard, and the latter intimated that he intended to make an advance on the federal lines. It is his opinion that the rebels will evacuate Harper's Ferry, and join the army at Manassas Junction in a movement on Washington.

Gen. Scott has recently given orders indicating the expectation of a sudden onset by the rebels on Washington from the east.

Two officers are said to have resigned in consequence of Gen. Pierce's conduct at Great Bethel.

All the troops from New England, New York and Pennsylvania, previously destined for Fortress Monroe, have been ordered to report at Chambersburg.

Reliable information says the camp at Manassas is breaking up—destined probably for Winchester, there to make a stand against our forces.

LOUISVILLE, Ky., June 14.—The Southern papers advise the farmers to save everything in the shape of fodder, wheat, rye, oats and straw, and they are very much in want of printing paper. Salt, lead and leather are scarce.

The Memphis Avalanche advises free negroes to work in the entrenchments at Randolph, and says they will be forced to do so if they do no volunteer.

Dr. H. E. Howell, of New York, says that the most effectual remedy to improve the tone and energy of the stomach, is the *Oxygenated Bitters*. For Dyspepsia and Indigestion these Bitters are unparalleled, as numerous cures testify.

This beautiful river boat will run on the Piscataqua this season, on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording every facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the disatoh and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

L. LAIGHTON.

From the Portsmouth Journal.

NAVY YARD.—The splendid frigate SANTEE received her crew last Saturday, by the steamer State of Maine from New York. Her complement is 470 men in all. She is in commission, and will probably sail in a very few days. Her destination is unknown. She carries two eight-inch pivot guns, 64 pounders; ten eight-inch shell guns, 63 cwt. each; sixteen 32 pounders, 33 cwt. each; twenty 32 pounders, 27 cwt. each; two heavy howitzers, 12 pounders. Also, 940 eight-inch shells; 144 thirty-two pounder canister shot; 144 thirty-two pounder grape shot; 48 eight-inch grape shot; 208 eight-inch solid shot; 2880 thirty-two pounder solid shot; 35,000 pounds powder.

The sloop MARION is ready for her crew. A portion of her officers have already reported. She will probably sail in the course of next week.

The sloop DALE is being rigged, and will be ready for her crew next week.

The two steamers OSSIPEE and KEARSARGE are in progress. The first of these has already been described. The Kearsarge (named from a mountain in New Hampshire) is of the size and built from the same model as the MOHICAN, sent from this station two years ago. The new ship will carry two eleven-inch pivot guns, and four thirty-two pounders, of 42 cwt. each. It is highly creditable to Constructor W. L. Hanscom that the Mohican is to be duplicated in form; and our Constructor, Isaiah Hanscom will equal her in workmanship. The Mohican has proved herself one of the best ships in the service. The Kearsarge will be built on the railway and launched through the Floating Dock in October.

Sailmaker Samuel H. Boutwell, U. S. Navy, of Virginia, ordered to the frigate Santee, about to sail from this port, resigned on the 13th inst. He was obliged to flee from Norfolk, and leave family, friends, and property, to escape the wrath of the secessionists. As the Santee may be ordered to Norfolk, he prefered resigning to fighting his acquaintances, or bombarding the town. It is not his intention to join the rebels, or visit them, until they are better disposed towards Union men.

WORTHY ATTENTION.

The attention of military men is particularly requested to Hall's Patent India Rubber Drinking Tube. This important and useful invention is invaluable to troops on a march, and for hospital use. It supplies the parched lips of a wounded soldier with a grateful beverage without moving his position. He may also drink from brooks full of animated life, without imbibing anything but pure water. The article can be obtained of Wm. R. Preston, at the low price of 75 cents.

From the N. H. Gazette.

MASONIC.—The Annual Communication of the Grand Lodge of New Hampshire was held at Masonic Hall, in Concord, on Wednesday. The following officers were elected for the ensuing year:

Aaron P. Hughes, Nashua, M. W. G. M.
Chas. H. Bell, Exeter, R. W. D. G. M.
R. N. Ross, Dover, R. W. S. G. W.
G. W. Balloch, Somersworth, R. W. J. G. W.
John Knowlton, Portsmouth, G. T.
Horace Chase, Hopkinton, G. Sec'y.

The petition of Lt. Col. F. S. Fiske, Maj. J. H. Stevens jr., Capt. T. Snow, Capt. T. A. Barker, and others of the Second Regiment of Volunteers, for a dispensation for a travelling lodge in connection with said regiment, was granted. The regiment has already a very large number of good Masons, with which to commence work.

BEAUTIFUL TYPOGRAPHY.—Our friends McFarland & Jenks, of the New Hampshire Statesman, who have become celebrated throughout New England for the excellence of the work from their printing office, have issued a new edition of the beautiful calendar which excited so much admiration among printers on its first appearance last winter. This new edition, which gives the day of the month from June 1861 to June 1862, is beautifully printed in red, blue and gold, and bears the Stars and Stripes in the center of a golden star. Around the star are the months, each inclosed in a circle, and the whole surrounded by a circle of gold.

☞ It is said that the vulcanized rubber haversacks and canteens furnished for the soldiers of the Second Regiment, have proved entirely unfitted for the purpose for which they were intended, and will be condemned.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE,
Portsmouth, June 14, 1861.

HAVING received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 39, which is as follows:

Be it ordained, &c. Sect 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth without a muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

Sec. 2. And it is hereby made the duty of the City Marshals and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of the city, and not on the premises of the owner or keeper thereof.

Sec. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gentl.—I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it broke out in blotches on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my whole head sore with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disease grew worse. At length I was induced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you put forth was reliable. I sent to Dunkinsburg and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. Now my head and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the unwavering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from one two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I must cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we prescribe it, and especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the cures I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She was cured entirely by your Sarsaparilla in few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a valuable medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Hogan, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and I feel as if it would be blessed to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our limits will not admit of them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivaled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized world, and to all the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

BININGER'S

GENUINE

Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of vital importance to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the increased demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no traveling or other agents whatever.—Persons who require *Pure Liquors and Wines*, in large or small quantities, may rest assured that all orders will receive our best personal attention; and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

SOMETHING MORE VALUABLE
THAN SILVER OR GOLD,
BECAUSE
IT WILL RESTORE THE WEAK,
AND REINSTATE THE BLOOD IN ALL ITS
ORIGINAL PURITY & VIGOR.
It is
PROF. O. J. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully compounded as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and slay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA
INDIGESTION, LOSS OF APPETITE,
FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY,
HYPOCHONDRIA, NIGHT SWEATS,
LANGUOR, GIDDINESS, AND ALL
THAT CLASS OF CASES SO
FEARFULLY FATAL, CALLED FEMALE
WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Disease of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal, for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and inviting to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement.

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis is Daily Express.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence is it perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." DAVID BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 39 Milk street, Boston.
I certify that my friend, Wm. T. Gildden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1859, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound." After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics and stomachics*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half pints as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Portsmouth, N. H.

MONDAY, JUNE 17, 1861.

N. H. LEGISLATURE.

FRIDAY, June 14.

In the Senate, a joint resolution from the House, authorizing the Treasurer to borrow $50,000 for the equipment, &c., of the 2d Regiment, was read twice and referred to the Committee on Finance.

Mr. Chase, from the Committee, reported the resolution without amendment. An amendment was proposed by Mr. Burns and rejected, and the resolution was read a third time and passed.

In the House, Mr. Emery, of the Committee on the Judiciary, reported the bill to reduce the compensation of county solicitors, with amendments. The first amendment was reducing the pay for Rockingham county from $400 to 350.

Quite a spirited debate ensued, in which Messrs. Collins of Exeter, Goodall and Emery of Portsmouth, took part. The amendment was adopted.

The bill was then further amended by substituting $260 for $300 for Strafford; —$175 for $200 for Belknap; $350 for $400 for Merrimack; $175 for $200 for Carroll; $430 for $500 for Hillsborough; $175 for $200 for Cheshire; $175 for $200 for Sullivan, and $175 for $200 for Coos. And, as thus amended, the bill was passed.

Mr. Emery introduced a petition of Hon. Mason W. Tappan and other officers of the 1st N. H. Volunteers, that the officers and soldiers thereof be paid by the State till an appropriation be made therefor by the Congress of the United States. The petition was referred to the Committee on Military Affairs.

On motion of Mr. Blood of Hillsborough, the committee on the Judiciary were instructed to examine the "Personal Liberty Law," and to report as to its constitutionality, and as to the expediency of repealing or amending the same.

A bill authorizing the Exeter Mill and Water Power Co. to convey its mills and franchises to the Exeter Manufacturing Co. was read a third time and passed. Also, a bill relating to gas light companies, compelling gas companies to furnish gas to persons whose buildings are suitably furnished with pipes and connected with the street main, on giving security for the payment therefor.

☞ The Richmond Examiner says the only need of more Southern troops in Virginia is to scare the Administration away from Washington without striking a blow! As to apprehensions from the other side, the editor puts forth the following comfortable assurance:

"We are not informed what amount of Southern troops hover about Washington, or within a day's march of that city; but the number is daily increasing; and the very uncertainty as to the number of our force and its intentions and designs, inspires Lincoln and Scott with a salutary fear, and keeps them in check. To preserve appearances, they will no doubt make an occasional John Brown raid and steal a few negroes, pigs and poultry, but they have no more idea and no more ability to invade the South than to invade England!"

MORE TROUBLE WITH SLAVES.—The Memphis (Tenn.) Avalanche states that on the 6th inst., at Silver Lake, Washington county, Mississippi, a negro belonging to Geo. B. Powell, and employed on the plantation of Mr. Charles G. McHatton, was hung by a Committee of Safety. He had stolen three guns, two pistols, a bowie-knife and a watch, together with a lot of powder and lead, and succeeded in reaching a bridge, under which he secreted himself. As Mr. James S. Dodds was riding over, the negro fired at him without effect. He was subsequently captured and hung.—It is supposed he was induced to steal the guns by several runaway negroes in the neighborhood, belonging to the family of the late Stephen A. Douglas.

REPRESSIVE MEASURES IN KENTUCKY. Advices from Kentucky furnish the assurance that the Union men are about applying remedies for the case of the secession sympathizers, similar to those that proved so effective in Missouri. The overland shipments of contraband articles to the South, and the recruiting for the confederate army will be promptly stopped.

☞ A lady in Rochester sent a dress to a dyer, with instructions to dye it in some colors that would not run. The patriotic dyer returned the dress covered all over with the colors of the American Union.

☞ The Boston Transcript is very nearly correct when it says "the only proper answer to Gov. Jackson's proclamation is an order for his arrest."

☞ We stated a few days since, that Messrs. Allen & Paine, of Boston, recently presented to "Mess No. 7, Pavilion de Mayo," at Fort Independence, in Boston Harbor, a finely printed list of the members, wrapped in an American flag. We publish below the patriotic letter which accompanied the gift, knowing that it will interest many of the friends of that firm, residing in this city.

Soldiers of Mess No. 7, Co. D, Fourth Battalion Rifles:—

We send you with this, at the suggestion of our friend, Leonard Serrat, a list of your Mess, "wrapped in the American flag."—Go forth under that flag in our common holy cause with strong hands and stout hearts, and stay until the war is ended; and when peace shall again smile upon our beloved land, may every member of your Mess answer "here" at the roll call.

If you must fight, remember "Ellsworth," and strike hard. If you must fire on your enemies, take good aim; and if you must meet the traitors in the field, strike strong and deep, and don't draw back your bayonets until you can look over your enemies' shoulders and see the glittering points coming through.

Massachusetts thinks of you every day! Be faithful to her!

God save the old Commonwealth! and the United States of America.

Your friends, ALLEN & PAINE.

Boston, June 4th, 1861.

NEW YORK, June 15.—A dispatch to the Tribune says that Gen. Schenck's Brigade has been ordered across the Potomac. An attack from Beauregard is apprehended. All the bridges on the Alexandria, Loudon and Hampshire Railroad, between Leesburg and the Broad run have been burned by the rebels.

Extraordinary precaution has been taken to guard against a surprise. Additional telegraph lines to pickets fifteen miles off have been constructed, and operators report every half hour night and day. Several additional regiments have been ordered to Washington.

The wives of naturalized Irishmen who have been forced into the rebel army, have applied to Lord Lyons for relief. The British Consul, at Richmond, is ordered to demand their release.

Capt. Ball and a cavalry company, who took the oath of allegiance, have been ordered to leave Virginia.

Henry Winter Davis will probably be minister to Austria.

Dr. Ogden was assassinated in a disunion precinct within six miles of Baltimore, in less than ten minutes after depositing a Union vote.

☞ Some Southerners are fully determined to make a martyr of Jackson, the murderer of Col. Ellsworth, and merchants in Charleston, S. C., subscribed $400 for his family. The Charleston Courier adds:

"The money has wisely been invested in Confederate State bonds for the benefit of the family."

The *wisdom* is quite apparent; the bonds bring 10 per cent. only under the hammer, —and the poor family will probably whistle for their interest.

☞ The worthy Chaplain of Col. Duryea's Zouaves is Rev. Mr. Winslow. He is one of the best of gentlemen as a Chaplain, and withal highly useful in the field. During the engagement at Bethel he was occupied with a small band of Zouaves, rendering important service. The main body withdrew from his vicinity, leaving him and his comrades unnoticed behind. Zouave fashion, they threw themselves face foremost on the ground, and in that way worked themselves out of sight and reach of the guns of the enemy. *Vive les Zouaves!*

NEW YORK, June 15.—The Tribune's special despatch from Fortress Monroe says it is understood an expedition will leave to-night, accompanied by heavy artillery. Gen. Pierce will not command. 500 members of the Naval Brigade are being sworn in.

PHILADELPHIA, June 15.—A despatch from Hagerstown says that an advance guard of Patterson's division, about ten thousand, arrived this morning. The whole column is rapidly moving Southward.

ST. LOUIS, June 15.—Two six pounders and two hundred balls were captured near Linneus, on the 12th. They were destined for Chillicothe, Mo., were 2500 rebels are encamped.

FORTRESS MONROE, June 14.—Fortress Monroe is in reality invested; no aggressive movements can be made with safety without double the present number of troops and means of transportation.

NEW YORK, 15th.—Ship Nightingale, of New York, has arrived in charge of a prize crew from sloop-of-war Saratoga, having been captured off Kabenda, Africa, April 23d, with 800 negroes on board, 160 having died previously.

☞ Gen. Lyon is acting with decision and energy in Missouri. He left St. Louis Friday with a strong force, and proceeded up the river towards Jefferson City. The Governor is also collecting his forces, and is said to expect aid from other States.

☞ Twenty-one Army Surgeons were appointed at the session of the Army Board of Medical Examiners, lately held in New York. Among them, is F. L. Town, of this State. One is from Louisiana, one from Virginia, and three from the District of Columbia.

☞ There was much excitement in Boston, Friday, occasioned by some absurd dispatches said to have been received there, announcing that Washington had been taken by the rebels under Gen. Beauregard.

NEW HAMPSHIRE ITEMS.

Quite a number of ladies, ten in all, who went out with the First Regiment as nurses, have returned, as it was impossible for the regiment to provide for their convenience. Several ladies from the vicinity of Dover, some from Keene and other places, were among the number.

The Nashua Telegraph says, on one of the scorching days of last week, a man was seen with a calf in the bottom of his wagon, "panting in the noontide heat," over which he was holding an umbrella. It could not resist the desire to "make a note of it."

Mr. Jacob Putnam has the tallest rye as yet. Some cut on Monday last, without regard to selecting the tallest, measured 6 ft. 2 in. in height.

Capt. John W. Fife and Wm. Barrett of Nashua, are getting up a company of Zouaves there. They are practicing the Zouave drill and bayonet exercise.

Hollis E. Abbott has been appointed Postmaster of Amherst. A good man for the place.

☞ The Anniversary Parade of the National Lancers, Boston, took place on Friday, after which they partook of a collation at the Parker House. Ex-Governor Goodwin, of New Hampshire, who happened to be at the Hotel, was introduced to the company by Capt. Slade and made a happy and patriotic speech, which was received with great applause.

The principal feature of the day was the dinner at the American House. The Atlas report says that the ninth sentiment was:—

The Governor's Horse Guard of New Hampshire—We hail them as a splendid acquisition to the military force of our country.

Lieut. Rider of Company C, New Hampshire Horse Guard, responded. He made an amusing and patriotic speech, sandwiched with story and anecdote. He concluded with a toast complimentary to "Massachusetts soldiery."

THE EVACUATION OF HARPER'S FERRY. *Baltimore, June 14.*—A letter confirms the reports of the burning of the bridge at Harper's Ferry. The correspondent says he heard the explosion and went up to see the conflagration. All the troops had gone from the Maryland side and were hurrying out of Harper's Ferry as fast as possible. He says the town will be troopless by 12 o'clock to-night. They are moving towards Winchester in great haste.

Eight car loads of provisions were destroyed, to prevent their falling into the hands of the Union forces.

A correspondent at Sharpsburg says the Virginians had shot at the dam, No. 5, and that an attack was being made at the warehouse at Mercerville which the people were preparing to resist. The purpose of the rebels is to rob it.

COTTON VS. WHISKEY.—The editor of the Brookhaven (Miss.) Advertiser offers the following arguments in favor of raising more corn than cotton:—

We have always been persistently in favor of planting a large crop of corn, even if cotton has to be a little neglected, particularly in times like these, when communication with the Ohio may be cut off at any moment. Corn is a necessity, but cotton is only a convenience. A man can live very well without a shirt, but what can he do without whiskey?

STEAMER LOST.—The steamship Canadian, which left Quebec on the 1st inst. for Liverpool, was lost near Belle Isle on the 4th inst., in consequence of striking on a sunken iceberg, causing the ship to sink in about thirty-five minutes. It is reported by the telegraph dispatches that twenty or thirty persons—passengers and crew—were drowned, but the list of passengers saved shows that thirty-five persons are missing.

NEW YORK, June 11.—The Tribune's dispatch from Fortress Monroe says all the parti ulars relating to the late expedition were communicated to the rebels by a traitor in the camp, who has been arrested. A company in Col. Carr's Regiment refused to parade because two of its members were drummed out for stealing.

The Post's Washington dispatch says that Gen. Scott has received a dispatch confirming the reported evacuation of Harper's Ferry by the rebels.

FREDERICK, Md., June 14—Evening.—At 5 o'clock this morning the great bridge of the Baltimore and Ohio road over the Potomac was fired, and soon after a tremendous report was heard, caused by the explosion of the mines under the centre span. In one hour the entire structure was in ruins. The bridge was a thousand feet long and had six spans. The telegraph station and other railroad works were destroyed. The fire was raging all day in the government works. None of the national property remains except a dwelling for officers, and two of the twenty armory buildings.

PINE WOOD.—The New York papers report that large quantities of pine wood, for fuel, have arrived within a few days from ports in Maine and Massachusetts;—the supply from ports in Virginia having ceased. There is a large stock on hand, and it does not command an extra price.

☞ All the regular Union candidates for Congress, in Maryland, except Davis, are probably elected. May, who was chosen in place of Davis, claims to be an uncompromising enemy to secession, and an independent Union man.

☞ Col. Forney has been selected to deliver the eulogy on Douglas on the 3d of July at Washington.

THE COMING FRENCH STEAMERS.—In the course of the next week, we shall probably witness the arrival here of the French squadron sent out to reinforce the West India fleet. Admiral Raynaud, the commander, comes with instructions to examine the principal navy yards and harbors of the coast, from Portland southward. No better opportunity could be afforded, of testifying the national appreciation of the conduct of the French Government, in renewing its declarations of warm friendship, at this critical era of our fate.—*N. Y. Times.*

WHEELING, VA., June 14.—In the Convention to-day, the Committee on Business reported an ordinance vacating the seats of all the State officers now in rebellion against the United States, and providing for a provisional Government; also that State, county and municipal officers take the oath of allegience to the United States. The ordinance was made the special order for Wednesday next.

Five hundred stand of arms, a loan from Massachusetts, arrived here to-day, for distribution to the Home Guards in this and adjoining counties; 1500 more are expected to-morrow.

REDUCTION OF INSURANCE RATES.—The Board of Underwriters of New York have again reduced the war rate, making it only one per cent., which is a return to the old rates of a fortnight ago. This action is prompted by the later advices from Europe in regard to privateering.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic,* diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease.* Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it *is the remedy.*

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry,* and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. So *the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and depriving night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery; and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

☞ The following correspondence was occasioned by the presentation to Capt. W. O. Sides' Company, of many well-made and useful garments, &c., by the patriotic ladies of this city.

To Captain William O. Sides, officers and privates of Portsmouth Co. 2d Regt. of New Hampshire Volunteers,

Gentlemen:—Deeply grateful to the gallant sons, who so nobly respond to the sacred call of their country in defense of our national government, in this dark hour of civil war—yet cheered by the certainty that the greater evil of tamely submitting to the demands of a slaveholding absolutism is, by this promptitude in action, to be avoided, and the spirit of rebellion forever crushed, —the ladies of Portsmouth offer their humble efforts to the holy cause, and beg your acceptance of the accompanying garments for the field of duty, trusting, through the strength and favor of Divine Providence, for which their prayers will be continually offered, that the sacred efforts in which you have engaged, in co-operation with those of the whole army, may be safely conducted to that success which shall form the brightest page of our nation's history.

YOUR LADY FRIENDS.

Portsmouth, June 14, 1861.

PORTSMOUTH, N. H., June 14.

To the Patriotic Ladies of Portsmouth:—Language is inadequate to express the kind thanks of myself and of those whom I have the honor to represent, for the very acceptable and useful present of those valuable and indispensable articles which we received from your hands to-day.

The numerous kind attentions to our wants, which have met us on every side, and the consciousness that we carry with us the good wishes and prayers of the mothers and daughters of our beloved land, inspire our hearts with grateful emotions, and will give us courage in the hour of danger and conflict, to repel the attacks of the invading foe at the peril of our lives.

Reposing our trust in that Power which has ever sustained us, and on which we rely for success, (for God will speed the right,) and imploring the blessings of Heaven upon you for your sympathy and aid,

I am, very truly, your obliged servant, in behalf of the Portsmouth Co. Volunteers, 2d N. H. Regt., WILLIAM O. SIDES.

☞ We understand that the arrangement now is, that the Second Regiment shall leave this city on Thursday morning next for Boston, by the Eastern Railroad. On their arrival in that city they are to proceed at once to the Music Hall, whence they will march to the Common, and be reviewed by his Excellency, Gov. Andrew. In the afternoon, they will start for New York, by the Fall River Line.

Dr. J. Baxter Upham, Col. Robert I. Burbank and W. D. Ticknor, a committee from the Sons of New Hampshire in Boston, visited this city on Friday, to make arrangements for an appropriate reception of the regiment in Boston.

☞ Mr. Josiah Perham has made arrangements with the Eastern Railroad for a grand Excursion to Boston from this city and Seabrook and intermediate towns, on Saturday, June 22. One great attraction is a visit to the Aquarial Gardens, and this inducement alone has carried large parties from Salem, Lawrence, and other cities on the line of the Railroads, during the past few weeks. Parents should take their children, and those who have not should take those of their friends. Let those now go who never went before, and those who have been, not stay away on that account.

☞ We are informed that a committee of the citizens of Keene were in this city on Friday, and presented each of the members of the Cheshire Light Guard with one of Hall's Patent India Rubber Drinking Tubes. The citizens of that town will soon become famous for their attention to their volunteers. Twice before, we understand, they have made up such surprise parties—at one time having presented each man with a revolver, and the second time with twelve dollars.

☞ The City Marshal announces that the provisions of the ordinance in regard to dogs will be strictly enforced on and after Monday next. The result will be that the board bills of many worthless curs will suddenly cease, while those dogs which are considered of any value, will be looked after carefully by their owners.

HARVARD PRIZES.—The Bowdoin prizes at Harvard University for the coming year were announced by the President on Friday. Among them was a prize of thirty dollars to Frank Warren Hackett, of this city, a member of the Senior class, for a dissertation on the subject: "Fenelon as a Critic, a Theologian, and a Metaphysician."

☞ A writer in the New York Times says:—

From a gentleman, who is well informed, I learn that the rebels are entirely out of leather, and so their movements are restricted for the want of shoes for the men, harness for the artillery, and saddle-trappings for cavalry. There are but a few small tanneries in the South, and if the Government will only enforce its embargo by land and sea, the rebels will be greatly embarrassed in their operations. The rebels are also short of materials for making caps, although they have constructed a machine for making percussion caps, from a drawing in the State Library at Richmond. They are also out of chemicals for making detonating powder, and therefore cannot employ shells for the want of fuses.

CHRONICLE EXTRA.

SUNDAY AFTERNOON, JUNE 16.

LATEST NEWS!

BY TELEGRAPH TO THE CHRONICLE.

From the Agent of the Associated Press.

BOSTON, June 16th.—The schooner Savannah, a privateer, was captured by the brig Perry, off Charlestown. Her crew, numbering 30 men, were taken prisoners, and are now retained in irons on board the Minnesota. The Savannah arrived at New York, yesterday, in charge of Midshipman Cook. She had previously captured brig Joseph, of Rockland.

Jefferson City, capital of Missouri, was taken possession of yesterday, by federal troops, under Gen. Lyon. Gov. Jackson had fled. The federal troops were warmly welcomed by the citizens.

First Mass. Regiment, Col. Cowdin, left this city at a late hour last evening, for Washington.

It is rumored that Senator Johnson of Tennessee is to be arrested by rebels for treason against the State.

There were no important military movements yesterday.

Reports of evacuation of Harper's Ferry are fully confirmed.

Governor Wise with 30,000 men is at Staunton, Va. He intends to oppose the advance of Gen. McLellan's force.

Call on your grocer for Herrick Allen's Gold Medal Saleratus. It is the only perfectly healthy Saleratus made. After using one half the paper, if you are not satisfied, return the balance, and get the money paid for the whole. It is much better to use with cream tartar than soda. It is peculiarly adapted for dyspeptic persons. For sale by grocers and druggists, and at wholesale by all dealers. Depot 112 Liberty street, New York.

Dr. H. E. Howell, of New York, says that the most effectual remedy to improve the tone and energy of the stomach, is the *Oxygenated Bitters*. For Dyspepsia and Indigestion these Bitters are unparalleled, as numerous cures testify.

LOST,

On Saturday, near the centre of the city, a SILK PURSE with a dollar bill in it, a half dollar and other change. If the honest finder will leave it at the Chronicle Office, he shall receive a suitable reward, with the thanks of the loser.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and fails in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

ANDREW JACKSON AND DONELSON.—Andrew Jackson Donelson, the candidate of the American party for the Vice Presidency in 1856, has joined the disunion party, and avowed his determination to draw in the disunion cause the sword bequeathed him by Gen. Jackson. We have before us the following extract from Gen. Jackson's will:

Seventh.—I bequeath to my well-beloved Andrew J. Donelson, son of Samuel Donelson, deceased, the elegant sword presented to me by the State of Tennessee, with this injunction, that he fail not to use it, when necessary, *in support and protection of our glorious Union*, and for the protection of the constitutional rights of our beloved country, should they be assailed by foreign enemies or *domestic traitors*.

"To make war upon the government would be suicidal, and cannot be anticipated until madness and venality have usurped the seats of reason and virtue."

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you sure your blood is healthy? Are you deranged, and your feelings uncomfortable? These symptoms are the precursors of serious illness. Some kind of sickness is creeping upon you, and should be arrested by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the foul blood wherever it may be found, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true of many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them on the appearance of the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Remarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of whereon seven upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaint I have cured with your Pills better than to say all that so *ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I discretionally prescribe them, and believing as I do that your Pills afford us the best we have, I of course value them highly.

Department of the Interior, Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease in which they did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhea, Relax, Worms.

From Rev. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy in cases of dysentery, and in bilious dysentery and diarrhea. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit to discover. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountain of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Temples, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as effectious as I have, they should join me in proclaiming it for the benefit of the suffering who stand in need of that complaint, which, although bad enough in itself, is the propertier of others that are worse. I believe it becomes to originate in the liver, but your Pills adjust that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills taken at the proper time, are excellent preventives of the natural sorrow with which wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church

PLANTERS HOTEL, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me, if I did not report my case to you. A cold settled in my kidneys and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of a you excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Jan. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous as a public pill, from the dreadful consequences that frequently follow its incautious use. These pills are free from mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

15 Greatest Medical Circular Ever Published! 15

Fifteen large letter pages for two 3 cent stamps.

DRS. JACKSON, HERBERT & CO. are Associates of the Peabody Medical Institute, formerly established in 1845. Dr. Jackson, the senior, has been engaged in the practice of his profession for the last twenty years, and has published the following Medical Works, viz: Prof. Egbert Jackson, Dr. Robert Herbert and M. Velpeau. Thorough cures effected with all secrecy and delicacy in Spermatorrhœa, Spermatorrhœa, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Female Diseases, *Diurnal Emissions*, in short, any and all those dreadful effects of Sexual Disease, and at the same time the *general health* of the patient improved, where any impairment in that respect is needed.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special written Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, containing 15 large pages, for a 3 ct. stamp. The "Mountain of Light, or Medical Protector," a new book of three hundred pages, one hundred engraving, price, in sealed envelopes, 50 cts. and one 3 ct. stamp, or 3 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most plain, simple and deeply interesting book on the subjects treated, of now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular.*

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore street, from 8 A. M. till 1 P. M., and from 4 P. M. till 9 P. M., by other hours either Dr. Jackson or M. Velpeau, or both, will be in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, suitable board and careful attendance, at a less price than ordinarily necessary to effect a cure. Patients do not see each other. The most ample guarantee of our ability and good faith promptly given when desired. Fees as reasonable as the very highest modes of treatment known to modern medical science, and a very long and varied experience, will admit. P. O. Box 426. Send for Circular, and state your case ☞ plainly and fully,—and you will receive the Circular and our written reply by return mail. ☞ We will answer no letter unless it contains six cents in stamps. Medicine and instructions sent promptly and carefully to any part of the world.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of ever increasing difficulty requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is universally conceded by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever.—Persons who require *Pure Liquors and Wines*, in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

TRACTS FOR OUR ARMIES AND NAVIES.

I have just published a series of tracts for the brave men who are fighting our battles,—on the use of Tobacco, Strong Drink and Profane Language—vices which grow luxuriantly in armies and navies. They are short, sententious in style, and alive with patriotic sentiments and pictures. They will be read. They will prepare the way for productions of a more religious kind, which fall dead on soldiers stupefied by strong drink and tobacco smoke.

If gentlemen who make handsome donations to furnish camps with religious "reading," will send me only "the crumbs which fall from their tables," I will supply our camps with tracts which will render such reading more effective, by cutting up loathsome vices, which stand in the way of Christ and salvation. GEO. TRASK.

Fitchburg, Mass., June 13, 1861.

☞ The New York Commercial Advertiser states that Mr. Simeon Draper has received a private letter from a prominent gentleman in Kentucky, in which it is stated that there is no doubt whatever that Jeff. Davis has at his command 100,000 men. He suggests that 200,000 should meet them, and make the war a short one. He intimates that a Union Defence Committee has been formed in Louisville, Ky.; also that the rebels had purchased some $1,800,000 worth of provisions for their army. He has no doubt that an attack will be made on the southern portion of Kentucky. He hopes for the aid of federal arms when the time comes. In reference to the letter of Mr. Holt to Mr. Speed, he states that Mr. Holt's firm stand for the Union is doing great good in the State, and that it is important that this spirit should be fostered and protected in its progress.

☞ The Rockingham Conference of Congregational and Presbyterian Churches, in their session at Exeter, passed resolutions in support of the government at the present crisis. One resolution was as follows:

Resolved, That being the professed subjects of the Prince of Peace, and placing perfect confidence in the wisdom of his government and the reliability of his providence, we feel in the present circumstances called upon to aid in quelling the rebellion now desolating our land, by the sacrifice of our property, and, if need be, our lives, in the cause, — believing a mighty demonstration of patriotism and power to be, with God's blessing, the most certain physical means of preventing bloodshed, and of bringing about an early and successful issue of our present troubles.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEFEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, I relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded speedy relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

TUESDAY, JUNE 18, 1861.

STATE ITEMS.

John G. Fuller, Esq., of Hillsborough, President of the Valley Bank, died very suddenly at Nashua, Friday noon, at one of the hotels of that city. He left the dining room, remarking that he felt ill, and died before the arrival of a physician. He was one of the most active and enterprising men of the town in which he resided. His age was about 56 years.

A little boy about four years of age, son of Mr. Griffin of Great Falls, last Friday afternoon, during the absence of his mother from the room, poured a quantity of burning fluid on a hot stove, and was so badly burned in consequence, that he died the next day.

The late meeting of the New Hampshire Historical Society was of a very interesting nature. The address by Rev. W. T. Savage of Franklin, evinced decided talent and deep research into the historic lore of our State. The officers for the coming year are as follows:—President, W. H. Y. Hackett; Vice President, Joseph E. Walker;—Corresponding Secretary, Rev. N. Boston. Among the honorary members added to the Society, are Phillip Eastman, Esq., of Me., and Major Seth Eastman, U. S. A.

Mrs. Polly Smith of Meredith, on her 86th birthday, spun four skeins of linen thread, exhibiting scarcely a sympton of fatigue. During the past spring she has spun some forty-five skeins of as handsome thread as can be found, besides attending to various domestic matters. She has had nine children, seven of whom are living, and has lived on the same farm 53 years.

The Nashua Telegraph says the Rollins gun, made by a firm in that city, was tried with ball cartridges, at a distance of three-quarters of a mile. The target was hit several times, and the shots all demonstrated that in the hands of trained artillerists it will be very effective. On Wednesday it was tried with blank cartridges, to test its capabilities in rapidity. The average rate for about fifty discharges was a fraction over fifteen a minute. The gun is hung upon a pivot, so as to be aimed in any direction with the greatest readiness, so that to storm a battery would be utterly impossible.

The Statesman says two years ago the full length portrait of Daniel Webster was suspended in the Representatives' Hall, at the State House, being brought thither from Boston, and the proposal made that if gentlemen in New Hampshire would raise $500, the sons of our State, dwelling in Boston, would raise $500 more, and the portrait should remain forever in the apartment. It is, as a work of art, of undoubted excellence, and its removal would be a disappointment to many and a reproach to us all. Two years ago one hundred dollars were collected of members of the Legislature; and one year ago ten dollars more were raised, just as the Legislature was dispersing. Since the portrait was placed in the State House, an opportunity to sell it to parties in Philadelphia has been lost, and if the proposal made two years since is not acceded to, it will soon be conveyed back to Boston.

Col. Dodloff, the oldest officer of the old 29th Regiment,—in Belknap county,—has extended an invitation to all the former officers and soldiers of the old 29th and 10th Regiments, N. H. Militia, between the ages of 40 and 75 years, to meet on parade in front of the Bank at Laconia, on the 4th of July, at 10 A. M., armed with muskets without bayonets.

The Manchester American says whatever prejudice may have existed against the Reform School has passed away. The present year, a barn, 100x42, has been erected, and a large two-story work-shop, 55x26 feet, which, with the shed accompanying, have not exceeded in cost the sum of $2000. The farm has been constantly improved in productiveness, and now that it is furnished with proper buildings, will become still more valuable and remunerative. There is a pressing necessity of additional furniture in the house. This has never yet been sufficient for the real wants of the boys. An appropriation by the State seems to be necessary.

LETTERS are brought from the Southern cities to Baltimore by express companies and there deposited in the Post Office to their address in the North or West. By this arrangement the postage on a single letter is raised from three cent to half a dollar. Letters cannot be sent *from the North* by a similar process.

CAPTURE OF A SLAVER.—*Arrival of the Slave Ship Nightingale at New York.*—The ship Nightingale, J. J. Guthrie, U. S. Navy, commanding, arrived at New York on Saturday morning, May 13th. The Nightingale was captured April 23, off Kabenda, on the Western coast of Africa, by the U. S. sloop-of-war Saratoga, having on board 950 negroes. She was taken into Monrovia, where the cargo was put on shore. The slave cargo which was landed consisted of 272 men, 97 women, 340 boys and 92 girls—160 having died on the passage from Kabenda. A prize crew was put on board the vessel, and the ship brought to New York.

The Nightingale is a clipper ship of 1100 tons burden, built at Portsmouth, N. H., and originally intended for the Baltic and Australian trade. She sailed from New York Sept. 13th, with a load of grain for Liverpool, and arrived at that port Oct. 6, where she discharged cargo and was up for the East Indies. She sailed from Liverpool Dec. 2d, and on the 14th January anchored at the island of St. Thomas, on the African coast. Jan. 22d she was boarded off the Congo by the English steamer Archer and the U. S. steamer Mystic, when she proceeded up the Congo river and remained there until the 1st day of April, when she was fallen in with by the Saratoga and boarded. On that occasion, her papers were found all right, and she was allowed to proceed; but on the 23d of April she was captured, as already stated. The captain, (Francis Bowen,) the Spanish supercargo, and the cabin servants, made their escape from the vessel the night previous to her sailing from Kabenda; a portion of the crew having previously escaped in the boats. Those who did not escape were transferred to the Saratoga and shipped for the service. The three mates of the Nightingale, named Hind, Winslow and Westervelt, were sent home in the ship, to be delivered up to the authorities.

THE DEERING MURDER.—Robert M. Selley about 24 years of age, was arrested at Deering, on Wednesday the 12th, on suspicion of having murdered Dudley Kneeland Chase, in that town, on the morning of May 1. He was taken to Hillsborough Bridge, and tried before Jason H. T. Newell, and Thos. Wilson, Esqrs., on Thursday and Friday, of this week, when thirteen witnesses were examined.

It appeared that Selley was at Chase's house on the night of the murder; Chase had returned home intoxicated, late in the evening, and attempted to bet with his wife. Afterwards offering to bet a quarter that he had $30 in his pocket, Selley "took him," and the quarters were put on the stove. Chase could find only about $4, and Selley took the stakes, exciting Chase's anger. Selley finally made a semblance to go home and was watched by Mrs. Chase, the latter suspecting he was waiting to make an attack on her husband. This was about 2 o'clock at night. Mr. Chase went to a barn three-fourths of a mile distant, where he was found dead in the morning, his skull fractured a length of four inches, and a stone near by, one side of which exactly fitted the wound.

The next morning Selley appeared somewhat excited, and commenced work much later than usual. At the time of the *post mortem* examination of the deceased, Selley was much agitated, and said that he "didn't know but they'd hang him;" "wished he had gone home that night," &c.

The evidence was not considered sufficient to hold him and he was discharged.—*Manchester Mirror.*

FORTRESS MONROE, June 15, via Baltimore, 16th.—Steamer Alabama arrived this morning with Col. M. Webber's German regiment. They go into camp near Hampton.

Among the fifteen additional regiments expected at Fortress Monroe are an efficient corps of artillery from Fort McHenry, and a regiment of mounted riflemen. The latter are greatly needed to operate against the Virginia light horse.—On the arrival of these regiments the troops now here will extend their lines several miles from the Fortress. The peninsula will soon become an immense entrenched camp.

Telegraphic communication is being opened with the several camps.

The artesian well has been sunk 100 feet. Means are also being employed to bring a large supply of fresh water from Hampton. Mr. Camp of New York is here for that purpose.

A great part of the clothing furnished the New York volunteers is nearly worn out. Col. Townsend, who has been three weeks in the field, has made a requisition for nearly a thousand new coats and pairs of shoes.

The Times' Washington dispatch says:—Gen. Butler has demanded 15,000 additional troops, and will have them in five days, the men being ready and anxious to go. Gov. Morgan has agreed with the Government to send a full regiment from New York every three days, until the entire force is despatched.

A GOODLY LAND.—The Washington correspondent of the Philadelphia Press, referring to the march of Federal troops on Harper's Ferry, remarks:—

"The country through which the troops are passing is clothed with the richest verdure. The country is rolling and picturesque, and so impressed are many of the Northern troops with the agricultural advantages of the country, they have resolved, if they live through the war, *to make Maryland or Virginia their future home.*"

☞ Nine rifled cannon arrived at Washington, on Sunday, six of which will be immediately sent forward.

HARPER'S FERRY.

BALTIMORE, June 16.—The correspondent of the American writes from Harper's Ferry that the rear guard left at noon yesterday, and that last night the rebel army was encamped on Shirley's Hill, near Charlestown, 9 miles from the Ferry, the place at which John Brown was hung. A full regiment of 1000 men crossed the Shenandoah and proceeded towards Leesburg, but may have taken a side road leading to Winchester. The batteries of powerful guns, said to have been erected in the mountains, had no existence. There was but one battery of small guns, commanding the Virginia heights, which has been carried off.

None of the piers of the bridge are damaged, and it is expected the work will be put across and travel resumed in 3 or 4 days.

The reported destruction of the locomotives of the Baltimore and Ohio Railroad is said not to be true. The Union men of Martinsburg disabled the engines, and the engineers ran off refusing to work them.

All the inhabitants of Harper's Ferry, except about twenty, had abandoned the town, expecting there would be a great battle. Those that remained were intense Union men.

Different opinions are entertained as to the cause of this sudden evacuation. It is said that Gen. Beauregard pronounced the place indefensible and liable to be cut off and the troops starved.

Some say the rebels will entrench themselves and make a stand at Charlestown, but the general opinion is that they are on their way to Manassas Gap.

The officers' quarters were not destroyed, but the people expected they would be back to-night to finish the work of devastation.

HAGARSTOWN, Md., June 16.—Gov. Hicks arrived this morning to consult with Gen. Patterson, and visited the various camps.

Several pickets were thrown across the Potomac last night opposite Williamsport. The first division, under Gen. Cadwallader, crossed to-day, the troops wading the stream.

The Rhode Island regiment is encamped on the bluff at Williamsport.

All of the Baltimore and Ohio Bridge has been burned, except two spans and 300 yards of trestel work. The bridge over the Shenandoah river is still standing. Persons walk up and down the canal on the opposite side of the river freely; the sentinels stationed there do not interfere. The remainder of the troops vacated to night.

The greater part of the 14,000 troops stationed at the Ferry go southward to join Beauregard and Lee's forces. The smaller body, it is believed, will march to join Wise at Romney, who is on the march to oppose the advance of Gen. McClellan's column from the West. Wise has 3000 men at Staunton. A great number of small arms, said to be 1000, were thrown into the river by the rebels, also some accoutrements; boys and men are recovering them.

The place wears a desolate appearance. Some large guns only have been removed six miles up the Shenandoah. It was reported that the locomotives below Aquenon had been burned with those at Martinsburg, numbering in all seventy.

Ex-Gov. Manning brought the order to evacuate Harper's Ferry.

☞ We fear our Dover friends were hardly true to their own interests, when they suffered the "Daily Union" newspaper to die, through lack of patronage. Mr. E. O. Foss, at a large outlay, gave all the telegraphic intelligence up to the moment of going to press, and at the end of six weeks his expenses were $100 more than the receipts. It was tried at various prices, 3 cents and 2 cents—$1 and then 50 cts. per month; and of course friend Foss spared no effort and lacked not talent or energy to make the bantling live, if possible—but it was not to be done. We understand that Mr. Foss goes out with the 2d Regiment N. H. Volunteers, as newspaper correspondent, a post which he is well fitted for.

But Dover ought to have a Daily paper—to establish which, requires as much determination and perseverance as to quell the quattlebum rebellion—and would involve no little loss at first. The brief existence of the "Union" has paved the way for a permanent Daily there.

MARYLAND ELECTION shows the State very strong for the Union.—It would not have been so, if good bodies of United States Volunteers had not been at hand. The *armed traitors* would have overawed the Union men,—and a small but unanimous *anti coercion*, alias *submission*, vote would have been given. A Baltimore dispatch of Sunday, says:

Returns from the 1st District give Crisfield, Union, 1800 majority. The returns from the 6th District are not yet complete, but sufficient is known to render Calvert's election certain by about 400 majority. The State has gone for the Union by an immense vote.

SEVENTEENTH OF JUNE.—Monday, the Anniversary of the Battle of Bunker Hill, was observed as a general holiday in Boston. The Banks and Insurance offices were closed, as well as many of the stores. The Custom House was closed at noon, the Board of Brokers held no meeting, and the Post Office was open but a few hours. The pupils of the Public Schools also had a holiday.

☞ The Postmaster General has instructed the Postmaster at Louisville, that the order requiring mail matter coming from disloyal States be held for postage, was not intended to prevent its delivery upon the payment of postage.

☞ Lord Palmerston is very much broken. His attacks of gout are frequent and fierce.

It is a fact that Gen. Butler has neither cannon or horse to contend with the enemy, while the enemy are known to be well supplied with cavalry and Parrot's rifled cannon, manufactured at Richmond. Until these desirable articles of war are supplied to Gen. Butler he can make no progress against the enemy. In this connection, it is a melancholy fact that a powerful battery, sent over from England by Americans still remains in New York city, awaiting a free clearance through the Custom House, when the payment of the duty would be but a trifle. This battery would prove very destructive to the enemy if it could be employed.

☞ Brig. Gen. Pierce has written a letter to Boston, requesting a suspension of opinion in regard to his conduct at Great Bethel until his official report shall have been made.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Local.

☞ The Sunday Evening Dress Parade attracted a large crowd of spectators, there seeming to be quite a general desire to witness the last which would occur. Many persons were present from Rye, Greenland, Exeter and other towns in the county. Hon. John P. Hale, and Rev. Mr. Willis, Chaplain of the Horse Guards, were present; and in the absence of Col. Marston, Lieut. Col. Fiske commanded. The soldiers appeared cheerful in anticipation of a speedy departure from their quiet camp-life with its somewhat dull routine. But it is said the fortunate man of the Regiment was "that fine looking Sergeant" who was delicately complimented with the present of a beautiful bouquet.

☞ Hon. Edward H. Rollins, Member of Congress from the 2d District, was in town on Monday, and visited the Navy Yard. Mr. Rollins seems determined to be posted in regard to the capacities and requirements of our Naval Station, and we expect to see his indefatigable efforts directed towards inducing the Government to launch the steamship Franklin, as well as to rebuild Fort Constitution at the mouth of our harbor.

Second Regiment.—The Manchester American states that the preliminary arrangements along the route will be made by Hon. E. H. Rollins, who precedes them. The baggage wagons, 21 in number, with a hospital carriage, are complete. The number of horses is 90; tents 165, manufactured at the Amoskeag Mills in Manchester. The equipments are regarded as superior to those of the 1st Regiment.

Gov. Berry will accompany the Regiment to Boston.

Theatre.—The "bill of fare" for this evening is very attractive. Mr. English produces the moral and instructive play of the "Cricket on the Hearth," in which Miss Helen appears as "Dot." The celebrated Blondin executes his astonishing feats on the tight rope—and scenes from the "Three Fast Men," including the Female Minstrels, and Miss Helen's dancing, furnish attractions for all tastes.

☞ The Ohio at Charlestown Navy Yard is receiving about thirty recruits per day. These come from New Bedford, Portsmouth and Portland, as well as from Boston. There are now about five hundred on board this ship.

☞ Commander Edward M. Yords of New Jersey, who was incorrectly reported some since to have resigned, has been ordered to the command of the sloop-of-war Dale, now fitting out at this Naval Station.

☞ We are informed that the 4th Regiment, Maine Volunteers, will arrive in this city by the P. S. & P. Railroad, this (Tuesday) morning, about half past nine o'clock, en route, from Rockland, for Washington.

☞ We are informed that Dignam's Cornet Band, of Manchester, has been engaged to accompany the Second Regiment to the Capital.

☞ Mr. Perham's cheap Excursion to Boston, on Saturday next, will afford our citizens a fine opportunity to visit Boston, and the Aquarial Gardens.

☞ Should the wind be favorable, the U. S. ship Santee will sail from this port to-day.

☞ A large meeting of the Sons of New Hampshire was held in Boston Monday morning, to make arrangements for the reception of the 2d N. H. Regiment. Hon. Marshal P. Wilder was chosen President.—He thanked them for calling him to the chair, as he was always happy to acknowledge himself a son of New Hampshire—a State which gave birth to the constitution of our country.

Dr. J. B. Upham, from a voluntcer committee who visited Portsmouth, reported that the regiment would leave Portsmouth Thursday morning at 7 o'clock, remaining about three hours in Boston. A committee was appointed to make the necessary arrangements for the reception, and subsequently reported that the regiment would be received at the Eastern Depot and escorted to the Music Hall, where a collation would be in waiting. After this the regiment will be escorted to the Common, where they will parade. Gov. Andrew will be present, and the Independent Corps of Cadets will perform escort duty.

☞ The weather of the earlier hours of Sunday, in Boston, was quite warm, but severe thunder storms followed at frequent intervals during the day. Much damage was done by the high wind in several localities, and in Boston harbor there was a disaster, resulting in the drowning of six persons.

☞ By the extra Traveller of Monday evening, it appears that the Brooklyn, blockading New Orleans, was doing her duty on the 17th June,—no mention of her being ashore. The Minnesota, off Charleston, has sent a prize to New York.

WASHINGTON ITEMS.

Monday, June 17.—Rifled cannon are being mounted to-day in some of the entrenchments.

Dr. Richards, the President's family physician, has been captured in Virginia and conveyed to Richmond jail.

The National Intelligencer announces that unless it receives aid from the North, it will be compelled to suspend.

The War Department never authorized the call made for a meeting of editors to see about the transmission of news.

Col. Lander left Phillippa, where he was at the head of two fine regiments, several days ago, and it is supposed made a forced marched towards Winchester, 90 miles distant.

The President, in his message, will take ground in favor of prosecuting the war vigorously, and finishing it by winter if possible; recommending a call for 500,000 men, and an appropriation of $200,000,000.

Several skirmishes are reported.

U. S. troops are at Harper's Ferry.

Rumors of expected attacks on Cairo are given,—and of promised aid by Govs. Magoffin and Jackson to the rebels—but they can't give *much* aid now.

From Fortress Monroe, June 16, we learn of a skirmish at Newport News, between U. S. troops and rebel cavalry. The rebels are said to be landing a large body of troops at a point seven miles above Newport News. An attack from that quarter is expected on the U. S. battery at Newport News.

A Kentucky deserter from Manassas says there are are 25,000 men there, including reinforcements from Harper's Ferry. Provisions and water scarce. Soldiers dissatisfied at their position, and a prospect of farther retreats.

40,000 troops at Richmond, well armed with artillery, badly clothed, and shockingly disciplined. Jeff. Davis is erecting earthworks as far as eight miles out of the city.

Regiments of U. S. volunteers are moving toward the line of acton from every free State.

Late Foreign Items.—*By the Jura.*—The City of Baltimore left Liverpool for New York on the 5th. She took out 161,400 pounds in specie.

Lord John Russell said in the British Parliament that the government had no information of a Canadian volunteer regiment having tendered its services to the United States, and of course could not say what action should be taken.

Count Cavour died at 7 o'clock on the morning of the 6th inst., at Turin. The evening preceding his death his state had become so alarming that great emotion was evinced by the people of Turin, and immense crowds surrounded his residence.

The Paris correspondent of the London Herald argues that Italian independence will be buried in Count Cavour's grave, and the peninsula become a mere dependence of France.

It is rumored that Garibaldi contemplates a visit to America in a month or two, if war in Italy appears unlikely.

The Queen of Spain has given birth to a princess.

The Empress of Austria is suffering from ill health.

Virginia.—*New York, June* 16.—The Herald's Washington dispatch says:—Gen. Scott received reliable information on Saturday from Manassas Junction that the rebels are concentrating all their forces there, and be (Gen. Scott) has no doubt they will make a stand there.

The rebels were to strengthen their forces at Fairfax Court House on Friday. A military officer of high rank said on Saturday that he thought it probable a movement would be made in the direction of Manassas Junction.

A lady relative of a distinguished General of the U. S. army passed through Manassas Junction Saturday forenoon. She says the troops to be seen there are not so many as she saw in passing through Alexandria.

The troops at Manassas Junction talked freely of attacking Washington, and seemed quite confident of capturing it.

Alexandria, June 16.—A reconnoisance on the Loudon and Hampshire Railroad was made to-day, two miles beyond Vienna, and fifteen miles north of Alexandria, by the First Connecticut regiment, under Gen. Tyler. All the bridges were found to be safe, and the train returned.

The prisoners state that 900 rebels are stationed three miles from here.

It is understood that there are 2500 troops at Fairfax Court House.

It is understood that a schooner which sailed hence on Friday was run ashore and burnt by the federal troops.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

STEAMER CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of a kind.

Arrangements will be made with a large and commodious Sailing Vessel to run from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful Groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

☞ In the year 1859 Jefferson Davis was invited to attend a meeting at Salem, Mass., held to celebrate the birthday of Thomas Jefferson. The following paragraph occurs in his letter of reply:

"To make war upon the government would be suicidal, and cannot be anticipated until madness and venality have usurped the seats of reason and virtue."

☞ A man named Charles Kelley, near Bangor, was foolish enough to carry matches and powder together in his pockets. By some means the former were ignited, and the latter exploded, setting fire to his clothing, and burning him very severely on one side of his body.

☞ Henry Newton of North Weymouth, Mass., is employing nearly three hundred men in manufacturing shoes for the Federal government and for different States.—He makes about four thousand pairs per week. They are all sewed.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my hand and covered my scalp with sores with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease is eradicated from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Scurvy, Itch, Scaly, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a desperate *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus, the ulceration itself was soon cured. Nothing within my knowledge equals it for those female derangements."

Edward E. Marrow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Tetter and *Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another patient had secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and destroy him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman came to me to be treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 4th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored me to general health so much that I am far better than before I was attacked. I think it a most wonderful medicine. J. THRAM.

Jesse Y. Gatchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he knew of no other, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. *Some* of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the medical men of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivaled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them, who have not some personal experience of its effects—some living trophy to their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

BININGER'S

Cognac Brandy

The infamous practice of adulterating Brandies having become so common, this genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted unadulterated purity.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and imposition, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rater, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character. Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them, pronounce them invaluable.
Dr. JAMES E. LEPERRE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, I relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLERES, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

CERTAIN CURE, CERTAIN CURE.
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of Quinine, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various tonic, and stomachic s, and cannot fail to meet the wants of the debilitated.
It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhoea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "that it is the best preparation of Bitters that has ever been offered to the public."
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JUNE 19, 1861.

C. & P. RAILROAD.

It is known that the legislature of New Hampshire long ago granted the privilege of building a branch road from Manchester to Candia. Two or three years ago the legislature extended the act to build this road to December, 1861, and now, says the Concord Independent Democrat, "there is a measure before the legislature, which contemplates the immediate building of a branch to the Concord & Portsmouth Railroad from Candia to Manchester, and a short connection between Suncook and Hooksett, the ultimate discontinuance of the present track between Suncook and Candia, and the union of the Portsmouth and the Concord roads." The Democrat adds:—

The proposition does not strike us favorably. The proposed scheme would, likely enough, if adopted, benfit Manchester somewhat, though it would be a good deal at the expense of Concord.

The Manchester American favors the change, and says that most of the land owners on this route have agreed to give the land for the route, and the chief expense is now to construct the road-bed and furnish the iron. The American remarks:

There has not been so favorable a time to build this road for the ten past years as the present summer, labor is now so cheap, and the only drawback is the iron. This difficulty the present bill attempts in a measure to meet by permitting its re-laying as described. If this is allowed, money enough can be raised to build the road-bed, and equip the road, and a more favorable opportunity will never be presented, as every one knows.

This change being made, two trains will be run daily between Concord and Portsmouth each way the year round, but now the business will not permit it in winter.

A perfectly competent engineer, who has examined the matter, says that the road-bed from Manchester to Candia can be built as cheaply as the old road from Suncook to Candia can be graded to equally as good condition, so that in fact this Candia branch can be built with as little expense as it will take to properly grade up the old road over Rattlesnake Hill in Hooksett.

The Concord correspondent of the Boston Journal states, that the several towns on the route favor the change, as it will connect Portsmouth, Dover, and all the towns in the Eastern part of New Hampshire both with Manchester and Concord.—It will enable them also by this route to pass through Manchester to Nashua, Keene, and the Western part of the State by a much shorter route than can now be done.

WASHINGTON NEWS.—The East Pennsylvania Railroad offers to receive Government bonds in payment for the transportation of troops and munitions of war on the route between New York and Harrisburg. The offer has been accepted.

The withdrawal of Mr. Burlingame from the Austrian mission was in consequence of a delicate unofficial intimation that the appointment was not agreeable to that Government.

Major Henry Hill, the Army Paymaster at New York, has resigned. He belongs in Virginia.

A messenger who rode down the tow path of the Chesapeake and Ohio Canal, reports that at 5 o'clock Sunday afternoon, Col. Stone was in quiet possession of Leesburg.

It is believed Secretary Chase will report in favor of a revision of the tariff, and of a reduction of duties on some articles, and the abolition of the free list.

Ten rebel prisoners are reported to have been captured in a skirmish by Col. Stone's company.

The War Department has ordered the rebuilding of the Harper's Ferry bridge, and it is expected to be done in five days.

An advance upon Fairfax Court House is probable. Sealed orders to the 16th New York regiment and the 2d Connecticut regiment indicate this.

WEST VIRGINIA.—The Wheeling Convention has adopted the propositions offered by Mr. Dorsey of Monongahela, providing for a separation from Virginia, and the formation of a new State by the counties represented in the Convention. It was passed by yeas 56, no nays. Thirty members were absent on leave.

The declaration was signed by 56 members, the same number as signed the Declaration of Independence.

☞ The Charleston Mercury of the 11th mentions the capture of the privateer Savannah, and calls on Jeff. Davis, if the crew is hung, to retaliate. It also complains of the traders' habit in supplying provisions to the blockading fleet.

STATE ITEMS.

The following gentlemen, past Governors of New Hampshire, still live—most of them in active life, and the senior one discharging the duties of Judge of the U. S. Courts for the District of New Hampshire, viz.:

Matthew Harvey, Concord; John Page, Haverhill; Jared W. Williams, Lancaster; Anthony Colby, New London; Noah Martin, Dover; Samuel Dinsmoor, Keene;—John H. Steele, Peterborough; Nathaniel B. Baker, Clinton, Iowa; Wm. Haile, Hinsdale; Ichabod Goodwin, Portsmouth.

A friend in Pittsfield writes to the Statesman as follows:

"Within the last two weeks I have travelled through a portion of the counties of Merrimack, Belknap and Rockingham.—The farmers have planted about one-third more seed than usual. The crops so far look finely, and indicate a plentiful harvest.

I saw a sight on Monday last—a young lady, dressed in riding costume, riding a horse, fastened to a cultivator in a piece of corn; and I was told that with her own fair hands she planted the same field. Her brothers have all enlisted."

Departed this life, in Franklin, on Saturday evening, Hon. James Clark, aged 77. He was one of the most intelligent citizens of Merrimack county. He represented Sanbornton in the Legislature eleven years, was two years Senator, and two years Clerk of the House. He was one of the best business men of the county, and exerted for many years a powerful influence on the political affairs of New Hampshire.

The hotels at the White Mountains and on the usual routes of travel to that region, have very generally agreed to lower their daily rates of charges. Those who have spending money, can nowhere in our country get so much for it as among the glorious White Mountains.

Saturday, June 15, Mr. Jacob True of Deerfield, while sawing shingles, had his left arm completely severed from his body about two inches above his wrist joint. So quick was it done that he did not know that he was hurt until he saw the hand lying on the bench beside him. The wound was dressed, and the patient is now doing well. Also, the same day, a little son of J. W. James, 7 years of age, while witnessing the parade of the military, was run over by a wagon and seriously hurt on the skull and in the abdomen; he now lies in a critical condition.

A grist mill owned by Harrison Simonds, at Oil Mill Village, in the town of Weare, was burned on Monday morning at one o'clock. It is supposed to be the work of an incendiary.

BALTIMORE AT THE LATE ELECTION. The New York Times correspondent gives the following as the generally understood reason of the quiet at the late election in Baltimore:

The peace and quiet of the election in Baltimore is said to be due to the energy of Gen. Banks. Previous to the election he addressed a note to the Mayor, stating that he had detailed a force to sustain the civil authorities in maintaining public order, and that he had instructed them to be vigilant and prompt, and to make his orders effective, "he had given each man forty rounds of ball cartridge." The Mayor and Marshal Kane appeared to understand that last remark.

☞ At the Bunker Hill celebration, on the monument ground in Charlestown, last Monday, one of the editors of the Boston Post, Mr. Richard Frothingham, Jr., was introduced and made a speech, in which he compared the course of the first great battle of the Revolution with that of the present crisis, urging that they were similar, and that the present war was not one of subjugation, but for the preservation of the very fruits of our revolutionary war.

Mr. Frothingham is the historian of Bunker Hill, and has a very extensive and accurate knowledge of the events that led to that battle, and of the principles on which our revolutionary fathers went into the contest.

☞ At Camden, Me., recently, a team crowded a coach, containing 3 ladies and a gentleman, overboard. Mr. Geo. H. French, a young man, instantly sprang into the water, swam to the coach—which was nearly in a sinking condition—turned it up, unfastened the door, and dragged the occupants, who were insensible, from it. By the application of the usual remedies, they were restored, and it is hoped all will recover, though they were severely injured.

The impression seems to prevail at Washington that the crew of the Southern privateer Savannah will be held simply as prisoners of war.

The *talk was* that they were pirates:—and they certainly are traitors, taken in the very act of levying war against the United States. If they were tried for treason and found guilty, and the officers hung,—perhaps the seamen might be pardoned with good effect.

☞ The barque H. T. Vennard arrived at Portland on Sunday from Havana. Capt. Wyman reports that on the 7th instant, off Charleston about 45 miles, was chased by an English steamer for eight hours. On being overhauled, the only inquiries made of him were as to what news he had, and whether he had seen any English men-of-war on the coast.

N. H. LEGISLATURE.

MONDAY, June 17.

In the House, several petitions were presented and referred—for the passage of the bill to change the route of the C. & P. R. R. Also, remonstrances from citizens of Concord and Auburn against said bill.

Mr. Emerson, from the committee on Military Affairs, to which was referred the petition of M. W. Tappan and others, reported a joint resolution authorizing the Governor to pay the volunteers monthly, until an appropriation by Congress is made, and to take measures to secure repayment to the State.

Wednesday next was assigned for the election of State Treasurer and State Printer.

CINCINNATI, June 17.—A special Grafton dispatch says:—There is a gradual concentration of forces in the direction of Philippa. The 14th Ohio Regiment has returned there from Buchanan. There is a report of fighting at Buchanan, with considerable loss to the rebels, but it is not confirmed.

A number of rifled cannon have arrived from Ohio, with a large amount of ammunition. There is considerable activity at headquarters and towards Chief River.—Scouts are out in every direction and constantly reporting. Col. Kelley has greatly improved and is sitting up to-day.

The rebels at Cheat Mountain Gap are under the command of Gen. Jackson, formerly a judge at Parkersburg. A messenger arrived from Philippa announces that scouts have discovered that the rebels are marching towards Philippa and an attack was expected in the morning.

Col. Wallace telegraphs from Cumberland that after the fight at Romney the rebels did not rally, but ran 16 miles toward Winchester. So far from his retreating, he brought to the camp at Cumberland their tents, valuable arms, uniforms and medical stores, without leaving anything behind.

The route was total. The next day there were several funerals in the town.—We killed a captain and a member of the Legislature and took one of their majors a prisoner.

WAR ITEMS.

WASHINGTON, June 18.—A train was sent out from Alexandria yesterday afternoon to Vienna, taking M. C. Cook's Ohio regiment, accompanied by Gen. Schenck. Companies were dropped along the road, and the train reached Vienna with only three companies, when a masked battery opened upon them, killing and wounding, according to intelligence received, two hundred.

The official account states that 5 of our men were killed, 5 wounded, and 10 are missing. Reinforcements arrived, and the rebel battery was captured, with several prisoners.

Rumors have reached this city that the retreat of the rebels from Manassas Junction has commenced. [Rather improbable.]

Gen. Patterson's division is to remain in possession of Harper's Ferry.

A Washington dispatch to the Tribune says that preparations for an advance on Richmond seem to go on steadily.

The concentration of troops here continues, and army officers are confident that the grand movement of the campaign will be made within a fortnight.

There are said to be not more than 4500 rebel troops at Richmond, and 22,000 at Manassas Junction.

The rear guard from Harper's Ferry have reached Winchester. A number of the retreating rebels are said to be at Fairfax Court House, and are prepared to make a stand.

About a dozen rifled cannon, cast at West Point, have arrived here and will be sent to Alexandria.

Several heavy guns have been mounted by the rebels at Acquia Creek, on a new battery.

NEW YORK, 18th.—Steamer Bavaria, Southampton 5th, has arrived. She brings 50,000 stand of rifles for the Federal Government.

The Savannah Republican of the 12th says a large number of Federal troops landed on the 11th at Hilton Head. There is very great excitement there. Hilton Head is in South Carolina, near the Georgia line.

The people there may have been greatly frightened by the landing of somebody;—but a *large* number of federal troops can hardly be there, nor can we see exactly why any of them should land just there.

☞ The severe hail storm of Monday did great damage at Plymouth. Blinds were completely shattered, shingles broken and torn from the roofs, and many of the buildings have not a single pane of glass remaining on the southerly and westerly sides. In one green-house alone, 1700 lights were broken. Trees are stripped of both leaves and fruit; grass just ready to cut is level with the ground, and the gardens will all have to be replanted.

☞ The appointment of Anson Burlingame has been changed from that of Minister to Austria to that of Minister to China.

☞ Their flying artillery at Portland, Oregon, consists of one gun—inch and a half bore, manufactured by drilling out an anvil.

☞ The hero of Fort Sumter has been promoted another step, and is now Brigadier-General Robert Anderson.

☞ The Kentucky Regiment abandoned the rebels at Harper's Ferry and decoyed for the Union.

THE VOLUNTEER.

Hard by the porch of the village church,
A dusty traveller halts awhile to rest:
His head droops tired down upon his breast,
But the word of prayer wakes new life there.

"God bless the brave who go to save [ger!"
Our country in her dark, dread hour of dan-
The good man's voice was comfort to the
stranger;
Duty wipes away a tear as he hurries to the war.
—*Harvard Magazine.*

☞ The Brig Perry, which captured the privateer schooner Savannah off Charlestown, was under the charge of E. G. Parrott, of this city, Lieutenant commanding. The Savannah mistook the Perry for a merchantman, as she had her ports closed. The time from the first gun to the last one was an hour and a half.

☞ The telegraph furnishes a proclamation of Brig. Gen. Lyon to the people of Missouri, calling upon them to aid him in upholding the Government. Missouri is safe. Government holds the principal points within her territory, including the capital, and the commanding officers realize the responsibility of their trusts.

☞ In the Supreme Judicial Court in Boston, on Monday, Stillman B. Allen, Esq., who has recently removed from Maine to that city, was, on motion of Hon. John T. Paine, admitted to practice as an attorney and counsellor in all the courts of the Commonwealth.

Call on your grocer for Herrick Allen's Gold Medal Saleratus. It is the only perfectly healthy Saleratus made. After using one half the paper, if you are not satisfied, return the balance, and get the money paid for the whole. It is much better to use with cream tartar than soda. It is peculiarly adapted for dyspeptic persons. For sale by grocers and druggists, and at wholesale by all dealers. Depot 112 Liberty street, New York.

Dr. H. E. Howell, of New York, says that the most effectual remedy to improve the tone and energy of the stomach, is the *Oxygenated Bitters*. For Dyspepsia and Indigestion these Bitters are unparalleled, as numerous cures testify.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it *is the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr. Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings, without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

SECOND REGIMENT, N. H. V.—This regiment, enlisted for three years unless sooner discharged, will break up their camp in this city to-morrow (Thursday) morning, and leave at 7 o'clock for Boston, en route for Washington. The arrangements are already very nearly complete, and our State will send forth this Regiment, feeling that her honor is safe in their hands, and that they will be enabled to give a good account of themselves when they return from the sharply contested field of battle.

On Saturday, the baggage wagons of the regiment, twenty-five in number, were completed. On the Saturday previous, the iron used on them was in Boston and most of the wood was in the rough at East Concord and the Depot; yet in just a week the 21 wagons stood complete, the paint dry and the canvas tops fitted and lettered, ready for the road. We doubt whether a like job was ever done, in thoroughly workmanlike and substantial manner, in so brief a time.

On Monday afternoon the train of wagons left Concord for Boston. They are to be driven all the way to that city, so that the horses, which are but lately matched, may become accustomed to working together. They are driven by men detailed for that duty from the rank and file of the regiment. Manchester was the first camping place, Lowell the second; and to-day they are expected to reach Boston, where on Thursday they will join the regiment.

The horses are represented to be a good serviceable lot of animals, but hardly up to the teams of the First Regiment.

The friends of Rev. Henry E. Parker, Chaplain, and Josiah Stevens, Major, have purchased and presented to them, two beautiful horses, as testimonials of their confidence in their devotion and patriotism for their country.

The Independent Democrat says the selection of Rev. Mr Parker is one of the best that could have been made, for the Regiment. He is a gentleman of tender sympathies, and unbounded patriotism.—Prudent and sagacious in his counsels, and affable in his manner. The officers and soldiers will find him a true friend and Christian patriot.

☞ A splendid banner was presented to the Goodwin Rifles, from the ladies of Concord, at the C. & P. Depot in this city, on Tuesday evening, upon the arrival of the train.

The banner is very elegant, and is 4 1-2 by 3 1-2 feet. On one side is the Coat of Arms for the State, on scarlet ground, supported by flags and emblems of war, and beneath that, on a scroll, the inscription,—"Presented by the ladies of Concord." On the top and bottom, in gold letters, "Goodwin Rifles." On the reverse side is the Goddess of Liberty, on blue ground. It is handsomely trimmed with gold lace of the most costly kind.

The music on the occasion was furnished by the Portsmouth Band, which played finely. Indeed, many of our own citizens supposed it was the Manchester Band. It is, certainly, needless to bring a band from abroad, except when two are wanted.

☞ The 4th Regiment Maine Volunteers, Col. H. G. Berry, passed through this city about ten o'clock on Tuesday morning, en route for Washington. The train consisted of nineteen cars, drawn by one locomotive, which was handsomely decorated with flags and streamers. The regiment was accompanied by the Rockland Band, eighteen pieces, who will go as far as Washington with them. A new band has recently been organized for the regiment, and will be permanently attached to it.

The regiment numbers 1066 men—hardy, sun-browned, muscular fellows, who can clear a forest, build a railroad or crush out a rebellion: and they are determined to strike hard. Indeed, they bore a banner with this significant motto—

"From the home of Knox!"

The regiment is furnished with about 40 horses for the baggage wagons, which were sent from Rockland, with the baggage, direct to Boston by steamer. The baggage wagons for the regiment await them in New York.

SANTEE.—This fine vessel is now ready, and awaits only a favorable breeze to enable her to depart to the post of duty. Her officers are as follows:—

Captain, Henry Eagle; 1st Lieutenant, A. D. Harrell; 2d do., B. N. Westcott; 3d do., J. N. Jewitt; Acting Masters, J. Madison Williams and F. Rodgers; Surgeon, J. Foltz; Paymaster, Lewis Warrington; 1st Lieut. marines, C. D. Hebb; Asst. Surgeon, —— Burbank; Midshipmen, Symmes M. Hunt and Geo. M. Brown; Captain's Clerk, H. Sherwin; Paymaster's Clerk, J. W. A KIND REMEMBRANCE FROM A SON OF PORTSMOUTH.—In a recent letter from Mr. Manning Kennard, now residing at Florence, Tuscany, to a relative here, he encloses one hundred dollars for the wives and families of the Portsmouth Volunteers.

☞ Col. Wm. H. Spooner of the United States Hotel, Boston, has tendered an invitation to Col. Marston, of the New Hampshire Regiment at Portsmouth, for himself and his Field and Staff officers to make the "United States" their headquarters and accept the hospitalities of the house on the occasion of the visit of the regiment to Boston, en route for the seat of war. The Atlas says, his considerate courtesy was kindly appreciated at Portsmouth, and the officers will put up there on Thursday next.

☞ On Tuesday evening, an alarm of fire (three guns) was sounded from the Navy Yard,—caused by fire on board the U. S. ship Santee, lying at the wharf, ready for sea. We are informed that the fire was in the lower hold, but it was speedily extinguished.

☞ A trial of the Rollins gun, manufactured in Nashua, was made near the quarters of the Second Regiment, on Tuesday afternoon. We were not able to be present, but those who witnessed it, represent it as highly satisfactory.

☞ We learn that George B. Wallace, of Concord, has been appointed Keeper of Boon Island Light House, in place of Joseph H. Hart; and Elias Tarlton, of Newcastle, Keeper of the Newcastle Light House, in place of Richard R. Locke.

☞ The 2d Regiment will be reviewed at 12 o'clock to-day, by His Excellency, Gov. Berry.

☞ The regular fare to Boston and back, by railroad, is $3.30. Perham offers to carry those desiring to go, on Saturday next, for $1.25, and children much cheaper even than that. It would be remarkable if the inducements failed to attract a large crowd from this city.

THEATRE.—*The Octoroon.*—This celebrated play is announced for this evening, with the beautiful Miss Helon in her original character of Zoe, an Octoroon Slave, as performed by her in New York, Boston, and Portland, with a success unparalled in the history of the Drama. The piece is finely cast and will afford a pleasant and instructive evening to all.

FLORAL CONCERT.—The Sabbath School of the Pearl St. Society will give a Floral Concert at their Church, on Wednesday and Thursday evenings, June 19 and 20, consisting of singing, deelamations and dialogues. Exercises commence at 8 o'clock. Admission 10 cents.

STEAMER [illegible] CLIPPER.

This beautiful river boat will run on the Piscataqua this season, and on the rivers above as far as Dover, South Berwick, New Market, and Exeter, for the accommodation of PLEASURE PARTIES; affording rare facilities for Sunday School Excursions or Pleasure Trips for Companies or Associations of any kind.

Arrangements will be made with a large and commodious Sailing Vessel to tow from the mouth of the Piscataqua to the SHOALS, so that parties from Dover, Great Falls, New Market, or any other place on the upper rivers can visit the Shoals and return the same day—giving the dispatch and comfort of steam passage on the river, and the safety of sailing vessels outside.

There are several beautiful groves up the river, that can be secured as places of resort for Sunday School Excursions either from Portsmouth or any of the other places named.

The boat is run by Capt. Gilpatrick, a seaman of twenty years' experience, who will pay every attention to the comfort and convenience of his passengers.

Further particulars will be given on arrival of the Boat, which is expected on the 15th of June, when she will commence her trips for the season.

AYER'S CATHARTIC PILLS.

Are you sick, feeble and complaining? Are you out of order, with your system disorganized and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some kind of alterative medicine is needed, and should be exerted by a timely use of the right remedy. Ayer's Pills, used freely, will cleanse out the disordered humors—purify the blood, and fill the debilitated frame with renewed vigor and health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general stagnation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the digestive organs, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the dangerous and dangerous disorders, for which these vegetable effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and most surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1859.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long painfully afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaints I have cured with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1858.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Flandere Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1858.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ which have so often baffled us. In cases of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their sugar-coating renders them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those who have called to me in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever found, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of life.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others find as I have, that your Pills are as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which is the parent of more ills than the progenitor of others that are worse. I believe constipation to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Sweet, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very efficacious to clear the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hewitt, of the Methodist Episc. Church

PLEASANT HILL, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Nevertheless I followed my calling, and the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful ruin it works that they should be followed to overturn its throne. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *nourishing stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy,"

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighths and Quarter Casks.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEPIERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter had been two years well, the bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"
The established popularity of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.
Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a strictly pure stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.
As a curative agent it has a tendency to recreate and strengthen; while age has ing contributed its genial charm, and enriched it with a delicious flavor and an oily body, it adds to the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 93 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles D. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1857.
The Rheumatic and Neuralgia Compound has been taken by hunareds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of Quinine, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various tonic and stomachic s, and cannot fail to meet the wants of the debilitated.
It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "but it is the best preparation of Bitters that has ever been offered to the public."
Put up in half-pint as well as quart bottles, in order that all may embrace themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Portsmouth, N. H.

THURSDAY, *JUNE* 20, 1861.

SHALL WE HAVE PEACE?

Peace is desirable; and war undesirable: the New Testament precept says, "If it be *possible*, as much as lieth in you, live peaceably with all men."

One party may make war upon any other; but it always takes at least *two* parties to make peace.

Thus in the present war, it is easier to say, we would have peace!—than it is to get it: because we have to consider the temper, the character and the demands of the adverse party, before we say with certainty that a peace with him, on his terms, would be possible, or if possible, would be better than war.

Instead of saying what kind of an opponent we are contending with, we will let him speak for himself,—and instead of giving our version of his demands, we will let him tell our readers what terms he offer us.

We will call the editor of the Richmond, Va. Whig. He addresses us in this style:

To be conquered in an open and manly fight by a nation of gentlemen, and subjected to their sway, might not drive us raving distracted with rage and shame;—but the Yankees—the most contemptible and despicable of God's creation—the vile wretches, whose daily sustenance consists of refuse of all other people—for they eat nothing that anybody else will buy—for *them* to lord it over us—the English language must be enlarged, new words must be invented to express the extent and depth of our feelings of mortification and shame. No, it is *not possible* for us to be reduced to a state which there are no words to describe.

Instead of this, we must bring these *enfranchised slaves* back to their true condition. They have long, very *properly*, looked upon themselves as our social *inferiors*—as our *serfs*—their mean, niggardly lives—their low, vulgar and sordid *occupation* have ground this conviction into them.—But of a sudden, they have come to imagine that their numerical strength gives them power—and they have burst the bonds of servitude, and are running riot with more than the brutal passions of a liberated wild beast. Their uprising has all the characteristics of a servile insurrection. Their first aim is demolition—the destruction of everything which has the appearance of *superior virtue*, which excites their envy and hate, and which, by contrast, exposes the shameful deformity of their own lives.

They have *suggested* to us the invasion of their territory and the robbery of their banks and jewelry stores. We may profit by the suggestion, so far as the *invasion* goes—for that will enable us to restore them to their normal condition of vassalage, and teach them that cap-in-hand is the proper attitude of the servant before his master.

Workingmen of New England—come, bow yourselves down to this Virginia aristocrat! Democrats of New Hampshire, come, stand, cap in hand, before your master, the Richmond Whig!

On these conditions you may have peace! Don't all speak at once.

☞ Letters can be sent to the Southern States through a channel established at Louisville, Kentucky. To get a letter to New Orleans, it must be put in a United States stamped envelope—a three-cent stamp upon an ordinary envelope will not do, because the law of Congress forbids express companies from carrying letters unless enclosed in stamped envelopes. The letter should be directed. Enclose the letter in another envelope, with twenty cents' worth of United States government stamps, and direct to American Letter Express Co., Louisville, Kentucky. This must be paid with one or two three cent stamps, according to the weight. The twenty cents' worth of stamps pays ten cents to the company for their trouble, and enables them to pay the bogus confederacy postage. It is understood that this arrangement has been entered into with the knowledge and consent of Postmaster General Blair.

☞ The Naval Tribunal of Madrid sentenced a Captain of Marines to twenty years' hard labor for shooting dead a man who had insulted his betrothed; but he appealed to the Supreme Tribunal of War and Marine, and the Court resolved that as an insult to the young lady he was about to marry was a gross provocation to him, the sentence should be quashed. It, however, declared that he should be interdicted from the enjoyment of civil rights, and should be placed under the surveillance of the police for life; also that the pistol should be confiscated.

☞ The schooner Christiana Perth, from Amboy for Alexandria, was seized by the rebels in the Potomac below Matthias Point on Saturday and burned. The captain and crew escaped.

NEW YORK CORRESPONDENCE.

NEW YORK, June 16.

Dear Chronicle;—Despite the immense number of troops which this city has dispatched to Washington, and other places where the banded rascals of southern climes have made themselves worthy of attention, their absence is not discernable, and our city is as animated, our streets as crowded, and the military enthusiasm no less fervid than on the day when New York sent her first regiment to succor the government in its apparently immediate peril.

Her last installments were Wilson's Zouaves, (alluded to in a letter antecedent to this) and the German Turner Regiment.

That Wilson regiment is a fount of endless amusement to our citizens, who will watch its course, which portends to be a most eccentric one, with interest.

A fight is to them what an oasis with a gushing spring of pure water is to a traveler on the desert,—a something to be hoped for, prayed (?) for, and sought for; and to propel a man ground-ward, or in the expressive words of Artemas Ward, "to place, by a dextrous movement, their eye against an antagonist's fist," is to them a recreation, an *innocent* pastime. If they can be retained in proper discipline, they will make most excellent soldiers.

In the course of their march down Broad way, a cart at one side somewhat interfered with their progress, and one Captain omitted to give the necessary order of "two files to the rear,—March!" when the corporal at the end of the platoon finding a collision imminent, called out to the officer with, "Say, Bill, why don't you tell us to gee off?" The order was immediately given, and the concussion saved. We vouch for the truth of that, lest some of your readers exclaim, "*Hic jacet ille!*"

The German Regiment which departed conjointly with the Zouaves, but for a different destination, made a fine display. They were escorted by the Turner Association and a German Zouave regiment. The departing troops are commanded by excellent officers. Col. Weber graduated with the highest honors at the Military School at Baden, and was an active participant in the Hungarian war, but in the disastrous results which attended its termination he was banished from the country. The sentence having been recalled a short time since, he was arranging for a visit to his native land when elected to the Colonelcy of this regiment, which post he accepted, saying that he would first perform the duty he owed his adopted country, and would then visit his far distant home.

Most of the other officers and many of the privates, have seen field-service in the Continental wars, which will give them a decided advantage in battle.

The committee of five, appointed to attend to the reception of any coming regiment from New Hampshire, are making arrangements to receive the Second, confidently expected here on Friday, from a notice to that effect in your sheet at hand this morning. Send them along.

Among the arrivals this week we have a privateer,—some account of which we may give you in our next. We also have cherries, Whitworth guns, peaches, Enfield rifles, grapes, and strawberries in abundance, some of the latter as large as hen's eggs, that is, *small hens*.

NEWINGTON.

FROM MISSOURI:—*St. Louis, June* 18. A dispatch to the Democrat from Jefferson City says a citizen has just arrived there in a skiff from six miles below Booneville, bringing the news that Gen. Lyon had attacked and completely routed the State forces there, killing 300 and taking 600 prisoners. Gen. Price was mortally wounded. The federal troops lost 17. Full confidence is not placed in this report.

Jefferson City, June 18.—It is reported by two reliable persons from Booneville, that night had taken place between the Federal and State troops, and that 300 of the latter were killed and a number taken prisoners. One report says 17, and another 29 of the Federal troops were killed. Gov. Jackson fled and the State forces were routed.

An express from Independence arrived at Kansas City on Friday morning, with intelligence that Capt. Holloway, chief of the rebels, was killed by his own men accidentally, together with 14 of his men, in the fire on the regular troops Thursday last. It seems that while the officers were holding a parley with the rebels, the latter attempted to outflank the regulars, but did not succeed. The regulars retired in good order. The rebels had seven pieces of cannon in sight, and fired a few rounds. But one shot was fired by our troops, as they were not prepared to meet so large a body.

Col. Borenstein is continually sending scouting parties in the country, surrounding Jefferson City. One party has just arrived bringing a large number of kegs of powder from Gov. Jackson's secret deposits in the interior.

The rebels and traitors in Boone, Holloway and Howard counties are fleeing, and Union Home Guards are being organized.

A desperate attempt was made by the convicts to escape from the penitentiary to-day. It was frustrated by four companies of troops. Six of the convicts were killed and several wounded.

NEW YORK, June 17.—A letter from a mercantile house in Richmond says there is no probability of any provision being made for the payment of the Virginia interest due here in July next, but expresses entire confidence that it will be paid in Virginia *currency* at Richmond.

N. H. LEGISLATURE.

TUESDAY, June 18.

In the House, over forty petitions, signed by some 2500 legal voters, were presented, asking for direct railroad connection between Concord, Suncook, Manchester and Portsmouth. A petition was also presented from the Mayor and City Council of Portsmouth, for the same. In this petition they say:—

It is believed that a large proportion of goods used in Manchester and its vicinity, including those consumed in the great manufacturing establishments there, may be profitably imported into Portsmouth, and that the export of articles manufactured in Manchester may, to a considerable extent, be directed through Portsmouth. And it is confidently anticipated that a large transportation of passengers, from the direction of Nashua and Manchester to Portsmouth and Dover would immediately follow the opening of a railroad between the cities first named. * * By the execution of this plan, Portsmouth, with all the advantages it offers as a seaport, will be directly connected with Manchester and the country west of it, and with Concord, thus securing great additional advantages, without any loss of those now secured by the Railroad from Portsmouth to Concord. It is not apprehended that any material interest will be disadvantageously affected, as the country between Candia and Suncook, along the line of the present Railroad, is almost entirely uninhabited.

Another petition for the same from the city government of Manchester gives the following distances:

From Manchester to Portsmouth, by railroads now existing, 68 miles.

From Manchester to Portsmouth by the proposed railroad through Candia, 39 miles.

From Manchester to Boston, 55 miles.

By the proposed new route, from Manchester to the station on the Boston & Maine railroad, at Newmarket Junction, 29 miles.

From Manchester to Newmarket Junction, by existing railroads, 58 miles.

From Portsmouth to Concord, by the Concord & Portsmouth railroad, as now existing, 48 miles.

From Concord to Portsmouth, by way of Manchester, over the proposed route, 56 miles—8 miles further than by the present route.

Remonstrances against the same were also presented.

On motion of Mr. Emery of Portsmouth, the Militia Bill was taken from the table, and ref. to Com. on Military Affairs.

The joint resolution, providing for the payment of 1st N. H. Regt. by the State, was read a second time, and, on motion, the rules were suspended and the bill read a third time and passed.

Mr. Wheeler, of Newport, of the committee on Railroads, invited the members to accompany the committee on a trip to Canada to view the premises in question by the Railroad Bill.

WASHINGTON, June 18.—Two companies of the 71st New York regiment and one of artillery left the Navy Yard Monday on the steamer Mount Vernon, for Port Tobacco, Md., from which point army supplies have been furnished to the rebels.

It has been ascertained that there are about 23,000 troops at Manassas Junction in a condition bordering on starvation.—The rebels pressed everything into service that could in any way be useful, and persons objecting had their property confiscated and were compelled to flee.

NEW YORK, June 18.—The Post's special Washington dispatch says:—Gen. Tyler, with a force of Federal troops, was four miles from Vienna at 10 o'clock this morning. The rebels fell back with their artillery before daylight. The 71st N. Y. regiment has joined the forces in Virginia. It is claimed that three of the enemy were killed at Vienna. Advices from the Edward's and Nolan's ferries state that the Virginians have strong entrenchments.

MR. DOUGLAS'S SUCCESSOR.—The New York Tribune says:—

"Orville H. Browning, the new United States Senator for Illinois, has long stood at the head of the bar of that State, and was one of her prominent Whigs under the old regime. He was repeatedly a Whig candidate for Congress, but always beaten by William A. Richardson or Isaac N. Morris, the district being decidedly Democratic; yet Mr. Browning's vote was always the full strength of his party. He resides at Quincy, and must be fully sixty years old. Probably no appointment could have been more satisfactory to the Republicans of Illinois."

NEWS ITEMS,

Gleaned from Wednesday evening's papers.

Major Winthrop's body has been received from Great Bethel.

Gen. McGruder, who commanded the rebel battery there, says his loss was very large. Other accounts say the rebel loss in killed and wounded is over 100.

The great secession majority in Tennessee was secured by armed banditti, proclamations against loyal citizens, and by writing the name of each voter on the back of the ticket, to punish the Union men afterward.

VICTORY IN MISSOURI CONFIRMED.—A dispatch from Jefferson City, Mo., June 18, says:

Gen. Lyon landed four miles below Booneville, and opened a cannonade on the rebels, who retreated into the woods, and opened a brisk fire on our troops. Gen. Lyon ordered a retreat to the boats, when the rebels, encouraged, followed the troops.—Gen. Lyon halted, faced his troops about, and bringing all his artillery to bear, opened fire on the rebels, 300 of whom were killed; the remainder fled, leaving their arms on the field. Gen. Lyon took possession of Booneville. Gov. Jackson viewed the battle from the distant hills, and fled after the defeat of his forces.

☞ Barney Cook, a respectable Irish citizen of Blackstone, while engaged in firing a cannon in respect to the memory of the late Senator Douglas, was badly wounded by a premature discharge, which injured his face very badly, and one of his eyes so severely as to deprive him of sight.

Call on your grocer for Herrick Allen's Gold Medal Saleratus. It is the only perfectly healthy Saleratus made. After using one half the paper, if you are not satisfied, return the balance, and get the money paid for the whole. It is much better to use with cream tartar than soda. It is peculiarly adapted for dyspeptic persons. For sale by grocers and druggists, and at wholesale by all dealers. Depot 112 Liberty street, New York.

Dr. H. E. Howell, of New York, says that the most effectual remedy to improve the tone and energy of the stomach, is the *Oxygenated Bitters*. For Dyspepsia and Indigestion these Bitters are unparalleled, as numerous cures testify.

A CARD.

The Commandant of the Navy Yard would express his cordial thanks to the Fire Engine Companies of Portsmouth, and to the citizens and soldiers of Portsmouth and Kittery, for the prompt and enthusiastic manner in which they assembled upon the Yard to extinguish a fire on board the frigate Santee.

He will not fail to represent to the Government that in time of need the loyal people of New Hampshire and Maine are not only ready to build her ships, but at a moment's notice to protect them against fire and sword.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.

ANDOVER, N. H., June 15, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr. Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all was only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *And the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Local.

☞ This (Thursday) morning, at seven o'clock, the Second Regiment N. H. V. are to leave their camp in this city, and commence their journey to Washington. There are few members of it but are pleased that the time for their departure has at last come; for, though it may be hard to rudely sever ties which have long bound them to relatives and friends; though a half-defined feeling of regret may occasion a momentary pang at the thought that they are now separating, perhaps forever, from those who are near and dear to them,—yet the realization of the fact that theirs is a high and holy work, in which good men and true are engaged, nerves their hearts for the trial, and will safely carry them through the seeming evils which attend it.

And they will carry with them the remembrance of the cheering words which, even those who mourn for themselves over their departure, will speak to them, and the knowledge that the good old Granite State will look to them to uphold her honor and to strike an effective blow for the glorious Stars and Stripes—a blow which shall do something towards crushing out rebellion, and establishing honesty, and union and liberty throughout the land. May they be true to their high trust!

☞ The excitement in our city on Tuesday evening, when the intelligence hurriedly passed from mouth to mouth that the U. S. ship Santee was on fire, was intense. Grave and dignified citizens hurried to the wharves, and thence excitedly crossed the river in deeply-laden boats; volunteers of the regiment rushed down the street with bayonets fixed and guns grasped with an unyielding clasp, as if they fully expected to rush upon an opposing foe. Fortunately all such anticipations proved to be groundless; though the effect of the alarm showed that our volunteers may be safely relied upon in an emergency.

The fire was very slight. It caught in a small room, known as the armory, on the berth deck; and was occasioned by the heat of a lantern, which was provided with a chimney, and was suspended from a beam,—a tin reflector being placed above it. The tin became so much heated, that the timber was charred, although, at the time the fire was discovered, the light had been extinguished. There was an extremely narrow fissure in the timber, and the smoke, finding its way through that, passed behind the lining, and entirely across the vessel, appearing finally at a very remote point. It was therefore extremely difficult to discover the locality of the fire; when the search was successful, it was easily extinguished. Probably there was no flame at any time.—The portion of the timber which was cut out, after the fire was extinguished, was not more than six inches square and three deep. The vessel will not be delayed, in consequence.

There were a thousand and one rumors on the street, Wednesday, in regard to the matter; but the facts are as we have stated them. It was an accident which no ordinary foresight could have anticipated.

☞ The Second Regiment of N. H. Volunteers, under Col. Marston, fully equipped, was inspected and reviewed on Wednesday, at the fine parade ground of Camp Constitution.

Gov. Berry and staff, ex-Gov. Goodwin, and the field and staff officers of the regiment were present, with a large number of spectators.

The troops were reviewed, and then passed in review; after which Gov. Berry briefly addressed the troops, reminding them that the men of New Hampshire, in the war of the Revolution, did their duty and honored their country,—and that the soldiers of this State in later contests had well sustained the reputation thus acquired. He expressed his hope and expectation that the regiment before him would exhibit character and worthy deeds, as patriots and soldiers.

The grand military music on the occasion was by the Portsmouth Band.

☞ The Portsmouth Band closed their engagement with the Second Regiment on Wednesday noon, after the review. The Manchester Band, which is to accompany the regiment to Washington, arrived at the camp on Wednesday morning.

The Portsmouth Band *volunteered* to make the trip, but the officers of the regiment (most of whom are from the interior of the State) preferred to *hire* the Manchester Band, at their own expense, provided the State does not pay it—as it certainly ought not to, under these circumstances, and of course will not.

FLORAL CONCERT.—The Sabbath School of the Pearl St. Society will give a Floral Concert at their Church, this, Thursday, evening. Exercises commence at 8 o'clock. Admission 10 cents.

☞ On Wednesday evening, Ex-Gov. Goodwin gave a private, social soiree to Gov. Berry and staff, and many other gentlemen of high civil and military rank.

DOLLY DUTTON to be in Portsmouth. This Little Fairy gives her Levees at the Temple, next Saturday and Monday *afternoons* at 3 o'clock of each day—and not in the evening. The Albany Morning Express says:—

The Little Fairy.—This diminutive specimen of God's handiwork still attracts immense crowds at Association Hall. As she will leave after Saturday evening, those who desire to behold her should avail themselves of the opportunity either to-day or to-morrow. None should go to see her from mere morbid curiosity. She is worthy of more than a feasting of eyes. It is wonderful that in a frame so small, the graces, the arts and habits of the child of maturer years should be developed. Although a babe in size, she is rapidly becoming a woman in feeling, and gives promise of a well-stored mind. Her musical tastes are worthy of especial notice. Though her voice is as weak and shrill as she is small in stature, yet she is very fond of music, and sings half the time. When handed around, as she is at each levee, in a small basket, or when she runs about the floor of the hall, she looks—as she really is—the smallest of her age in the world. In contrast with children of her own age, they become large enough to pass for her parents. What the future of this little being may be, none can tell, but it is the earnest wish of all who gaze upon her, that she may never be less happy and cheerful than now.

☞ At the S. J. Court in session at Exeter, on Wednesday, James Folla of Dover, indicted for entering the shop of John A. Hughes of Dover in September last, with intent to steal, and found guilty at the trial term in February, was brought into Court. The exceptions raised by his counsel were overruled, and the prisoner was sentenced to one year in State Prison, and to pay the cost of prosecution.

☞ All the children ought to be permitted to take advantage of the opportunity to visit the Aquarial Gardens in Boston, afforded by Mr. Perham. And grown-up children may pass an hour or two there very pleasantly and profitably.

☞ Our old correspondent J. H. H., is to make the trip out to the seat of war, with the 2d Regiment N. H. Volunteers—and will furnish for the Chronicle, reports of incidents interesting to Portsmouth and New Hampshire readers.

☞ Gov. Berry and staff, Gen. Stark and staff, and ex-Gov. Goodwin and other gentlemen, visited the Navy Yard on Wednesday afternoon, and were received with the usual salute.

☞ The rations are now dealt out to the soldiers stationed at Fort Constitution, and they do their own cooking, as do all soldiers in actual service of the government.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

Used for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gentlemen: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it would out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my hands and covered them with sores which one sore, which was painful and troublesome beyond description. I tried many medicines and several physicians, but without much relief from any things. In fact, the disorder grew worse. At length I was advised to send in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Greencastle and got it, and used it till it cured me. I took it, as you advise, in small doses at a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the benefactors of the age, and remain ever gratefully. Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened his patient with death, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent Alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many intercstate cases of Leucorrhœa by it, and some where the *vomiting* complaint was caused by ulceration of the *uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female complaints."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, was at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 28th August, 1858.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have of said the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I have not had a better time before I was attacked. I think it a wonderful medicine. J. FREAM.

Jesse Y. Gotchell, of St. Louis, writes: "I have been afflicted for years with an affection of the *Liver*, which suddenly broke out in the form of a boil, and always failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the *Liver*. Your pamphlet, the Medical Chemist, led me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God I am cured, and feel as if I could go to work a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulcerous, Carious and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into healthy action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we have confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is needless to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtile and dangerous disorders of the throat and lungs. As all know the fearful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need not to more than to assure them that it has done all the virtues that it did have when making the cures which have won so deeply upon the confidence of mankind.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in case containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz: Eighth and Quarter Casks.

☞ Lieut. Grebble's funeral took place at Philadelphia on Friday, and a most imposing demonstration was made. The body was conveyed to Independence Hall, where it remained until three o'clock in the afternoon, and was visited by a vast multitude of citizens. The coffin was covered with an American flag, and upon its top were the hat and coat worn by the soldier when stricken down. The coffin was not opened, but upon its lid lay an embroytge of the deceased, taken when in bounding health and vigor. Ladies laid flowers upon the coffin lid until it could contain no more.

☞ The Female College at Worcester has given up the ghost—and that, too, just before it was to send forth its first graduating class. We are sorry this school has proved a failure, because one of its features was to teach its pupils how to cook, wash, iron and do other domestic duties. Learning of this sort is more a desideratum to young women than many other branches of "education."

GOV. HICKS AND MARYLAND REBELS. Gov. Hicks of Maryland having been called on by the Legislature to furnish them with copies of all papers showing clearly his relations with the federal government, he replies in a sharp message, stating that he has already sent copies of all necessary documents, and that this call is in the nature of an insult.

☞ The English are looking for a large invoice of cotton from India, and think that in a few years the crop will equal that of the United States. If so, the Suez canal, which the French are now cutting, will be a paying concern.

☞ Prince Louis of Hesse, who is at Osborne, Eng., courting the second daughter of Queen Victoria, is sick with the measles. Very impolite of the measles to attack a Prince.

☞ Grain of all kinds has been lavishly sown in southern Pennsylvania and Maryland, and gives evidence of a superabundant harvest.

☞ It is understood that commissions to officers of the new army regiments are not to be issued until after the meeting of Congress.

—FOR—
RHEUMATISM AND NEURALGIA

GARDINER'S
RHEUMATIC AND NEURALGIA COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded me great relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic* s, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half pints as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JUNE 21, 1861.

N. H. VOLUNTEERS.

The Second Regiment, under command of Col. Gilman Marston, left Portsmouth on Thursday morning, at half-past 8, by the Eastern Railroad, for Boston, where preparations were made to give them a grand reception. They left Boston in the afternoon for New York by the Fall River line, and will thence push on to Washington.

The regimental officers are:

Colonel, Gilman Marston;
Lieut. Colonel, Frank S. Fiske;
Major, Josiah Stevens, Jr.;
Adjutant, Samuel C. Langley;
Quartermaster, John S. Godfrey;
" " Sergeant, F. W. Perkins;
Surgeon, Geo. H. Hubbard, M. D.;
Asst. Surgeon, Jas. M. Merrow, M. D.;
Sergeant Major, Geo. H. Gordon;

The regiment consists of ten Companies, commanded as follows:

Capt. Tileston A. Barker, Co. A, Keene.
Samuel G. Griffin, Co. B, Concord.
Jas. W. Carr, Co. C, Manchester.
Hiram Rollins, Co. D, Dover.
Leonard Drown, Co. E, Concord.
Thomas Snow, Co. F, Littleton.
Ephraim Weston, Co. G, Peterboro'.
Ichabod Pearl, Co. H, Great Falls.
Edw. L. Bailey, Co. I, Manchester.
Wm. O. Sides, Co. K, Portsmouth.

On their arrival in Boston, (about 12 o'clock,) they were received by the Sons of New Hampshire, and escorted by the Independent City Cadets to the Music Hall, where a bountiful collation was furnished, after which a speech of welcome was made by Hon. M. P. Wilder, President of the Sons of New Hampshire, which was responded to by Col. Marston and others.—The past and present Governors of New Hampshire, Gen. James Wilson, and other distinguished New Hampshire gentlemen, were also present as guests on the occasion. The ceremonies at the Hall concluded with the singing of Holmes' Army Hymn in unison by the troops, accompanied by the full harmony of the Band.

The column was then escorted to the Common, where they were reviewed by the Governors of Massachusetts and New Hampshire, and after going through various evolutions, marched to the Old Colony Railroad, and proceeded on their way to the seat of war.

TROUBLE BETWEEN THE REBEL GENERALS.—A gentleman well posted in affairs at Richmond says there is trouble there among the leading rebel generals. Lee and Beauregard are at loggerheads. The former has always insisted upon making an attack upon Washington, and carrying on a vigorous war against the North—while Beauregard, on the other hand, opposed such a policy. When the matter was submitted to Jeff. Davis, he sided with Beauregard and against Lee. At that time Lee was in command. After Davis's decision, he was suspended by Beauregard, who is now in command of the department of Alexandria, with his headquarters at Manassas Junction.

Gen. Lee of Virginia, says a correspondent of the N. Y. Express, has written to his friends that he regrets the course he has taken—that he has acted under a misapprehension, etc.

☞ As the Volunteers passed up Congress street, Thursday morning, we noticed a very neat decoration, high in front of Mr. H. S. Hartshorn's shop—a noble bald eagle, mounted on a boulder of granite, with the American shield,—and holding in each talon the star-spangled banner, and in his beak, the inscription "On to victory." This, with the ladies waving their handkerchiefs, the cheers of the men as the train started, and the blessings and praises of all, both felt and spoken,—made up a fitting tribute to the bravery and patriotism exhibited in the Volunteers leaving all they held dear, to go they hardly know where, for the support of their Government.

☞ The Concord Patriot learns that the soldiers recently encamped near that city have been paid off and discharged—both three months men, and those enlisted during the war. There were about sixty.—Four remain in camp, sick, and two have been left to take care of them. From this it infers that another regiment is not to be raised in this State, at present. Two or three companies yet remain at Fort Constitution, in Portsmouth harbor.

"PORTE CRAYON."—D. H. Strother, whose numerous contributions in Harper's Magazine, have made him a favorite with the reading public, is in the Quartermaster's Department of the Confederate army.

NEW HAMPSHIRE ITEMS.

The store of G. W. Goodwin and shoe manufactory of John Colbath, in West Milton, with their contents, and the dwelling house of C. H. Goodwin, were consumed by fire on Sunday morning, 16th inst.—Loss about $6500.

In Concord, Monday evening, during a play by a theatrical company, an actor was taken with an apoplectic fit, making great excitement in the audience.

When Col. Pierce accepted the command of the 2d Regiment, his friends in Manchester determined to present to him some testimonial of their appreciation of his patriotic services. The private obligations of Col. Pierce rendered it necessary that he should resign, when the order came to re-enlist the regiment for three years. But his friends were determined to give him the horse. They purchased, in Montreal, a beautiful bay animal, which had been used for three years by an English Colonel of the Royal Rifle Guards. He is eight years old, weighs 950 pounds, and is perfect in style and action. On Tuesday the presentation speech was made by Hon. Fred. Smyth. Col. Pierce responded, but said that under the circumstances he could not feel that it was right for him to accept it.—It is probable that, in accordance with his suggestion, the horse will be presented to Adjutant Langley, of the 2d Regiment.

ALEXANDRIA, June 19.—The secession account of the Vienna affair was received to-day, from which it appears that the battery consisted of only two brass six-pounders, worked by an Alexandria artillery company of 34 men, under Lieut. D. Stewart, formerly of the federal army.

Two companies of South Carolina troops were in ambuscade a quarter of a mile off, to render assistance if necessary. The artillery were posted there soon after the Connecticut expedition returned, with instructions to fire on the next train and then retire. The rebels say they succeeded in carrying off two wagon loads of property, consisting in part of 60 blankets, from the burning baggage car, 3 gondoles, and a lot of carpenters' tools.

The reports relative to the occupation of Fairfax by the federal troops are probably premature. A person who left that town, six miles this side, this morning, reports all quiet, and the rebel still in possession.

WESTERN VIRGINIA.—*Grafton, June* 19. There are 1500 rebels in the neighborhood of Beverley and Phillippa. An attack is to be made on the latter place.

The rebels in Western Virginia are reinforced, and a movement is contemplated.—The U. S. forces are also augmented.

Rebel forces from Romney burned the railroad bridge over New Creek, 20 miles west of Cumberland, this morning, and marched to Piedmont, where they cut the telegraph wires east. Their force is from 2000 to 4000. Notice was given of their approach, and the citizens were preparing to leave when our informant left. All the engines belonging to the Baltimore and Ohio railroad were fired up and sent to Grafton. A corps of citizen soldiers, who were guarding the bridge, are reported to have retreated at the approach of the rebels.

We have no means of ascertaining the amount of damage now done. Communication by railroad between Cumberland and this place is cut off.

THE TURF.—The everlasting Flora Temple trotted against, and of course beat, John Morgan, on the Centreville Course, Long Island, on Tuesday. The match was for $2000, two mile heats, in harness. Flora won both heats.—The time was as follows:

	1st Heat.	2d Heat.
First Mile	2:27	2:26
Two Miles	4:55 1-2	4:54 1-4

The betting on their coming three-mile race is very heavy.

An interesting race took place Wednesday afternoon at Chelsea,—for $300 a side, mile heats—between Young Morrill and Young Allen, two stallions from New Hampshire, Allen having never before trotted a match race. Morrill was hitched to wagon, and Allen in harness. Morrill was not in condition, having refused his feed for two or three days. Young Allen, the winner of the race, is a son of Ethan Allen, out of the "Edgely mare," well known in Manchester, N. H. He weighs about 900 lbs. in trotting condition, sorrel color, with near hind foot and off fore foot white. He is a finely formed animal and trotted his race out without making a skip or break, in 2:41 1-2, 2:41 1-2, 2:39 3-4—and judging from this, will be heard from again.

An officer writing from Fort Pickens, says:—"The wooden dry dock at Pensacola, which was intended by Gen. Bragg to be sunk, to obstruct the entrance of vessels into this harbor, got adrift from its moorings, a few days since, and was observed slowly approaching this fortress.—Apprehending that the valiant Bragg might have converted this dry dock into some great explosive engine to blow us all up, Col. Brown had all his men at their guns to repel the monster. On its nearer approach it was found harmless, and is now safely secured under the guns of the fort.

The Government is preparing in the West a number of gunboats to operate on the Mississippi. Some of these will be cased with iron to resist the shot from the batteries erected upon that river. Others will be strongly built tug boats, strengthened for war purposes. One of the latter has already been put in use at Cairo. The lower Mississippians feel very much concerned about these manifestations.—*Boston Post.*

☞ The departure of the 2d Regiment of Volunteers, from this city on Thursday morning, was at once a gay and sad sight. The weather was delightful, and an immense concourse of men and women,—citizens and strangers,—were out to witness the scene. The Volunteers were escorted to the depot by the remnant of the Goodwin Guards who have not volunteered, under Lt. I. F. Jennes; and a couple of platoons of firemen under Ass't Engineer Wm. Cornelius. The uniform of the Guards being scarlet, and part of the firemen wearing white shirts, and the rest blue,—very neatly made up "the red, white and blue." Then came the Manchester Cornet Band with the drum corps,—playing splendidly, of course; and the thousand men of the Regiment,—a good specimen of the Granite State boys. This is said to be the best appointed Regiment which has been put in the service. Most of the men appeared cheerful, though a few (whose friends or families were here) were somewhat affected in saying farewell. They filled a special train of twenty cars, besides a baggage car.

Many lookers on learned for the first time, how large a body a thousand men is, and what a heavy burden a soldier bears in his knapsack. All were favorably impressed with the bearing of the men—and we heard more than one officer in the regular service, speak in praise of the Regiment.

WASHINGTON, June 19.—The following Postmasters have been appointed:—H. Chase, Belfast, Me.; M. C. Andrews, Rockland, Me.; J. M. Deering, Saco, Me.; C. O. Eastman, Claremont, N. H.; L. M Boltwood, Amherst, Mass.

The Star says there is reason to believe that the lines of the rebels extend from the neighborhood of Occoquan as far as Centreville, and that they are entrenched with heavy guns in the neighborhood of Fairfax station, 3 1-2 miles from Fairfax Court House, and 14 from Alexandria. It is supposed they may purpose extending their forces up along the line of the Orange and Alexandria Railroad, now rebuilding, with a view of attacking the Zouaves who are guarding the repaired bridges on their side. All the indications go to show that the rebels are being pushed forward from Manassas Junction by daily instalments to points nearer the Federal lines.

A requisition has been given to Speaker Allen, of Indiana, for four additional three years' regiments to be raised in the State. It is said almost companies enough have already been raised to complete them.—Indiana will then have 25 regiments, entitling her to a Major General, in which case Brigadier Gen. Morris will probably be appointed.

The two companies of the N. Y. 71st who went to Port Tobacco several days ago, have returned. They obtained much valuable information. The opinion is that the military company which has been drilling weekly in that place, has gone to the relief of the rebels at Aquia Creek. It seems that Port Tobacco has been the headquarters for such recruits.

The steamer Mount Vernon received orders yesterday to get immediately under weigh for some point down the river, and departed amply manned and ammuitioned. It is evident the rebels intend to interfere wih the navigation of the Potomac by erecting batteries on its banks.

The President declines receiving visitors from this time until the opening of Congress.

The Federal forces in Virginia under Gen. McDowell, have advanced 4 miles today in the direction of Fairfax Court House. The pickets on each side are almost within hailing distance.

WHEELING CONVENTION, June 19.—The Convention to-day was occupied with the ordinance of reorganizing the State government.

The ordinance was finally passed, 73 against 3.

The ordinance provides for the entire re-organization of the State Government. Every officer will be required to swear allegiance anew to the United States, and to repudiate the Richmond Convention.

The Convention will now proceed to choose a Governor and Council. A new State seal and other emblems of authority have been ordered.

Frank Pierpont, of Macon County, was unanimously nominated for Governor, by the Convention in caucus to-day.

NEWS ITEMS—THURSDAY EVENING.

WASHINGTON, 20th.—Goverment intends to have five thousand troops arrive here each day this week. Five thousand came in yesterday.

Senator Johnson of Tenn. passed through Cincinnati on Wednesday, for Washington.

About 300 U. S. Volunteers of Pennsylvania 1st Regt. had a skirmish Wednesday evening at Edward's Ferry, with a considerable body of rebels. The fight lasted three hours, when the rebels fled, having 15 killed and wounded. One private was killed on our side, and 3 or 4 wounded.—The attack was made by the enemy, with a view of taking possession of the Ferry.

A dispatch from Western Virginia says The rebels, 5,000 strong, occupy Piedmont. A guard of forty Marylanders from Cumberland, under Capt. Rickley, were stationed at the bridge there, with one piece of artillery. As the rebels advanced they poured shot into them, mowing them down like grass, and continued to do so until all the gunners were killed. The brave little band was cut to pieces, only two escaping. The rebels suffered terribly.

Lieut. Col. Thompson, of rebel army, was captured by scouts near Phillippa.

THE CONFEDERACY AND THEIR UNCLEAN SPIRIT.—And in the synagogue there was a man, which had the spirit of an unclean devil, and cried out with a loud voice, saying, "Let us alone."—Luke iv., 33

NEW YORK, June 19.—The 4th Pennsylvania regiment has crossed the Potomac. 1500 Arkansas troops under Ben McCullough have invaded Missouri. The President having sent to Gov. Letcher a pardon for a convict who had been sentenced for robbing the mail, the latter answered that the President's power was not recognized by Virginia.

Vienna has been occupied by 4000 federal troops, including 1500 Jerseymen. It is believed that an advance will be made upon Fairfax Court House to-morrow, and upon Mannassas Junction before many days. The forces of Generals Johnston and Cadwalladar, it is believed, will be likely to meet at some point north-west of Harper's Ferry.

The Post's Washington dispatch says:—Gen. Schenck and staff rested last night at a farm house near Taylor's tavern, on the Washington and Leesburg turnpike. A mile south are two Connecticut regiments under Gen. Tyler, and two Ohio regiments rested last night at Riley's mill. The changes of position involve the advance of Gen. McDowell a distance of about four miles, the positions now occupied by the troops are very strong, being more easily defended than the camps from which they departed. The scout who penetrated the village at Fairfax Court House last night, brings intelligence that there are no longer any troops visible there.

The force of 1600 or 2000 men who were there it is judged have fallen back in the direction of Centreville. It is judged by some cautious persons here that Gen. Beauregard is withdrawing his advance arms to catch Gen. McDowell's column in an ambuscade, but it will hardly succeed after the warning given at Vienna. The South Carolinians lost six men killed by the return fire of the Ohioans. Good tidings are received from Kentucky in relation to the Congressional election of to-morrow.

☞ In N. H. Legislature, Wednesday, the bill to change the route of the C. & P. R. R. *passed the house.* By the terms of the bills, there is to be no change in the operation of any portion of the present route, until the proposed new route shall be fully graded and in readiness for the laying of the track; and the operation of said Railroad shall not be suspended between Candia and Concord for a longer period than thirty days in order to lay the track.

In Convention, Peter Sanborn, of Concord, was elected Treasurer; and Henry McFarland, Printer.

THE BLOCKADE IS LEGAL.—Judge Dunlap, of the U. S. District Court at Washington, has decided that the President has full power during civil war to blockade the ports of the United States, thus settling that question.

Lord John Russell, in the British Parliament, has *confirmed* the prohibition of privateering and prizes entering British ports, and the proposition to *consider* the propriety of recognizing the Southern Confederacy, has been *indefinitely* postponed.

☞ We are informed that but one member of the Kittery Artillery (Mr. John Hamilton) has enlisted "to go for a soldier" for three years. The whole Company volunteered for three months, and had they been allowed a place in any of the four Maine regiments which have gone to the war, would doubtless all have improved the chance. As it is, their patience has been exhausted while at Fort McClary—and Mr. Hamilton is the only one who yet insists on aiding Uncle Sam. The Artillery is a finely drilled and well appointed Company, and composed of a sturdy set of men.

JEFFERSON CITY, Mo., June 19.—People living near Syracuse have arrived today. They say that 600 State troops, retreating from Booneville, with six cannon, reached Syracuse yesterday. They stated that they were going to draft from that neighborhood, and would take all who could furnish a horse.

Various reports are current as to the number killed in the battle, but the probability is that the number will reach 150.

There is no possible doubt but that a battle was fought and the State troops completely routed, but the telegraph being out of order between here and Booneville, we cannot get entirely authentic accounts.

THEATRE.—Mr. English gives his last performance this evening, and offers a "bill of fare" of unusual attractions, in which the talented Miss Helen appears in three of her most popular characters.

PLEASURE HOUSES.—It will be seen that the popular Ocean House at Rye Beach is opened for the season, at reduced prices. The ballot says quite a number of visitors to the Beach have already arrived, and the prospect is good for a lively season.

The old favorite, Highland Cottage, is also to open next Monday—and although Mr. Diman is no longer there, yet Mr. Wiggin will not fail to serve up the strawberries and cream to the best acceptance.

QUEEN VICTORIA.—The report has obtained credence that Queen Victoria is insane, and that there was some talk of a regency. It is probably a mistake, for we read of her Majesty's enjoying the Whitsuntide holidays as heartily as any of her subjects, at her favorite retreat in the Isle of Wight,—and the royal family circle was made more pleasurable to one at least of the princesses, by the presence of Prince Louis of Hesse.

☞ The late Robert Bacon, Esq., of Winchester, Mass., has donated $1000 to Tufts' College.

PORTSMOUTH (N. H.) NAVY YARD presents a beautiful and busy scene, just now. The Ship Santee lay at the wharf, Thursday morning, ready for sea; and, with her crew, and the 900 men at work about the Yard, made up an animated picture. Conductor Hanscom has begun both the new gun-boats—the keel of one (like the Mohican) is laid on the railway, and the other (of new model, and larger) in the ship-house whence the Santee was launched. It is designed to have both timbered out in about three weeks, and to launch one in three months or so.

We do not visit the Yard so often as we should wish; but when there, we never fail to notice improvements, out-doors and in,—in buildings and grounds. The new Magazine is a plain, heavy granite building, and the grounds about it are being graded; and in the office of Mr. Chandler, the Engineer of the Yard, we observed plans for still further enlargements and improvements in buildings. Mr. C. has been here nearly nine years, and marks of his skill and good taste are visible everywhere.

DIVIDEND.—The Boston & Maine Railroad corporation has declared a dividend of 3 1-2 per cent, payable July 1, to holders of stock on the 18th inst.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supercerogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic,* diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and clinging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and so pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OFFICE OF THE CHRONICLE, Aug. 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous humor, I have suffered from it in various ways for years. Sometimes it broke out in Ulcers on my hands and arms; sometimes it turned inward, and ulcerated me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Boston and got it, and used it till it cured me. I call it, as you advise, to mind does of a teaspoonful a day for a month, and used almost three bottles. New and healthy skin began to form under the scab, which after a while fell off. My skin is now healthy, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the greatest benefactors of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum or Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Nov., 1858, that he has cured a very severe case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from ever two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus. The uterine itself was soon cured. Nothing which my knowledge equals it for those female diseases."

Edward S. Marrow, of Newbery, Ala., writes, "A dangerous ulcerous tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1858.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have witnessed its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his bones, and had suffered and taken away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury, was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her limbs and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Internally, Yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1858.

Dr. J. C. AYER: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and could find no cure till I used the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I feel like a new man before I was attacked. I think it a wonderful medicine. J. FREAM.

John V. Schreck, of St. Louis, writes: "I have been troubled for years with a Scrofulous affection of my *Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from other causes than a diseased *Liver*. My beloved pastor, the Rev. Mr. Engel, advised me to try your Sarsaparilla, because he said he knew you, and knew you took no one with trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best thing I can do is to tell of you to not half good enough."

Scirrhous Cancer, Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have been effected by the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the sick, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized world. Many of our readers, we presume, or even families, among them, have been not some personal experience of its effects—some cure, perhaps, of the child of its victory over the subtle and dangerous disorders of the throat and lungs. We all know the beneficial fatality of these disorders, and we know, too, the efforts of this remedy. We need not recapitulate these facts, but it is now all the virtue that it did been when making the cures which have made it so widely spread the fame of our country.

15 Greatest Medical Circular Ever Published! Fifteen cts large letter pages for two 3 cent stamps. 15

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary**, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Prof Egbert Jackson, Dr. Robert Herbert and M. Virgus Gregory, have brought many years of most incredible rapidity, of Gonorrhea, Syphilis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Gravel, Stricture, Diseases of the Urinary Passions, in short, every possible form and variety of Sexual Disease, and at the same time the general health of the patient improved where any improvement is that respect is needed.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special advice for reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for a 3 ct. stamp. The "Mountain of Light, or Medical Protector," a work book of three hundred pages, one hundred engravings; price, in stamps or money, 50 cts. and one 3 ct. stamp, or 5 for $1 and nine cents in stamps. This book is highly esteemed in our Circular. It is by far the most valuable and deeply interesting book on the subjects treated of, now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, and is beautifully written in

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular.*

Dr. Jackson's Female Pills, $1—*send for Circular.*

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore street, from 9 A. M. to 1 P. M., and from 4 P. M. till 8 P. M.: at other hours either Dr. Herbert or M. Virgus, or both, will be in attendance.

Male patients can be boarded, will be furnished with large, airy, comfortable rooms, suitable board and careful attendance, for the few days ordinarily required to effect a cure. Patients do not see each other. The most ample guarantee of our ability and good faith promptly given when required. Free as reasonable as the very highest modes of treatment known to modern medical science, and a very long and varied experience, will admit. P. O. Box 626. Send for Circular, and state your case ☞ plainly and fully,—and you will receive the Circular and our written reply by return mail. Letters will not answer no letter unless it contains six cents in stamps. Medicine and instructions sent promptly and carefully to any part of the world.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and hygiene, that it should be of undoubted purity and efficacy.

With a view to meeting the demand demanded for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be a true uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

Morning Chronicle.

☞ Major General John A. Dix, has received his commission, dated May 16, which of course makes him the senior officer of Butler, Banks, and other new Generals. Gen. Dix is a much older army officer than either of them,—as he was in the U. S. service, a young lieutenant, in Portsmouth, just after our great fire in December, 1813.

We first saw him, a remarkably active young man, with eagle buttons on his blue coat, at the house of Lieut. Daniel Henderson in Ladd street, to which spot Lt. H. had removed, when burnt out of his former residence in Buck street.

Lieutenant Dix acted here, for a time, as adjutant;—and was in the service during the war.

He has had large experience in public life,—and will no doubt be a good and faithful officer.

MYSTERIOUS AFFAIR AT FRYEBURG. On Monday morning last, the dead body of Mrs. Swan was found in bed with a scarf attached to her neck. The scarf belonged to a young man who was employed by the deceased. Two children, the older one eight years of age, slept with the deceased, and were not disturbed during the night, nor was the bed in a confused state. The young man in the employ of Mrs. Swan was desirous to marry her daughter, but was seriously opposed by the mother. There were finger marks on the neck of the deceased, and owing to threats uttered by the young man, he was arrested.—*Portland Argus.*

☞ The financial editor of the N. Y Tribune says:

"It is evident that many of the street operators begin to appreciate our position at the North, and to realize that after the violence and disasters of the first shock have passed away, the North will settle down on a war basis; and that, with the wreck cleared away, and under short sail, business will revive, and the naturally enterprising character of our people render them independent of the unfavorable circumstances which surround them."

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEFEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by thousands of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JUNE 22, 1861.

VOICE OF THE DUTCH CHURCH.—The General Synod of the Dutch Reformed Church has been in session several days in the church on Brooklyn Heights,—and near the close of the session, a special committee on the present troubled state of the country, reported a preamble and a series of resolutions declaring that they "deeply lament the necessity which has arrayed brethren in arms against each other;" that their "deep sympathies are with the government in all its earnest efforts to maintain the integrity of the Union, the constitution and the laws;" that the maintaining is, under God, our country's only safety for the present, and hope for the future; and that "Christianity not less than patriotism applauds the costliest sacrifices required to make such consummation sure."

A motion to indefinitely postpone called forth a lively debate, which was terminated by a demand for the previous question, when the motion to postpone was lost and the resolutions adopted by an overwhelming majority. As not only the most conservative, but decidedly the most hunkerish church in America has thus boldly declared itself in favor of maintaining the Union and the Government, at any sacrifice, no apprehension need be entertained in regard to the position of all the other churches.

It is so plain to every observing man, that the dilemma has only two horns, either to submit to the rebels or fight them,—that almost every religious body in the Union takes one view of it, viz. that it is better to fight than to be trodden under foot.

NO RECOGNITION.—The proposition for recognizing the independence of the Southern Confederacy, which was to have been discussed in the British House of Commons on the 7th inst., has been indefinitely postponed. Its mover, Mr. Gregory, when the time came, stated that his purpose was merely to present the Southern side of the question as fully as the other side had been presented, and so he easily consented to its final disposition. So that bugbear is ended, upon which the secessionists had built extravagant hopes. The English government has been learning fast of late, and consequently striving to recover from its premature leaning toward the rebels. It would seem that there is nothing now to prevent the most complete accord between our own government and that of Great Britain, and we trust that the relation will continue to the end of this war.

Everybody wanted to be a son of New Hampshire, Thursday. There was reason for it. The procession of noble men who marched to the depot to receive the noble regiment from Portsmouth, was something to remember; and it did not surprise us that a chilly son of Maine did here and there seek sunshine in their ranks. The troops were an honor to the nation, and New Hampshire has reason to be very proud of such children. The reception by the sons was worthy of the soldiers, and the soldiers were worthy of the reception—generous as it was. The speeches at the Music Hall were in the right spirit. The Colonel denied that his command was on an exterminating mission; his command was to fight for the government of America.—*Boston Courier.*

☞ The official notification from the British government to the Canadian authorities, prohibiting the admission of prizes captured by American privateers into British ports, is published in the Montreal papers.

John A. Steiff, a commission merchant of Cincinnati, has been arrested on a charge of treason, in shipping provisions to Louisville, there to be reshipped to the extreme South.

☞ The Newburyport Herald recommends the appointment of Gen. James Shields, into the U. S. Army of Volunteers, as a major general, to command an immense force of Irish Volunteers, which would gladly flock to his standard.

NO PREACHING.—In the House, on Wednesday, a resolution was adopted, indefinitely postponing the proposition authorizing the Governor of New Hampshire to appoint a clergyman to deliver an election sermon next year.

GRAFTON, June 20.—The report that the rebels had taken possession of Piedmont is false. After burning the bridge and cutting the telegraph wires they retired into the country. It is said a large force is still in that neighborhood. The guard at the bridge made their escape.

A place in Brazil, called Barbecena, is celebrated for the longevity of its inhabitants. Within a short time three persons have died, of the ages respectively of 130, 126, 111 years.—*Havre Journal.*

2D N. H. REGIMENT IN BOSTON.

THURSDAY MORNING, June 20.

Messrs. Editors:—The 2d Regiment N. H. V., Col. Marston, 1040 men, armed and equipped, are at last en route for the seat of war. Our object is to give a few of the incidents which occur on the journey. But before we start, let us take a last look at the host of friends who wait at the depot, and along the track, to bid us good by. It is a cheering sight to the soldiers, to see their friends, the Goodwin Guards, Capt. Jenness, and the fine, uniformed company, Engine No. 3, Capt. Waterhouse, who did escort duty. Ex-Gov. Goodwin, accompanied by Col. Bellows, passed through the cars, greeting the brave men of the regiment, which his efforts have been so instrumental in organizing. The train consisted of one baggage and twenty passenger cars, and two powerful engines. The first was decorated very tastily. In front was a portrait of Washington, with festoons of American flags on either side and above; below was suspended a large powder horn; a swivel gun, taken from the walls of the City of Mexico, by a N. H. Volunteer, and a large musket, with a scythe bayonet,—a trophy from the British during the Revolution,—were crossed beneath the portrait.

But the bell rings,—the engine gives a shrill whistle, and we are whirling away for Washington. The loud hurrah, the last good by are still sounding in our ears: we can see the waving of handkerchiefs, the smiles of happy faces, and the sad look of a mother, a sister, or a dearer one still.—Ah! the days of romance are not all gone, and there are thoughts in the minds of many of those around me, which they would not wish written for the public eye.

Capt. Sides wished me to say that his company would never forget the kindness of Col. Gookin, who kept the latch-string out.

We were informed, just as we started from the depot at Portsmouth, that at Philadelphia, Capt. Sides' company would be presented with a flag, by the Portsmouth Boys resident in that city, on which occasion I am detailed to do the speech-making.

At every station crowds were in attendance to cheer and encourage us. At Hampton, a company of Home Guard was drawn up on a high bank far above the cars, and fired a salute. It was probably accidental, yet there seemed a peculiar fitness in the number of the Guard—they bearing thirteen muskets. In the centre of a field I saw a poor woman standing alone, with her babe in her arms; as we passed along, she flung her bonnet high in the air, and then held up the child while it clapped its tiny hands. And there was something thrilling in the sight of a solitary old lady, with hair whitened by the frosts of many winters, who stood in the centre of a road, with outstretched arms and upturned eyes, as if invoking God's blessing upon the patriots of '61.

At Salem a large crowd was collected and a salute was fired. In front of a fine residence stood a beautiful young lady, dressed to personate the Goddess of Liberty. The tableau was perfect, and elicited the cheers and encomiums of all on board the train. A little girl came into the cars in which the officers were seated, and presented to Col. Marston a most beautiful bouquet. It was very elaborate, being in the form of a pyramid, and at least two feet high. May the kindliness of heart which prompted the act never become chilled by contact with cold and unfeeling hearts!

At Lynn there was another large concourse of people—remarkable from the fact that a vast majority were men, there appearing to be few ladies among them. And yet that city alone has sent over five hundred to the war. At length we arrived safely in Boston, the only disagreeable incident being the loss of a few caps by soldiers who in their enthusiasm suffered them to slip from their hands. Yours, J. H. H.

Arrived in Boston, the regiment was formed in front of the depot, the officers being mounted. They then proceeded to the Music Hall, amid the most enthusiastic plaudits. The march up State street was particularly grand and imposing. The Cadets, in their best array, and with full ranks, came first; then the filial sons, to the number of 1200 or 1400, with Gilmore's full Band; and then the regiment, with the Manchester Cornet Band.

The Regiment arrived at the Music Hall at about 1 o'clock, and were seated at tables—ten in number—running the whole length of the hall. The officers, invited guests and Independent Cadets were seated at tables on the platform. The "Sons of New Hampshire" occupied the galleries.—The hall was very tastefully decorated—a portrait of Webster, and the cherished names of Stark, McNeil and Miller, appearing prominently. An old revolutionary flag surrounded the clock at one end of the hall. This flag is from Charlestown, N. H., and belongs to Mr. F. F. Hassam, of Boston. It was originally the property of his great-grandfather. It bears thirteen stars and an eagle, wrought by hand. Its colors are quite faded.

The number of plates laid on the tables in the hall and on the platform was 1600. The collation consisted of cold meats, rolls, coffee, pastry, cake, and strawberries and cream in abundance.

The first order given was to "fall to," and it was strictly obeyed. At two o'clock the soldiers were called to order, and united in singing Holmes' Army Hymn, accompanied by Gilmore's Band. Col. Brewster then formally introduced the officers and men of the Regiment to the President of the day—Col. Wilder, who, in behalf of the Sons, in a fervent and patriotic address, bade them "a hearty, a sincere, a brotherly welcome."

Col. Marston responded, and was received most enthusiastically. He said, "they were not used to military life, and he did not know as they could do much, yet if there was anything to be done he could say for them, in the words of Miller, 'We'll try.'"

The procession then being re-formed, proceeded to the parade ground, where it passed in review before Govs. Andrew and Berry. The evolutions excited enthusiastic applause from the large crowd who witnessed it.

At half past four the regiment entered the cars for Fall River, whence they were to go by steamer to New York.

From our Regular Correspondent.

THE RECEPTION IN NEW YORK.

WEDNESDAY, 11 P. M.

Dear Chronicle:—In pursuance of the call of the Committee of Five, before named to your readers, the Sons of New Hampshire assembled at the Brandreth House, this evening at 8 o'clock, to make arrangements for the arrival of the 2d regiment on Friday. Many of those whose indefatigable exertions secured the success of the last reception were early on the spot, among them Messrs. Mendum, Hanson, Chamberlain, Soule, Cutter, Perkins and others, by whose earnest attention the preliminary arrangements were speedily devised and the meeting organized.

On learning that we were in occasional communication with your columns, several of the most prominent originators of these pleasant reunions invited us to a seat in their midst, and a participation in the writing facilities which their table afforded, that our letter might form a connecting link between your citizens and their friends in New York, many of whom highly esteem the daily or weekly receipt of your paper. We were thus enabled to obtain the following minutes, which will be found to be as impartially correct as any other report published.

The assemblage being called to order, Capt. John Reilly of Portsmouth was chosen Chairman, and on accepting the position thanked the company for the honor conferred upon him. The reading of the minutes of the last meeting was dispensed with, inasmuch as said minutes could not be obtained, the Secretary being absent from the city.

The "Sons" then attended to the report of the "Committee of Aid and Correspondence" by Dr. Chamberlain, which was substantially the same as that published by you some time since, and included the letter of Col. A. L. Jones, which was listened to with extreme satisfaction by the gentlemen present. Reports were also given by Messrs. Soule, from the Sub-committee of Five on Reception, and Mendum of Portsmouth, Special Committee on the purchase of a suitable banner.

The latter gentleman advised that the order be given to the extensive establishment of Messrs. Paton & Co., in consideration of the superior material offered, and that its construction would be supervised by a Son of Portsmouth, (Mr. J. E. Fisbley,) who would take an especial pride in its manufacture, and whose taste and long experience would ensure a beautiful testimonial.

Several gentlemen were then added to the former committee to constitute a Grand Reception Delegation, which consists of the following eminent gentlemen, under whose guidance the affair will undoubtedly be brought to a completely successful issue,—Messrs. G. E. Mendum, R. C. Cutter, J.W. Emery, J. H. Brodhead, Portsmouth; J. S. Hanson, H. B. Perkins, Dover; and W. H. Briggs, L. L. Britton, C. A. Soule, F. P. James, and G. H. Moore, from different parts of the State.

It was voted "that the committee have full power to complete any necessary arrangements, and to sub-divide themselves into such special committees as circumstances might render expedient."

A. Archibald Peterson, Esq., was then chosen Grand Marshal for the procession, and selected Messrs. Cutter and Russell as Aids. Appropriate and patriotic speeches were made by Messrs. White, Soule, Cutter and others. The books were then opened and several hundred dollars immediately subscribed to defray the expenses of the reception, which will cost about $600, and as proposed, will consist of an escort from the boat through the principal streets, a collation, and flag presentation.

We will advise you at the earliest possible moment, of the most important incidents of the occasion, and remain,

Very truly yours, NEWINGTON.

N. H. LEGISLATURE.

THURSDAY, June 20.

In the House, the Committee on the Judiciary, to whom was referred a resolution of inquiry as to the expediency of modifying or repealing the act of 1857, commonly known as the "Personal Liberty Law," reported a resolution submitting the said act to the Justices of the Supreme Judicial Court. Adopted.

Mr. Straw, from the Finance Committee, reported a bill entitled "An act to aid in the defence of the country," which was read and ordered to be printed. It ratifies all action which has thus far been taken by the Executive in raising, equipping and sending off troops, and invests the Governor with full power to enlist, arm, equip and maintain such military force as in his judgment shall be necessary to maintain the Constitution and laws—to appoint all the requisite officers and fix their pay, provided that no more than two regiments besides those now mustered be authorized. He is also authorized to pay up all bills and adjust their settlement. For this purpose it appropriates a sum not exceeding one million dollars. The Treasurer is authorized to issue bonds not exceeding 6 per cent., coupons attached to all bonds over $500, and none under that sum. Said bonds are to be redeemable in not less than five nor after twenty years, and only $100,000 shall be redeemed in any one year.

On motion of Mr. Tallant of Concord, the Judiciary Committee was directed to inquire into the expediency of purchasing the Concord Railroad, agreeably to the provisions of its charter in 1835, which provides for such purchase.

On motion of Mr. Straw of Manchester, it was resolved that the business of the session be brought to a close on Saturday, June 29.

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired to keep your feet from blistering. Cures Cuts, Bruises and Lameness The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only fastened the purse strings without the slightest benefit.

The diseases augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was soon able to sit up, and walk. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

☞ Twelve members of the Second Regiment were left at the hospital in this city by Surgeon Hubbard. Several others, who have been in the Hospital, but were improving, went on with the regiment, Dr. Hubbard having no doubt that they could safely undertake the journey. Nearly all of the 1st Regiment who were left at Concord by the Surgeon, went on with the Second.

☞ In our report of the departure of the Volunteers, it was stated that the Firemen in the escort were under charge of Asst. Eng. Cornelius. That gentleman requests us to say that although he was with them,—the firemen were Gov. Langdon Co., No 3, and in charge of their Foreman, Mr. Jas. A. Waterhouse.

☞ The little fairy, Dolly Dutton, is to appear at the Temple this afternoon. She is the *smallest* great curiosity that the New England people have ever been permitted to see, and few realize how tiny she really is, until they see her standing by the side of a child of her own age.

☞ Mr. English closed his highly successful season at the Temple, last evening. He goes to Dover to fulfill an engagement in that city, and will probably return here at the expiration of a week, when his entertainments will present many new and attractive features.

☞ Our last word in regard to Mr. Perham's Excursion to Boston is, to all our readers,—go if you possibly can. The train leaves the E. R. R. depot this (Saturday) morning at 8 o'clock.

☞ A young man of Dover was killed near Atkinson depot on Thursday. He was on an excursion train, leaning out of a platform, looking backward, when his head struck a switch-handle, which knocked him off, lifeless.

☞ The police force, detached for special duty at the time of the reception of the Second Regiment in Boston, consisted of sixty men, all hailing from New Hampshire, they having been selected with a view to that result.

☞ One or two members of the 2d Regiment were somewhat overcome by the heat, in Boston, but were restored on the application of the usual remedies.

NEW YORK, June 20.—A Washington dispatch says the steamer Alliance has just returned from a cruise on the Potomac.—Lieut. Mygolt reports captured eleven rebel vessels on the river, which were endeavoring to supply the enemy with provisions. He burnt two, sunk four, and brought the remainder here. The rebels are again at work on the batteries at Aquia Creek.—They will soon have imperative orders to desist.

At noon the picket guard of the two armies were in sight of each other near Fairfax Court House. There are indications of a collision.

The Morse Telegraph patent expired today.

A dispatch to the Post says it is settled that Mr. Colvert a Unionist, is elected to Congress, in the doubtful district in Maryland, by two or three hundred majority.

Gen. Scott's health is better now than it has been for some time.

WESTERN VIRGINIA.—*Wheeling, June* 20.—In the Convention to-day, F. A. Pierpont was unanimously elected Governor, and Daniel Palsley, Lieut. Governor.

Gov. Pierpont was inaugurated this afternoon. He delivered an address to the Convention, urging a vigorous prosecution of the work of redeeming the State from the hands of the rebels.

A message from Gov. Pierpont recommending a strong militia organization is expected in a day or two.

Gen. McClellan to-day assumed the command in person of the Western Virginia forces. He expects to have 15,000 men in the field before Saturday night.

NEW YORK, June 21.—A dispatch to the World says 60 officers of the Prussian army have been granted leave of absence for two years, and they will offer their services to the United States for that period.

Secretary Cameron has telegraphed to the Governors of Pennsylvania, New York and other States for more troops.

Col. C. H. Foster is announced as a Union candidate in the 1st district of North Carolina. He is about to take the stump. He boldly defended the federal administration at a large meeting got up by secessionists expressly to denounce him. He says if federal troops were stationed in each district, a full delegation of Union men would be elected to Congress. Also that a brigade of loyal North Carolinians could easily be raised to aid in putting down the treasonable usurpation of Gov. Ellis and others.

JEFFERSON CITY Mo., June 20.—The steamer Sunshine from Boonville brings official confirmation of the defeat of the State troops on Monday. The official statement of the killed has not been received, but the loss of the State troops was not over 20; our loss was 2 killed, 9 wounded and 1 missing. The State troops numbered over 2000 and lost 1500 stand of arms, considerable ammunition, stores, horses and mules.

It is supposed Gov. Jackson has gone to Arkansas.

FORTRESS MONROE, June 20.—There has been a rumor of a large secession force advancing upon the fortress in the direction of Yorktown. A force was sent out to reconnoitre.

☞ The Austin (Texas) Gazette is informed that a secret Union Association has been formed in Texas, and says there are a few Johnsons, Etheridges and Hickses in Texas.

WASHINGTON, June 21.—Last night a party of nineteen secessionists attempted to blow up the Long Bridge. They were detected and fired upon. Two were killed, and the rest taken prisoners.

NEW YORK, June 21.—The New Hampshire regiment passed up Broadway at 11 o'clock, and made a splendid appearance.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, }
Portsmouth, June 14, 1861. }

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 23, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

L. LAIGHTON.

From the N. H. Gazette.

THE FAIRY, DOLLIE DUTTON.—To those of our readers who have not heard of Dollie Dutton we would say, she is a little girl, nine years old, twenty-nine inches in height, and weighs only fifteen pounds. She was born in the town of Farmingham, Massachusetts, and at her birth weighed three and a half pounds. Dollie is very beautiful, active and intelligent. The Albany papers state that twenty thousand persons attended her two weeks' levees in that city, and the Boston papers state that forty thousand persons attended her six weeks' levees in that city.

She gives levees at the Temple next Saturday and Monday afternoons at 3 o'clock. The children now have their choice of seeing Dollie Dutton or going on the excursion to Boston.

The N. Y. Tribune of Monday is out for peace. "Nowhere on earth," says it, emphatically, "would a speedy and honorable peace—a real peace—be hailed with more heartfelt gladness than by us." Nay, more, "If the traitors prove too strong to be subjugated, we are for peace on their terms, rather than a useless continuance of the war."

PROMOTED. Among the recent appointments to the new regiments which are to be raised, we notice the name of Thomas J. Haines, of this city, late Adjutant of the 2nd Art., to be Captain in the 13th Regiment of Infantry. Lieut. Haines is at present serving upon Gen. Butler's staff at Fort Monroe.

☞ Rev. W. A. P. Dillingham formerly Pastor of the Universalist Church in this City, will preach at that Church next Sunday.

From the Portsmouth Journal.

END OF DOG-DAYS.

The City Marshal announces that the provisions of the ordinance in regard to dogs will be strictly enforced on and after Monday next.

The U. S. frigate Sarstoga and the slave ship Nightingale which she has just captured, were both built in our harbor, within a gunshot of each other.

Health Regulations.

THE BOARD OF HEALTH of the City of Portsmouth call the attention of the public to the following sections of City Ordinance No. 4, and invite all interested in the preservation of health in the City to aid them in the execution of their duty.

SEC. 3.—All waste water of houses, yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or other place in the city, but shall bury them or throw them into the river below low-water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to lie within one foot of the surface of the earth. And all owners or occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 11. The health officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel, or enclosure, and cause the said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 14. The owner or occupier of any building, vessel or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or cause the same to be removed; and the same may be recovered by action to be brought in the name of the city.

SEC. 16. And whenever any person or persons shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, to which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

MANNY'S
Patent Mower & Reaper

THE continued success of the Manny Machine warrants the subscriber in offering it for the season of 1861, with the fullest confidence in its adaptability to meet the wants of farmers, as it has *fully demonstrated the fact that it is better calculated for successful operation in every variety of grass and all kinds of land, than any other machine in use.*

When manufacturers assert that they have a perfect machine, rely upon it that they claim more than their machine will bear them out in saying, as there is not a *perfect machine* built. I claim that the Manny Machine combines more good points with *fewer objectionable ones* than any other machine. It is *excelled* by none for ease of operating, lightness of draft, the principle of the cutting arrangement, or for the strength and durability of the machine generally.

The three sizes of machines built vary in the size and weight of material, and in the width of cut, so that the farmer is enabled to adapt his choice of Machine to the size or smoothness of his farm or to the weight of his team.

Each machine will be put together and started by some one of my agents, and with proper care and usage are *warranted to give satisfaction.*

Orders for extra parts of machines will receive immediate attention. In ordering extras, be particular to state the width of the cut, and the number of machine which they are for.

The subscriber is also manufacturing Whitcomb's Patent Horse Rake, a spring tooth rake mounted on wheels, with a spring seat for the operator, and trucks with which to operate it. It can be managed easily by a boy, rakes clean, and leaves the hay in good shape.—It is well adapted to cleaning *grain fields.*

Also Lyon's Rock and Stump Extractor, a simple and effective machine for raising rocks and stumps, can be operated easily by one man and a boy, and can be removed any required distance upon its own wheels.

☞ Circulars of testimonials, directions, &c. sent by mail.

AZARIUS BROWN, Worcester, Mass.

The above Machines may be examined or purchased at the Exeter Depot, or at Frink's, at the Greenland House.

Any person in New-Hampshire in want of the above, will address the subscriber at Newington post-office, N. H., or Col. SIMES FRINK, at Greenland. Orders promptly attended to. Make early application.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you cold, order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is coming upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, exposed to the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous diseases that follow in the train of the first effects. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Partnership Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purgs. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaints I have cured with your Pills better than to say *all that in our trust* with a purgative medicine. I place great dependence in an efficient cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. SIR: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. FREBLE,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have never failed in a case of bilious disease to obstinate that it did not readily yield to them. Fraternally yours, ALONZO DALE, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I visit to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent aperient to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Templin, Montreal, Canada.

The much cannot be said of your Pills for the cure of costiveness. Hundreds of our friends have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although it may be slight in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Sturtt, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural menstrua* when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hendee, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be unpardonable for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on severe rheumatic neuralgic pains, which confined me to my room. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 3 Fe. 1855.

DR. AYER: I have long entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SIDDELL.

☞ Most of the Pills in market contain Mercury which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the doubtful manner in which it is administered, and the fearful results that frequently follow its incautious use. These Pills contain no mercury or mineral substance whatever.

☞ 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise well for an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT,
MARKET SQUARE.

VALUABLE FARM FOR SALE.

Being out of health, and having no family, I offer for sale my FARM in Kittery, known as the "CUTTS FARM," consisting of about 125 acres of mowing, tillage, orchard and pasture land, with a two-story DWELLING HOUSE and BARN, SHEDS and other out-buildings, all in good repair.

The land is excellent, and has a good orchard of 200 grafted fruit trees. The situation is very pleasant, only 3 miles from York to Portsmouth, about three miles from the latter place,—and would furnish to the purchaser not only an excellent farm, but a very desirable residence.

Terms of sale easy, and immediate possession given. For further information, call on the subscriber, on the premises.

BININGER'S
GENUINE
Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

OUR COUNTRY'S FLAG.

A SONG, BY REV. WOODBURY M. FERNALD.

Hail, glorious ensign of the free,
Banner of every hope to me,
My country and the world;
Ten thousand pealing cheers be given,
And million souls be touched from heaven,
Where e'er thou art unfurled.
For thee the patriot braveth
The soldier's fearless death,
And where it proudly waveth,
He yields his willing breath.

Flow on, broad banner; every fold
Some great idea shall uphold,
And waft it round the earth;
Each wind of heaven, evermore,
Shall blow it forth from shore to shore,
Flag of a Nation's birth!
O'er every hill and valley,
From East to Western coast,
Around it all shall rally,
A brave and mighty host.

Its flaming bars of holy light,
Its martyr red, its truthful white,
Its starry heaven of blue,
In flowing beauty on the air,
Its heavenly message shall declare.
With glories ever new.
On every noble river,
On every mountain height,
It calls us to deliver
The land from Slav'ry's blight.

Ye sons of Freedom, bear it on,
For you a thousand victories won,
March boldly to the last;
For lo! the God of Nations reigns,
His throne of Justice still maintains,
Till every woe is passed.
O'er land and o'er the ocean,
On every inland sea,
Shall sound the great commotion
Till every slave is free!

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for **Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.**

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEPEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. W.M. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two weeks well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "For rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio (a section where fever and ague prevails) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by thousands of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

HYDRO CALORIC ENGINE.

The Portland Daily Courier now has its printing press carried by a five-horse power engine, called the Hydro-Caloric, invented and lately completed by the same Mr. Paine, who attempted the manufacture and use of water gas.

The Courier says in relation to the new engine, that its results thus far have utterly astonished and confounded every engineer or other person familiar with the power and economy of steam or calorie. With a heater (or boiler) whose diameter is fifteen inches, and its height twenty-four inches, and with a single hod full of coal, (weighing twenty pounds,) they run the press upwards of two hours, and that with an excess of power that would drive three such presses. Indeed, the difficulty is in burning the coal slowly enough to prevent generating power they cannot use. With 75 pounds of coal, the engine will run up to its full capacity for ten hours.

The advantages claimed for the engine, are, 1st: Simplicity of construction and compactness, which will put it in less than half the space of a steam engine of equal power. 2d: Immunity from the danger of explosion, for the nature of the power and its operation, precludes the possibility of an explosion. 3d: Economy of fuel and water. With the amount of fuel necessary to drive this engine, it would be impossible to generate sufficient steam to get continuous motion on a steam engine of equal power.—One-fifth of the quantity of water required for a steam engine of equal capacity, is ample to drive this hydro-caloric engine.

N. H. LEGISLATURE.

FRIDAY, June 21.

In the Senate, Mr. Hackett, from the Judiciary committee, reported the resolution postponing to the next session the subject of a revision of the Constitution. Ordered to a 3d reading, and adopted.

Mr. Burns, from the committee on Railroads, reported the bill relating to the Portsmouth and Concord Railroad with an amendment. The amendment was adopted. Ordered to a third reading on Monday next at 4 o'clock.

In the House, the committee on Incorporations reported leave to withdraw to W. P. Jones and 300 others, for a new aqueduct. Adopted. Mr. Stevens, of Concord, subsequently gave notice of his intention to move a reconsideration of the vote.

A bill was introduced providing that on all hearings for the laying out of highways, etc., by county commissioners, in case they are gratuitously furnished with board, lodging, or entertainment by interested parties, their reports shall be vitiated.

Mr. Emery of Portsmouth by leave introduced a bill providing for the safety of advertisements. Any person tearing down or destroying an advertisement legally posted, is made liable to a fine not exceeding $10, or imprisonment not exceeding 30 days.

The committee on the Insane Asylum made a report, in which they highly complimented the management of this institution, and especially the services of Dr. Bancroft, who, they say, is fully entitled to the confidence of the community. They also reported a resolution appropriating $4,000 for the next year's support of indigent insane. Not less than two thirds of this sum is to be applied to the use of private patients, exclusive of paupers. The House voted to appropriate $4000, as recommended.

ST. LOUIS, June 21.—Gov. Jackson with 600 men, arrived here on Tuesday and after impressing the property of both enemies and friends, being afraid of pursuit, suddenly left yesterday morning, proceeding southward towards Warsaw. Our forces have gone forward to-day, but there is little hope of overtaking the fleeing party.

A battle took place at sunrise on Tuesday morning, between 200 of the Union Home Guards, under Capt. Cook, near the town of Cole, and a large party of secessionists, in which 15 of the guards were killed and 20 wounded, many of the latter severely, and 30 prisoners taken. Most of the guards were in a large barn when the firing commenced, but immediately sprung to their arms. It is said they killed 40 of the attacking party before being over-powered by superior numbers. Nearly all finally escaped, and are now ready to join our forces to dispute the passage of the State troops.

NEW YORK, June 21.—A special dispatch to the Herald from Harrisburg says Col. Wallace's command had been penned in at Cumberland by a rebel force of 10,000, and all retreat cut off. Col. Biddle's rifles and Col. Simmons' infantry regiment left to-night for Cumberland.

SECOND REGIMENT, EN ROUTE.

BOSTON, June 20.

Messrs. Editors:—When I closed my last letter, we had just arrived in this city. [Our correspondent gives a very full account of the reception, but as we have already devoted much space to that subject, we reluctantly omit most of it.—EDS.]

Near the Tremont House, Capt. Sides was presented with an elegant boquet; it was thrown from a window, and a note attached to it contained the words—"To Capt. Sides, from a daughter of Portsmouth."

While at the Old Colony Depot, we were waited upon by a committee and many of the Sons of Portsmouth resident in Boston, Sergeant Sides was presented with a revolver by George A. Fields, Esq.; and many of the officers and members of Capt. Sides' Company received liberal presents of money from the generous Sons.

The Committee were unceasing in their endeavors to do all they could for the comfort of the Regiment. The citizens, in many cases, carried the knapsacks of the men, and treated them to oranges and fruit.

At every station on the route to Fall River, crowds collected, bidding us God speed, and a safe and honorable return.—We arrived at Fall River without accident, at 7 o'clock, and embarked on board the Bay State for New York. The horses and wagons of the Regiment were already on board, they having arrived by rail that morning. At eight o'clock we sat down to supper. Afterward we selected our berths state-rooms, and at 9 o'clock we steamed up for New York.

The wharves were crowded with the populace to witness our departure, as has been the case every where along the route. Our boat is the largest on the line, and has plenty of room for all of us.

Yours, for the Union, J. H. H.

From our Regular Correspondent.

THE RECEPTION IN NEW YORK.

NEW YORK, Friday P. M.

Dear Chronicle:—The "Sons," in accordance with the adjournment the evening previous, assembled last evening, at the Brandreth House, to listen to the reports of committees, and transact any business which suggested itself.

Mr. Mendum reported from the committee on the Flag, and Mr. Cutter from the Printing committee.

The meeting was then addressed by Chairman Reilly, in a glorious and patriotic strain, who was followed by several musical gentlemen, with "The Star Spangled Banner" and "America." The company then dispersed to meet at 9 o'clock this morning. The hour arrived, (a natural circumstance,) and with it about 150 New Hampshire men, who marched to the Pier, where they were joined by about the same number from the "down-town" and Brooklyn delegations. The last reception occurred on Sunday, which was favorable to a larger turnout of our citizens, who to-day were restrained from participation by business cares.—Neither is it strange that on a *week*-day New Hampshire should be less *strongly* represented. Shortly after 9 o'clock the steam transport hauled into the dock, and the Second Regiment of the N. H. Volunteers debarked, and forming on the pier, were welcomed with heartily repeated cheers by their fellow citizens of the good old Granite Hills, who escorted them to Battery Place, where they were allowed a short rest and an opportunity to exchange the most sincere greetings with friends "remembered long ago."

Passing along the ranks I came to Co K, unconscious that it was entitled to a higher feeling of pride and pleasure than that so deservedly excited by the whole regiment, till my eyes caught sight of the, handsome officer-like form of Capt. Wm. O. Sides, whose dignified, soldierly bearing gave rise to many interrogatories as to his identity and birth-place, from the thousands of enrapt spectators;—and while old Strawberry Bank can boast of so splendid an officer, it can also congratulate itself that that company and commander are so worthy of each other. If I eulogize too pointedly this "Co. K," it is because it comprises faces which I have seen so often, from my "spinning-top" days to my exit from the *railroad barn* on Elm street. What is meritorious in one company, is characteristic of the whole regiment; and a finer one the denizens of New York never saw, since the original doughty old Dutchman smoked his first pipe on the Battery, drank his *premier* glass of lager, and christened the place New Amsterdam.

After a brief respite, the troops were welcomed to New York by H. B. Perkins, Esq., of Dover, in an eloquent address, reminding the soldiers that they "had drank the same milk, and been brought up under the same influences, and though separated in locality, are still united," and that the Sons of New Hampshire in New York would mark with as much pride their glorious achievements, as those at home; and all he asked of them was to uphold the government to the *best of their ability*, and it would be nobly done.

The beautiful banner—the loved old "stars and stripes," inscribed with the words, "Second Regiment N. H. V." in golden-embroidered letters, on the centre stripe, which was furnished by Messrs. Paton & Co., and reflects great credit upon the committee and manufacturers, was then presented by C. A. Scule, Esq., of Exeter, and accepted by Col. Marston in a reply as neat as the presentation speech. It was then carried along the ranks and vociferously cheered. The "Sons" then took the lead, marching ten abreast, and the whole cortege moved up Broadway, amid a complete ovation from the populace, to the armory, corner of Elm and White streets, where the soldiers partook of a choice collation, while the officers and committee marched to the Everett House, and dined with the proprietor, a Son of New Hampshire.

The ranks were again formed at 5 o'clock, and, escorted by the "Sons," the regiment marched to the Jersey Ferry to embark on the Philadelphia & Baltimore line for Washington. The reception was a complete success, and in conversation with a Portsmouth boy, he remarked,—"When you write, tell them we were well received in New York, and are in tip-top spirits."

NEWINGTON.

The 2d N. H. Regiment, which passed through Boston on the 20th, is pronounced the most perfect body of soldiers that New England has yet sent to the war.—*Traveller.*

The soldiers were models of manly vigor; some of them of massive frame; all of them with bronzed complexion, hardened muscles, intelligent, hopeful, devoted to their country's cause, courageous and enthusiastic. No finer regiment has proceeded from New England to the seat of war, and well might the resident sons of New Hampshire feel proud—as they were proud—of these representatives of their gallant and loyal State. * * * This ovation to the New Hampshire troops was the best yet extended to any that have left our city. It reflects the highest credit on the gallant and public-spirited "Sons."—*Boston Atlas.*

☞ The Navy Department has issued a circular to each of the 200 bidders for building the gunboats, proposing to give $56,000 for a gunboat constructed in 70 days; $54,000 if in 90 days, and $52,000 if in 105 days—the entire number of boats being 25 of the class delineated. If the acceptors exceed this number, they are to draw lots, or otherwise decide to whom the contracts shall be awarded.

☞ The Concord, N. H., corresponde of the Boston Journal says that it is propos to make the 3d Regiment, to be raised this State, a Zouave Regiment. The Stat is full of active young men who are anxiot to wear the Zouave uniform, and enter the service with this superior drill. Enoch O. Fellows will undoubtedly be Colonel.

☞ Gen. James Watson Webb, Minister to Brazil, has selected Rev. J. C. Fletcher of Newburyport, author of "Brazil and the Brazilians," for his Secretary of Legation

NEWS ITEMS—SATURDAY EVENING.

NEW YORK, June 22.—A Washington dispatch to the Herald says Gen. McDowell continues to advance his lines.

It is reported that a collision occurred this morning between the picket guard of the 2d Connecticut Regiment and the rebel picket near Falls Church. One of the Connecticut men was killed and four wounded.

There was a case of poisoning at the 3d Maine camp to-day. Three men are violently ill who had eaten pies which were found to be filled with pounded glass.

Senator Johnson, of Tenn., has arrived in Washington. He was fired upon by the rebels, when coming through Cumberland gap, but unharmed.

It is said the people about the rebel camp at Manassas are hostile, and it is dangerous for the soldiers to leave the camp. The lower class of whites, also, are inciting the slaves to such a degree that servile war is imminent.

2000 guns were seized at Louisville, Ky., 21st, it being suspected they were for the use of the rebels.

An agreement has been made by Gen. McClellan with the Governor of Kentucky, to respect the neutrality of that State. The Gov. of Tenn. being notified of it, gave assurances that the territory of Ky. would be respected unless occupied by federal troops. He also gave peremptory orders to the Tenn. officers to that effect.

☞ A dispatch from Harper's Ferry to Washington confirms the report that 300 rebel troops arrived at the Ferry yesterday and completed the work of destruction.—They burnt the rifle factory, the Shenandoah bridge, and ran a first-class locomotive off the abutment into the river. They arrested 11 Union men, whom they took off; about 50 were pursued into the river, and swam to the Maryland shore. The rebels took off about 50,000 gun stocks from the rifle factory.

NEW YORK, June 21.—This morning the rebels were concentrating a large force at Fairfax Court House. Every movement indicates an attack on our lines within a short time. It is believed that Gen. Beauregard can concentrate 60,000 troops at any given point within a week.

Officers of the army say that unless a collision occurs before to-morrow evening there is little chance of any taking place at any time. There is a confirmed conviction here that the rebels are outflanked, and must fight or surrender.

NEW YORK, June 22.—A Washington correspondent of the World telegraphs that Jeff. Davis has become frightened, and has sent Commissioners to Washington, who submitted two propositions to the Government. The first was, the recognition of the existence of the Southern Confederacy, and that the latter be permitted for a term of one, two or three years, to carry on their government as an experiment. The second proposition was that the government should pledge itself to pass, at the coming Congress, an irrepealable constitutional provision recognizing slavery below the line of 36:30.

LOUISVILLE, Ky., June 21.—It is conceded that the Union candidates for Congress have been chosen in all the districts except Burnett's, who is undoubtedly elected.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic,* diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease.* Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy.*

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr. Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only lessened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. may28 daw3m

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Local.

☞ Among the numerous gentlemen who have been temporarily located in Portsmouth, of late, in connection with the Regiment of Volunteers, none has become more endeared to our citizens than Gen. George Stark of Nashua, appointed by Governor Goodwin to supervise the formation of the Second Regiment. The fitness of the appointment, no less than the faithful manner in which the arduous and responsible duties of the station have been fulfilled, receives the hearty approbation of all interested—civilians and soldiers, of all ranks and parties.

What else could the people of New Hampshire do,—and nothing else will they do,—than gladly endorse and ratify all the action taken or proposed by such a trio as our late truly Excellent Chief Magistrate, ably seconded by his most worthy successor, and his not a whit less worthy and esteemed, and hardly less successful competitor for this people's suffrages?

From what we have chanced to see, in our business and social relations with Gen. Stark and his Aid, Col. Lull, as well as the other officers of the Regiment, we have become convinced that an officer on duty has no sinecure situation—and that it has only been by the united efforts of all concerned, that so much was accomplished so quickly and so well. And it is most agreeable, that such good feeling exists between our citizens and in fact all the people of New Hampshire, and the gentlemen who have for the time been serving them to the best of their ability.

☞ After a sojourn of nearly two months in Portsmouth, Brig. Gen. Stark on Friday closed his duties in this city, and with his aid, Gen. Lull, returned to his home in Nashua. The three companies at Fort Constitution are to remain there in charge of their officers and Col. H. O. Kent, aid to Adj. Gen. Abbott. The barracks at the South End are deserted, and quiet now reigns where but recently all was bustle and commotion.

A guard remained in charge of the camp until Saturday afternoon. Then, they being assembled in front of the building formerly occupied by the officers, Col. Kent addressed them in a few words, stating the flag was raised amid the cheers of the Regiment, and asking them to cheer anew as it was hauled down. This the men did with a will as the glorious stars and stripes gracefully descended from the staff.

☞ The Post says the Santee is one of the finest vessels in the navy, ranking as a first-class frigate, and carrying an armament of fifty guns, including two pivot guns, weighing 12,000 pounds each. Her compliment of officers and men is over 500.—She has aboard 42,000 gallons of water and other povisions in the same proportion. Her commander, Capt. Henry Eagle, it will be remembered, was in command of the steamer Star, in the action at Sewall's Point. The Navy Department, appreciating his services, say in an official letter that it cannot withhold the expression of its high appreciation of his promptitude and gallantry whilst in command of the steamer Star. We have printed the list of officers of the Santee. The Third Lieutenant, however, is James E. Jouett, and not as printed. The assistant Surgeon is C. H. Burbank, of Portland.

From the Gazette.

☞ It is thought that the Second Regiment N. H. Volunteers, which left for the seat of war on Thursday, has a better outfit than any regiment which has yet gone forward. They have been supplied with everything that a prudent foresight could suggest, to make them comfortable and efficient. And Company K, Capt. Sides, of this city, is best furnished of all. The ladies of this city have manufactured a great variety of useful articles for this company and supplied each soldier. W. R. Preston also is entitled to great credit for his endeavors to provide for their health and comfort. We have already announced his munificent donation of a complete medicine chest, and on Thursday morning, just previous to their departure he presented to each member of Capt. Side's command, one of Hall's Drinking Tubes, which are said to be almost invaluable to travellers who are liable to suffer for the want of pure water.

The Drinking Tubes mentioned above were not the gift of Mr. Preston, as stated; but were procured by subscriptions from a few citizens, collected by Mr. Charles W. Brown, clerk at Mr. Preston's—and thus to Mr. Brown's forethought and exertions are the Volunteers indebted for the valuable present.

☞ A singular and beautiful occurrence "under the rose," has just transpired in the garden of Capt. E. G. Adams, on Islington street in this city. Last year there were set there, a red and a white rose bush, with a yellow one between; and now the yellow variety comes out a pale pink; and what were white are also pink, but paler; while as yet, the reds are not open. "Evil communications," &c.

☞ A very large number of our citizens visited Boston on Saturday, taking advantage of the opportunity afforded by Mr. Perham. We regret to learn that Mr. Perham was prevented from being here to superintend the arrangements, as he was called to attend the burial of his aged mother in Maine.

CHRONICLE EXTRA.

SUNDAY AFTERNOON, JUNE 23.

☞ A special dispatch to the Boston Journal, dated at Plainfield, N. J., June 22, says:

Lt. Charles W. Walker, of Company B, (Goodwin Rifles) of the Second N. H. Regiment, fell from the cars near the Westfield (N. J.) station, last night. He was brought to the Mansion House in this place, where amputation of the thigh was performed by Surgeon Hubbard, of the Regiment. A reaction has set in this morning, and hopes are entertained of his recovery. The sad event threw a gloom over the entire regiment.

Self-Ventilating Refrigerator,

Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE,
Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 29, which is as follows:

SEC. 1. *Be it Ordained*, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the functions move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the happy feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the depressed and dangerous disorders. The same purgative effect expels them. Coated by similar chemicals and derangements of the natural functions of the body, they are rapidly, and they may be, if taken early, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cause.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR SIR, AYER: I cannot answer you other compliments I have cured with your Pills better than to say *all that is our trust with a purgative medicine*. I have given them done on an effectual cathartic in my daily contest will disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1855.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy when given for the worst form of bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in the ministry. To those whose organs of digestion and purify the blood, they are the very best medicine I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice and find them an excellent purgative to cleanse the system and purify the fountains of health.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the suffering public. I have had one complaint, which, although bad enough in itself, is the precursor of others that are worse. I believe constipation originate in the liver, but your Pills effect that regardless of the disease.

From Mr. E. Bissell, Physician and Midwife, Dublin.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion of bile, wholly or partially relieving the system of redundant bile, and also expelling the stomach and expel worms. They are so much the best physic we have that I recommend my other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your pill has brought me if I did not report my case to you. A cold settled in my limbs and produced an excru-ciating neuralgic pain, which ended in chronic rheumatism. I established I had the best of physicians the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 3 P.—1856.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years.

☞ Most of the Pills in market contain Mercury which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its injudicious use. These contain no mercury or mineral substance whatever.

☞ 25 cents per Box, or 5 Boxes for $1.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, and painted, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be procured from a reliable source.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

THE RECENT MURDER IN FRYEBURG.—It appears that Ephraim Gilman had been in the employ of Mrs. Swan, (the unfortunate victim, who was a widow and the mother of two children) as a laborer upon her farm, for about three years. Gilman, some time since, made a proffer of his hand and hand to the widow's daughter. She was, at first, disposed to regard favorably his suit, but on account of the strong disinclination of her mother, she rejected him. Learning the cause of his rejection, he at once planned to remove it. Blinded by his insane passion, he resorted to a method which, while it forever defeated its object, has probably consigned him to a felon's doom. It is certain that the act was deliberately planned. To cover up his crime, Gilman sought to make it appear that Mrs. Swan took her own life. For that purpose, he wrote a letter purporting to be directed by Mrs. S. to her children, in which she is represented to declare that she is tired of life, and concluding with some remarks of a business nature. But he was asked to copy this letter; he did so; and the original could not be detected from the copy.

Gilman has heretofore borne a good character. He is represented, however, as being ignorant, dull in manner, and not over-attractive in person. It is said, also, that he is entirely indifferent to his arrest and the terrible consequences impending.—*Portland Courier.*

RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, *Dry Goods Dealer*, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 69 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1859, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—W. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

TUESDAY, JUNE 25, 1861.

THE DEVIL OUTWITTED.

The settlement of New England by the Puritans, is well understood to have been for religion's sake, to enjoy freedom to worship God in the puritan fashion; and and we can perceive, very readily, that civil political freedom grew out of that which was strictly religious.

In Mr. Palfrey's History of New England, a correspondence, written two centuries ago, between Dr. Twiss and Joseph Mede, about the question "whether New England might not be the New Jerusalem," gives the idea of this country's being a Holy Land, with a curious mixture of belief in the great craft of the Devil, and of his agency in the settlement of the Indians.

Mede was an eminent biblical scholar, a firm Calvinist, and a sincere believer in the reign and kingdom of the Devil. He writes, most seriously, in the following strain, which must amuse some by its quaintness, while it is full of instruction to the reflecting mind.

"Though there be but little hope of the general Conversion of those Natives in any considerable part of that Continent; yet I suppose it may be a work pleasing to Almighty God and our Blessed Savior, to affront the Devil with the sound of the Gospel and Cross of Christ in those places where he had thought to have reigned securely and out of the divine thereof; and though we make no Christians there, yet to bring some thither to disturb and vex him, where he reigned without check.

"For that I may reveal my conceit further, though perhaps I cannot prove it, yet I think thus:

"That those Countries were first inhabited since our Saviour and his Apostles' times, and not before; yea, perhaps, some ages after: there being no signs or footsteps found among them, or any Monuments of older habitation, as there is with us.

"That the Devil, being impatient of the sound of the Gospel and Cross of Christ in every part of the old world, so that he could in no place be quiet for it, and foreseeing that he was like at length to lose all here, bethought him-elf to provide him of a seed over which he might reign securely; and in a place, *ubi nec Pelopidarum facta neque nomen audiret*; [where he should never hear of the name or the deeds of the Pelopides.]

"That accordingly he drew a Colony out of some of those barbarous Nations dwelling upon the Northern Ocean, (whither the sound of Christ had not yet come,) and promising them by some Oracle to shew them a Country far better than their own, (which he might soon do,) pleasant, large, where never man yet inhabited, he conducted them over those desert Lands and Islands (which are many in that Sea) by the way of the North into America; where none would ever have gone, had they not first been assured there was a passage that way into a more desirable Country. Namely, as when the world apostatized from the Worship of the true God, God called Abram out of Chaldee into the Land of Canaan, of him to raise a Seed to preserve a Light unto his Name: So the Devil, when he saw the world apostatizing from him, laid the foundations of a new Kingdom, by deducting this Colony from the North into America, where since they have increased into an innumerable multitude. And where did the Devil ever reign more absolutely and without controll, since mankind fell first under his clutches?

"But see the hand of Divine Providence. When the off-spring of these Runnagates from the sound of Christ's Gospel had now replenisht that other world, and began to flourish in those two Kingdoms of Peru and Mexico, Christ our Lord sends his Mastives the Spaniards to hunt them out and worry them: Which they did in so hideous a manner, as the like thereunto scarce ever was done since the Sons of Noah came out of the Ark. What an affront to the Devil was this, where he had thought to have reigned securely, and been forever concealed from the knowledge of the followers of Christ?

"Yet the Devil perhaps is less grieved for the loss of his servants by the destroying of them, than he would be to lose them by the saving of them; by which latter way I doubt the Spaniards have despoiled him but of a few. What then if Christ our Lord will give him his second affront with better Christians, which may be more greivous to him than the former?"

It may be instructive to see under what seems to us a curious superstition, the firm reliance placed on that Divine government and equity, which made Jefferson say, "I tremble for my Country when I remember that God is just, and that his justice cannot sleep forever."

It is also a reflection somewhat pertinent to the present condition of affairs in America, that as the Devil thought to reign securely in America by the flourishing of negro cotton kingdoms here,—it must have been a dreadful affront put upon his Satanic Majesty by the Democratic party at Charleston and Baltimore, and more grievous still must be the affront by Butler, who takes the negro as a contraband article, and by Cameron, who says let him alone, to go where he pleases.

NEW HAMPSHIRE ITEMS.

The Statesman says Lucius Dicy, of Upper Gilmanton, while at work boeing near his house Thursday afternoon, was shot by some one concealed in the woods near by. The ball passed through his left arm and into his hip; it has been removed. A man by the name of Israel Bartlett has been arrested for the act. Bartlett is about half crazy, and entertains the idea that Dicy is intimate with his (Bartlett's) wife, though no one else believes it. Bartlett has been insane upon the subject for some months past, and has made some attacks before up on Dicy.

Last Wednesday, Mr. C. P. Sanderson, apothecary, of Pittsfield, received a bullet in his neck from a pistol in the hands of a young man who was carelessly exhibiting it in his store. The ball lodged in his neck, and up to latest accounts had not been extracted, though experienced surgeons had been called. It is thought the wound will not prove fatal.

On Monday of last week, about 3 o'clock, the dwelling house of C. F. Parker in Rochester was discovered on fire, and owing to inability to get water, it was almost entirely destroyed. Loss $1000; insured $600 in Rochester Co.

The cars of the Great Falls & Conway Railroad were thrown from the track below Great Falls on Saturday, by the breaking of an axle of the tender. Two empty freight cars were entirely destroyed, and the baggage and passenger car badly damaged.

Eleven o'clock Monday forenoon was assigned by the Legislative Committee on the Reform School to visit the institution. By special request the Manchester American was represented and ready for duty. The hour arrived, but not the committee. A sumptuous dinner of roast beef was smoking on the table at 12, and His Honor the Mayor and a very competent reporter did themselves the honor, and agreed on a unanimous report in favor of the institution.

The Mirror says a few days since Mr. Andrew Howard of Lyndeborough was going to East Wilton with his wife, child and twenty-seven cans of milk in his wagon, when the breeching gave way, and the horse took fright, throwing Mrs. Howard from the wagon and injuring her severely, perhaps fatally. The milk flew in all directions. Mr. Howard and the child escaped without injury.

While Mr. Samuel Howard of Lyndeborough, a soldier in the war of 1812, was assisting his son in constructing a barn cellar, a large block of granite fell from the top, striking and mutilating him in a horrid manner. He is a man of strong constitution, and it is thought he will recover.

The dwelling house and barn of Wallace Webster, in Bridgewater, were destroyed by fire on Saturday, June 15. Supposed to have been set on fire by one Andrew Peaslee, who has been arrested.

A new division of the Sons of Temperance has been organized at Milan corner. A fine band of music was present on the occasion, the first that had ever been heard in that village. The Milan people are making arrangements for an interesting Sabbath School excursion on the Fourth of July.

The body of an unknown man was found in the mill pond at West Swansey, on Friday last, and as he was seen in the vicinity on the Sunday previous, it is supposed he was drowned on the evening of that day. It is supposed to be a man who was put in jail two or three weeks since for larceny, and who exhibited symptoms of insanity at the time. There is reason to believe that that his name is Johnson and that he came from Burlington.

☞ Steamships Anglo-Saxon, at St Johns and Bremen, at New York, bring foreign intelligence to the 14th inst. The Moniteur officially announces that the Emperor intends to maintain strict neutrality in the American war, and enjoins all Frenchmen to avoid taking any part in the quarrel. Baron Ricasoli succeeds Count Cavour as head of the Italian Ministry. The Syrian question is settled by a compromise, providing for the appointment of a Christian Governor for three years, at the end of which time the subject will again be open for discussion. In the English markets there is no change to notice, except a slight decline in breadstuffs.

☞ The editor of the Portland Courier goes into raptures over "two handsomely constructed baskets, filled to repletion with the largest and most delicious strawberries he ever feasted his eyes upon, or tickled his palate with,"—a present from C. P. Kimball, Esq., who, we knew, was *au fait* in everything in the carriage line, and, as we now learn, is a good judge in other matters.—The strawberries were grown by David Cook, Esq., of New Haven, who has eight acres under cultivation, comprising all the various kinds. Mr. Cook is the inventor of the basket, which nicely answers the purpose, and is a gem of its kind, and he manufactures them by thousands.

☞ The Boston escort to the New Hampshire Regiment, on Thursday, consisted of 188 sections, 6 each.

☞ The Washington correspondent of the Philadelphia Press says that one inducement for Jeff. Davis to withdraw his forces at Harper's Ferry, was the hope of party dissensions arising in the extra session of Congress. The writer adds:—

"He (Davis) no doubt will have friends in the Congress to assemble here, and it is believed that they have agreed upon a plan of attack, by which, professing to be Union men, they will arraign the Administration on the charge that it has assumed a power in carrying on this war not delegated to it in the Constitution, and on this question draw party lines, and attempt to rally the Democracy of the North against it on the cry of retrenchment and reform. Should such a plot as this develop itself, and a disposition be shown on the part of any Senator or Representative to embarrass the operations of the Government, the people, who are tired of trifling with traitors in their own midst, will make short work of the man or men who may attempt to prevent the present vigorous prosecution of the war."

☞ A large store house, owned by the Exeter Manufacturing Company, and situated on the wharf nearly opposite the mill in that town, was discovered to be on fire about 10 o'clock on Sunday evening.

When discovered, the fire had made great headway inside the building, and in less than one hour the building was nearly ruined, together with its contents, which consisted of lumber, patterns of machinery, oil, a quantity of hose belonging to the force pump in the factory, besides many other articles. The loss to the company will be great, amounting to several thousand dollars. The cause of the fire is unknown. Several buildings in the vicinity caught fire from the flying sparks, a strong wind prevailing at the time; but the efforts of the firemen prevented further destruction of property.

During the seige of Boston, in 1775, the British fired about a thousand balls, bombs and carcasses over into Cambridge, but killed only seven persons. They also fired more than two thousand bombs and only killed five persons. One of the newspapers of the time, in publishing this statement, observes:—"It is wonderful how happily the Americans have been preserved." The cannon ball in the tower of the Brattle Square Church, was fired by the Americans in Cambridge, who were cannonading some parts of Boston, March 17th, 1776. The headquarters of Gen. Gage were opposite the church, and the sacred edifice itself, was occupied by the British troops. The church was new, and Gen. Gage said "he had no fear of shot from Cambridge while his men were within such walls." The ball was picked up by Mr. Turrell, who preserved it, and when the church was afterwards repaired, it was placed in the breach it had made.—*Trans.*

LATER FROM FORT PICKENS.—Advices to the 10th have been received at Washington. Commander Brown had entirely completed his means of defense. The fort was in the best possible condition, and no fears were entertained of the rebel force under Gen. Bragg, which is still very large. The works on Santa Rosa Island are also completed. Sand batteries have been thrown up, recently, and heavy guns have been mounted in them. The entire garrison is complete and in readiness, and provisioned up to a war footing. The fleet outside can, and will whenever necessary, render powerful aid. They apprehend an attack before long, judging from the movements of the enemy. The health of the officers and men is comparatively good.

☞ The young man who was killed—in the newspapers—on the excursion train near Atkinson, last Thursday, seems to have come to life again; at any rate the newspapers now say he is alive, and is not very badly hurt. People on excursion trains are extremely careless and seemingly reckless; the only wonder is not that any are killed or hurt, but that more are not.

CHANCES OF BEING KILLED.—Marshal Saxe was in the habit of saying that to kill a man in battle the man's weight in lead must be expended. A French medical and surgical gazette published at Lyons, says this fact was verified at Soferino, even in the recent great improvement in fire arms. The Austrians fired 8,400,000 rounds. The loss of the French and Italians was 2,000, and 10,000 wounded.—Each man hit cost 700 rounds, and every man killed cost 4,200. The mean weight of ball is one ounce; thus it required on an average 272 pounds of lead to kill a man.

☞ Our friend, Albin Beard, Esq, of the Nashua Telegraph, announces that the past week completes the quarter of a century of his connection with his lively and always pleasing paper. He preaches so good a sermon on the occasion that we shall pay more attention to it as soon as we have a column to spare.

☞ A child, about 3 years old, fell from the third story of a building in Porland, recently, in its descent striking its knee on a window blind, and thence falling to the ground. Two hours afterwards it was running around as usual, with the exception of a slight limp occasioned by striking against the blind.

☞ The Douglas Brigade, composed of the flower of Northern Illinois, is already full, and is to be spendidly equipped.—They have engaged a band of thirty pieces

FORTRESS MONROE, June 22, via Baltimore, 23.—The propeller Fanny started for Norfolk this morning with a flag of truce, but she was not allowed to proceed beyond Sewall's Point, where she was met by a rebel steamer, and her passengers conveyed to their destination. Among them was a lady having sons in both armies.

It is now known that the first shot from Sawyer's cannon struck a corner of the rebels' magazine, scattering the rebels like a bolt from heaven, and came near producing an explosion. The batteries have consequently been removed. The rebels are not safe within 4 miles of this terrible projectile.

Many pieces in the Fortress are being rifled. The Union gun is being mounted.

Hampton Roads swarm with shipping, and immense storehouses are in process of erection for government supplies.

NEW YORK, June 23.—The Times Washington dispatch says:—Consul Spencer at Paris, in consequence of his traitorous proclivities, has been ordered to close the consulate and deposit his papers with the American Minister.

The Government has appointed a commission to inspect all provisions for the subsistence of the army.

The State Department has been advised that Gen. Beauregard's force has been moved from Manassas to Fairfax Court House.

Two telegraph operators state that numbers of Northerners have joined the rebel army as the only means of getting near the lines of the frontier, when they intend leaving for a free country.

The Herald's Washington dispatch says: It is reported that Gen. Beauregard recommends a system of guerillla warfare and urges the rebels to engage outposts at every opportunity. It is said the roads from Fairfax to Manassas are dotted with masked batteries.

Private letters from England state that large numbers of privateers are being fitted out there, and American residents were urging our Minister to call the attention of the British Government to the fact.

BALTIMORE, June 23.—No doubt was entertained in this vicinity but that Harper's Ferry would be occupied to-day by the government troops. The government has possession of the telegraph and allows nothing relative to the movement of troops to be sent.

ALEXANDRIA, June 23.—A captain of one of the companies of the 2d Connecticut regiment was abducted by the secessionists yesterday. A lady requested him to provide her with an escort to her house, as she was afraid to go alone. He gallantly tendered his own services, since which nothing has been heard of him.

Volunteers for the War

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired to keep your feet from blistering. Cures Cuts, Bruises and Lameness The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisis*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had long ago destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 daw3m

CORRECTION.—*Messrs. Editors*:—Please insert the following to correct an error which I noticed in the Gazette, with reference to the drinking tubes furnished the Portsmouth Company on the morning of their departure. The Gazette stated that they were presented by me. The facts are these:—C. W. Brown, one of my clerks, procured by subscription, thirty-four dollars; and it was necessary to raise sixty-two dollars and fifty cents, to procure one hundred of them;—this being the lowest price at which they could be procured from the manufacturer. A liberal individual, knowing the circumstances, told me to purchase them and he would make up the balance; which was done; and thus the company were provided with these useful and indispensable articles of comfort. Justice to the contributors calls for this explanation; and as I do not wish for any credit not due, I take this early opportunity to correct it. W. R. PRESTON.

☞ The crop of grass in this vicinity, is as handsome and heavy as any within the last fifty years. The appearance of the fields at this moment is rich and beautiful. The green of the grass and trees is enlivened by the red, white and yellow of the flowering clover, daisy and butter-cup; and where haying has begun, the surface is thickly dotted over with haycocks, covered often with the modern night-cap which is now almost indispensable.

The hay crop throughout New England is understood to be uncommonly abundant.

THE MECHANICS PHALANX, now at Fort Constitution, have re-organized and elected officers as follows:

☞ The Manchester Mirror says when the Candia Branch Bill "gets to the hands of the Governor, and becomes a law, the bells should ring at Manchester and Portsmouth, cannon should be fired, and bonfires be kindled the whole length of the road between the two cities."

☞ In the Superior Court, Boston, on motion of Charles Levi Woodbury, Esq., Edwin N. Mathes, late of this city, was admitted to practice as a counsellor and attorney at law in all the courts of Massachusetts.

☞ The Eastern Railroad has declared a dividend of two dollars per share, payable July 1st.

POLITICAL.—The Washington correspondent of the New York Tribune says that on the evening of Henry May's success over Henry Winter Davis, cheers were called for from a balcony in Mr. May's house for Jeff. Davis and the Baltimore boys at Harper's Ferry. The crowd responded heartily, and the band played "Dixie."

Every friend of the Union, who voted for this man May, can now see that he made a fool of himself. It is not likely, however, that many such men did so.

NEW YORK, June 24.—A dispatch to the Tribune states that Baltimore, though apparently quiet, is profoundly agitated. Gen. Banks has orders to shell the city on the first insurrectionary attempt, and he will do it.

COM. Vanderbilt has tendered his steamship Vanderbilt to the government at a price to be determined on by Com. Stockton and any two active Commodores now in the navy; and if not accepted on these terms, he adds—"Will the government please accept her as a present?"

The War Department has assured Senator Johnson and Mr. Etheridge that the Union men of East Tennessee, and Tennessee has been included in the military district of Gen. Anderson.

A dispatch to the Times says a naval expedition is being fitted out to operate on the Texas coast.

A dispatch to the Herald says a meeting of the Cabinet will be held on Monday, at which Generals Scott, Butler, Banks and Dix will be present. It is believed Gen. Scott has a new project to submit.

It is said Jeff. Davis's opposition alone has prevented the rebel forces from making a rush towards Washington.

A Baltimore dispatch says there is considerable sickness in the 2d N. H. regiment, which passed through there Saturday.

The 2d N. H. regiment arrived in Washington on Sunday.

FORTRESS MONROE, June 23.—It seems that G. W. Clark, of the 3d N. Y. regiment, deserted the night before the affair at Great Bethel, and gave the rebels full information as to our movements. He is now at Richmond, the rebels refusing to receive him into service.

Jeff. Davis was at Richmond last week. A store in Richmond containing $100,000 worth of property, and the war steamer Glencove, were destroyed by fire Saturday night. Both fires were incendiary, and the rebels are vainly endeavoring to discover the incendiary.

☞ The July number of the Atlantic contains many valuable and attractive articles, yet there are two which are of peculiar interest at the present time; these are, Washington as a Camp, by the lamented Major Winthrop, and a biographical sketch of Col. Ellsworth, by Mr. Hay, private secretary of President Lincoln.

☞ We find in the Boston Courier the particulars of the sad accident which resulted in the death of Lieut. Charles W. Walker, of the Goodwin Rifles, N. H. V. The regiment embarked on board a steamboat at New York on Friday, and was conveyed to Elizabethport, N. J., where they were transferred to the cars of the Camden and Amboy Railroad. The company, either from a deficiency of cars or some other cause, furnished the train with a number of open gravel cars. On one of these cars Company B was stationed, and two men placed themselves in such a position as easily to be thrown off in case of a sudden stoppage of the train. About half-past 11 Lieut. Walker went up to the men to warn them of their danger, when the car gave a lurch, precipitating him to the ground. The train passed over one of his legs, horribly mutilating it. The train was instantly stopped, and the wounded man carried to Plainsville, N. J., about ten miles distant.—Lieut. Walker was insensible, and after reaching the hotel it was found necessary to amputate his leg. Lieut. Walker was a native of Fryeburg, Me., but for a number of years past he has been a resident of Concord, N. H. He was about 38 years of age, and a man of fine intellect. He was for some years intimately connected with the New Hampshire State Militia, and one of the most prominent Free Masons of the State. He was a brother-in-law of Brig. Gen. Andrews of Boston.

A dispatch from New York, dated Monday, 24th, says "his remains will be conveyed to Concord. A detachment of the Knights Templar from the several Commanderies of New York will escort the remains from St. Ann's Church to the steamer. Eight officers from the 11th Regiment will act as a guard of honor."

☞ Since the first of April about 3000 men have been taken on board the receiving ship Ohio at the Charlestown Navy Yard, and thence drafted into other vessels. The sloops Marion and Dale, at our Navy Yard, will be supplied with crews from the Ohio, in the course of the coming week.

A special dispatch to the Picayune dated Richmond, 15th, states that the veil of secrecy was removed yesterday from the proceedings of the Convention. The original secession vote taken on the 19th of April, stood 88 against 55. On the 14th of June, the ordinance was signed by 91 only.

"*Their name is Legion*," may be applied to those who die annually of consumption. Science has of late years sensibly diminished the number, and it is gratifying to know that Dr. Wistar's Balsam of Wild Cherry has created a powerful influence in attaining this end.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 29, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay the sum of a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due compaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a *good* Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Stillman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

Bartlett's Polar Refrigerator,

With two food chambers and a water tank; a very convenient article.

THE BUCKEYE MOWER

THE BEST MOWING MACHINE IN THE WORLD.

Three Sizes.

THE BUCKEYE MOWER,
THE BUCKEYE, JR.,
THE LITTLE BUCKEYE.

These three machines adapt the Buckeye to the wants of all classes of the farming community, and place the BEST machine within the reach of all who use harvesters.

Farmers wishing to secure Machines, will avoid disappointment by sending their orders early in the season.

At the greatest practical working trial ever held in this country, at Syracuse, N. Y., July, 1857, it received the First Premium,

GRAND GOLD MEDAL,

offered by the UNITED STATES AGRICULTURAL SOCIETY for the

BEST MOWING MACHINE,

Over Manny's, Ketchum's, Hallenbeck's, Allen, Kilby's, Hussey's, Heald's, Eagle Mower, and several others. First Premium Connecticut State Agricultural Society, 1857; Queen's County Agricultural Society, 1858, and numerous others from different sections of the country.

It is WARRANTED to cut grass equal to the best mowers with a scythe, at the rate of one acre per hour with pair of horses and a driver.

Some of its points of excellence are:

1st. It is free from nine draft and has no more weight on the ox, or horse's neck, than a wagon.

2d. It is light draft.

3d. It runs on two wheels which serve as drivers.

4th. It has an adjustable cutter bar and consequently it will follow the inequalities of the ground.

5th. The cutter bar is in front of the driving wheels, and the seat on the rear—allowing the driver to see the operation of the cutters without interrupting with his driving; also, (he) avoiding all danger of falling into the knives.

7th. The driving wheels have no cogs on them, but drive the gearing by means of pals and ratchets. 8th. By means of these pals and ratchets, the knives cease to vibrate in backing the machine. 9th The driver, while in his seat, can see every bolt, box, and all the gearing, when the machine is in motion. 10th. The gearing is all permanently secured on the center of the frame, distant from the driving wheels, thus avoiding all tendency of its being clogged up with mud or dirt. 11th. The cutter bar being attached by means of hinges, it can be raised without carrying the weight of the machine without removing connecting rod, shake, or crank clevis.

12th. The pals on the driving wheels can readily be thrown out of gear, and by folding the cutter bar, as above stated, the machine becomes as portable as a common cart.

13th. There is a wheel on the axle next the gearing, in front of the cutter bar, thus avoiding all tendency of clogging at the near shoe, in passing over cut grass.

14th. The shoe is only two and a half inches wide, and the last knife cuts no more than any other, therefore leaving no edge or high stubble at the end of each swath.

15th. The cutter bar can be raised or lowered by means of an adjustable steel spring shoe at off end, and a shoe on the near shoe where the wheel is attached.

16th. There are no pins or screws at the connecting rod, which are always liable to work loose; but by the use of a spring pal and a ratchet key this difficulty is entirely obviated.

From among the many testimonials received by the proprietor, we select the following:

PORTSMOUTH, N. H., Aug 25, 1860

J. P. ADJIANCE—Dear Sir,—I have tried the Buckeye Mower I purchased of you, and find it to exceed them most my expectations

I have cut about fifty acres of grass with it, and it works complete in either thick or thin grass, doing its work smooth and handsome, without any trouble whatever.

I have no doubt but that the Buckeye will do as good work as any other machine of the same kind, and I have no hesitancy in pronouncing the Buckeye Mower the best one in the market; in fact, it is perfect in every respect.

The draught is much easier than I expected. Any ordinary pair of horses can work it with ease; in fact, one good horse can work the large machine in moderately thick grass. I put my horse into the two-horse Mower, and can free acres (some of it pretty heavy) in one forenoon without worrying the horse.

I can cheerfully recommend the Buckeye Mower to any farmer in our vicinity, as being well adapted to any kind of land—rough or smooth, level or hilly.

ABEDNEGO ROBINSON.

One of each size of these Mowers can be seen at the store of the subscriber, who is Agent for the sale of them in Portsmouth and the adjoining towns. Persons who have used Manny's and Allen's Mowers in this section consider this much superior to either of the others. Farmers are especially invited to make an examination and trial of this Mower. Descriptive circulars, with numerous testimonials can be had at the Store of

E. A. STEVENS,

MANNY'S
Patent Mower & Reaper

THE continued success of the Manny Machine warrants the subscriber in offering it for the season of 1861, with the fullest confidence in its adaptability to meet the wants of farmers, as it has *fully demonstrated the fact that it is better calculated to meet the requirements in every variety of grass and all kinds of land, than any other machine in use.*

When manufacturers assert that they have a perfect machine, rely upon it that they claim more than their machine will bear them out in saying, as there is not a *perfect machine built.* I claim that the Manny Machine combines more good points, with *fewer objectionable ones* than any other machine. It *is* admitted by most far men of operating, lightness of draft, the principle of the cutting arrangement, or for the strength and durability of the machine generally.

The three sizes of machines built vary in the size and weight of material, and in the width of cut, so that the farmer is enabled to adapt his choice of Machine to the size or smoothness of his farm or to the weight of his team.

Each machine will be put together and started by some one of my agents, and with proper care and usage are warranted to give satisfaction.

Orders for extra parts of machines will receive immediate attention. In ordering extras, be particular to state the width of the cut, and the number of machine which they are for.

The subscriber is also manufacturing Whitcomb's Patent Horse Rake, a spring tooth rake mounted on wheels, with a spring seat for the operator, and treadles with which to operate it. It can be managed easily by a boy, rakes clean, and leaves the hay in good shape—It is well adapted to gleaning grain fields.

Also Lyon's Rock and Stump Extractor, a simple and effective machine for raising rocks and stumps, can be operated easily by one man and a boy, and can be removed any required distance upon its own wheels.

Circulars of testimonials, directions, &c. sent by mail.

ALZIRUS BROWN, Worcester, Mass.

The above Machines may be examined or purchased at the Exeter Depot, or at Frink's, at the Greenland House.

Any person in New-Hampshire in want of the above, will address the subscriber at Newington post-office, N. H., or Col. SIMON FRINK, at Greenland. Orders promptly attended to. Make early application.

ELIAS FRINK,
General Agent for New Hampshire.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and superior quality.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighths and Quarter Casks.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.**, and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods**, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors and Wines*, in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEPRERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. B. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most reliable remedy for that disease I have used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS.
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases, and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

WEDNESDAY, JUNE 26, 1861.

THE FOURTH OF JULY.—It has been a matter of surprise to us to learn than many persons are inclined to allow the next Anniversary of the National Birthday to pass by with little or no public notice. We can understand easily why some communities in the country should desire to do so: the celebration of that day would indeed be a stinging rebuke, which might give them pause; but why any town in the North should fail now to mark the day by appropriate ceremonies, we cannot conceive.

The editor of the Newburyport Herald, we think, comes very near the real state of the case, when he says that "if there was ever a time when it was necessary to recur to first principles—to look into the foundations of the government that sprung from the revolution of 1776, and to inquire what can be done to preserve the freedom our fathers won, that time is now. We are on the waves of revolution, and while we hope for the best, God only knows where they will land us. If we should meet with reverses, we may have less heart for the next fourth of July than the present; and if we meet with success, there must come an adjustment and understanding between the different sections of the country, which will be advanced by reading a chapter from the history of our fathers.—It will be a good opportunity now to point back our children to the old landmarks, that they may have some point of departure for the government of the future."

The cost of a celebration would be nothing worth naming. The people—or those of them who labor day by day, and who enjoy these annual celebrations, perhaps, more than most others, must have something to do; and the young people especially must have somewhere to go. We shall ring the bells, fire a salute and display every inch of bunting the city owns, of course. But, if nothing more is done, those who wish to celebrate, and they are many, will go abroad, paying more for railroad fares than would give a very decent celebration—not to mention other expenses—All the cost would be a band of music—and for that we should not be forced to send a dollar out of town—and a small subscription for fireworks in the evening, and there we should hardly want more than will be burned in different parts of the city by private persons, on their own premises, endangering life and property as they do it. The reading of the Declaration of Independence, an oration from some person the city might invite, and the singing of patriotic songs, "Hail Columbia," the "Star Spangled Banner," &c., by a volunteer choir, would be pleasing features, and would cost nothing. We can have a celebration just as well as not—and have one of the best kind—if the city government will appoint a good committee to arrange it.

N. H. LEGISLATURE.

MONDAY, June 24.

In the Senate, on the passage of the bill relative to the Concord and Portsmouth Railroad, Mr. Chase demanded the yeas and nays, which resulted as follows: Yeas—Hackett, Patten, Tufts, Wentworth, Allen, Cooper, Burns, Foster—8. Nays—Morrill, Chase, Burnham, Adams—4. So the bill passed.

In the House, Mr. Emery, of Portsmouth, presented a petition of the field officers of the 2d Regiment of New Hampshire Volunteers, asking that the State furnish the instruments and uniforms for a band for the regiment. Referred to committee on Military Affairs.

A bill was introduced and referred, providing that Registers of Probate shall give bonds in not less than $5,000.

A memorandum of a committee of the N. H. Historical Society, W. H. Y. Hackett, Esq., Chairman, was referred to the Committee on Education. It impresses upon the Legislature the urgent necessity for the publication of the early records of the State. These include the N. H. colonial records (independent of Mass.), including the early laws and the Records of the Committee of Safety, with documents pertaining to the ante-Revolutionary period; the early grants of towns, the muster-rolls of the army of the Revolution, and numerous letters and papers, collected and arranged by the late John Farmer, Esq.,—a most valuable collection. The State can also obtain copies of the letters of Gov. Wentworth, and other earlier manuscripts hitherto unknown alike to the annalist and historian, and yet calculated to throw much light upon the early history of the State.

SECOND REGIMENT IN N. YORK.

NEW YORK, June 18, 1861.

Messrs. Editors: — Permit me to communicate through your valuable paper, to my friends, an account of the reception of the 2d Regiment, N. H. V. in New York Friday morning. On its arrival, the Regiment was received by the committee of reception and arrangements, consisting of the following gentlemen:—George F. Peterson, Charles L. Frost, Leander L. Frost, Chas. E. Soule, Dr. W. N. Chamberlain, John P. March, James W. Emery, George E. Meadum, F. P. James, George H. Brodhead, Lloyd L. Brittan, W. H. Briggs, John L. Hanson, Robert Colby, Geo. H. Moore—and about 400 of the Sons of New Hampshire, residents in New York and vicinity; who escorted them to Battery place, where the Regiment was drawn up into line, the right resting on Bowling Green, in front of which the grand marshal, Archibald A. Peterson, Esq., assisted by his efficient aids, John R. Russell, George F. Peterson and Ralph C. Cutter, ranged his escort in a symmetric semi-circle.

A welcome address was cordially extended to them, on behalf of the escort, by H. B. Perkins; after which Charles E. Soule, Esq., on behalf of the Sons of New Hampshire, presented the Regiment with an army regulation Flag of the finest silk, and with the inscription elegantly embroidered,—"Second Regiment, N. H. V." Mr. Soule's speech was listened to with profound interest, and when he concluded was received with applause. Col. Marston replied, in eloquent and fitting language, pledging his honor and that of those under his command, for the maintenance of the purity of that flag.

The line of march was then taken up—a platoon of police taking the van. After them came the escort, the committee, twelve abreast, forming the second platoon; then the remainder of the Sons, wearing upon their breasts badges of white satin, with the inscription, "Sons of New Hampshire, June, 1861." The line of march was up Broadway. It was, indeed, a fine display, and they were greeted with cheers on all sides. The Regiment marched to Division Armory, where the men stacked arms and relieved themselves of their knapsacks, and partook of a bountiful dinner, prepared under the direction of John L. Hanson of the Girard House, (a son of N. H.)

On invitation of the committee, the officers, preceded by the committee, marched to the Everett House, where the most luxuriously furnished rooms were provided for the officers and committee, by the gentlemanly proprietor, L. L. Brittan, who is also a Son of New Hampshire. After making the necessary toilette and having a sociable chat, dinner was announced, when all repaired to the gorgeous dining room, which was decorated with the stars and stripes.—A blessing was asked by Rev. Moses Ballou, D. D. Among the distinguished gentlemen present were Gen. Wm. Hall, Col. Van Buren, Hon. Judge C. A. Peabody, Hon. Parke Godwin, Rev. Moses Ballou, E. A. Peterson, Esq., and Hon. Horace Greeley. The latter gentleman responded to the toast, "The Press of New York."

The following is a list of the distinguished gentlemen invited to dine with the officers and reception committee:—Generals John A. Dix, Duryee, Wm. Hall, Daniel E. Sickles, and Arthur; Colonels Dickinson and Van Buren; Hon. Judge C. A. Peabody, Hon. Judge B. W. Bonney, Hon. Horace Greeley, Hon. Parke Godwin, Ex-Gov. Colby of N. H., Hon. Wm. A. Walker, John S. Jenness, Esq., E. A. Peterson, Esq., and E. B. Fellowes.

The discussion of the viands was completed about 4 o'clock, when a patriotic song was sung, after which Marshal Peterson with his aids formed us into line, and proceeded under escort of Robinson's New York Band, and the Manchester Band to the Arsenal, where the Regiment was formed, ready to start. We then marched to the place of embarkation, where the Regiment took the steamer Kill Von Kull for Elizabethport, N. J., where they took the cars for Washington. After the "boys" embarked on the boat, all the oranges that could be purchased near by (at least $25 worth) were showered upon them. A tumult of applause was kept up until the boat was far out of reach. We gave them three times three hearty cheers, and bid them God speed, and returned to our homes, gratified that we had given those pleasure, who were sacrificing all for their country.

Yours, KILL VON KULL.

☞ A serious riot occurred at Milwaukie Monday, in which the banks and brokers' offices were attacked by a mob, and much property destroyed. The military of the city were called out, martial law was declared, and additional troops sent for from other places. At the latest accounts a renewal of the riot was feared.

☞ Francis Fessenden, son of Hon. William Pitt Fessenden, of Portland, has been appointed to a captaincy in the regular army. He is attached to one of the eleven new regiments recently added to the regular service.

SOUTHERN CORRESPONDENCE.

NEW ORLEANS, June 16.

As a kite is raised against the wind, so am I, after my long silence, induced to write you by the obstacles thrown in the way of such a proceeding by the Autocrat at Washington. The consignment of all mail matter from the Confederate States to the dead letter office is a very ingenious mode of collecting the postage, and worthy the brain that produced the idea. But thanks to the energy of the Adams Express we are still enabled to communicate with our friends, by paying postage for the two Governments and the express fee.

With the main points of the war news you are, of course, familiar, and the details I shall not go into.

The last ship on the berth (the Robert Harding) cleared on the 10th for Liverpool, and the only ships now in port are those under seizure. They are eleven in number, Ariel, Abellino, Ancri an Union, C. A. Farwell, J. H. Jarvis, Lemuel Dyer, Marshall, Milan, S. E. Pettigrew, State of Maine, Toulon. There are also two barks and two schooners here, under seizure. When the American Union was seized, the master sent this ominous message by telegraph to the owners—"The American Union is in the hands of the enemy. A. Lincoln, Captain."

So far as this season is concerned the blockade will not affect New Orleans much, as the stock of cotton on hand, June 14th, amounted to only 7393 bales against 73,934 at the same time last year, thus showing the year's business to have closed from natural causes. However, the blockade may lose a market for some thousand of tons of Boston ice. The imports of specie from Sept. 1, 1860, show $14,627,375 against $7,245,792 the year preceding.

The Mobile Register says that a gentleman of that city, and head of a family, last week received a box of provisions from some anxious friends at the North, who were in great tribulation, lest their kinsman should perish for the necessaries of life in these troublous times.

Alas for the wisdom that would "starve as out." There are 15,000 barrels of pork in this city, for one item, and reports from all parts of the Confederacy tell of enormous crops of breadstuffs. The Dallas (Texas) Herald of the 22d ult. says the wheat crop of Northern Texas is magnificent, so that fears are entertained of insufficient help to gather it, and new Arkansas wheat was received at Memphis on the 11th inst. Large quantities of butter are coming here from the northeast of Texas to absorb the funds usually remitted to New York and Vermont for the products of their dairies.

The Confederate States authorities at New Orleans have taken possession of all the provisions in that city, and given in payment Southern Confederacy bonds. This, we should say, was a mighty cheap purchase to the Confederates. It also indicates an alarming scarcity of supplies.—*Cincinnati Gaz., 29th ult.*

This is a fair sample of the *canards* with which the Northern papers we receive are filled; little eccentricities that would shame Munchausen, or put Gulliver to the blush.

Yours, ION.

ST. LOUIS, June 24.—The Democrat learns from citizens of Lexington, arrived here, that the news of the defeat of the State forces at Boonville, had caused the moderate secessionists to testify their allegiance to the Federal Government. The Mayor of Lexington, a violent secessionist, had left that city, and his successor, a Union man, had proclaimed his determination to preserve law and order and protect the rights of all classes of citizens, in which he is sustained by the almost unanimous voice of the people.

It is now thought that Gen. Lyon will proceed to the Southwest, where, in conjunction with Col. Siegel's command, he will invite a battle with Ben McCulloch or any one else in command of the Arkansas troops.

WHEELING, Va., June 24.—In the Convention, Mr. Carlisle, from the Committee of Seventeen, reported that the committee had concluded to adopt the present militia laws of the State.

A resolution was reported and referred, setting forth the oppression of the Richmond usurpers, and appealing to the Government for aid.

A resolution was adopted that when the the convention adjourns to morrow, it be to the first Tuesday in August.

HAGERSTOWN, MD., June 24.—Harper's Ferry has a look of desolation, scarcely an inhabitant being visible. There are no rebel troops there, the last having been seen on Thursday. On that day there was a skirmish between the rebel scouts and the Home Guard, at Sharpsburg. The latter fought under cover of the canal, and killed two rebels and wounded one.

Well informed persons state that there are from 1500 to 3000 rebels stationed about three miles from Harper's Ferry towards Winchester, but they are not visible either from Camp Hill pinnacle or Loudon county mountain.

The rebel pickets no longer show themselves near Williamsport, but are known to be concealed two miles back.

☞ Letters from England report the prospect of a splendid harvest. This affects the exportation of grain from this country, for if there should be no foreign demand and the blockade should cut off the Southern market, we may expect flour to reach the lowest figures it has touched for many years.

NEW HAMPSHIRE ITEMS.

Samuel Goodwin, Jr., a native of Littleton, and now in service as one of Ellsworth's Zouaves, captured a rebel a short time since, and after taking from him two revolvers and a bowie knife, marched him a distance of two miles into the Zouave camp. He has sent one of the pistols home to his brother.

William F. Goodwin, Esq., of Concord, has been appointed First Lieutenant in one of the new Infantry Regiments of the regular army, and Benjamin T. Hutchins' First Lieutenant in the new Cavalry Regiment.

The grass on the public squares in Manchester was sold at auction Saturday afternoon, to the highest bidders, for $30,25.

Col. Jesse Dolloff, "Oldest Colonel of the 29th Regiment," who has issued the patriotic call to "all the former officers and soldiers of the old 29th and 10th Regiments, N. H. Militia, between the ages of 40 and 75 years," to "meet on parade in front of the Bank at Laconia, on the 4th of July," concludes his call in the following words:—"Let these 'Old Veterans' make one more exhibition of their faith in the militia, on the 'Glorious Fourth,' and then they may perhaps with the greater safety *ground arms* and trust to the boys for defence."

BALTIMORE, June 24.—The agent of the Baltimore and Ohio Railroad at Martinsburg has arrived, and reports a great destruction of the property of the Company by the rebels. Forty-eight locomotives and a large number of gondolas and coal cars were surrounded by piles of wood and fired, and all the perishable portions consumed, and the iron damaged perhaps beyond repair. A large hotel there, occupied by H. B. Carpenter, was with great difficulty saved.

The agent says he and the master mechanic were arrested and carried before Gen. Johnston, for trying to stop the destruction of property.

There are about 5500 rebel troops in Martinsburgh and vicinity.

Volunteers for the War

Should take a bottle of "THE HAMMOND LINIMENT." It is soothing to apply it when tired to keep your feet from blistering. Cures Cuts, Bruises and Lameness. The Fifth Regiment of Massachusetts has ordered it. Sold by PRESTON and THACHER.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic,* diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it *is the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and clinging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Preston, Kimball, Hutchings; J. H. Thacher, N. P. Thacher, Portsmouth; James F. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B. Sanford, Exeter; J. W. Green, Hampton Falls; and by dealers everywhere.

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Hysterics, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawSm

The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.

Local.

☞ It is said a "contraband" article, in the shape of a remarkably intelligent colored man, arrived in this city a few days since, from the South. He was accompanied by his wife, a handsome creole, who is a free woman. He alleges that he was helped along as far as Delaware, by his master's son, who is a thorough Unionist, and was, in consequence of his loyalty ordered by his father to leave his house. He came by a sailing vessel to this city, and walked from here to Essex, Mass., where he remains with a family of colored persons.

☞ The funeral of Lieut. Charles Webster Walker, of Company B, 2d Regiment, N. H. V., will take place at the North Congregational Church, in Concord, this (Wednesday) morning, at 11 o'clock. We presume the flags in *this* city will be displayed at half mast throughout to-day, as a token of respect to his memory.

☞ We are pleased to learn that Mr. Tilton will produce a juvenile floral cantata at the Temple to-morrow (Thursday) evening, assisted by thirty misses and lads.—Such concerts are always attractive and pleasing, and that gentleman confers a benefit upon a community who affords an opportunity for its citizens to attend an exhibition which has so much to recommend it, and no one objectionable feature.

☞ The steamer Clipper, which has been expected at this port for several days, arrived on Tuesday, and, we presume, will commence her trips immediately, for the accommodation of pleasure parties.

☞ Lieut. Colvocorresses has been detached from this Navy Yard, and ordered to join the store-ship Supply, at Brooklyn. He left this city on Tuesday afternoon.

☞ A letter in the Commercial from the frigate Niagara dated Mobile 6th, says the Steamers Powhattan and Brooklyn are at the mouth of the Mississippi river. The Sabine, Huntsville, St. Louis, Wyandotte, Mohawk and Water Witch, are off Fort Pickens.

On the 5th the boats from the frigate Niagara cut out a schooner from under the guns of Fort Gaines, securing her as a prize.

Two thousand of Gen. Bragg's army have deserted, being starved out. He has only about 6000 to storm Fort Pickens with.

NEW YORK, June 24.—The Commercial's dispatch says the 14th regiment arrested a spy this morning with full plans of all the fortifications around Washington, the number of troops and where cannon are planted.

Schooner H. M. Johnson, recently seized as a prize, has been fitted out with a rifle cannon and a crew of 20 men. She sails soon to cruise near the Bahamas.

Key West dates of the 16th state that affairs there are going on very smoothly.—Commodore Merwine had issued a proclamation, announcing a blockade, but vessels bound on legitimate business to loyal States will be permitted to arrive and depart unmolested. Steamer Massachusetts arrived on the 4th, and sailed on the 7th for Fort Pickens. The frigate Mississippi arrived 7th and was to sail on the 17th.

NEW YORK, June 25.—Thirty-four Kentucky companies have been tendered to the government.

The Herald's correspondent says it is quite likely that Wilson's Zouaves have gone to Charleston instead of Fort Pickens.

The War Department has been informed that Col. Stone has entered Harper's Ferry and is amply able to hold it.

A report is current that Alex. H. Stephens is dead.

A rebel shot by a New Hampshire sentinel has acknowledged that he was a spy in the employ of the rebels. He pretended to be unable to speak English, but a bullet opened the way to "Lindley Murray."

It is reported the President will repudiate McClellan's treaty with Gov. Magoffin.

A citizen of Warrenton, Va., who reached Washington yesterday reports that the rebels at Manassas Junction are in a frenzy of excitement over the meditated attack on Washington. They freely assert they will be there before Saturday night.

Wm. D. Gallagher of Ky. has been appointed Collector of New Orleans, and has joined our forces at Cairo, whence he will follow the flag down the Mississippi till it floats over the Crescent City.

Further evidence shows Minister Harvey to have been the confidential correspondent of the Charleston Mercury.

WASHINGTON, June 25.—There is the highest authority for contradicting in the broadest manner the recent detailed statements of alleged peace propositions by the rebels. The administration has received information that the rebels intend to prosecute the war with great vigor.

☞ In Bangor, on Thursday night last at 12 o'clock, two brutal scoundrels called at the house of Mr. H. C. Garland, and demanded money in a boisterous manner. They were asked to go away, as Mr. G.'s wife lay dead in the house; but they persisted, and when Mr. Garland came to the door, they assaulted him violently, and then robbed him of a gold watch and chain, given him but a short time before by his dying wife.

☞ Col. Cass' Regiment of Irish U. S. Volunteers, said to be a very fine one, and well equipped every way, were reviewed in Boston on Monday, and have moved toward the seat of war.

PRO PATRIA.

Inscribed to the Second New Hampshire Regiment

BY THOMAS BAILEY ALDRICH.

The grand old earth shakes at the tread of the Norsemen,
Who meet, as of old, in defense of the true;
All hail to the stars that are set in their banner;
All hail to the red, and the white, and the blue.
As each column wheels by;
Hear their hearts' battle-cry.
It was Warren's, *'Tis sweet for our country to die!*

Lancaster and Concord, Laconia and Concord,
Old Portsmouth and Keene, send their stalwart young men;
They come from the plow, and the loom, and the anvil,
From the marge of the sea, from the hill-top and glen,
As each column wheels by,
Hear the hearts' battle cry,
It was Warren's, *'Tis sweet for our country to die!*

The prayers of fair women, like legions of angels
Watch over our soldiers by day and by night;
And the King of all Glory, the Chief of all Armies,
Shall love them and lead them who dare to be right;
As each column wheels by,
Hear their hearts' battle-cry,
It was Warren's, *'Tis sweet for our country to die!*

June 20, 1861.

☞ At a notorious rumshop in Portland, a member of the 5th regiment was drugged and then robbed of a watch valued at $30, and $8 in money. Previously, a member of the 4th Regiment was robbed by the same means of $83, at the same place. On Saturday, 40 men, detailed from all the companies of the regiment, marched into the town with drum and fife, accompanied by a Captain, Lieutenant and Sergeant. They visited the den, and forthwith cleaned it out, most effectually smashing the demijohns and bottles and spilling the contents of the beer barrels. No damage was done to the fixtures or building, except breaking a single pane of glass. The company then marched to the Custom House, where a public explanation of the matter was made by one of the officers, and the crowd gave three cheers.

THE TRAITOR MASON.—A gentleman at Washington, from Paris, says that while in that city he saw a letter from Senator Mason of Virginia, dated on the 20th of February, in which he declared that arrangements had been made to ensure the passage of an ordinance of secession in Virginia, and that Washington would be seized at an early day. Mason was then sitting in the Senate.

Call on your grocer for Herrick Allen's Gold Medal Saleratus. It is the only perfectly healthy Saleratus made. After using one half the paper, if you are not satisfied, return the balance, and get the money paid for the whole. It is much better to use with cream tartar than soda. It is peculiarly adapted for dyspeptic persons. For sale by grocers and druggists, and at wholesale by all dealers. Depot 112 Liberty street, New York.

"Their name is Legion," may be applied to those who die annually of consumption. Science has of late years sensibly diminished the number, and it is gratifying to know that Dr. Wistar's Balsam of Wild Cherry has created a powerful influence in attaining this end.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE,
Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 29, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BRACKETT HUTCHINGS, 4 Market street. apr24

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a *good* Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

Bartlett's Polar Refrigerator,

With two food chambers and a water tank; a very convenient article.

CHEAP CHEST REFRIGERATORS, ICE PITCHERS, &c.

Masser's 5-Minute Ice-Cream Freezer.

HORSE GUARDS—Wm. S Hadley has been elected First Lieutenant of Company C., of the Governor's Horse Guards, in place of H. F. Wendell, who declined to accept the commission, but retains his place in the ranks. Several members of Company C. resile in Great Falls and elsewhere; the Armory being located in Portsmouth.—M. C. Burleigh of Great Falls, is Captain. New members are being received each week, as the number is not limited.

At a late meeting of Company C., G. H. G., the death of Private WILLIAM RAND was announced, and the following customary Resolutions were passed:

Resolved, That it was with feelings of the deepest regret and most heartfelt sorrow, that we received information of the removal from our ranks by death, of Private WILLIAM RAND, of Portsmouth; and that our appreciation of his worth as a man and a citizen; and our knowledge of his regard for and devotion to his duties as a member of this corps and this Company; will not allow us to omit this slight public notice of our loss.

Resolved that a copy of this resolution be forwarded to his afflicted widow; with the assurance of the sympathy and commiseration of all his late companions in arms, in this Company and the entire Regiment.

Resolved, that these Resolutions be published in the Chronicle.

Per Order. J. E. RIDER,
Clerk Co. C., G. H. G.

Portsmouth, April, 1861.

PORTSMOUTH ARTILLERY.—A company of Artillery was formed in this city, last week, and now numbers about 70 members. The following officers have been chosen:

A. J. Hill, Captain; F. W. Ham, 1st Lieut.; W. B. Randall, 2d do.; W. M. Wait, 3d do.; James A. Blaisdell, 4th do; Chas. Manent, 1st Sergeant; W. W. Henderson, 2d do.; J. M. Davis, 3d do; S. H. Kingsbury, 4th do.; Andrew J. Hough, 5th do.; C. H. Hayes, 1st Corporal; J. Knight, 2d do.; L. E. Martin, 3d do.; Josiah P. Carter, 4th do.; T. S. Nowell, Clerk.

At a meeting held in Jefferson Hall, on Tuesday evening, the following preamble and resolutions were passed without a dissenting voice; the clause declaring their willingness to respond to the call of the President receiving the most hearty approval.

Whereas, In the course of human events it now becomes necessary for all Union-loving men to associate themselves together for the protection of our country, and feeling desirous to heartily respond to the Commander-in-chief of these United States, for the protection of the flag of our beloved country, which has so long waved over a prosperous people; and for the protection of our homes and families; therefore,

Resolved, That we will form ourselves into an Artillery Company, for the purpose of perfecting ourselves in drill, that we may respond to the call of the Governor of the State, or President of these United States.

Resolved, That we will forget for the time all party sentiments and differences, and will rally as one man in support of the "Union, the Constitution, and the enforcement of the Laws," and that animated by these feelings, we will sustain the constituted authorities of our State and Nation to the last extremity.

Feeling that the present deplorable state of our beloved country requires men of firm moral character, therefore,

Resolved, That we cannot associate with us any but those who will respect themselves and maintain their country's honor.

A FLOATING BATTERY.—*Messrs. Editors*:—It is well known that the old U. S. ship-of-war Dale, is now lying at our Navy Yard, unseaworthy,—and it is not probable she will ever be repaired for sea service.—But with a very little repair, to make her tight, which could be done in a few days, she would make a very valuable floating battery, were she moored, with her guns on board, in a certain spot in our Lower Harbor; and manned with a small crew of old sailors, who are plenty with us, and with a good number of green hands and boys, who would be glad to learn the use of great guns on ship-board. NEWCASTLE.

OFFICERS OF THE OLD GUARD.—J. G. Hadley, Captain; A. J. Beck, 1st Lieutenant; Hampti Kenney, 2d Lt.; N. B. Dame, 3d Lt.; John H. Moran, 1st Orderly; W. G. Nowell, 2d Orderly; Sylvester Gilbert, 3d Orderly; Elias Ayers, 4th Orderly;—Henry H. Ham, 5th Orderly. There are rising 100 members.

MISCELLANEOUS WAR ITEMS.—A correspondent of the New York Tribune writes from Washington on Friday, April 19, as follows:—

During the last seven days I have been through Louisiana, Alabama, Georgia, South Carolina, North Carolina, and Virginia. The excitement is wild. Railway trains are loaded with soldiers, arms, and ammunition. Northerners are hastening home, closely watched, subjected to gross indignities, and often arrested as spies.

The general belief is that Ben McCulloch is about to attack Washington successfully; that Mr. Lincoln will be killed; that the North wants to subjugate the South; that Yankee soldiers, as they are called, are cowards and easily defeated.

There is great wonder that no Disunion party has yet been developed in the North, and there is daily expectation of hearing that the masses of New York will inaugurate a bloody rebellion and overthrow the authorities.

GROVER & BAKER

SEWING MACHINES.

TO THE LADIES.

CHARLES T. EMERY,

No. 10 Market Sq., Portsmouth,

Having been appointed

SOLE AGENT IN PORTSMOUTH

for the sale of the celebrated and unrivalled Noiseless

GROVER & BAKER

FAMILY AND MANUFACTURING

Sewing Machines,

would invite especial attention to the same.

THE GROVER & BAKER SEWING MACHINE makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength, and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.

THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.

THE GROVER & BAKER SEWING MACHINE sews from ordinary spools without rewinding, and fastens its own seams, thereby saving time and thread It will sew common spool cotton, silk and linen thread with equal facility.

THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.

THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.

Every Machine Warranted.

PRICES FROM $40 UPWARDS.

☞ Be sure to call and examine.

I have also been appointed agent for

THE UNIVERSAL HEMMER,

Which can be attached to any machine, and will turn a hem from 1-16 inch to 2½ inches, without previous basting.

PRICE $5.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for the one whom he loveth, against the liability to accident and death.

THE
MUTUAL LIFE INSURANCE CO
Of New York,
with an accumulated capital of over
SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 60, 65 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

CHRONICLE EXTRA!

Wednesday, Half-Past 3 P. M.

THE LATEST NEWS!

Ben McCulloch at Alexandria, Va. with 20,000 Rebels.

REBEL BATTERIES ON POTOMAC!

LINCOLN DETERMINED TO MARCH TROOPS THROUGH BALTIMORE!

BY TELEGRAPH TO THE CHRONICLE.

BOSTON, APRIL 24.—Annapolis" dispatches of the 23d state that 1500 Northern troops are there, including the Massachusetts Eighth and the New York Seventh Regiment.

It is reported that Ben McCulloch is at Alexandria, with 20,000 Virginia rebels! [only 7 miles below Washington.]

General Scott denounces the rumor of his resignation, and says: "Please God, I will fight many years for this Union—and that too under the protecting folds of the Star Spangled Banner."

The military department of Washington has been extended to Delaware and Pennsylvania, under command of Major General Patterson, who is ordered to push troops covering the Railroad and telegraph wires from Wilmington to Washington.

It is reported that President Lincoln is determined that troops shall march through Baltimore if it involves the destruction of the city!

The rebels have constructed batteries on the banks of the Potomac, below Mount Vernon. *General Scott has issued orders to destroy them.*

THE SAFETY OF WASHINGTON.—The New York Tribune states that through private and special advices it is learned that Gen. Scott was satisfied on Sunday, that his force was sufficient to defend Washington against any attack that could be made within a few days, and that the troops which were expected there this week would be ample for its protection in any possible contingency.

The government is in regular communication with Philadelphia by private couriers. Gen. Wilson of Massachusetts left Philadelphia for Washington on Monday, bearing dispatches to Gen. Scott from Gen. Patterson.

Baltimore was tolerably quiet on Monday. A Vigilance Committee of sixty was exercising surveillance over all strangers, and travelers were exposed to much annoyance from them.

Fort McHenry has been reinforced by volunteers from Massachusetts, and the commander of the fortress has positive orders to shell Baltimore in case of an attack on the United States troops.

A special election is to be held in Baltimore to-day.

The mail is dispatched North by wagon to the Susquehanna river.

Baltimoreans complain greatly at the want of mail and telegraph facilities.

It was reported at Philadelphia, by an arrival there from Baltimore on Tuesday morning, of a gentleman who left there at 9 o'clock that morning, that when he left a report was current in the hotels that news had reached there via Annapolis that Fort Pickens had been captured with serious loss of life. This is only given as a rumor. He says the city is under martial law.

Latest private dispatches from Annapolis received in Boston, Tuesday evening, was to the effect that the northern troops had landed without obstruction, and intended to march immediately to Annapolis Junction. The citizens of the town and neighborhood were are preparing to give them a guerrilla fight on their march. The northern troops had horses with them to transport their baggage and artillery.

A Havre de Grace dispatch of Tuesday evening, says:

A gentleman just from Washington at 7 o'clock this morning, via Baltimore this afternoon, reports both cities quiet. A system of martial law exists in both cities, but had not been officially proclaimed.

A large Union meeting was held at Elkton, Maryland, to-day. Eight hundred delegates were present. A resolution was passed that let Maryland do what she will, Cecil county will not secede.

☞ The New York Herald states that the burning of the bridges and the cutting of the telegraph wires were done by order of Gov. Hicks, and under the protection of a strong military force. If this be true, it will prove to be the worst act in the life of Gov. Hicks, and lead to his execration as heartily as he has hitherto been recommended.

☞ Mr. David Clark, of Hartford, Conn., when the subject of the support of the families of volunteers was presented to him, responded most nobly by a pledge to

MORE NEW PHILOSOPHY OF GOVERNMENT.—The Richmond Whig's idea that the Federal Government is the only source of war, the only obstacle to peace, is both new and strange!

Thirty or forty petty principalities, and oligarchies, and republics, all living together, for eighty years in peace, without any central government! Would not this be a pretty picture? Certainly it would;—but the world has never yet seen it.

Again, thirty or forty such States, in a Confederation, out of which any one may step at *pleasure*, would probably be in an endless circle of quarrels, about the Virginian abstraction of State equality,—which being in itself very difficult to preserve, and perhaps impossible,—would contribute to almost anything else, than peace and prosperity. It is really a pursuit after shadows, in which the substance of law and order is lost;—as perhaps the Whig and Virginia may find out, in a year or two.

U. T.

GEN. SCOTT'S APPROVAL OF MAJOR ANDERSON.—The following is an extract of a private letter received in New York city from Washington:—

"Gen. Scott says that Anderson has performed the greatest piece of artillery generalship in the history of the world in holding out so long as he did, and keeping his guns going thirty hours, with so few men, without relief and without sleep. He was forced to yield from sheer exhaustion."

☞ The great New York dry goods merchant, Alexander T. Stewart, called his clerks together a day or two since, and announced to them his intention of supporting the Government, and assisting such of his employees as desired to volunteer in the service of their country.

Mr. Stewart, at a great auction sale, in which he was a heavy purchaser, made a brief speech, in which he said that the South now owed him *two million dollars*, but he was willing to let all that slide, and *another million with it*, to sustain the flag and honor of his country.

SOUTHERN CHIVALY.—On the occasion of the presentation, on Friday last, of a sword to Major Anderson, by the citizens of Taunton, Mass., he spoke of the conduct of the *chivalry* at the bombardment of Fort Sumter in the following terms:

"It is one of the most painful recollections of that event, that when our barracks were on fire, and the men were obliged to cover their faces with wet handkerchiefs, and lie with their faces upon the ground to avoid suffocation,—instead of sending a white flag, with assistance to extinguish the flames, thea threatening us with destruction, they rapidly increased their fire upon us from every battery, in total disregard of every feeling of humanity."

FROM VIRGINIA.—*New York, April 23.* The steamer Yankee reports arrived at Norfolk on the afternoon of the 17th, and finding a movement afloat to seize her, proceeded to the Navy Yard and placed herself under the guns of the yard.

On the 18th the Custom House officers came to seize her, but the commander of the yard refused to yield her. The Yankee towed the Cumberland to Fort Monroe.

The Pawnee, under Com. Paulding, arrived at Fort Monroe, took aboard the 3d Massachusetts regiment, and proceeded to the Navy Yard, where the officers had commenced destroying the public property to prevent its falling into the hands of the enemy.

They had scuttled all the ships, the Cumberland being the only one in commission; they cut down the shears, &c. Preparations were made to make demolition complete.

The Pawnee, with the Cumberland in tow, assisted by the Yankee, started, and after passing the Navy Yard sent up a signal rocket, when a match was applied and in an instant ships, ship houses and store houses were in flames.

So rapid were the flames, that Commander Rogers of the Navy and Captain Wright of the Engineers were unable to reach the point of rendezvous, where a boat was waiting for them, and were left behind.

Among the most valuable property destroyed were the liners Pennsylvania, Columbus, New York and Delaware; frigates Merrimac and Potomac; sloops Germantown and Plymouth, and brig Dolphin.

Large quantities of provisions, cordage, machinery and buildings of great value were destroyed. It is not positively known that the dock is blown up.

The burning of the Navy Yard was done by Union men, who are in the majority, but comparatively unarmed.

NEW YORK, April 23.—Reports from Washington state that on Sunday it was rumored that martial law would be proclaimed on Monday.

Gergetown heights were held by regulars. It is said that orders have gone to England for the purchase of 20 Armstrong guns, which may be expected to arrive at an early day.

On Friday night fourteen boys from Washington, captured a steamer at Alexandria and brought her to Washington.—There were 24,000 stand of arms on board.

The Post states that a messenger passed through Cockeysville on Sunday with positive orders from Gen. Scott to Gov. Curtin to throw recruits into camp as rapidly as possible, for the purpose of making a demonstration on Baltimore at the earliest practicable moment. There are said to be 6000 men there now under Major Porter of the army and and by to morrow the number will reach 10,000.

It is said that every able bodied man in the townships along the Southern frontier of Pennsylvania is enlisted.

The Post says that Jefferson Davis is in Richmond.

WAR ITEMS.

NEW YORK, April 22.—British residents are forming a regiment of Light Infantry. One company is complete and another is forming.

Collector Barney states that a gentleman officially connected with the government says, he has information from Washington, that an official correspondence has been opened there with Baltimore, resulting in the undertaking by Baltimore to repair the railroad bridges and telegraph lines, and to keep communication open for passengers, mails, dispatches and troops.

A lot of uniforms for the southern army was seized at the store of Nubrick & Brothers, Doy street, to-day.

It is stated that a gentleman at Baltimore from Norfolk reports the scuttling of some ships there, the throwing down of heavy derricks, and the destruction of much machinery by order of the U. S. government.

The Pawnee arrived at Norfolk on Saturday morning.

Capt. Lowry, of ship Julia E. Thayer, from Hampton 21st, reports as follows:—That the pilot informed him that the Norfolk and Gosport Navy Yard was in flames. Could distinctly see them when leaving the Roads.

Steamer Chesapeake has been chartered by the government. She has 3500 barrels provisions and a company of government riflemen on board. She will probably sail to-morrow morning.

Steamer Parkersburg has steam up awaiting the arrival of an Albany regiment. She will probably sail in the morning.

Hon. Daniel E. Sickles contemplates to raise a regiment to during the war.

Major Anderson's public reception takes place in the City Hall to-morrow.

Commodore Vanderbilt, it is said, has informed the government that it can have his whole fleet of steamers fully manned and equipped, without the charge of a penny.

The brigantine Tornado was the vessel seized on Sunday with gunpowder on board.

An armed tug boat has gone in pursuit of a three masted schooner which sailed last night for Perth Amboy loaded with arms.

A regiment of rifles is being formed by Italians, Swiss and Hungarians here, to be called the Garibaldi Guard.

PHILADELPHIA, April 21.—A messenger who left Washington, yesterday, reports all quiet there, but it was rumored that the President was about to call for additional troops from the faithful States to make up the deficiency caused by States refusing to furnish their quota.

A party of armed men will leave to-morrow to repair the bridges on the Baltimore road.

It is reported that Mr. Trimble, formerly President of the road, was shot dead by one of the armed guard who attempted to defend the property of the road, on Saturday.

The vacant Girard House has been converted into a vast tailoring establishment for making uniforms for the troops; hundreds of girls are employed on sewing machines. 30,000 suits are to be made up.

The police have seized large quantities of contraband goods that were about being shipped South. Those shipping them will be arrested and tried for treason. Among the articles were four tons of sheet lead and pipe, directed to Jackson, Mississippi, via Memphis, supposed for bullets.

ARREST OF A TRAITOR.—*New York, April 22.*—A special dispatch from Harrisburg states that Governor Curtin has caused the arrest of Lieut. Sennifer, late of the U. S. army, at Hanover, Pa. who has been communicating information to the robels as to the condition of affairs at the Carlisle Barracks, and of the movements of the Pennsylvania troops. He will be delivered over to the officers of the Calisle Barracks.

A naval officer arrived here this afternoon, says the steamer S. R. Spaulding, from Boston, landed a portion of her troops very quietly at Fort McHenry. Baltimoreans were waiting to seize her, but she started down the Bay and frustrated their designs.

Annapolis is in charge of the 8th Massachusetts Regiment.

NEW YORK, April 23.—The schooner Times has arrived from Norfolk, which port she left Sunday morning. The Federal Government people had set fire to the Navy Yard, also to the liner Pennsylvania, and a frigate, and destroyed all their arms, throwing them into the river.

The World says that General Wool has arranged to send troops hereafter by rail to Havre de Grace, thence via Annapolis to Washington.

Advices from Washington state that there were 14,000 troops there yesterday, including regulars.

The arming of the light draft fleet for the coming blockade commenced yesterday.

The State authorities have decided to muster into immediate service the whole of the 30,000 volunteers authorized by the Legislature.

A gentleman from Washington reports the Baltimoreans having telegraphed to Harper's Ferry for Virginia troops to come to their support.

The house of Henry Winter Davis was entered by mob, but he having left, his family were not further molested.

The citizens of Cockeysville were holding a Union meeting, when two omnibus loads of Baltimore police and soldiers came up to burn the bridges to the Pennsylvania line; but were attacked and dispersed by Union men.

☞ In Boston, the necessary measures have been taken by Robert B. Forbes and the merchants to build a gun-boat, mounting two eight-inch and four 32 lb. guns, and to have it under steam in from sixty to ninety days. Mr. Forbes will immediately enlist men for the Coast Guard.

STRATHAM FOR THE UNION.—On Friday last, forty citizens of Stratham, visited a strong Secessionist, and informed him that he must leave town immediately, or they would hang him. He chose the former, and left.—*News-Letter.*

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever—Persons who require *Pure Liquors and Wines,* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections—Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb28 daw3m

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & Co., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the Hair to have a *rich glossy appearance*. Two articles in one. A fine "*Hair Dressing*," and a new "Failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & Co., Troy, N. Y.) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend so valuable article, personally, on any and every occasion, as I know it to possess merits that the Proprietors do not claim for it in their circulars. CITY AND COUNTRY TROOPS.—The Surgeon of the First N. H. Regiment, A. R. Crosby, in a paper contributed to the Boston Medical and Surgical Journal, entitled "A Month in a Volunteer Camp," writes as follows:—

Our men were enlisted from farms and machine shops, mainly, and undoubtedly possess a great deal of strength.—They are full of pluck, and as the saying is, "just spoiling for a fight," yet, at the end of a march of fifteen miles, the thermometer being at 90, twelve men were obliged to go into hospital at once. On the contrary, the New York 9th, made up of clerks from the city, marched side by side with us the same day, and at the end of the march had only one man to go into hospital, and he sick when they started. I attribute this to the fact that these young New Yorkers are much more in the habit of being on their feet, and walking over the "magnificent distances" of New York. Instead of this, our New Hampshire farmers hardly ever walk any distance, usually having a comfortable wagon, and do not probably spend half as much time on their feet as city men. Most of the men in the New York 9th are thin, wiry boys, with not a single extra ounce of adipose to carry, and take splendid care of themselves. In my judgment, the New Hampshire boys, in the trenches or in a charge, would lay the New York boys out, but on the march the city boys have the advantage.

The Ames Company at Chicopee are turning out seven brass cannon—one more than a battery—every week, and old smooth bore guns, including columbiads, are being rifled for the use of the James conical ball and shell. The company are turning out 400 shot and shell daily; and three thousand swords, and one thousand sword bayonets for Sharpe's and Colt's rifles, monthly.—Four rifling machines have recently been manufactured for the Government, one of which is in operation at Thompson's Island, New York harbor, and the others will shortly be in use at the Washington Navy Yard.

☞ The uniform of the Confederate States army is a short tunic coat of cadet gray cloth, double-breasted, with two rows of brass buttons, two inches apart at the waist, and widening towards the shoulders; pantaloons sky blue, made full in the legs. The buttons are plain gilt, convex form, and three-quarters of an inch in diameter.

A wise man will *make* more opportunities than he finds.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are said and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEPIERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1858, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir:—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

THURSDAY, JUNE 27, 1861.

SECOND REGIMENT, EN ROUTE.

ON THE WING, June 21.

Messrs. Editors:—We are now on our way to Harrisburg, Pa., and expect to reach that city by 1 o'clock. We expected to pass through Philadelphia, where a grand reception was to be extended to us, and a splendid banner presented by the Sons.—But the route has been changed, and we therefore lose that pleasure at this time.

We started from New York by steamer for Elizabethtown, N. J., on Friday evening. The passage was extremely pleasant—the scenery on all sides being magnificent. The inmates of the beautiful villas on the banks came out and cheered us as we passed; and when we steamed past the Sailors' Home, the old Jack Tars assembled on the wharf and gave us three times three. On the other side of the river, a hundred ladies, arranged in a line, greeted us with the waving of handkerchiefs.

We arrived all safe at Elizabethtown, making the passage in one hour. Here we were detained three hours for the men to take two days' rations, which consisted of crackers, cheese, corned beef and ham.—The meat was not properly put up—but as the men could get no other food, they put up with it. The depot was thronged with pretty girls, most of whom had prettily arranged bouquets, which they presented to the soldiers. I received a very fine one, composed of roses, box and geraniums.

The accommodations for the men were very poor; common baggage cars, with boards for seats, and holes in the sides for windows, was the style of conveyance that was furnished us. One of the cars was so rickety, that the boys of Co. K threatened to turn it over if it were not taken off the track. It was removed.

The cars were finally ready about 11 o'clock, and off we started for Baltimore.—The sky, which had been overcast with clouds, was now clear again; the moon shone bright and clear; the long train resounded with the hum of voices, or the chorus of songs. Co K was by no means down-hearted, judging from the manner in which they sang "Away down South in Dixey."

We are now in Pennsylvania. Large lins of coal are seen along the road. The grain is three or four feet high, and the farmers are mowing in the fields. American flags are seen waving from the barns and houses of the country people on the route. The inhabitants are mostly Germans, and are hale and hearty looking. The roads leading down to the track are broad, and appear to be kept in fine order. We stop at a way station and divide our train, sending the baggage on ahead. The soldiers leave the cars and ramble in the fields, visit the farm houses to fill up their canteens and chat with the country girls.—The Quartermaster telegraphs to Harrisburg to have twenty barrels of water ready for the men. A number of Company K have been making friends with the country lasses, and as the call for all aboard is given, they snatch a stolen kiss and run for the train.

The Quaker barns along the road are built of stone, with inclined planes leading up to the second story, on which they haul up their hay and dump it down below.

One of our men accidentally lost his musket off the car last night. He jumped off after it, and turned up all safe this morning on a train which follows us four or five miles behind. We are now passing through a charming country—hill and dale covered with verdure, large fields of grain on either side, rustic cottages with thatched roofs, some built of logs and plastered with clay, and the novel costumes of the farmers, all conspire to make up a picturesque and beautiful sight. Stopping in the vicinity of cherry trees, our boys are nimbly climbing for the fruit which is nearly ripe—while a large party of officers and men are seen coming from the farm houses with cans of milk, pies and cakes.

We now arrive at Reading, which is quite a large town. A salute was fired, and hundreds of people lined the tracks to see us. A great rush was made for something to eat, at a country house on the side of the road. There we obtained three or four kinds of pies—peach, blackberry, apple, and currant,—which, after living on biscuit and cold water twenty-four hours, made quite a treat for us. The German 17th N. Y. Regiment, 25 cars, loaded down, has just arrived, making in all about 2000 men, all running pell mell after eatables.

I notice that blinds are not used in this part of the country, nearly all of the houses being furnished with thick wooden shutters.

I found an opportunity to mail you a letter here, and while waiting, had the use of the landlady's parlor in order to write, which I found much easier than endeavoring to do so in the cars. While occupied thus, the lady's daughter brought in a cup of tea and a plate of cherries and other fruit. They were anxious to learn all about the regiment—where we came from, &c. We had a very pleasant chat, and parted quite excellent friends. The residences along this part of the road are quite fine, built mostly of brick and with great taste.

We stopped at Lebanon station two hours, giving the staff an opportunity to dine, and the men a chance to stroll about the country. At the Lebanon Valley House, I made the acquaintance of a young lady who had just arrived from Baltimore. She gave me a full account of the Baltimore riots, her father's residence being in the immediate neighborhood of the scenes. She invited a number of her lady friends into the parlor where we joined in singing national airs, accompanied by a fine piano, manufactured at Baltimore. The time passed quickly in such agreeable company, and at 3 o'clock the down train arrived, and the word for all aboard broke up our Pennsylvania afternoon singing party without much ceremony. On our right, as we passed out of the town, were a large collection of brick and wooden buildings, where I was told was a coal mine, the first one we had yet seen. Again we stop on the road; and at the rate we have moved for ten hours past, we shall be about a week in getting to Washington.

Yours, J. H. H.

P. S.—Capt. Sides wished me to say that the drinking tubes so kindly furnished, have been of very great benefit to the men, they having had frequent occasion to use them. He sends his heartfelt thanks to all who were instrumental in furnishing them with so many needful articles. Our company, while in New York, received many kind attentions from Messrs. Leander L. Frost, J. L. Jones, George A. Webber, James Emery, and others, which will be long remembered with pleasure and gratitude.—Many of the men received donations of money, which was quite acceptable.

☞ Our New Orleans correspondence, like the extract from the Picayune included in it, shows, that by abundant crops of fruits and grains, there is no famine there: that the tug-boats being laid up, there is no commerce; that the feeling against the United States, though causeless, is yet strong and bitter; and that the most moderate secessionists have no curses deep enough for the memory of Mr. Douglas, because in his latest days he denounced their rebellion as wicked and foolish. The tirade against him, in that extract to-day, will do good at the North, by showing loyal Democrats in what light they are viewed by the slave power.

☞ The July number of Harper's Monthly, the opening one of Vol. 23, is published. Porte Crayon contributes "Summer in New England—the White Mountains;" and F. Addison Richards, "New York Circumnavigated," being an illustrated trip around the bay of New York, and through the rivers that encircle the island. "Orley Farm" and the "Adventures of Phillip" are continued. Other articles are—Thrown Together; Prodigious Talkers; Margaret Fuller Ossoli, Ena; Love's Messenger; Poor Chips; Little Mattie, by Elizabeth Barrett Browning, etc. For sale by John J. Dyer & Co., Boston; John Locke, Portsmouth.

WASHINGTON, June 20.—The army paymasters commenced the payment of the soldiers to-day.

A citizen of Alexandria, just escaped from Manassas Junction, reports a large number of other prisoners there. All the roads are blockaded with trees and rocks to within 5 miles of Manassas, and there are about 15,000 troops there. Water is very scarce.

Gen. Dix has arrived, and will take command of the department of Eastern Virginia soon.

California advices state that the rebels there are about to proclaim the State out of the Union, and form a new State, to be admitted into the Southern Confederacy.

The Freeborn made two attacks on Mathias Point yesterday, destroying a small building and scattering a small force of rebels.

It is said that eight of the Bartlett Naval Brigade, at Fort Monroe, all said to have served as gunners in the English army in the Crimean war, have deserted to the rebels.

FORTRESS MONROE, June 25.—The gunboat Monticello made a reconnoissance yesterday on Rapahannock river, and landed a party at the house of Mr. Gasum.

While conversing with the ladies, three companies of rebels attempted to cut them off, and August Peterson was mortally and seven others slightly wounded.

The Monticello poured shot, shell and cannister into the rebels, killing and wounding a large number, and demolishing the house.

NEW YORK, June 26.—Steamer Parkersburg, from the mouth of the Mississippi, Pensacola and Key West, has arrived. Information has been received at Fort Pickens that 3000 of Gen. Bragg's force had left, and that provisions were very scarce. Also that all the heavy guns had been taken from Fort McRae and placed in water batteries.

SOUTHERN CORRESPONDENCE.

NEW ORLEANS, June 16.

The Boston Transcript, of May 27, on the authority of a man calling himself "Dr. Charles McQueen, formerly a dentist in New Orleans," (where no one can be found who knew of him,) gives an account of the treatment of a Mrs. Sarah Sanford in this city, as follows:

On the Sunday mentioned, a mob was collected at her place of residence, she was seized, taken to Lafayette Square, *stripped to the waist, and tarred and feathered*, in the presence of an immense crowd of people, including many of her own sex, respectably appearing, richly dressed women, who were heard by our informant to applaud and urge on the hellish atrocity. What eventually became of this brutally maltreated lady, he does not know.

As I happen to live near said Square 'tis strange the news of such an occurrence should have to reach me via Boston. I am afraid some people do not sufficiently consider the awful warning given in the cases of Ananias and Sapphira.

Commenting on the death of Mr. Douglas, once a great favorite at the South, the Picayune says:

He failed in the election; a new issue arose, and in the day of extreme peril to the South, Mr. Douglas was found among the ignoble crowd who discarded us—a volunteer in the camp of our deadliest enemy. Disease overtook him in the midst of the excitements of this conversion, and in the prime of his life and the maturity of his strong intellect he dies obscurely—a scarcely tolerated guest among his ancient revilers—leaving to those among us who admired him much and trusted him long, only the memory of what he h a been, to plead for the charity of silence over what he had become.

The exasperations which his recent political conduct have nurtured against him in the Southern mind, are too deep, at this moment, when their sting is fresh, to be abated even by the solemn thought that death has forever barred against him the pathway to atonement. But there is something to chasten the form of expression in the reflection that if he sinned deeply, however defiantly he may have borne himself to the public eye, deep must have been the humiliation eating into his heart, of being a serving man in the House of the Dagon whose worship he had reviled all the best years of his life. The most that can be said for him among us now is that his name be never more mentioned.

Wendell Phillips' remark that "if a gun is fired in Southern waters, it is fired at the wharves of New York, at the bank vaults of Boston, at the money of the North," was true, notwithstanding its source. Peace may be made in a year,—in a month,—in a week—to-day—but the trade of the North has received a shock from which it *never* will recover. The relations heretofore existing between the two sections can never be restored. That the North would not peaceably acknowledge their independence will eventually prove a great advantage to the South, from having in a measure necessitated them to develope their own resources. Manufactories of almost everything are springing up, and we shall soon be the most self-sustaining country on the globe.

The military spirit still overrides all other public feelings. Of 13,000 men furnished by Louisiana for the war, New Orleans has sent 6,500, and still we have legions—among others "The French Legion," of five companies, composed entirely of citizens of France; a Polish Regiment, under the distinguished exile, Gen. Tochman; and the "British Guard," subjects of Queen Vic. The occasion of the departure of the Washington Artillery for Virginia, some weeks since, was one of the most thrilling and affecting scenes I have ever witnessed.—Going forth to defend their homes and rights, "rebels" as their sires in days gone by, they carry with them the prayers of mothers, sisters, wives; and a determination to die honorably or secure their rights as freemen.

Last Thursday, in accordance with President Davis' proclamation, nine and a half millions of freemen knelt before the throne of heavenly grace, in humiliation and prayer, to ask of Divine Providence protection and support in maintaining their rights against oppression and the usurpation of their constitutional rights. In this city the day was most universally kept by all classes and creeds; offices, banks, stores and barrooms being closed, and services being held in all the churches, with crowded audiences. At the First Presbyterian Church, on Lafayette Square, Companies A and B of the Confederate Guards, composed of our best known and most prominent citizens, made their appearance in full uniform, and listened to a most eloquent discourse by the Rev. Dr. Palmer, from the text found in 2d Chronicles, 6: 34, 35.

The Council has authorized a loan of $250,000 for the defence of the city.——A fire, corner of Conti and Chartres streets, yesterday morning, destroyed property worth $60,000. The buildings were of four stories, and afforded a fine opportunity for the steam fire engines to display their superiority over the old hand machines.——The new iron water-works at the foot of Canal street are nearly completed, by which the streets will be lavishly supplied with water.——Thirty tow-boats are laid up, opposite the city, and relieve the rather barren appearance of the river. At this date in 1858, there were 90 ships in port; last year 32.——That monument of public folly, the new Custom House, has been very useful as a place to manufacture carriages for heavy ordnance. ION.

AMERICAN INDIANS.—Rev. J. Ranney, a Missourian, who left Fallipot, Cherokee Nation, on the 5th of June, reports that Ben McCulloch and Albert Pike, of Arkansas had been there, urging unsuccessfully the Chief to reconsider the position taken in his proclamation. They had left for the Creek Nation, hoping to get aid from them. Pike had an escort of 75 men.

John Ross, the principal Chief of the Cherokees, in a proclamation to his people, reminds them of the obligations arising under their treaties with the United States, and urges them to faithfully observe them. He earnestly impresses upon all, the propriety of attending to their ordinary avocations, abstaining from unprofitable discussions of events transpiring in the States, and cultivating harmony among themselves. He presses upon them the observance of good faith and strict neutrality between them and the States threatening civil war, by which means alone can the Cherokee people hope to maintain their rights and be spared the effects of an everlasting war.—Hoping that there may be a compromise or a peaceful separation, he admonishes the Cherokees to be prudent and avoid any act or policy calculated to destroy or endanger their rights, by honestly adhering to this course. He trusts that God will keep from their borders the desolation of war and stay its ravages among the brotherhood of States.

☞ The Stark Mills at Manchester, and the Great Falls Manufacturing Company, have each declared a semi-annual dividend of 3 per cent., payable July 1st.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.
ANDOVER, N. H., Oct. 15, 1859.
Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly; GEO. W. CHASE.

American Women.
America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills effect a cure when all other means have failed,—*ameliorating carcasses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 daw3m

Local.

☞ Mr. Tilton, assisted by thirty misses and lads, will produce Johnson's "June Festival" at the Temple, this, Thursday, evening. We trust that all of our citizens who can appreciate the charms of such an entertainment, (and, judging from what we have seen in the past, we know there are many,) will not fail to encourage by their presence those who have been instrumental in preparing it. There are few entertainments more pleasing, and perhaps we may say instructive, than those in which happy children, with laughing eyes and smiling faces, take prominent parts; and from what we know of the success which has attended Mr. Tilton in his efforts in this city, we are confident that this juvenile cantata will be rendered in a manner at once creditable to himself and to those who have been under his instruction.

☞ The U. S. steam gun-boat Mohican, the fastest vessel in the navy, next to the Iroquois, is at once an ornament to the service, and an honor to our skillful mechanics by whom she was built at this Navy Yard. She is now just concluding her first cruise and is expected to arrive immediately from the coast of Africa. After a few days spent in taking coal on board, giving her crew a run on shore, and replenishing her "kitchen," she will be drafted for the blockade service.

☞ The well-known Highland Cottage, at Stratham, is now open; and a couple of boxes of strawberries that were received from there on Wednesday prove that the luscious fruit is just now in its prime. It is a beautiful ride to the Cottage, and people should seek to enjoy it even more than they do.

☞ The arrival of the ship Pam Flush below probably gave rise to the report current in the street, Wednesday, that a U. S. vessel had arrived in the lower harbor, and was only awaiting a favorable breeze to come up to the Navy Yard.

☞ The funeral of Lieut. Charles Webster Walker took place in Concord, on Wednesday morning. It was attended by Gov. Berry and the Council, the members of the Legislature, a detachment of the Horse Guards, several military companies, and a large number of citizens. The funeral services were conducted by De Molay Encampment and Winslow Lewis Lodge of Boston, (of each of which he was a member,) in connection with the Masonic Fraternity of Concord and vicinity.

Lieut. W. possessed naturally a fine intellect, which he had cultivated and enriched by reading and study. Of a most genial temperament, of uncommonly pleasing address and manners, and of long-tried personal fidelity, he made friends every where, and is most sincerely lamented.

HARVARD COLLEGE.—The Senior class, of Harvard celebrated Class Day on Friday of last week in the most successful manner. The oration was delivered by Mr. N. P. Hallowell, of Philadelphia, and the poem by Mr. Oliver W. Holmes, Jr., of Boston. Both were productions of no inconsiderable merit. The usual festivities of the day were closed by singing class songs and "Auld Lang Syne" around the Class Tree, and a levee at the President's. There are three New Hampshire boys in this class, all of whom are from Portsmouth.

☞ The Boston Atlas understands that the first Lieutenant of the frigate Santee, which lately sailed from this Navy Yard, was allowed to take the oath of allegiance with a reservation "so long as he remained in the service of the United States."

We trust the Atlas has been misinformed in regard to this matter. It is no time now for half way measures. If an officer in the service of the Government is reluctant to take the oath of allegiance without mental reservation,—if he is not prepared to enter upon the discharge of his duties with the single purpose to serve his country faithfully and continually, there are better and more trustworthy men behind him, who should occupy the position he vacates.

BLOCKADE.—A letter dated from the U. S. steamer Niagara, Mobile, June 6, says, Flag Officer McKean has now established a rigid blockade of the following ports, viz:—Pensacola, Mobile, Key West, and New Orleans. There remains to be established—which will be done in a week or ten days—the blockade of the ports of Apalachicola, Charlotte Harbor, and Tampa, in Florida; Ship Island, to the westward of Mobile, Berwick Bay to the westward of the Mississippi—from which place there is a railroad to New Orleans—and Galveston in Texas.

☞ Rev. Ezra Styles Ely, D. D., died at his residence in Philadelphia on Monday. Born in New England, on the 13th of June, 1786, he had just completed his 75th year. He was distinguished as a preacher, writer and controversialist,—and was a man of sturdy honesty and independence, true to what he deemed to be the right.

N. H. LEGISLATURE.

TUESDAY, June 25.

The Governor submitted to the House a statement of bills already paid and those received and not yet paid on account of the arming and equipping the New Hampshire Volunteers, as follows:—

For recruiting service, which includes all the expenses of enlisting, boarding, and bringing men to rendezvous,	$37,948.70
For clothing and equipments,	26,792.70
For labor, &c.,	452.08
For furniture and provisions, etc., at Camp Union,	28,222.08
Paid soldiers discharged and now in service,)	2,884.96
For musical instruments,	262.25
Paid on account of Camp Con-titution,	24,706 33
Total of accounts allowed,	$121,229.10
Accounts not yet adjusted,	44,635.84
Bills yet to come in will not probably exceed	30,000.00

Amounting in all, for 1st and 2d reg'ts $195,961.94

Gov. Berry says that two additional regiments will probably be called for from this State, immediately, and others may be called for soon.

The Senate gave notice that they concurred with the House in the passage of the Concord, Manchester & Portsmouth Railroad bill, with an amendment providing that there shall be no increase of fares from intermediate stations.

Mr. Stevens of Concord moved to postpone the bill and amendment to the next session.

After a lively discussion, the question on the motion to postpone was taken, and it was negatived—yeas 85, nays 210.

The committee on military affairs reported a resolution authorizing the Governor to organize a third regiment, to be placed in camp on Davis' Island, Lake Winnipiseogee. Ordered to a second reading.

On motion of Mr. Stevens, the vote postponing the petition of W. Jones and 300 others of Portsmouth for a new Aqueduct Company in that city was reconsidered, and the subject referred to the delegation from Portsmouth.

KENTUCKY FOR THE UNION.—The result of the Kentucky election was the choice of Union candidates in all the districts but one, in which Burnett, an out and out secessionist, is chosen. This would be encouraging, says the Newburyport Herald, "if the Union party there was what it is in the North; but Mr. Crittenden, who may be considered as good as any of them, would be counted very weak in New England, if indeed he was not put down as a secessionist. In a late speech he said he was opposed to the war; in favor of compromise; and in *any* event he went with Kentucky. All of the delegation will be in favor of a suspension of hostilities and an endeavor for adjustment, which is just what the South desire; and probably all of them agree with Mr. Crittenden in following their State, which idea is the germ of the whole evil we are now suffering."

It may be added, says Uncle Toby, that whenever we find ten per cent. of slavery in a State, we also find an unsound political condition running through the whole system. An orange, on the surface, appears all right, except a little spot, not a tenth nor a twentieth part of the whole, which is soft and sinks a little; but on cutting it open we find the juices all vitiated, and the fruit in rapid decay.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 29, which is as follows:

Be it Ordained, &c. Sec. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay thereto a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

Sec. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

Sec. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.,—*Dear Sir*:—Allow me the pleasure and satisfaction of bearing testimony to you (in beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1856, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of the imitations have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1820, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe in every case with every desired result, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine *nostrums* which accomplish all they profess, and all the bald and gray could desire.—*Columbus Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative. — *Boston Other Branch.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald from disease or sickness, the use of this article has produced a beautiful growth of thick, glossy hair It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attending to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous. —*Boston Transcript, April 22, 1859.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are squashes or humbugs—but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. We know well the inventor, Pinley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtue. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

WARREN SPRINGS, Perry Co., Pa., June, 7, '59.

PROF. WOOD—*Dear Sir*:—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am happy to say I can recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps my head free from it and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any more, and I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. LITER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence as chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be re-vitalized. He tried his own case—almost bald and wholly gray at 35—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The same is also for sale in original packages, viz.: Eighth and Quarter Casks.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the Purity of our Goods, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines for medicinal* and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to the direct, as we employ no travelling or other agents whatever—Persons who require *Pure Liquors and Wines*, in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

TO ARMS!

BY MARTHA PERRY LOWE.

[The following spirited poem is by a lady of Somerville, Mass., authoress of "The Olive and Pine," recently published. We copy it from the New York Tribune.]

Traitors and foes! we shall arm! we shall arm!
Brethren are ye!—but it matters us not—
Men of the South! we are calm! we are calm!
You are like madmen, misguided and hot!

Long have we patiently borne with your hate;
Shame has been rising and flushing our brow;
Oh! we're entreated you early and late—
God only knows what has come o'er us now!

We are not angry—the fire is too deep;
We will not taunt—that's for boys, not for men;
Yet we have sworn, and our word we will keep.
Never shall you trample on us again!

You have dishonored the Stripes and the Stars!
The pale North a moment did hold in her breath;
Now thousands of eyes, like the red planet Mars,
Do glare on you steady defiance and death!

You love not to work, you are all gentlemen;
Arms are your pastime, and 'fight' is your word;
We love the plough, and the loom, and the pen;
Nobler is Peace to our hearts than the sword.

You have been plotting all over the land—
You have been trailing to tear down the State;
We've not been playing with weapons in hand,
But we'll tear down *your* flag at the capital's gate!

Lord of the Nations! restrain us! restrain!
Terrible, mighty, our waking at last!
Tears, if they fall, shall come down like the rain,
And flood the degenerate soil of the past!

Then, courage, ye men of the North and the West!
A nation is springing again into birth!
In the beautiful garments of liberty drest,
Forever to stand the desire of the earth!

As an evidence of the regard in which the private rights of the people in Maryland are held by the commanders of the Federal troops, it is stated that Col. Burnside, of the Rhode Island Regiment, returned to Frederick, yesterday, two negroes who had concealed themselves in the cars which conveyed the regiment to Washington, and who he supposed to be slaves.—They were taken to Frederick in charge of a sergeant of the Regiment and lodged in jail, but upon examination they were found to be free negroes, who had taken this mode of securing a passage to Washington. This is certainly a very commendable movement on the part of Col. Burnside, and is calculated to do much towards lessening the fears of those who imagine that one of the objects of the war is to interfere with the "peculiar institution."—*Baltimore Patriot.*

The officers of the U. S. army are under no obligation to arrest, return, or meddle with slaves or free negroes. If they come and work, feed them well, as soldiers are fed. If they run north or west, let them run, and make no fuss about it.

The Washington Republican says:

"In front of our lines, across the Potomac from this city, the number of slaves who run away is not so great as the number of those whose masters run away, or whose masters tell their slaves to shift for themselves. The article has ceased to have a market price, and can hardly be so managed as to produce an income. Virginians who ran move South with their slave property are doing so in large numbers, but the number of Virginia slaveholders who cannot move South is still larger. This latter class cannot now sell slaves at the South, where there is neither demand nor means of payment, and as our armies advance, these slaves will run away, or be abandoned by their masters. The thing is inevitable."

It will take pretty good care of itself, if our officers let it severely alone.

☞ The Post Office Department has informed the Postmaster at Philadelphia that he should disregard any stamps on letters dropped into his office bearing the marks of express companies, where there is reason to believe they come from disloyal States.—They, however, should be delivered on payment of full postage, without the cent drop. The Department adds that the carrying of letters over established post routes in violation of law must be stopped.

☞ A young girl, seventeen years of age, in Belfast, Me., is able to manufacture a pair of men's boots, as well as the workmen of the other sex. Thrown upon her own resources, she bravely learned a trade rather than be dependent on others for her daily bread.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEPEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Tenn., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility; palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M. D., writes from Van Wert, O., "I meet respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.
One of the very best Physicians in Boston has said "*And it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

FRIDAY, JUNE 28, 1861.

SECOND REGIMENT, EN ROUTE.

JUNE 22—4 o'clock.

Messrs. Editors: — We are now approaching the city of Harrisburg, Pa.—Large fields of coal are seen as we arrive in the suburbs; tall factory chimnies loom up in the distance, and from many churches and public buildings the American flag is streaming in the wind. We are now passing over a magnificent iron bridge, with brown stone abutments; on the right is an immense depot, 200 feet in length, roofed with iron. A Scotch soldier, in full costume, is standing on the steps of one of the hotels. Large and fine-looking public buildings and churches are here seen. As our train backed down on a side track, we received a salute from a party of young men.

We change cars here, and it is necessary that everything should be arranged, as we do not again make much of a stop until we enter Baltimore. Again the train started and passed outside of the city. The track ran along the Susquehanna river, which is quite wide, and it being interspersed with islands, and with many fine farms on the opposite bank, the view was truly beautiful. We just passed a cottage door; in front stood eight little children, one of whom had a tiny American flag, which he waved, while the others gave us a hurrah. The weather is excessively hot, the thermometer being up to 95°.

We are now stopping at a watering place. Three regiments have met, and will move on to Baltimore together. The first is from Wisconsin; ours comes next, and the New York Germans form the rear. Our regiment alone requires three trains—one for wagons, one for baggage, and one for the men. We have been riding for nearly an hour through a dense forest. High banks are on each side of us, covered with running vines, wild flowers and berries. The sun is just sinking behind the distant hills, and the shades of evening are coming on. The little children are sitting on the door-steps of the country houses, and all seems quiet and betokens peace. But with us everything is different.

We have now arrived at a town called Gouldsborough, where every man will load with ball cartridge, and change cars for another road. At the suggestion of my friend of the medical department, we leave the cars and wander up the road leading thro' this Quaker town. As nearly all the ladies are dressed in black, with white collars upon their necks, they look as if they were in mourning. The men in the mean time had been drilling, and with loaded muskets entered the train. The citizens of this town paid our regiment a high compliment for their fine appearance and good behavior.—Ours being the first that had stopped there any length of time, they were much pleased. We had made all preparation to start at 10 1-2 o'clock. The baggage train was placed in the centre, and part of the regiment on each flank.

Nearly every one being in want of sleep, silence soon reigned among us. I was awakened at 1 o'clock by the noise occasioned by our arriving at York. The New York 17th came along and passed us while we were taking on wood and water. I looked into our men's car, and found all (with the exception of the sentinels) asleep, each with his trusty gun near at hand, and "his martial cloak around him." After taking a few notes by the light of the moon, I again turned in, and slept till 5 o'clock, when I was awakened by some one calling out that we were in secession country. We had passed the State line, from Pennsylvania into Maryland, about half an hour before, and were about 25 miles from Baltimore.

On board the train the note of preparatice is heard. Muskets are being examined, cartridges made ready for use, revolvers put in good shooting trim,—which indeed appears like work in good earnest. At each side of the road are seen at intervals the white tents of the Pennsylvania sentinels, who guard the road from the State line to Washington. Each one has a large camp fire before it, at which they are preparing breakfast. We now pass a bridge; a heap of ruins at the side marks where traitors once did their work. But here is a welcome sight: the inmates of first the house we see in "secess" country have turned out at this early hour to wave the American flag.

Now we draw near to a large camp,—Washington Camp. About fifty white tents are seen through the trees, sentinels are posted around, and the trees are hung with clothes, indicating that yesterday also was washing day. On we go—and now a second flag is seen on a distant hill,—each star in its place and not a stripe erased.

But here we are in the middle of the woods, at a dead stop. By some unaccountable accident, a portion of our train became unshackled, and one half was left as a picket guard, while the other half, with the engine, pushed on. A loud call for fast runners is now being made, and a score of fleet ones start off in both directions, some to find the runaways, and others to warn the trains behind. After a detention of half an hour, we were again united, and move on. In a field we see a fine looking slave, who laughs at some remark of our boys and points southward. Some eleven miles from Baltimore, we pass a camp, the soldiers of which are drawn up in a line at the side of the track.

One house was pointed out to me by the brakeman as the residence of a secessionist. As we passed by he was at the gate, and put his thumb to his nose in contempt. We next passed a large camp of soldiers who are guarding a long bridge. Most of it is new, and the ruins of the former one lie in the river's bed.

Twenty minutes past eight Sunday A. M. we arrived in the suburbs of Baltimore. The Regiment left the cars and formed in a line, preparatory to marching through the city. A few hundred people were collected, but every thing was quiet. We left the depot at about 9 o'clock, and passed up Cathedral street, where we halted for awhile, and were met by two or three New Hampshire gentlemen. The Concord Rifles act as rear guard. J. H. H.

☞ Movements of troops in Virginia and Maryland are so numerous, and to most readers so unintelligible, that we do not give many, as we cannot give all.

It has transpired that Gen. Cadwallader desired a week ago to occupy Harper's Ferry with his advance brigade, but Gen. Patterson flatly refused permission. Great surprise was manifested at this refusal.

Large bodies of rebel troops are still in that region.

On the opposite side, in Maryland, U. S. volunteers abound and are marching.

From the quiet and secrecy observed in these marches, it is evident that Gen. Patterson expects to strike a heavy blow or receive one.

It is certain that Gen. Johnston will not attempt to cross at Williamsport in the face of the heavy battery erected there. It is equally certain that Gen. Patterson will not attempt to cross again.

When Gen. Johnston evacuated Harper's Ferry, the whole column went to Charlestown and thence to Bunker Hill. When Gen. Patterson's forces crossed the river, the whole column drew up in line of battle to receive the expected attack.

The plan of the rebels is to draw Gen. Patterson's column into Virginia, and then retreat, fighting at all points where there is a chance for successful resistance.

NAVAL.—We are informed that the U. S. sloops-of-war Constellation and Portsmouth have been ordered to this Navy Yard from the coast of Africa, and that preparations are being made, by the Commandant of the Yard, to receive them. After being repaired and refitted, they will probably be detailed for service with the blockading squadron. Rumor says that a third vessel is also ordered here from the same station.

The crews of the Marion and the Dale are expected to arrive on Monday next, from the receiving ship Ohio at the Charlestown, Mass, Navy Yard.

☞ Rev. Henry E. Parker, Chaplain of the 2d Regiment, N. H. V., is also Chaplain of Crystal Fount Division S. of T., in Concord; and the Division, on the 19th inst., passed a series of resolutions, presenting their thanks to him for his very acceptable services in the past, and tendering to him their "best wishes and prayers, that the Blessing of God, our Heavenly Father, may attend him, in his patriotic services for our country; and that he may be an instrument in promoting temperance in the army, as well as among citizens at home."

☞ Our correspondents J. H. H. and Newington must pardon us if all their communications fail to appear in our columns. Recently we have had a perfect avalanche of correspondence, and when we say that on Wednesday we received four long letters from J. H. H., which had been delayed somewhere on the road, and one from Newington, they will readily see why some of them must be "crowded out."

NEW YORK, June 27.—Indications continue to show that there will be no active movement of the army till after July 4.

There is an unusual number of known rebels at Washington, who, after obtaining valuable information from the government employees, leave for Baltimore, thence sending it to Jeff. Davis.

SYRACUSE, Mo., June 26.—A gentleman from the South says he met Governor Jackson and 1200 troops at Pomme de Terre Bridge, 11 miles south of Warsaw, on Sunday morning, moving southward. They had 4 cannon and 25 baggage wagons, some of which were stage coaches.

N. H. LEGISLATURE.

WEDNESDAY, June 26.

In the Senate, a bill was introduced authorizing the appointment of an additional Justice of the Supreme Judicial Court.

In the House, Mr. Cartland of Weare, from the Committee on Education, reported a bill to establish the office of Public Instruction, authorizing the Governor to appoint annually a Superintendent and two assistants, for the purpose of supervising schools, delivering lectures, etc. Bill read and placed among the orders.

Mr. Burley of Exeter, on leave, introduced a bill for the more effectual suppression of worthless paper money. Al banks are required to stamp or write upon worthless paper the words "counterfeit," "altered," and "worthless," as the case may be, under penalty of having such paper returned to them, and being held liable to redeem it on demand. Read twice and referred.

Mr. Emery of Portsmouth, by leave, introduced a bill relating to school committees in that city. Read twice and referred.

The Portsmouth delegation, to which was referred the petition of William P. Jones and 300 others, for a new Aqueduct Co. in that city, reported a resolution that it is inexpedient to legislate on the subject.—Adopted.

WASHINGTON NEWS.

Dispatches of the 26th, say—the tone of foreign dispatches to our Government is most favorable. A member of the Senate Military Committee expresses a determination to sift all the army appointments with a view to their fitness.

Leading members of Congress have resolved that there shall be no general legislation at the extra session, but that the business shall be confined exclusively to the war.

The President's Message will, it is believed, firmly maintain the course already initiated, and recommend no compromise measures. On this and all other subjects the Administration is one, undivided and indissoluble.

The first official act of the Government recognizing the new provisional government at Wheeling, Va., as the State government occurred to-day in having regular official intercourse with Governor Pierpont, communicating to him the apportionment of Virginia for the 38th Congress.

The aggregate of the troops arrived here and mustered in this District, amounts to about 56,000 including 1500 regulars and 600 marines.

The U. S. steamer Pawnee dispersed a camp of rebels at Mathias Point, on Tuesday morning, by throwing shell among them.

Government has received a telegram from Gen. McClellan, denouncing and repudiating the entire statement that he has made a compact with Gen. Buckner.

The man is yet to be seen in Washington who has seen or heard of the compromise alleged to have been proposed by Jeff Davis to the administration.

Col. McCunn reports that he had a very cool reception while passing through Baltimore. The 2d Wisconsin regiment reports that a pistol ball was fired while coming through that city.

It is reported that sixty-three rebels were killed by Lieut. Hasbrook's battery and the Pennsylvanians at the recent skirmish at Edward's and Conrad's ferries.

BALTIMORE, June 26.—Mr. Stephens addressed a meeting at Warrington, Ga., on Monday. The meeting subscribed 2500 bales of cotton for the war.

The Virginia Convention, on the 24th, discussed the raising of a coast guard, and organizing guerillas for service in the Alleganies.

Another ordinance was passed, relieving the banks from specie payments.

A Portsmouth correspondent indicates that the rebels hourly fear a simultaneous attack on their lines by water and land.—The arrival of a flotilla from Hampton Roads tended to confirm their fears.

Two batteries of artillery went to Manassas Junction from Richmond on Monday night.

A Williamsport, Ky., correspondent says all that part of the State are praying for arms and help. The men of East Tennessee say their friend Abraham (President Lincoln) will speedily send them.

A friend of Mr. Crittenden authoritatively denies the dispatch to the Journal, that Mr. Crittenden would offer a compromise to Congress, or advise Kentucky to secede.

BALTIMORE, June 27—3 o'clock A. M. Geo. P. Kane, Marshal of Police, was arrested at his house by order of Gen. Banks, and conveyed to Fort McHenry, where he is now a prisoner.

Gen. Banks has issued a proclamation naming John R. Kenley, of Maryland, as Provost Marshal, superseding also the power of the police commissioners. Kenley is to exercise supreme control over the department until some known loyal citizen is appointed to act as Marshal. The proclamation gives as a reason for the arrest of Kane, that he is known to be aiding those in armed rebellion against the Government at the head of armed forces.

FORTRESS MONROE, June 26.—A refugee from Richmond, yesterday, says worse than Roman inquisition prevails in Virginia. It is the standing order that no one be permitted to leave the country.

Gov. Letcher is completely overruled by Jeff. Davis and Beauregard, and even his patriotism is called in question by the rebels.

Two howitzers arrived this morning for Duryea's regiment.

There are no military movements to report. It is known that the rebels fell back precipitately to Yorktown after the Great Bethel affair.

A barque owned in Richmond, coffee-laden, was brought in here a prize to-day

SOUTHERN CORRESPONDENCE.

NEW ORLEANS, June 16.

The improvements in this city are steadily increasing, and our city trade is progressing as quietly as if no excitement existed among us. Indeed, among the retail stores there is but little diminution from the usual sales at this time of the year; while among the wholesale establishments there is greater activity. Among the improvements are: The Iron Moresque Building, occupying a whole square, facing Camp and Poydras streets, and Lafayette Square. With 180 feet front on all sides, three stories high, and built in that most fanciful of all styles of architecture, the Arabesque of about the tenth century, it will prove one of the finest and most magnificent buildings in the city—cost $250,000, and castings made at Holly Springs, Miss. Paul Tulane, Esq., in consideration of a rent of $1000 a month, has erected a large six-story double building, in the Roman-Corinthian style of architecture, on Camp street, for the use of the silk house of C. Yale, Jr. & Co. The iron work is from a New York company, and they have introduced a novelty to this city, patent *iron revolving* shutters to all the doors and windows. The Touro Alms House of this city, in the Third District, endowed by the late Judah Touro, is another magnificent structure, being 350 feet front and 600 feet deep, which contains besides the main building for the poor, a rope walk and other buildings devoted to manufacturing purposes. This public edifice is rapidly being completed. Then there is a fine Catholic church being built on Crape street, near Love street, Third District, of Romanesque style of architecture, at a cost of $35,000. This church is now roofed in, the spire being in the course of erection, and will be finished in a few months. Another public institution, the Orphan Boys' Asylum, being a society for the relief of destitute orphan boys, has just been completed in Jefferson, on the Carrolton railroad, near Soniat Station, at a cost of $60,000. There are also a large number of fine stores and private residences being erected, but, like the articles in the auctioneer's catalogue, they are "too numerous to mention."

Thus, almost from one end of the city to the other, improvements are going on as if no enemy threatened the invasion of our territory, and our city wears an air of peace, prosperity and happiness, notwithstanding all the excitement. Our city railroads, extending to almost every point of the extreme limits of our city, have also just been inaugurated, affording delightful pleasure excursions to our citizens, as well as the greatest accommodation: and of afternoons, the shell and Gentilly roads, the fashionable drives to the environs of our city, are crowded with most elegant private carriages and dashing turnouts, while all the fine public squares are filled, of afternoons, with beautifully dressed children, skipping the rope, and tidy looking nurses carrying pretty babies, and troops of little boys playing on the green, and giving evidence of happiness, health and contentment.

We have just passed another week of charming summer weather. The heat, which has not been extreme, has been tempered by frequent showers that have greatly refreshed and genialized the atmosphere. June never was lovelier, with its glowing treasures of summer fruits and summer flowers, filling the air with fragrance and the eye with a sense of the beautiful.—Peaches, pears, melons, figs and berries abound, and Flora's family is in full flush; the rose, in every variety of tint and scent, jessamine, geraniums, magnolia and orange are shedding their myriad sweets upon the summer air, and loading it with beauty. Never did garden and wood look more charming than now. ION.

THE ALLEGHANIANS (VOCALISTS) AND SWISS BELL RINGERS. — This Company, which was organized by Prof. J. M. Boullard in 1846, and which has gained such popularity in this as well as in foreign countries, will, we understand, make their farewell tour through New England, prior to their retiring from the profession.

The troupe have but lately returned from a very successful foreign trip, which has extended through California, Oregon, Sandwich Islands, Society Islands, to South America; travelling through the provinces of Chili, Peru, Bolivia, Ecuador and New Grenada, visiting all the old inland Spanish cities on the east and west range of the Andes,—giving their entertainments at never less than one dollar, and sometimes as high as two dollars, per ticket of admission.

Leaving Central America, they proceeded to the West Indies and British Guiana, including the French, English, Spanish, Danish, and Dutch Colonies; and from thence, sailed for the Atlantic States, where they arrived in March last, after an absence of four years.

Mr. Daniel G. Waldron, of this city, is with this Company in their unprecedented wanderings, and is still to be connected with them as their business agent.

☞ Col. John C. Fremont was a passenger in the Europa, which arrived at Boston Wednesday. He took the night train for New York.

NEW HAMPSHIRE ITEMS.

Some person or persons on Saturday night or Sunday morning last, cut down about 200 feet of the telegraph wire, three miles north of Nashua. The line was repaired Tuesday, and in the meantime dispatches were sent *via* Lawrence.

It is said that Dartmouth College has received less money from grants made by the State of New Hampshire than it has from Vermont.

A boy six years old, at Gorham, was burned to death on Monday afternoon, under a pile of boards in the street just before his father's house. The little fellow with his playmates had got together a lot of shavings between two piles of boards against a fence, and called it their "camp." About half-past 1 o'clock these piles were noticed to be on fire. Some men checked it, when young Harvey was discovered leaning against the fence, on his hands and knees, terribly burned and dead. But a few minutes before the little fellow had come out of the house from his dinner.

The Manchester Mirror says the Candia Branch will be built before snow flies. Mr. Gilmore, Superintendent of the Concord road, and Mr. Kendrick, President of the Portsmouth road, both men of immense energy, and who will co-operate in the building, say it will be in running order by the first day of next November. The public jubilee that the people of Manchester, Portsmouth and intermediate stations naturally expect, will come off when the road is ready to run.

The following are the enlistments in this State, so far as reported at the Adjutant General's office: total of three months men, 2054; of 3 years men, 1170; total in first regiment, 780; total in second regiment, 1046; the remainder of those enlisted have been discharged.

A man by the name of Bennet, of Exeter, after robbing some of the Academy scholars of their clothes on Saturday last, went to Epping, where on Sunday he hired a horse to go to Newmarket, but took in another passenger and proceeded to Rochester, where he put up. Some suspicions arising in the mind of the landlord, inquiry was made, when Bennett cleared for the woods, leaving his team and fellow-passenger, who said he got in only to have a ride.

FROM CALIFORNIA. — *Fort Kearney*, June 25.—The Pony Express from San Francisco 15th, passed here yesterday.

Ship Sierra Nevada takes a cargo to New York valued at $141,000.

The Breckinridge State Convention adjourned on the 13th without nominating. They meet again July 23, and hope to make common cause with the Douglas and Bell and Everett parties against the Republicans. Governor Downey flatly refused the nomination of this Convention. The substance of their platform is the Union and Constitution, but disunion rather than war.

ALEXANDRIA, June 26.—All the guns are mounted and Fort Ellsworth is well garrisoned, including a force of regulars. The guns are also placed outside, commanding the roads. Good military authority pronounces these works perfect in every detail, and good against 10,000 of the best troops.

Intelligence from Manassas Junction gives satisfaction at headquarters. The force is not near so large as represented, and is not well clothed or fed.

Intelligence from Camp Tyler this evening, represents that all the rebels had disappeared from Falls Church. That place will soon be occupied by Federal troops.

NEW YORK, June 26.—A letter from the steamship Colorado, dated at sea 23d inst., states the after standard of the engine, which supports the reversing shaft, broke on the evening of the 20th. An examination showed that a piece had been sawed out and replaced with iron, which was carefully painted over. Further examination showed that other parts of the machinery had been similarly tampered with. The same *traitorous* engineer had charge of the Colorado that tampered with the engine of the Mississippi.

☞ Our streets are remarkably free just now from canine incumbrances. Some are kept dark by their owners; a few unfortunates are dogging 'round "with wire muzzles, well secured,"—and not a few have bravely met their fate, having been treated as the leaders of the rebels should be.

☞ Dinsmore & Co., New York, have just issued the June number of their Railroad and Steamboat Guide, with a new Railroad Map,—very convenient for reference as well as travel.

ALMOST A FIRE.—The city stables, we learn came near being destroyed by fire Monday afternoon, which was communicated by a spark from a locomotive. On the same day and at the same time last year it took fire from a similar spark. — *Portland Courier.*

☞ The Charleston Mercury has no doubt that parties in that harbor have lately been affording information as well as supplies to the United States fleet now blockading the port.

WASHINGTON, June 26. — All reports about the disposition on the part of the President, or Cabinet, or Gen. Scott, or anybody else, to favor a compromise, or delay of hostilities, have no foundation in truth.

☞ Rev. T. H. Miller will preach at Nottingham on the first Sunday, 7th day, of July.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hope of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been buoyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated; and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excitement and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 daw3m

USING

Bryan's Pulmonic Wafers!

References can now be given to some of the principal Physicians and numerous Individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists my28 daw3m

☞ It is Capt. Kellogg of Company K, Connecticut Second, who was decoyed into a house by a woman, at Alexandria, and made a prisoner by the rebels. It was the same house in which two other pickets were captured the day previously. Capt. K. is now a prisoner at Richmond.

Call on your grocer for Horrick Allen's Gold Medal Saleratus. It is the only perfectly healthy Saleratus made. After using one half the paper, if you are not satisfied, return the balance, and get the money paid for the whole. It is much better to use with cream tartar than soda. It is peculiarly adapted for dyspeptic persons. For sale by grocers and druggists, and at wholesale by all dealers. Depot 112 Liberty street, New York.

"Their name is Legion," may be applied to those who die annually of consumption. Science has of late years sensibly diminished the number, and it is gratifying to know that Dr. Wistar's Balsam of Wild Cherry has created a powerful influence in attaining this end.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE,
Portsmouth, June 14, 1861.
Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 20, which is as follows:
Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.
SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.
SEC. 3. Any person may lawfully kill any dog found within the limits of this city, going at large in violation of the provisions of this ordinance.
The same will be enforced as directed, on and after Monday, June 24, 1861.
June17 OREN BRAGDON, City Marshal.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.
The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring it, gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a *good* Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to
WINSHIP'S PATENT UPRIGHT
Self-Ventilating Refrigerator,
Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.
This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.
The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.,—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved on by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons who have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1520, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe in every case with every desired result, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine *nostrums* which accomplish all they profess, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Bo ton Olive Branch.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is provable by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head has become almost bald because of dickness, the use of this article has produced a beautiful growth of thick, glossy hair It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attending to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a material improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums;—but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Rev. Jesse Lee Bangs, editor, Shirley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

WARREN SPRINGS, Ferry Co., Pa., June, 7, 50.

PROF. WOOD—*Dear Sir*—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from itching and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any suspicion of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now at less trouble to keep in good order, cleaner than at any time since I have been a child. I consider your preparation of great value, and, altho' I do not like to expose myself to notoriety, it is my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached forescore, and he believed that the hair could be re-vitalized He tried his own case—almost bald and wholly gray at 37—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly adapted for the Treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recreate and strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

"THE HAMMOND LINIMENT"

IS A SAFE, SURE and SPEEDY REMEDY,

—FOR—

NEURALGIA, RHEUMATISM, LUMBAGO, SCIATICA, BRUISES, SORE THROAT, CHILBLAINS, HEADACHE, SORES, PILES, PAIN IN BACK, SIDES, LIMBS & CHEST.

The best evidence of its worth is the testimony of those who have been relieved and cured by its use.

"THE HAMMOND LINIMENT"

has been used in our families with the very best results. We therefore recommend its use to all who may be afflicted with either of the above troublesome diseases, as we have found it to be what the proprietors claim.

☞ A very large schooner, now in the harbor with a load of coal from Philadelphia, has an entire crew of negroes and colored men, including the captain and owner. The latter is a capable, intelligent man, who has been master of a vessel these twelve years, and owner for a shorter time. He had always gone through the ceremonies at the custom houses without difficulty, till Mr. Buchanan's administration, when, after the false *dicta* of the Dred Scott decision, he was informed he was not a citizen of the United States, and therefore could not clear a vessel in his own name.

He therefore got a white man to go as captain *with* him, *pro tem.* But now, he meets no difficulty, on that score. The truth is, that decision was *political*, rather than legal,—and it was made to serve a turn. It is not in accordance with law or gospel,—and by and by will fall, as it ought, into contempt.

Negro soldiers fought for American independence eighty years ago; negroes were citizens of New Hampshire before the Constitution of the United States was formed. Negro sailors abounded in the U. S. Navy in the war of 1812–15; and in the privateers of that day. They had protection as American citizens,—and were always *counted in*, till within a few years the dirt eaters basely suffered them to be counted out.

☞ A farmer in Barre, Mass., kept last season 24 cows; each cow yielded 650 lbs. of cheese worth 10 1-4 cents per lb., $10 worth of butter, a calf worth $12, besides whey and buttermilk fed to the hogs, thus making $88.62 to each cow. This statement was made to the Legislative Agricultural Society.

☞ Lieut. Higby, from the Washington Navy Yard, a son of Rev. Dr. Higby, Rector of Trinity Church, New York, reported for service on board the Vincennes, at the Charlestown Navy Yard, Wednesday.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business. It may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 69 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEPPERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a country of ague, fever and ague prevail,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. R. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

SATURDAY, JUNE 29, 1861.

BALTIMORE POLICE.

Gen. Banks has reformed the police of Baltimore. Dispatches from that city, of Thursday, June 27, inform us that there was considerable excitement occasioned by the arrest of Marshal Kane. The Union men are pleased; the "Plug Uglies" are indignant.

Col. Kenley, Provost Marshal, waited on the Mayor and Police Commissioners. The latter asked time to consider, but Kenley replied that his orders were immediate, and proceeded to the Marshal's office, taking possession. The Commissioners then directed the officers to obey the military authorities, and declared their intention to prepare a protest against the action of the government.

Col. Kenley is commander of the 1st Regiment of Maryland Volunteers, and is considered a reliable man.

At 2 o'clock the Police Commissioners, after consultation, issued orders to the police officers to take off their insignia of office, badges, caps, buttons, &c., and virtually disbanded them. The Board has issued a protest, which is signed by the Mayor.

Col. Kenley has been actively engaged in swearing in a new police force. He has appointed captains in all the districts. It was the desire of Col. Kenley to retain the present force as far as possible, but the action of the Police Commissioners thwarted his purpose.

[The Mayor and Marshal Kane both deserve the traitors' doom,—and it is possible they may yet receive it.]

DAVIS WANTS REORGANIZATION.--The Troy Daily Times says:—

"We have the best authority for saying that some three weeks ago, a leading gentleman of New York city voluntarily took upon himself the office of a Commissioner to Montgomery. He possessed a reputation and credentials which enabled him to approach Jeff. Davis and his cabinet, and he did so with confidence. He laid before them all the features of the case, as it presents itself to the minds of conservative gentlemen at the North, and in conclusion asked them 'whether it was possible that there could be a reconstruction of the Union upon the basis of $6 80, and a Congressional recognition of the institution of slavery and its perpetuity.' He was told by Jeff. Davis himself that such a reorganization was all that the South asked, and that the tender of an arrangement on that basis by President Lincoln or from Congress, would instantly terminate hostilities.'

Put into plain English, this great *proposal* means that the Constitution of the United States shall be turned upside down,—so that the preamble shall read, "to secure the blessings of *slavery*, &c." instead of reading as it does now, "the blessings of *liberty*." It means also, that treason, stealing, piracy, &c. shall be legalized,—and the government again put into the hands of Cobb, Floyd, Davis & Co., who will, of course, charge all the *little bills* of expense to Uncle Sam!

WASHINGTON, June 27. — Senator Lane has received a commission as Brigadier General. In addition to the three regiments heretofore accepted from Kansas he is authorized to raise two, consisting ing of twelve companies of infantry, four cavalry and four artillery. The Colonels of these two regiments are William Weir, who served through the entire Mexican war, and James Montgomery, well known in Kansas history. Arrangements are already made to furnish uniforms and general equipments. Col. Weir left here several days since, taking General Lane's proclamation calling on the people of Kansas to rally and fill up the two imperfect regiments, stating explicitly his purpose to put down rebellion wherever it existed, and sustain the Union men without regard to State or locality.

[Lane and Montgomery of Kansas, will not be easily surprised by guerillas, nor very easily frightened.]

The 37th New York Regiment to-day named their Camp "Camp Mary" in honor of Mrs. Lincoln.

The national flag will be hoisted over the President's house on Saturday next, with appropiate ceremonies.

☞ In consequence of the withdrawal of so many regulars from the plains, it is feared that Indian depredations may endanger the safety of emigrants to the Pacific, or break up the daily overland mail to California, which goes into operation next week, and will then be the only mail line to the Pacific. The Secretary of War has been urged to send to that region the six hundred U. S. soldiers from Texas, who are embarrassed by parole of honor not to fight against the Confederates, and whom the government had therefore thought of discharging from the service.

SECOND REGIMENT, EN ROUTE. BALTIMORE TO WASHINGTON.

SUNDAY, 11 o'clock, A. M.

Messrs. Editors:—At the time I closed my last letter we had just arrived in Baltimore, the Regiment being in Cathedral st. We took up the line of march on the side walk, meeting but few citizens on the way. In Eutaw street, which was somewhat crowded, we came up with the N. Y. 17th Regiment again, they waiting for us to join them. Here we rested awhile, and then took up the line of march, and a fine appearance the regiments made. The N. Y. 17th and a part of ours marched through the street, the platoons extending from curb to curb, and the remainder of our Regiment took the right hand sidewalk. The dear old flag never was borne through Baltimore by a better appearing or braver set of men.

As we passed a large market we received three cheers from a crowd of pretty rough looking fellows—all we got in the city. Along the whole route not a glass of water was offered us. The day was very warm, and the soldiers suffered intensely. Great crowds were collected at the corner of Camden and Eutaw streets, and three cheers were given for Jeff. Davis.

But we reached the railroad station without disturbance; a large concourse of people had assembled here, and I recognized two familiar faces,—Mr. John Ham of your city, and Mr. Edwin Moore, who married a Portsmouth lady. Many inquiries were made about home and concerning the Regiment.

While standing at the Depot I fell into conversation with two young Baltimoreans, who kindly invited me to their home near by. They enabled me to get a clean face (no slight favor then, I assure you,) and furnished me with a hot breakfast. At the depot our men were waited upon by the free negroes with buckets and pitchers of water.

Capt. Sides informs me that the officers of his company, when they left the cars, were entertained most hospitably by a Baltimorean. A hot breakfast was furnished them, and beautiful bouquets were presented by the ladies, while he received a beautiful star, composed of red, white and blue satin, ornamented with spangles,—it being pinned on his breast by a daughter of Baltimore.

One of the wagoners says they received some pretty hard looks from crowds of rough fellows, as they passed Pratt street; but at other points, cigars were passed to them by the citizens and other acts of kindness and good will shown them.

We left Baltimore at half past nine amid the cheers of the New York 17th. I saw Fort McHenry on the left as we passed out of the city, and had a fine view of Baltimore on the right, from many points of which the stars and stripes were flying. We next came in view of the Mass. 6th and one other Regiment. They made a grand rush towards our train, lining the road, and cheering as quite lustily. Just after we passed them, four or five rough looking men ran down a lane leading to the track, shook their fists at us and made threats. And while we were at the Baltimore depot, a number of men were seen whom Union men pronounced to be rank traitors. One fellow stepped up to a member of Capt. Sides' company, and said: "I will take your profile and remember you when you come this way again." The Portsmouth boy told him if he didn't leave d—n quick he'd take his profile on the back of his hand. Our boys were all full of fight and would not take any impudence from any one.

At half past one, we reached the capital. A part of the regiment marched to quarters in Pennsylvania Avenue, while the remainder stopped at the Union House. Our regiment goes into camp this, Sunday, afternoon, at a very pleasant spot two and a half miles from the city. Col. Marston had ordered a dinner for the entire regiment at the National and Clarendon Hotels. Ours is the first regiment, which has arrived here, the officers and men of which have been served alike.

Here I met Mr. Edwin Goodrich, formerly of your city, who was doing all he could for the comfort of the Portsmouth boys. I also met Mr. Cyrus Spaulding, son of Rev. Justin Spaulding, formerly pastor of the Methodist church in Portsmouth. He has been here two months, a private in the N. Y. 12th Regiment.

As I was sitting at a window of the National Hotel this evening, I heard martial music, and soon saw the gallant and fine-appearing N. H. Second coming up the Avenue. Their ranks reached from curb stone to curb stone, and every platoon was "as straight as a die." Following came the long train of wagons in pairs, each drawn by four horses. At the corner, near the National, a crowd was collected and from every lip came words of praise, from some for their fine marching, and from others for their intelligent-looking faces.

It is reported as a fact, that Wigfall has been in the city three days in disguise. According to the story, he took the part of cattle dealer, driving quite a herd of fat cattle into the city and selling them to the government. The last day here he called at a daguerreotype saloon, had his likeness taken and left his card.

MONDAY.—This morning at 7 o'clock, I started in a comfortable hack for the camp of the 2d Regiment, which is situated in a beautiful grove of pine and hemlock trees. We were soon among the white tents, receiving the greetings of many of our friends. The boys were busily at work, pitching tents, bringing water, &c. The men in camp are all well.

The first night in camp (Sunday) a man was seen prowling around in the vicinity, and, as he did not give the pass-word, he was fired upon by private James Davis, Co. D, of Dover. The man raised his hands to protect his face, and the shot passed through his wrist, and across his eyes. He at first pretended that he did not understand English; but he soon found the use of his tongue and said he was from Harper's Ferry. He was conveyed to jail this morning. After a pleasant visit to the camp, I returned to the National Hotel, which is one of the largest in Washington, situated very pleasantly on Pennsylvania Avenue, and kept by Messrs. Tenney & Jones,—both N. H. men. Every thing is done for the comfort and accommodation of the visitors, and their facilities for gratifying the reasonable wishes or the unreasonable whims of of travellers are very great, and the prices are moderate. I would recommend it to New England travellers especially, as the chief place of resort of men from your portion of our country, and as the most agreeable hotel at which one can stop in the city of Washington. More anon.

Yours, J. H. H.

☞ Some years ago, a crowd was gathered, in a public place in Philadelphia, to witness the effects nitrous oxide (laughing gas) has upon men. The experiments were made upon persons from the audience, and among the number was Edwin Forrest, then a little, unfriended boy. In the instant exstacy which the subtle fluid inspired, he threw himself into a tragic attitude, and cried,—"What ho! young Richmond, ho! 'tis Richard calls. I hate thee, Harry, for thy blood of Lancaster!" The dormant power was thus revealed, and Forrest has attained his reputation.

☞ The Boston Pilot, the widely circulated paper of the Irish Catholics, takes the most decided and vigorous Union ground, of loyalty to the Constitution, and armed support of the government. After stating what its course has been, it closes an article thus:—

But we shall discuss no such question now. We have a civil war upon us. We hold the Union of more importance than any other political issue which can possibly arise. With disunion the South must sink to the position of a colony of England, and the adopted citizen, who is a laborer or a mechanic, or manufacturer, without capital, will be of no more account than a common vagabond. There is but one way in which our national difficulty can be healed, and justice established. The *insurrection must be put down*, and then the Constitution must be amended so as to be adapted to the changes in our condition which time and development have made.

A GOOD PRIZE.—The English ship Minion, from England, bound to Savannah, was captured on Sunday, June 23, off Charleston, by the U. S. gunboat Union. She had twenty thousand stand of arms, with ammunition and other contraband goods on board. The ship was sent to New York in charge of a prize crew.

NEW YORK, June 27.—Prize ship Amelia arrived at the Navy Yard this afternoon with a cargo, which consists of iron crates, camp ovens, equipage and machinery. The vessel is valued at $12,000; cargo $50,000. It is supposed that arms are concealed in the crates.

☞ It is Capt. Kellogg of Company K, Connecticut Second, who was decoyed into a house by a woman, at Alexandria, and made a prisoner by the rebels. It was the same house in which two other pickets were captured the day previously. Capt. K. is now a prisoner at Richmond.

REGIMENT OF POLITICIANS.—F. A. Aiken, of Vermont, Secretary of the National Democratic Committee, has proposed to the War Department to raise forthwith a regiment of Northern Democrats, for active service during the war, and to testify their appreciation of Mr. Lincoln's efforts to maintain the Government intact.

☞ The Post Office Department, in consideration of the loyalty of the citizens of East Tennessee, has made arrangements for furnishing them with increased postal facilities. The mails hereafter will be sent thither via Cincinnati instead of Louisville.

ST. LOUIS, June 26.—Gen. Lyon left to-day with his command, and Col. Bates's Iowa regiment, for Springfield, where he will form a junction with the Kansas troops and Col. Sigel's command from here.

Hon. Mr. Phelps' family arrived to day from Springfield. All the secessionists had left that city, and the people think the federal troops will find no enemy to fight on the southern border.

☞ Stephen Kenrick, Esq., of Franklin, has been chosen President of the Valley Bank at Hillsboro'. This Bank went into operation in May last.

☞ Amodio, an opera singer, died at sea (no date) of yellow fever, on a passage from Venezuela to this country.

MARCH ON.

March on, ye brave and gallant ones,
Who at your country's call,
Leave friends, and home, and all that's dear,
To face the blood-stained pall.
March on, and feel that with you goes
The blessing of the true,
And strike to earth the dastard foes
Of the red, white and blue.

For that loved and cherished emblem,
Floating there so gracefully,
Is our people's pride, the country's gem,
And freedom's canopy.

March on, for heaven's protecting smile
Will guide and comfort you,
And living hearts at home the while,
Will beat both warm and true.
March on, nor heed the Southern foe,
With their fiery cant and brag;
March on, and lay each traitor low
Who dares insult the flag.

For that loved and cherished emblem,
Floating there so gracefully,
Is our people's pride, our country's gem,
And freedom's canopy.

N. H. LEGISLATURE.

THURSDAY, June 27.

In the Senate, a resolution relating to the appointment of a medical commissioner, and an act relating to the protection and preservation of shade trees, were passed.

In the House, Mr. Eaton, from the select committee appointed to take into consideration that part of Gov. Goodwin's message relating to the purchase of arms in foreign countries for the use of the State during the war, reported a resolution that circumstances have so changed since his order was given, that it is now inexpedient to renew the same. Adopted.

The House adopted the resolution passed in Congress, March 2, 1861, recommending a change in the U. S. Constitution, so far as to forever prohibit any interference by Congress with the question of slavery in the States.

The Million Loan Bill then came up.—Explanations were asked; and the following resolution was adopted:

Resolved, That the Governor be requested to communicate to this House, at the earliest possible moment, the number of recruiting officers or agents employed in the enlistment of the 1st and 2d Regiments, and the amount of money paid to each; the contract or contracts for clothing and equipments for said Regiments—how much? of whom and by whom purchased? and the average cost per man; the contract or contracts for provisions for said Regiments, of whom and by whom purchased, and the average cost per day for each man; and how much of the $2884.96 paid soldiers, was paid to the soldiers of the 2d Regiment;—and how much of the $50,000 appropriated was expended for the transportation of said Regiment.

WAR ITEMS.

By Friday Evening's Papers.

The steamer Freeborn landed a party of 24 men at Mathias Point last night, to erect a battery. A large body of rebels in ambush fired upon them, killing Capt. Ward and wounding several others.

A Baltimore dispatch says:

Marshal Kane is confined at Fort McHenry. The rowdies are beginning to show signs of license. Three regiments have arrived from the Relay House. It is reported that entrenchments are being thrown up at Rock river, eight miles east of the city.—360 out of the 400 police have resigned.

The rebel plan was to publish in Baltimore a lying statement that Washington was taken, rush the rowdies to arms, and commence a fight. Marshal Kane was doubtless in the plot. Gen. Banks has discovered a plan to destroy the railroad from Baltimore to Washington.

It is said the Secretary of the Treasury will recommend the raising of $250,000,000, and has three ways to do it; one by a popular loan, another by a foreign loan, and a third by an issue of small treasury notes.

It is reported that John M. Botts is in Washington, as a representative from Virginia, and has written to the Tribune that the Southern insurrection is at its last gasp, while negro insurrections are everywhere threatened; and that Beauregard has sent a circular South, saying, "if the cotton States do not raise and equip 100,000 men in six weeks, we are lost. Our troops in Virginia are busy suppressing slave insurrections. But for this, Washington would long since have been in ruins."

18 federal soldiers, while scouting on Patterson Creek, encountered a party of 40 rebels, when an engagement ensued. 17 rebels are reported to have been killed, and one of our men.

☞ By the Extra Traveller of last evening, we learn that Gen. Banks has seized a large amount of military stores in Baltimore, and the search is still progressing.

Government arms have been received at Louisville, supposed to be intended for the Union men of Kentucky and Tennessee.

NEW YORK, June 27.—A number of editors of newspapers of this State, headed by the Daybook, are holding a meeting here to-day. The object is probably political.

The Post's dispatch says a movement has been started to elect Etheridge Secretary of the Senate.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it *is the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr. Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

Local.

☞ A large quantity of lumber, the property of Messrs. Call & Chesley, near the Planing Mill in this city, was discovered to be on fire on Friday evening, about 8 o'clock. The boards were piled on cross sticks, in order that they might become seasoned, and the flames therefore spread with great rapidity. Three schooners had recently discharged there, one of them having arrived there last week. The lumber was nearly all of the best quality, and the loss is quite heavy. Some few hundred feet were saved by being thrown into the dock, but the greater portion was destroyed.

☞ The Floral Concert by Mr. Tilton's class of thirty girls and boys, at the Temple, Thursday evening, well repaid for attendance — notwithstanding its imperfections. The display of youthful beauty, in their gay dresses, and ornamented with flowers, on the neatly but not profusely decorated or well lighted stage, was all the more grateful from the long lack of anything of the sort here. And while it would be by no means difficult to criticize the performances, especially in their want of spirit and promptness—yet we were glad of the opportunity to witness the display—knowing that the great regard which the teacher and pupils have evinced for each other, can but result in the good of both. And then, too, it is unfortunate for any one to give floral concerts where they must bear comparison with those superb entertainments long produced by the inimitable T. P. Moses.

☞ A few days since a boat containing four boys was upset by a squall, while sailing in our river—the ballast shifting at one gust, and the next capsizing the craft. The boys swam ashore—one of them, Charles A. Weeks, coolly carrying a son of Mr. Downie, who could not swim.

Capt. Wm. Lester, with another sea captain, and their wives, were also upset while sailing on the river a few days ago, and all picked up by other boats.

☞ In the debate in the N. H. Legislature, occasioned by the petition of William P. Jones, Esq., and others, for a new aqueduct in this city, it was stated that while the old company held their stock at a par value of $100, they were taxed on $352. The original stock cost $9200; now the company is taxed for $36,000. The company incurred an expense of $7500 during the past year, in laying down new logs; $6000 of this amount remains unpaid. The dividends have *averaged* only twelve and a half per cent. since the company was incorporated.

☞ The Saturday Evening Gazette says "one of the 2d Regiment boys brought from his home in Portsmouth a little kitten, which he intended to carry in his bosom to the seat of war, as a pet. Puss, however, could not keep her head under the jacket at dress parade, but poked it out, to the indignation of the officers." Kit therefore was donated to that office, and, of course, will be properly cared for.

☞ A gentleman, who is well acquainted with the first lieutenant of the Santee, assures us that he made no reservation in taking the oath of allegiance; and that he needed none; as he is a loyal man and faithful officer. And moreover, no reservation whatever is allowed. Either the oath must be taken, or declined: there is no half way about it.

☞ It is proposed to have a Rowing Regatta on the Piscataqua the coming Fourth of July. Several rival boats are anxious to compete for the prize. As this will be the only novelty during the day, we hope our citizens will take hold in earnest and urge the matter on. We understand a subscription paper will soon be circulated.

☞ On and after Monday, July 1st, Mr. Hoyt's stage will leave Kittery Point at a quarter before eight A. M. and 2 P. M.—Returning, leave City Hotel, Portsmouth, at 10 3-4 A. M. and 5 1-2 P. M.—or on the arrival of the trains. By this arrangement, persons from this city can visit Kittery Point and return the same day; while those residing there, can come to this city, transact their business, and return in good season.

☞ Morris Brothers, Pell & Trowbridge's celebrated troupe of Minstrels, will give one of their popular entertainments at the Temple on Monday evening next. The troupe consists of eighteen performers, and will introduce many new and original pieces. The company has won an enviable reputation throughout the country, and their concerts are always eminently satisfactory to those who attend them.

☞ The Eastern Railroad will pay a dividend on Monday, to its shareholders, of two per cent.

At the same time, a dividend of like amount will be paid to stockholders in the Eastern R.R. in New Hampshire. Stockholders in the railroad residing in Portsmouth and vicinity may receive their dividends at the Piscataqua Exchange Bank in this city.

☞ In the Board of Aldermen, on Thursday evening, the Mayor was authorized to purchase a suitable Flag, to be used on Jefferson Hall. The Mayor was also authorized to have the bells rung, and a national salute fired, on the coming Fourth of July.

☞ The Ballot states that Oren Bragdon, City Marshal of Portsmouth, has been appointed a Deputy Sheriff by Joseph B. Adams, Esq., Sheriff of Rockingham county.

☞ Mrs. Montgomery P. Blair and children will pass the summer months in this city, at the residence of her late father, Hon. Levi Woodbury.

LOUISVILLE, KY., June 27.—The suit testing the legality of the blockade of the Nashville road was withdrawn yesterday by the shippers prosecuting it. It is generally understood that Mr. Guthrie, the President of the road, will assume the responsibility and decline receiving freight unless the Collector's permit accompanies it. Large quantites of contraband goods are said to still go over the road to inland Kentucky towns, thence to Tennessee.

Major General Pillow issues two proclamations in the Memphis Bulletin of the 24th. One recals the order that whiskey and tobacco are to be distributed with rations. He says he gave the order on his own responsibility, supposing the Military Board would allow it. The other proclamation states that all debts due the North are by law now due the State, and declared seized and sequestrated, in reprisal for illegal seizure by the people of the Government North. All the banks are required to state what amount of stock is owned by the enemies of the State, and the brokers, bankers and others, also indebted, are required to pay such indebtedness to the State.

The Louisville Journal has a letter from Hopskinville, Ky., which says that two military companies from Christian county went to Clarksville, Tenn., and took the oath of allegiance to the Southern Confederacy, and afterwards voted in the late election.

The entrance to a woman's heart is through her eye or ear; but a philosopher has said that the way to a man's heart is down his throat. Good house-wives understand this, and use Herrick Allen's Gold Medal Saleratus. If there are any so unfortunate as not to have tried it, go immediately to your grocer and get a paper, and our word for it, it will make a heart as hard as adamant soften and be joyful; and ever after you will praise Herrick Allen's Gold Medal Saleratus. Everybody sells it. Depot 112 Liberty street, New York. Try it.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 39, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

June17 OREN BRAGDON, City Marshal.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a *good* Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

☞ A singular phenomenon has lately occurred in the Bellamy river, near the city of Dover. Nearly the whole bed of the river has been lifted up to the height, in some places, of from ten to twelve feet.—The bottom of the river consisted of clay, and upon this mass can be seen small dead fish, shells, and sand. It is a fresh formation. The length of the upheaving is about 100 feet, and from ten to fifteen feet wide. At the distance of three rods from this is the appearance of a slide from the embankment, but on close inspection, it will be found to be a falling in of the earth, trees and all, to the depth of five or six feet. The width of this is from eight to ten feet, and its length is about 125 feet. From this depression to the river is land about three rods wide, of firm soil, partly covered with small trees. It is said by old inhabitants that there was a slide into the river in the same vicinity about sixty years ago.

AYER'S

Sarsaparilla

FOR PURIFYING THE BLOOD,

And by the same process of the blood, eradicates Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & CO.: Gentlemen: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a scrofulous infection, I have suffered from it in various ways all my life. Sometimes it came out in ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and troublesome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was reduced to rest in the Gospel Messenger that you had prepared an alterative (Sarsaparilla) I knew from experience that anything that did me good must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in wineglass dose of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which fell off after a while like a scab. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the benefactors of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a desperate *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured my boy from a *Goitre*—a swelling rankling on the neck, which I had suffered from four two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. R. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most efficient alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured scores of patients under my care, Leucorrhœas by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physicians thought nothing but surgical operation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with your request of your agent, and report in you some of the cures I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the compounds for which it is recommended, and have found its effects truly wonderful in the cure of Tertiary Syphilis and *Secondary Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five months. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon have reached his brain. He was not yet yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfigurement to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the slightest touch, that she could not walk without excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its firmness which you sent me, that the this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have excited my wonder and use.

Fraternally yours, G. T. LARTIGUE, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic rheumatism for a long time, which defied the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me, and I have ever since been in perfect health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Tetter, Scald Head, Sore Eyes.

Jules V. Geichell, of St. Louis, writes: "I have been afflicted for years with an eruption of the face, which destroyed my health. I tried every thing, and nothing failed to relieve me; and I have been a broken-down man for some years. Your Sarsaparilla has done wonders with the *Liver*. My beloved pastor, the Rev. Mr. Leary, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that I can do is to make your Sarsaparilla my medicine."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of these may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders of which would be supposed to be beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other in the world, that it would be a waste of time and space to attempt to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these diseases, that if as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtue that it did have when making the cures which have won so strongly upon the confidence of mankind.

BININGER'S

BOURBON

"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for sick people, it is offered to the public on as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recreate and strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

BE PROMPT AND DECIDED.—The Bath Times says, very pertinently, "if the defence of the country was entrusted to an army of lawyers—acting strictly according to professional rules—the rebels would seize and sack the capital, depose and drive out the President, and instal themselves in power upon the ruins of a subverted constitution, while the *defenders* would be wiping the dust and cobwebs from the statute books preparatory to an examination to see how far they could go in repelling rebellion, and in maintaining the integrity of the Union."

We suppose it is designed to encourage Congress to prompt legislation, in appropriating money, enlarging the Navy, and giving all possible aid in resisting rebellion and restoring order and industry.

☞ The following is given as an extract by the London Reivew, from a recent publication, entitled "City and Suburb":

"I would," says the author, "lift up my voice against an error of the day, against the idea that man can triumph over circumstances otherwise than by adapting himself to them. His will proves an engine of power in a sensible and an adaptable man, but is an engine of destruction in the hands of an obstinate, clever fool. The cant of the day is in favor of a man adhering to any determination once made, through misery and poverty to possible success.

I believe I advise you better, my reader, when I say that the best laborer in the Lord's vineyard is he who, let him be working ever so hard in his own fields, is ready to leave those fields and seek work elsewhere, when the servants of God—circumstances—prove to him that his work in them will be but fruitless and his labor vain."

TOO GOOD TO BE LOST.—A country man was in the town of Lumpkin last week, and was asked how he liked the war news. He replied, "Very well." "Are you ready to go?" he was asked. "Yes," he replied. "Are you not afraid?" "No. If I should see a Yankee with his gun levelled and looking right at me, I will draw out my pocket book, and ask him what he will take for his gun, and right there the fight will end."—*Macon Telegraph.*

CERTAIN CURE, CERTAIN CURE.
CERTAIN CURE, CERTAIN CURE.
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is a internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. MODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEPERRE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
R. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes, as that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters affecting the cure, which several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails) that he cordially recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. CALLEBERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.
One of the very best Physicians in Boston has said "*As it is the best for prevention of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.
